STARTLING, BUT TRUE WHAT EVERY WOMAN SHOULD KNOW.

How often it happens, that the wife lingers from year to year in that pitiable condition as not even for one day to feel the happy and exhilarating influ-ence incident to the enjoyment of health. THE BLOOMING BRIDE, But a few years ago in the finah of health and youth, and buoyancy of spirits, rapidly, and apparently inexplicably, becomes a feeble, sickly, sallow, debilitated wife, with frame emaciated, nerver unstrung, spirits depressed, countenance bearing the impression of suffering, and an utter physical and mental prostration, arising from ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery, not only to the wife, but often HEREDITARY COMPLAINTS UPON THE CHILDREN

BOOK FOR EVERY FEMALE the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person Here every woman can discover, by comparing her own

symptoms with those described, the nature, character sauses of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of extruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such is struction and advice, and also explain many symptoms which otherwise would occasion anxiety or slarm as all the peculiarities incident to her situation are described. How many are suffering from obstructions or irregular des peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uteri (falling of the womb), or from fluor albus (weakness, debflity, &c.) Many are constant agony for many months preceding confine ment. Many have difficult if not dangerous deliveries and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the means of prevention, amelioration and relief.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly inbended for the married or those contemplating marriage. Reader, are you a husband or a father? a wife or a mother? Have you the sincere welfare of those you love at heart? Prove your sincarity, and lose no time in earning what causes interfere with their health and happiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those postrums which otherwise would provide for declining years, the infirmities of age and the proper education o

VALUABLE FARM AND MILL PROPRRTY AT PRIVATE SALE.—The subscriber will sell at private sale, the property on which she now resides, lyng on Deer Creek, in Harford country, Md., about one mile south of the Rocks of Deer Creek, and seven from the village of Bel Air, containing 210 Acres, more or less, with all the buildings and improvements thereon. ## WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

A Cure for Consumption, Coughs, Colds Asthma, Bronchitis, General Debility and Scrofulous Humors.

HAYE YOU TRIED IT.—This important question should be asked every invalid who is suffering from pulmonary roubles in this fickle climate. Have you tried WILBOR'S COMPOUND OF COD LIVER OIL AND LIME! It will not nauseate like the plain Oil, but is on the contrary, pleasant to the taste; moreover the Phosphate of Lime is, in this combination, a-most remarkable aid to the healing properties of the pure Cod Liver Oil, as the following certificates (selected from a host of like great acknowledgments) will amply show. No person should neglect for a single hour a cough, or any affection of the lungs, lest the most serious consequences follow. Dr. Wilhor's preparation is both simple, and sure in all ordinary cases, and has performed some surprising cures in decided consumption, where other medical aid has failed:—

Dr. Wilhor:—During nearly the whole of the past winter, I had suffered seriously with a cough, which so irritated my lungs, that my physician frankly admitted his fear of consumption's following this trouble as the Spring weather set in. Medicine seemed to afford me little relief until I tried your preparation of Cod Liver Oil and Lime. The affect I am forced by facts to admit, was almost magical, and I have the pleasure of saying at this writing, (May 24, 1852) I am entirely free from any pulmonary trouble. With thanks to you for your valuable discovery, I cordially recommend it to those who are thus afflicted:

of humor.

In order to give some idea of the sudden rise, and great popularity of the discovery. I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it. Some of the wholessle Druggirts who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine great and wouderful virtues have been found in it that I never suspected. never suspected.

Several cases of epiteptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it prove effectual in all cases of that a wful malady—there are but few who have seen mor

DARM LANDS FOR SALE.—THE ILLINOIS CENTRAL RAILROAD COMPANY is now prepared to sell over TWO MILLION of ACRES OF FARMING LANDS, in Tracts of 40 ACRES and upwards, on long credits in Tracts of 40 ACRES and upwards, on long credits and at low rates of interest.

These lands were granted by the Government, to aid in the construction of this Italiread, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the North East, to Cairo at the South, and from thence to Galena and Dunleith, in the North West extreme of the State, and as all the lands lie within fifteen miles on each side of this Boad, roady and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc., afford a substantial and growing home demand for farm produces.

tion, etc., afford a substantial and growing nome cemeans for firm produce.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois land. Trees are not required to be cut down, stumps grubbed, or stones picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.

PRICE AND TERMS OF PAYMENT.—The price will vary from \$5 to 25, according to location, etc. Contracts for beeds may be made during the year, 1856, stipulating the purchase money to be paid in five annual instalments. The first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only three per cent. per an num. As a security to the performance of the contract, the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land pur chased shall yearly be brought under cultivation. Twenty per cent, from the credit price will be deducted for cash.—

chased shall yearly be brought under cultivation. Twenty per cent. from the credit price will be deducted for cash—The Company's construction bonds will be received as cash. Ready tramed Farm Buildings, which can be set up in a few days, can be obtained from responsible persons. They will be 12 feet by 220 feet, divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the Road, \$150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over their road promptly. Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the lowest wholesale prices.

It is believed that the price, long credit, and low rate wf interest, charged for these lands, will enable a man with o

rials, agricultural tools, and an outfit of provisions in any quantity, at the lowest wholesale prices.

It is believed that the price, long credit, and low rate wf interest, charged for these lands, will enable a man with o few hundred dollars in cash and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experieenced person will accompany applicants, to give information and aid in selecting lands. Circulars, containing numerous instances of successful farming, signed by respectable and well-known farmers living in the neighborhood of the Railroad lands, throughout the fartesting, threshing, etc., by contract—or any other information—will be cheerfully given, on application, either porsonally or by letter, in English, French, or German, addressed to the contract of May, No. 52 Michigan Avenue; after that date at the Passenger Depot, foot of South Water street, Chicago, Illinois.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case, or the house of the wholess of the vicinity of the discovery. I will state that sold an other; after a trial it always speak for itself. There are two things a

bring a large revenue into the treasury, which will go to the reduction of the price of the farms.

