STARTLING, BUT TRUE

WHAT EVERY WOMAN SHOULD KNOW How often it happens, that the wife lingers from ear to year in that pitiable condition as not even or one day to feel the happy and exhilarating infla-nce incident to the enjoyment of health.

THE BLOOMING BRIDE. But a fewyears ago in the flush of health and youth, and buoyancy of spirits, rapidly, and apparently inexplicably, becomes a feeble, sickly, sallow, debilitated wife, with frame emacated, nerves unstrum, spirits depressed, countenance bearing the impress of suffering, and an utter physical and mental prostration, arising from ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and minery, not only to the wife, but often HEREDITARY COMPLAINTS UPON THE CHILDREN " UNTO THE THIRD AND POURTH GENERATION,"

Transmitting CONSUMPTION, SCROPULA HYPOCHONDRIA, INSANITY, GOUT, KINGS EVIL, and other and Worse Diseases, as a DREADFUL INHERITANCE FROM THE PARENTS. "And must this continue? Must this be? Is there no remedy? No relief? No hope?"
The remedy is by knowing the causes and avoiding them, and knowing the remedies, and benefiting by them. These are pointed out in THE MARRIED WOMAN'S

PRIVATE MEDICAL COMPANION. PROFESOR OF DESTANCE OF WOMEN One Hundredth Edition, (500,000), 18mo., pp. 250. ON FINE PAPER, EXTEA HINDING, \$1.00.1 A standard work of established reputation, found classed the catalogues of the great trade sales in New York Philadelphia, and other cities, and sold by the principa booksellers in the United States. It was first published in 1847, since which time

FIVE HUNDRED THOUSAND COPIES have been sold, of which there were upwards of ONE HUNDRED THOUSAND SENT BY MAID: attesting the high estimation in which it is held as a re BOOK FOR EVERY FEMALE the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by latter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character. causes of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of tastruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such in struction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all the peculiarities incident to her situation are described. How many are suffering from obstructions or irregular ities peculiar to the female system, which undermine th health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uteri (falling of the womb), or from fluor allow (weakness, debility, &c.). Many are in constant agony for many months preceding confine ment. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the

means of prevention, amelioration and relief. It is of course impracticable to convey fully the various ambjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. Reader, are you a husband or a father? a wife or mother? Have you the sincere welfare of those you love at heart? Prove your sincerity, and lose no time in rning what causes interfere with their health and happiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised strums which otherwise would provide for declining years, the infirmities of age and the proper education o

In consequence of the universal popularity of the work, as evidenced by its extraordinary sale, various impositions have been attempted, as well on booksellers as on the public, by imitations of title page, is purious editions, and surreptitions infringements of copyright, and other devices and deceptions, it has been found necessary.

CAUTION THE PUBLIC to buy no book unless the words "Dr. A. M. Mauncau. 129 Liberty Street, N. Y.," is on (and the entry in the 121 clurk's Office on the back of) the title page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauricean.

It will compound of the plain oil, but is on the contrary, pleasant to the taste; moreover the Phosphare of Lime is, in this combination, a most remarkable aid to the healing properties of the pure Cod Liver oil, as the following certificates (selected from a host of like great acknowledgments) will amply show. No person should neglect for a single hour a cough, or any affection of the lungs, lest the most serious consequences follow. Dr. Wilbor's preparation is both simple, and sure in all ordinary cases, and

Dr. KENN: DY, of Rowbury has discovered, in one of our com::ion pasture weeds, a remedy that cures

of humor.

In order to give some idea of the sudden rise, and great popularity of the discovery. I will state that in April, 1850, I peddied it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it! Some of the wholessle Druggirts who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine great and wouderful virtues have been found in it that I never suspected.

great and wouderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been curred by a few bottles. O, what a mere if it prove effectual in all cases of that awful malady—there are but few who have seen mor of it than I have.

I know of several cases of Dropsy, all of them aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you get and enough of it.

DIEXCTIONS FOR USE.—Adults one table spoonful perday—Children over ten years dessert spoonful. Children from five to eight years, tea spoonful. 1 ABRM LANDS FOR SALE.—THE ILLINOIS
TOENTRAL RAILROAD COMPANY is now prepared to
sell over TWO MILEJON of AORES OF FARNING LANDS,
in Tracts of 40 AORES and upwards, on long credits
and at low rates of interest.

in Tracts of 40 ACRESS and upwards, on long crelits and at low rates of interest.

These lands were granted by the Government, to aid in the construction of this Railroad, and include some of the richest and most fartile Prairies in the State, interspersed here and that with magnificent groves of oak and other timber. The Road extends from Chicago, on the North East, to Cairo at the Souds, and from thence to Galena and Dunleith, in the North West extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, roady and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc., afford a substantial and growing home demand for farm produce.

