Hon. Josiah Randall's Speech BEFORE THE DEMOCRATIC STATE CONVENTION HELD AT CHAMBERSBURG, AUG. 6th, 1856. HELD-AT OHAMBERSBURG, AUG. 6th, 1836.

In obedience to the request of the Democratic State Convention of Pennsylvania, I claim the attention of my fellow citizens for a short time. I am aware that I have received this courtesy because I have heretofore been a mamber of the Old Line Whig party.

In 1824-5, the Democratic and Whig parties were separated by no question of principle, but were divided upon the question, whether Gen Jansson was entitled to be elected President of the United States. In the progress of time, during the thirty years of the existence of the Whig party, several important principles were presented, and the two parties became distinct and independent of each other upon questions of public policy. These were:

I. The renewal of the charter of the Bank of the United States.

ates. 2. The Sub-Treasury. 2. The distribution of the Proceeds of the Public Lands The distribution of the action of the Democratical Bank" was abandoned by the Democratical and a support of Gen. Jackson in 1832, and by sarty, under the veto of Gen. Jackson in 1832, and by the Whig party, in 1842.
"The Sub-Treasury," the cardinal measure of Mr. Van Buren, was opposed by the Whig party, has fought itself uto public favor, and no one now wishes to disturb it. "The Distribution of the Proceeds of the Public Lands" has been superceded by the debt created by the Mexican

war.

"The Tariff" no longer remains either a political or geo
graphical question ; the last Congress exhibited the specta
cle of the "State Rights" men of the South and the Repub
floan Abolitionists of the North, united against Pennsylvania, without distinction of party, to reduce the tariff below
the present standard.

Acan Abolitionists of the North, united against Pennsylvania, without distinction of party, to reduce the tariff Below its present standard. If there remains any practical disputable principle, which constituted an issue besween the Democratic and the old Whig parties, I do not know it.

The Whig party has performed its duty, and has had its day. It has been prostrated by the organization of the American party, or the Know-Nothing order. They and not the Old Line Whigs have been the Executioners. They have renounced their old comomen, laid aside their old principles, and substituted in their place a new name and a new creed never heretofore recognized by Clay, Webster, Sergeent, or their noble compeets.

I know there are many intelligent and patriotic men who cherish the hope that the Whig party can again be resultated, but the hope 1st delicative, and it is pernicious because it deprives the country of a large portion of intellect and worth, which ought to be brought into public service. In the history of our depublic, no party broken down his ever yet been re-organized. The late of the Federal and Anti-Masonic parties establishes this fact. There is not at this time a Whig member of the popular branch of Cour ever yet been re-organized. The fate of the Federal and Anti-Masonic parties establishes this fact. There is not at this time a Whig member of the popular branch of Congress elected by a Whig vote. There is not a member of the Legislature of Pennsylvania elected by a Whig vote.—There is not a member of the Concils of the City of Philadelphia erected by a Whig vote. For the last two years, with but two exceptions, wherever the scattered members of the Whig party have met in council, they have felt their position, and have, therefore, wisely abstained from forming a ticket to be voted for at the polis. In New Hampshire and Massachusetts they railied at the polis, and the result was paucity of numbers and total defeat. But, I ask, what good would be derived from the re-organization and triumph of the Old Whig party? They do not want a National Bank. They do not desire the repeal of the Sub Treadury. The most ardent friends of the Tariff do not ask for the re-establishment of the High Tariff of 1828, or even of 1842; but all they ask is, that the Tariff sull stand where it was placed in 1846 by the casting vote of the vice Persident, Mr. Dallas. All the old issues have been estitled, and as a natural consequence, new parties