This explains its agricultural resources. But there is another consideration of equal, if not greater, importance. The land is one great bed of coal. Upon this property it is literally inexhaustible. By taking a glance at the latest map, first at this locality, and then over the State, it will be found to possess the grandest feature of prosperity, improvement, and almost immediate development. It is superior to any other. It is the only place having the great concentration of railroads, by which New York, the Lakes, Philadelphia and Pittsburg are at its doors. There is no coal in New York, and on account of its northernly situation, it possesses the advantages of nearness. This is destined to become the Pottsville of that portion of the State. The prospect in the future for this place exceeds any that Pottsville over had; and there, land which a few years ago was selling at five and ten dollars an acre, when the railroad opened its mines sold for from two to five hundred dollars an acre. These are facts. Those who are ignorant, let them make inquiry. Improvement is still progressing.

was seiling at live and ten dollars an acre, when the raliroad opened its mines sold for from two to five hundred
dollars an acre. These are facts. Those who are ignorant,
let them make inquiry. Improvement is still progressing.
So arrive at the truth. Judge the future by the past, and
then what will this land be! It is proper that reason
should give the answer.

The Sunbury and Erie Railroad, of which Gov. Bigler
is President, and which connects this land with the Lakes
and Philadelphia, and the Alleghany Valley Railroad, of
which Gov. Johnson is President, connecting this land
with Pittsburg, are in rapid course of completion, and upon a great extent the locomotives are running. The reflections which suggest themselves upon this subject are
these—It takes two hundred weeks to pay for the farms.
They will be distributed when they are half paid for. By
that time the railroads will be finished. That will be
early enough for all practical purposes. The advantage
of buying it before their completion is evident. When
that is done property will go up one hundred per cent.—
Speculation in coal would at once run it up to such a
price as would make it impossible to obtain for agricultural purposes. We now get it without paying the then improved price, and the stockholders will enjoy the rise.

A tract of about two thousand acres will be laid off at
once, and ready by next Spring, in order that persons who
wish to farm immediately can do so.

Friends and relatives, as well as those having more than
one share can have their farms together.

An Improvement department will also be connected
with the company. By this means, in order to accommodate those who are unable to give their personal attention
to fencing or preparation, or desire to rent their properties
out instead of residing there, arrangements can be made to
place each farm in complete order, so as to be ready for
cultivation. After the farms have been all sold, stockholders can have manure furnished, houses built and
other work done upon credit, th

the urst piace receives a larm at the lowest possible price, and then is afforded overy assistance in placing it under crops.

These embrace the principal features, and an excellent opportunity is now offeren for a man to obtain a home for himself, his wife and children, either at the present or time to come. Many business men, Mechanics, and workingmen upon farms, who cave several collars a month, can, by thus uniting together, become freeholders, whilst they scarcely, miss the outlay, and at less expense than the annual cost of tobacco or the most triling luxurics. A saving and purchase of this kind eat nothing, and constantly increase in value. In case of sickness or misfortune by which he is thrown out of employment, he has a home to go to, where he can always make a good living—The title is unexceptionably good—one of the oldest in the State, being the Holland Title. Those who desire farms, will please address, personally or by letter (enclosing first instainent, to Samuel W. Cattell, at the Office of the Company, No. 135 Wainut Street, between Fourth and Fifth streets Philadelphia, where Maps can be seen, Pamphlets procured and every satisfaction obtained. A RTIFICIAL TRETH.—A NEW MATERIA
A For Plate. The latest and best Invention of the Agi
Dr. & WELDHENS would respectfully annonnee to his pa
trons and the public, that having purchased the right of
this city and county to use Dr. Slayton's Patent
Colored Outs Percha, he is prepared to furnish
Sets of TEETH with this material in a manner
far superior to any other now in use. The advantages are
the ability of making a more pefect fit, and a more natural
and bearinful job; and the material is vastly more congental and more pleasant to be worn in the mouth than metal.
All who have ever had it applied will have nothing else—
It is impervious and perfectly indestructible by acids or alkilles, and cannot be in the least affected by the saliva of, or by anything taken into the mouth. I have tested
this by putting it into the strongest aqua fortis, with no
more effect from it than would be from water.

All who wish to try the Gutta Percha Teeth can have a
set put in, and if they do not render perfect satisfaction they
need not take them. Or if they are found not to stand the
test of time, a gold set, of the very best character, will be
inserted in exchange or the money will be refunded. Call
at the office of Dr. S. Welchens, No. 34 Kramph's Buildings,
North Queen street, for further information on this subject,
and see specimens of this truly beautiful invention.

Patent Ambrotypes.—The subscribers having purchased the exclusive right of Lancaster city, are now enabled to offer to the public a NEW STILE OF PICTURES, far exceeding, in beauty and durability, anything ever be fore made. These pictures are not reversed, (as daguerreotypes areand may be seen in 'anylight. They also possess the rare property of being imprinsimatic, being hermetically scaled between glass plates, which is secured by Letters Patent, in the United States, Great Britain and France, and practised in Lancaster city by T. & W. CUMMINGN only, over Sprecher & Bro's New Store, North Queen st., Lancaster.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrotos, signifying indestructibility, permanency, &c. The Picture's taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for agos; it will not corrode by acids, nor be injured by water or climate. It is boid in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of plats, with the Black variable in immediate contact with the Picture.

AMBROTYPE STERESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life. Citizens and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens sefore they procure Pictures elsowhere, as they are assured of polite attention.
