STARTLING, BUT TRUE WHAT EVERY WOMAN SHOULD KNOW.

How often it happens, that the wife lingers from ear to year in that nitiable condition as not ever r one day to feel the happy and exhilarating influ-nce incident to the enjoyment of health. THE BLOOMING BRIDE.

"And must this continue? Must this be? Is there no semedy? No relief? No hope?"

The remedy is by knowing the causes and avoiding them, and knowing the remedies, and benefiting by them. These are pointed out in THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, causes of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forstruction and advice, and also explain many symptoms which otherwise would occasion anxiety or slarm as all the peculiarities incident to her situation are described. Many suffering from prolapsus uters (falling of the womb), or from fluor albus (weakness, debility, &c.) Many are in constant agony for many months preceding confine ment. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the

## WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

A Cure for Consumption, Coughs, Colds Asthma, Bronchitts, General Debility and Scrofulous Humors.

HAVE YOU TRIED IT.—This important question should be asked every invalid who is suffering from pulmonary troubles in this fickle climate. Have you tried WILBOR'S COMPOUND OF COD LIVER OIL AND LIME? It will not nauscate like the plain Oil, but is on the contrary, pleasant to the taste; moreover the Phosphate of Lime is, in this combination, a most remarkable aid to the healing properties of the pure Cod Liver Oil, as the following certificates (selected from a host of like great acknowledgments) will amply show. No person should neglect for a single hour a cough, or any affection of the lungs, lest the most serious consequences follow. Dr. Wilbor's preparation is both simple, and sure in all ordinary cases, and has performed some surprising cures in decided consumption, where other medical aid has failed:—

Dr. Wilbor:—During nearly the whole of the past winter, I had suffered seriously with a cough, which so irritated my lungs, that my physician frankly admitted his feat of consumption's following this trouble as the Spring weather set in. Medicine seemed to afford me little relief until I tried your preparation of Cod Liver Oil and Lime. The effect I am forced by fact to admit, was almost magical, and I have the plassure of exping at this writing, (May 24, 1852) I am entirely free from any pulmonary trouble. With thanks to you for your valuable discovery, I cordially recommend it to those who are thus afflicted:

FARM LANDS FOR SALE.—THE ILLINOIS CENTRAL RAILROAD COMPANY is now prepared to lover TWO MILLION of ACRES OF FARMING LANDS, Tracts of 40 ACRES and upwards, on long credits in Tracts of 40 ACRES and upwards, on long credits and at low rates of interest.

These lands were granted by the Government, to aid in the construction of this latitrond, and include some of the richest and most fertile Praintes' in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the North East, to Cairo at the South, and from thence to Galena and Dunleith, in the North West extreme of the State, and as ail the lands lie within fifteen miles on each side of this Road, roady and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc., afford a substantial and growing home demand for farm produce.

The soil is a dark, rich mould from one to five forting

m produce. soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian From etc.

Economy in cultivating and great productiveness are the beautiful known characteristics of Illinois land. Trees are not well known characteristics of Illinois land. Trees are not required to be cut down, stumps grubbed, or stones picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the wly broken sod, usually repays the cost of plowing au-

fereing.

Wheat sown on the new turned soil is sure to yield very large profits. A man with a plow and two yoke of oxen will break-one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from \$2 to 2,50 per acre. By judicious management, the land may be plowed and fenced the first, and under a high state may be plowed and fenced the first, and under a high state of cultivation the second year.

Corn, grain, cattle, etc., will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much mure than sufficient to Juy States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market. Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at \$1,50 to 4,00 per ton. Wood can be had at the same rates per cord. Those who think of settling in lowa or Minnesota, should bear in mind, that lands there, of any value, along the water courses and for many miles inland, have been disposed of,—that for those located in the interior, there are no conveniences for transporting the produce to market, Raifroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to veniences for transporting the produce to market, Kantrodos, not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence, Government lands thus situated, at \$1,25 per acre, are not so good investments as the land of this company at the prices fixed.

The same remarks hold good in relation to the lands in Kansas and Nebruska, for although vacant lands may be found nearer the water courses, the distance to market is far greater, and every hundred miles the produce of those lands are carried either in waxons, or interrupted water lands are carried either in waxons, or interrupted water

far greater, and every hundred miles the produce of those lands are carried either in wagons, or interrupted water communications, increases the expenses of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.