ich declares that "No religions test shall ever be required a Qualification to any Office of Public Trust under the ideal States;" they have established secret societies, se-t oaths and obligations. With these principles the Ivania. In 1845, when the Whig party met in the City of Phila-In 1845, when the Whig party met in the City of Philia-delphia, after the defeat of Mr. Clay, the duty of opening the meeting and setting forth their principles was com-mitted to me. I field in my hand at the meeting, the changer of Rhode Island, granted to Roger Williams, which contains the broadest and most comprehensive deglaration of religious LIBERT ANS EQUALITY every yet pen-ingle. I read its eloquont and energetic platform and said, "siles Is THE DOCTRING OF, THE WING PARTY," and pointing to the ruins of the Roman Catholic church of St. Augustine, burnd during the disgraceful riots of 1844, and which lay within a few yards of theplace of meeting, I added, "Turkers to respect to The No." There is no the work of reserved in this yeal within a lew yards of theplace of meeting, I added, "THERE IS ITS DESCEATION." There is not a mook or corner in this vast region of country which does not contain Old Line Whigs who are willing to stand by the Constitution and the Unition. But their numerical stringth is far exceeded by their patriotism, talents, and public spirit. This is the body to which I have been attached, and I feel the deepest interest in the course they shall pursue.

The Republican party is sectional, and its success must, in my interpret them.

The Republican party is sectional, and its success must, in my judgment, lead to a severance of the Union. I do not believe that the great mass of that party anticipate this result; but if it should be consummated, their regret will be no equivalent for the damning injury therety indicted upon this great Republic. I appeal to every old Line Whig in the Union to avert this calamity. The south, cannot and will not remain in the Union, unless their rights are guaranteed to them. If we were in the same structure, we would demand our rights in tones as imperative and mandatory as those which are now used by our Southern brethren. ative and mandatory as those which are now used by our Southern brethren.

How is this great evil to be avoided? I answer, by the election of Mr. Buchanan. Every vote given to him is a check to the progress of the Republican party. I know there are many Whige who approve of the administration of Millard Fillmore, and are willing to trust him again.—
Every vote given to Mr. Fillmore increases the danger of the success of Mr. Fremont. Every vote given to Mr. Buchanan potentially seals the fate of Mr. Fremont. But Millard Fillmore in 1848, 504, and 524 is not the Millard Fillmore of 1856. When he was elected the President in 1848,—when he became the Acting President in 1850,—and when he was a candidate for re-nomination by the Whig Convention in Bultimore, in 1852, he professed to be a Whigs—nothing more, nothing less. The Native American party at that time was in existence and proclaimed principles in terms far less exceptionable than those now rinciples in terms far less exceptionable than the two-wed by the Know-Nothing parry. But Mr. I hen had belther part nor lot with them, he stood u ground occupied by Clay, Webster, and Sergeant. he now: I he has been initiated into the Order of contings, taken upon limself its secret oaths and obliga-ions, and this at a time when his friends were presenting is claims to be elected President of the United States.— Is has since become the candidate and accepted the nom-nation of the American or Know-Nothing National Con-nation of the American or Know-Nothing National Con-importance, the successful establishment of these princi-ples, as the fundamental Rules of our Government, they

ples, as the fundamental Rules of our Government, they believe essential for its tranquility, and a continued progress in the development of all its greatness."

Mr. Fillmore, in his answer, dated 29th of July, acquiesces in this statement and replies—
"My position before the country is well known, admitting neither of disguise nor equivocation. I am the candidate of the American party."

Mr. Ellimore here protolaims himself the American candidate, and adopts the creed, oaths and obligations of that party without "dissuits or equivocation." In the Secret date, and adopts the creed, oaths and obligations of that party without "disguise or equivocation." In the Secret Lodge of the Order of Know-Nothings he has sworn that he will neither vote for nor appoint a Roman Catholic to office. If elected and inaugurated President of the United States, he would be compelled to swear that he would require "no religious test as a quatification to any Office of Public Trust under the United States." I ask, under such circumstances, which oath would he keep, and which oath would he violate? Are the Old Line Whigs prepared to endorse Mr. Fillmore, thus presented for their suffrages by himself! Lknow no difference between an individual joining the Order and giving his vote to sustain its candidates, except that the latter course is more effective in carrying out the tenets of this party.

himself I know no difference between an individual joining the Order and giving his vote to sustain its candidates, except that the latter course is more effective in carrying out the tenets of this party.

