Here every woman can discover, by comparing her own symptoms with those described, the nature, character,

How many are suffering from obstructions or irregularties peculiar to the female system, which undermine the

health, the effects of which they are ignorant, and for which their delicacy forbids seaking medical advice. Many suffering from prolapsus uters (failing of the womb), or from fluor allows (weakness, debility, &c.) Many are in coastant agony for many months preceding confine ment. Many have difficult if not dangerous daliveries

and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the means of prevention, amelioration and relief.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly in tended for the married or those contemplating marriage.