The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Eastern and Middle States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by the Road, and others with which it connects, the operations of which per not interrupted by the low water of summer, or the frost of winter.

Special arrangements with dealers can be made to supply those purchasing the Compány's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the lowest wholesale prices.

It is believed that the price, long credit, and low rate of interest, changed for these lands, will enable a man with o few hundred dollars in cash and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the cenntry will probably have increased their value four or five fold. When required an experieenced person will accompany applicants, to give information and aid in selecting lands.

They remove the obstructions of the stomach, bowels, liver, and other organs of the body, and, by restoring their irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown cures of dangerous diseases almost beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish free to all inquiring.

Annexed we give Directions for their use in the complaints which they have been found to cure.

FOR COSTIVENESS.—Take one or two Pills, or such quantity as to gently move the bowels. Costiveness is frequently the aggravating cause of Pulss and the cure of the content of the cont OPERATE by their powerful influence on the

complaints which they have been found to cure. For Costiveness.— Take one or two Pills, or such quantity as to gently move the bowels. Costiveness is frequently the aggravating cause of Piles, and the cure of one complaint is the cure of both. No person can feel well while under a costive habit of body. Hence it should be, as it can be, promptly relieved.

For Dyspepsia, which is sometimes the cause of Costiveness, and always uncomfortable, take mild doses—from one to four—to stimulate the stomach and liver into healthy action. They will do it, and the hearthurn, bodyburn, and soulburn of dyspepsia will rapidly disappear. When it has gone, don't forget what cured you.

For a Foul Stomach, or Morbid Inaction of the Bowels, which produces general depression of the spirits and bad health, take from four to eight Pills at first, and smaller doses afterwards, until activity and strength is restored to the system.

For Nervousness, Sick Haddene, Nausma, Pain in the Stomach, Back, or Side, take from four to eight pills on going to bed. If they do not operate sufficiently, take more the next day until they do. These complaints will be swept out from the system. Don't wear these and their kindred disorders because your stomach is foul.

For Scropula, Erystpelas, and all Diseases of the Skin, take the Pills freely and frequently, to keep the bowels open. The eruptions will generally soon begin to diminish and disappear. Many dreadful ulcers and sores have been healed up by the purging and purifying effect of these Pills, and some disgusting diseases which seemed to saturate the whole system have completely yielded to their influence, leaving the sufferer in perfect health Patients! your duty to society forbids that you should parade yourself around the world covered with pimples, blotches, ulcers, sores, and all or any of the unclean diseases of the skin, because your system wants cleansing.

To PURITY THE BLOOD, they are the best medicine ever discovered. They should be taken freely and frequently, and the impurities wh

they do as mutch good in preventing sickness as by the remarkable cures which they are making every where.

Liver Complaint, Jaundics, and all Billous Affections, arise from some derangement—either torpidity, congestion, or obstructions of the Liver. Torpidity and congestion vitate the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigestion is the symptom. Obstruction of the duct which empties the bile into the stomach causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerous train of evils. Costiveness, or alternately costiveness and diarrhea, prevails. Feverish symptoms, languor, low spirits, weariness, restlessness, and melancholy, with sometimes inability to sleep, and sometimes great drowsiness; sometimes there is severe pain in the side; the skin and the white of the eyes become a greenish yellow; the stomach acid; the bowels sore to the touch; the whole system irritable, with a tendency to fever, which may turn to bilious fever, bilious colic, bilious diarrhea, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these troubles. It is wicked to suffer such pains when you can cure them for 25 cents.

RHEUMAITSM, GOUT, and all Inflammatory Fevers, are tapidly cured by the purifying effects of these Pills upon the blood and the stimulus which they afford to the vital principal of Life. For these and all kindred complaints they should be taken in mild doses, to move the bowels gently, but freely.

As a DINNER PILL, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has seen made more pleasant to take, and certainly none has seen made more pleasant to take, and certainly none has seen made more pleasant to take, and certainly none has seen made more pleasant.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated is derived from the Greek word Ambrotos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will rotain its original brilliancy for ages; it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on ringle plates of glass, with the Black variabin in mediate confact with the Picture—buch are not permanent, as the variabin must crack and destroy the Picture.

AMBROTYPE STREESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life. Citizens and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are assured of polite attention.