The friends of Mr. Fillmore have assalled Mr. Buchanan for his Ostend communication without admitting or denying the soundness of the doctrine therein contained. I would remark that the correspondence of Mr. Everett, as Secretary of State under Mr. Fillmore, after the death of Mr. Webster, relative to Cuba, is more offensive, and ought to be more obnavious; of the criticism of conservative men than the Ostend Letter; and it should be remembered that the diplomatic manifesto of Mr. Everett was issued under the immediate supervision of Mr. Fillmore and his Cabinet.

Mr. Everett is probably the best educated Statesman now living, he is an erudite scholar and a sound patriot. When in Congress, he took higher ground in favor of the South on the subject of slavery, than any Northern Statesman had exg done before, or has ever done since. One thing is certain, any opinion upon International Lawpromulgated by him, is entitled to respect. Mr. Buchanan has been in public life upwards of forty years, he has filled the highest offices which his own State could. confer upon him. He has wecupled the highest seat in the Cabinet during a most eventful epoch; and he has twice represented his country at the courts of the two first Nations in Europe. His private character stands without blot or blemish, and beyond reduke or repreach; and it is a high eulogium upon his jubble life, that the "Ostend Letter" is the only act which is is no ver scrupulous nicety. They must change their name—they must recognize the title of an American, Khow Nothing, Republican or Democrat. If they refuse to select either of these names, they must retire from all participation in public affairs. Gov. Seward is reported to have said during the present session of Congress, in caucas, that he cared nothing for names, but that he looked to principles alo

prevais in the cases and enumerated, and the same orthodox principle should provail in the newly acquired Territory.

What is the doctrine of the Wilmot proviso? It is the
sixteen free States declaring to the fifteen slave. States—
you are part owners of this Territory; you have shed your
blood and expended your treasure in acquiring it, but
you shall have no share in its enjoyment or profits. Strip
it of its trappings, and it amounts to this: there are thirtygoe stockholders in a corporation, and sixteen say to fitteen,
it is true you are part owners and have contributed to the
purchase of our common property, but you shall have no
share in the enjoyment of its privileges or the receipts of
its profits. Such a doctrine is subversive of every principle
of justice and equality, and never can be sustained.

I am not the advocate of opinions that are new to the
Whig party of Fennsylvania. At a Whig meeting held in
September, 1850, at the Chinese Museum, in Philadelphia,
I offered a resolution congratualing the Nation upon the
restoration of peace and, quietude to the country by the
passags of the Compromise Acts of that year. It was unanimously adopted, and I then laid down the same principles
which it am now endeavoring to inculcate.

The November, 1850, the great Union Meeting was held at
the same place, and over which John Sergeant presided.

Among others, I again enforced the same principles. At a
later period, during the session of the Legislature of this
State in 1851, a pure Whig meeting was called to request
the repeal of the Act of the Legislature of this
State in 1851, a pure Whig meeting was called to request

and they were again endorsed by the Whig party on that Creation.

These are some of the reasons why I invoke every Old Line Whig in Pennsylvania to support Mr. Buchanan.—
The triumph of the Democratic party in Pennsylvania, in October next, would place his election beyond doubt. It would remove the last glimmering hope of the opposition, restore peace and quietude to the country, and for one generation at least, put at rest the present agitation on the question of slavery. The Old Line Whigs of Pennsylvania possess the power to accomplish this great result; the responsibility rests upon them, and I have no doubt but that the draft which is made upon their patriotiam will be promptly accepted, and that the great Keystone State will once, more come to the rescue, and do as she has done herefore, put down all sectional feeling, and at the ballot box give a vote which will strike terror to the enemies of the Constitution and our glorious Uniou, which have so long been the pride and admiration of every friend of civil and the promptly accepted, and distributed to the country. Monday last was an active day among the politicians all three parties were equally sanguine of success—the Know-Nothings made the most desperate exertions to secure the success of their ticket, and thereby deceive the K. N.'s abroad that this State would give her electoral vote to Mr. Fillmore. They left not a stone unturned, and run their resent candidate for Governor upon the strength of Fillore—he having no qualifications of his own, or his party more—he having no qualifications of his own, or his party any respect among the masses, and entered the canvass with no weapon other than the good name of Millard Fill more, which, from present indications, has proved ineffec-tual; the auties, though largely in the minority in this

shot they had, whilst the Benton party overpowered the Early in the day it was supposed the K. N.'s would elect than 1,100,000; leaving 2,400,000 otes against the recent titles, but this opinion soon died out, when the Benton Party made a desperate struggle for the laurel.

