BOOK FOR EVERY FEMALE the author having devoted his scalar as a subscalar is trestment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person und by latter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, causes of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or slarm as all

the peculiarities incident to her situation are described. How many are suffering from obstructions or irregular ities peculiar to the female system, which undermine the

health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many saffering from prolapsus uteri (falling of the womb), or from fluor albus (weakness, debility, &c.) Many are in constant agony for many months preceding confine nent. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the

neans of prevention, amelioration and relief. It is of course impracticable to convey fully the various anbjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage Render, are you a husband or a father? a wife or a nother? Have you the sincere welfare of those you love at heart? i'rove your sincerity, and lose no time in learning what causes interfere with their health and happiness not less than your own. The consequence of the universal popularity of the work, as ordeneed by its extraordinary sale, varions imposi-tions have been attempted, as well on booksellers as on the public, by initiations of tille page, sparious editions, and antreputitious infitugements of copyright, and other devices and deceptions, it has been found necessary.