The soil is a dark, rich mould, from one to five feet in lepth, is gently rolling and peculiarly fitted for grazing attle and sheep, or the cultivation of wheat, Indian cattle and sneep, of the cultivation of wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois land. Trees are not required to be cut down, stumps grubbed, or stones picked oil, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencine. wheat sown on the new turned soil is sure to yield very

Sencing.

Wheat sown on the new turned soil is sure to yield very large profits. A man with a plow and two yoke of oxen will break one and a balf to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from \$2 to 2,50 per acre. By judicious management, the land may be plowed and fenced the first, and under a high state of cultivation the second year.

Corn, grain, cattle, etc., will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheep lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market. Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at \$1,50 to 4,00 per ton. Wood can be had at the same rates per cord.

Those who think of settling in lowa or Minnesota, should bear in mind, that lands there, of any value, along the water courses and for many miles inland, have been disposed of,—that for those located in the interior, there are no conveniences for transporting the produce to market, Railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence, Government lands thus situated, at \$1,25 per acre's are not so good investments as the land of this company at the prices fixed.

The same remarks hold good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses, the distance to market if far greater, and every hundred miles the produce of those lands are carried either in wagons, or interrupted water

The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Eastern and Middle States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by the Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frost of winterpret of the content of the products of the content of the content of the products of the content of t

PRICE AND TERMS OF PAYMENT.—The price will vary from \$5 to 25, according to location, etc. Contracts for Deeds may be made during the year, 1856, stipulating the purchase money to be paid in five annual instalments. and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only three per cent, per annual. As a security to the performance of the contract, the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent, from the credit price will be deducted for cash.—The Company's construction bonds will be received as cash. Ready framed Farm Buildings, which can be set up in a few days, can be obtained from responsible persons. They will be 12 feet by 20 feet, disided into one living and three bed-rooms, and will fost complete set up on ground chosen anywhere along the Road, 4150 in cash, exclusive of transportation. Larger buildings may be contracted for at reportionate rates. The Company's lands with fencing materials for such buildings over their road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the lowest wholesale prices.

It is believed that the price, long credit, and low rate of interest, charged for these lands, will enable a man with of new hundred dollars in cash and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the ceuntry will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information and aid in selecting lands.

Circulars, containing numerous instances of successful farming, signed by respectable and well-known farmers living in the neighborhood of the Ralfroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, etc. by contract—or any other information—will be cheerfully given, on application, either porsonally or by letter, in

The venerable Chancellor WARDLAW writes from Baltimore, 15th April, 1854:

"Never until now have I been free from this loathsome disease in some shape. At times it attacked my eyes, and made me almost blind, besides the unendurable pain; at others it settled in the scaip of my head, and destroyed my hair, and has kept me partly baid all my days; sometimes it came out in my face, and kept it for months a raw sore "About nine weeks ago I commenced taking your Ca-thartic Fills, and now am entirely free from the complaint. Carr. JOEL PRATT, of the ship Marion, writes from Boston, 20th April, 1854:

"Your Pills have cured me from a billous attack which arose from derangement of the Liver, which had become very serious. I had failed of any relief by my Physician, and from every remedy I could try; but a few does of your Pills have completely restored me to health. I have given them to my children for worms, with the best effects. They were premptly cured. I recommended them to a friend for costiveness, which had troubled him for months; he told me in a few days they had cured him. You make the best medicine in the world; and I am free to say so."

Read this from the distinguished Solicitor of the Supreme Court, whose brilliant abilities have made him well known, not only in this but the neighboring States.

"New Orleans, 55t April, 1854.

"Sir: I have great satisfaction in assuring you that myself and family have been very much benefited by your medicines. My wife was cured, two years since, of a severs and dangerous cough, by your Cherary Ferronar, and since then has enjoyed perfect health. My children have several times been cured from attacks of the Influence and Group by it. It is an invaluable remedy for these complaints. Your Carnarure Pills have entirely cured me from a dyspepsia and costiveness, which has grown upon me for some years,—indeed, this cure is much more important, from the fact that I had failed to get relief from the best Physicians which this section of the country affords, and from any of the numerous remedies I had taken.

"You seem to us, Doctor, like a providential blessing to our family, and you may well suppose we are not un mindful of it. Yours respectfully,

The first dose relieved me, and a few subsequent does have emirely removed the disease. I feel in better health now than for some years before, which I attribute entirely to the effect of your Cathabite Prilis. Yours with great respect, LUCIUS B. METCALE."

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrotos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages, it will not corrode by acids, nor be indured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of plates, with the Black varnish in immediate contact with the Picture—buch are not permanent, as the varnish must crack and destroy the Picture.

AMROTYPE STERESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life.

Citizens and Strangers are invited to call at the Ambrothy of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are assured of polite attention.