When the polis closed both the Benton and K. N. pariles ber cast in his favor!!! In fifteen out of the claimed the battle—the latter went so far as to put the fig. thirty-one States, he will not receive 15,000; party. P. P. Blair, Jr., was the Benton candidate and T. C. Reynolds the candidate of the Anties. As the returns began to come in, it was evident the K. N.'y had put their figures too high, for in nearly every precinct Col. Benton and Blair came in with a majority, and the official vote of the county shows that Benton had 0,365; Polk 2,781: Ewing 4,713—giving Beuton a majority over Polk of 3,484; and Benton over Ewing 1,652; the two combined over Benton-1129, Blair, (Benton) for Congress obtain: ed 6035; Reynold's (Anti) 2181; Kennett, (K. A great deal has been said about put down as a Free Soiler, a Black Republican, &c., &c., one thing is evident, he did not get his election on that is lisue—there were men who voted for Benton and Frank Bluir who never cast a Democratic vote before. If there doubt but that they voted for Benton and Blair; and on the other hand there were hundreds who voted for them, which they would not have done, had such a test been made. Mr. Blair is an able and intelligent man, as well as a shrewd politician, and played his card to win-he looks a shrewd politician, and played his card to win—he looks for a re-election, and to obtain which must shape his immense funds at his command, part of which course accordingly. It is not so much Mr. Blair's Free Sollism that the K. N.'s now wish to harness him with, as the sad fate that has befallen their little nag—Luther when the plunderers obtain full swing of the M. M. Kennett, and the warehouse full of river and harbor bills, which Mr. K. has been instrumental in getting through Congress—in a horn! Kennett has been defeated and budly defeated, the cause of which lays in the fact that he connected himself himself with the dark Lantern order; he has never been elected to any office without the Irish vote-which he has always got-but his connection with the Know-Nothings lost that vote. Mr. K. was green enough to suppose that he had that Irish vote in his hand, and no matter what he did,-whether to take a binding oath to crush the foreigner—to proscribe him—to deprive him of his rights in the elective franchise, &c., they would follow him; but, alas, he was mistaken, and by he deserting his Irish friends, they desert him—the most sensible thing we ever knew the Irish to do. He can now come hom and repent his sins—his recent course has been a lesson to him and should be to all such aspiring politicians.

the country he fell behind most wofully-leaving the race. contrary to the expectations of nearly everybody, between Polk and Ewing. Benton falling behind and Ewing gaining in nearly every county up to Thursday night, when Polk began to pick up, and has since been gaining upon Ewing. On Saturday morning Polk was 84 votes ahead of Ewing, and on Saturday pight 1100, but vesterday reduced t to 375. There are about 15,000 or 20,000 votes to come in yet, and the indications are that Polk has been electedsome placing his majority at 2.000, 3000 and 4,000. The K. N.'s, however, do not give it up. These votes to hear from gave at the last election about 6 to 1 Democratic. Benton is out of the fight. He was well endorsed in St. Louis, but the people of the State thought differently. The vote now stands Polk 26,977; Ewing 26,705; Benton 16,063. There

The Congressional delegation is not yet certain, but supposed to stand, Blair, (Renton) Green, Craig, Phelps, (Anties) Akers, (K. But if Polk is elected overnor it will be the greatest victory ever achieved in a political race—he had Benton, once invincible in Missouri, and the full strength of the Kuow-Nothings, to contend against.

Various now are the rumors as to what disposition will be made of the Benton electoral ticket—some say it will be taken down, others that it will not, and still others that it t from the best authority that the latter will not be the case; we also have it from the fast friends of Col. Benton that it will be taken down, and only one ticket run in the State. There are hundreds, and it may be thousands, of Col. Benton's friends who have warmly supported him n this canvass, who would oppose any movement to lose the State to Buchanan. Nine-tenths of them are in favor f but one ticket, and but one ticket only will be run. The Democracy of this State, so unfortunately divided, made up their minds that the party (both claim the electoral ticket—we are one of that number—the verdict of the people should be camplied with. No matter what may have been our preferences so far as our State is con-

A gentleman told us yesterdsy that Col. Benton informed him, that so far as he was concerned, he was for taking taking down the Benton electoral ticket—he desired this State to go for Buchanan, and thought his friends would agree to support but one and the same ticket. When the returns are all in some understanding will be arrived at, and the Democratic party, with an unbroken front will march to battle and to victory.

The Legislature, as far as heard from, places the Benton-

ites ahead, but this will be overcome in the counties yet to be heard from. The Benton party have tost their Gover. nor, and all their Congressmen but one, and without scarcely a doubt the Legislature.

The long pending battle has been fought—the strength of parties has been determined, and the State of Missouri

has pledged herself to stand where she always has stood in a Presidential campaign—in the front ranks of Democracy. The Fillmore men give up all hope of carrying the State—as well they might—and the question is now asked -where is there a State Fillmore will get?

We have returns from Kentucky of the most gratifying

character: the Democracy have gained as far as heard from about 10,000 over the last election, when the K. N.'s carried the State by a little over 4,000. Kentucky is Democratic beyond a doubt—Buchanan's majority will not be less than ten thousand in November. Our returns from Arkansas are alsko cheering. The reports indicate a Democratic majority in that State of from

3 to 6.000! North Carolins promises well—the Democratic majority there cannot fall far short of 8,000 ! Iowa has not done so well, the returns as far as received show a Democratic gain of 30 over the last election. The Black Republicans will carry their State ticket by about 4 or 5,000 majority. We expected better accounts from Iowa, but the election recently held is no criterion as to what will be the result in November. State questions,—as in all new States,-have predominated in lowa, which will not be the case at the Presidential election. We have just as good a right to claim Iowa, as the Blacks have to claim Ohio or Massachusetts. The Blacks and the K. N.'s of Io wa united, and thus managed, with State policy, to carry

the State. The Congressional delegation of that State is

Look at the Figures. Senator Bigler, in his recent speech at Trenton, after ridiculing the idea that any man could regard Col. Fremont as fit and worthy of the Presidential chair, and presenting in a foreible manner the dangerous tendency of sectional parties, and proving that Col. F., if elected, must be a sectional President, said:

hazardous because Col. Fremont, if his election were possible, would not have the sanction of mass of the electors: that at the last pres dential election 3,147,000 voteswere cast, President Pierce receiving 1,596,000, Gen. Scott 1,393,000, and J. P. Hale 158,000. The ag gregate at the next election may be safely estimated at 3,600,000, and, according to his calculation, Col. Fremont could not receive more than one million; the estimates he had poposition and carried the city and county.

Early in the day it was supposed the K. N.'s would elect than 1,150,000, leaving 2,450,000 votes against his reement that 1,150,000, leaving 2,450,000 votes against him county ticket, but this opinion soon died out, when the Benton Party wade advanced and the city when the Benton Party wade advanced to the city of 1,300, and placing him in a minority of 1,300, and placed the city of 1,300, and placed the cit ares at 1,000 majority in the county, but the counting of if he receives a single vote in the remaining the ballots showed quite a different result. Luther M. sixteen States, he will not have a majority in Kennett, the present K. N. Congressman was their candling more than four or five, and in the others his date for re-election, and they made him the ensign of the friends only claim a plurality. We have, then, who will not admit that Mr. B. is certain of majority of not less that 800,000 of the popular vote. No wonder the republicans despise the doctrine of popular sovereignty. They have determined to defy it at the election. As for the Keystone, he said Mr. Buchanan could easily defeat the united opposition, and that, divided as they now are, Col. Fremont had not

a ghost of a chance for the State. These remarks of Senator Bigler furnish conclusive refutation of the idle stories circu. lated as to his entertaining doubts of the triumphant success of the Democracy in Pennsylvanio. There is no friend of Mr. Buchanan laboring more zealously and efficiently than Mr. Bigler, and none who has better knowledge of the prospects in his State, and none more confident of his success in Pennsylvania and the Union.

The attempts at buying presses to sustain Fremont and the Republican cause are becoming every day incidents. The Mariposa claim-holder and Mariposa cattle dealer, has A number of papers, even in this Treasury. State, were for several months halting in their selection of a Presidential candidate, but within the last three or four weeks we find nearly every one of them running up the flag of "Fremont and Dayton." We do not say that they were bribed to do so, but when we have the proof that bribery has been attempted in a number of instances, we may rest pretty well assured that it has succeeded in. me instances where suspicion does not rest. The latest instance of buying up a press by the Fremonters happened at Easton, Pa. A. proposition was made to Josiah Cole, editor of the German Independent Democrat, published at Easton, to pay him \$3000, if he would dehim and should be to all such aspiring politicians.

The entire Benton ticket, with the exception of one judge, was elected in this county. Benton left this county with nearly 1700 majority over Ewing, and it was thought that vote could not be overcome, but when he went into The cause must really be a poor one, which renders such expedients necessary .-

> 49-THE GREATEST DISCOVERY OF THE AGE. PROFESSOR WOOD'S HAIR RESTORATIVE.—This proparation, although less than two years before the public, owing to its wonderful diects upon the human hair and scalp, has already obtained a celebrity and sale perfectly unparallelled. It has without the ordinary appliance used for such purposes, won its way, and been heartly welcomed to most of the elties and towns in the United States the Canadas, and the West India Islands. Nor is this result surprising, when it is remembered that its popularity is based upon its merits, solely as established by actual test. That this preparation will actually RESTORE URAY HAIR TO ITS NATURAL COLOR, produce a luxuriant growth upon the heads of the bald, prevent the hair from falling off, and when used as a toilet article, produce a continual flow of the natural fluids, and thus render the hair from falling off, and when used as a toilet article, produce a continual flow of the natural fluids, and thus render the hair soft, glossy and wavy, destroy diseases of the scalp, and expel dandruff, the certificates of distinguished gentlemen and tadies, in every part of the country who have tried it, and therefore speak what they know, most fully attest.

As far back as 1836 my hair commenced falling off, until the top of my scalp became bald and smooth as glass, and it has continued to fall for a great many years, notwithstanding I have used many celebrated preparations

as glass, and it has continued to fail for a great many years, notwithstanding I have used many colorated preparations for its restoration. Seeing your advertisement, I was induced to give your article a trial, and to my utter astonishment, I found after a few applications that my hair became firmly set and assumed a very glossy and beautiful appearance; and, by fhe time I had used a quart bottle full, my hald head was covered over with a yoing and vigrrous growth of hair, which is now from one to two inches in length, and growing very fast.

Benton has been defeated—the everdict of the people is against him, and as it is one of the Democratic principles to abide by the majority, we say haul down the Benton electoral ticket, and rally around the Buchanan flag—personal preferences to the contrary not withstanding. With one ticket in the field Missouri will give her electoral vote to Buchanan and Breckinridge by from 20,000 to 25,000—and with two or more, Buchanan is as certain for the 'v te of this State as the day of election comes.

AST The clitiens of Lancaster county will find it greatly to their advantage to purchase China, Glass, and Common Wares of Messrs. Typhall & Mitchell, Importers, 219 Cheenut street, above Seventh, Philadelphia, who have a system of doing business peculiar to thamselves.

They import their wares direct from the best manufacturers, and sell them in small quantities to the farmer and citizen, just as cheap as they can be bought in large quantities at wholesale by the country merchant.

Messrs. T. & M.'s customers have the double advantage of purchasing direct from the importer, and of selecting from a very large and beautiful assortment, at a saving of at least 25 per cent.
