ST. LOUIS CORRESPONDENCE.

The Buck Epidemic—Every body Content with the Election of Mr. Buchanan—St. Louis Buck Republicans preparing for another Campaign—Returns from Different States —Illinois has gone for Buchanan—"Buckerdom" responds to the call of the Union—The Country Safe—Ben. F. Herr, &c.

ST. LOUIS, Nov. 17, 1856.

Since the election of Mr. Buchanan to the Presidency, and the overwhelming defeat and rout of Abolitionism and Know Nothingism both North and South, a very singular and somewhat striking *epidemic* has been prevailing in this locality; the extent to which it has raged is almost unprecedented in the history of "epidemics." By way of showing the malignity of the disease, we will trace it in some parts of the city. Go to the breakfast table and the first thing you know is a plate of smoking *Buck*-wheat cakes placed before you; go to the dinner table, and roast *Buck* (venison) is the prominent and leading meat; go to the supper table, and *Buck* steak is all the rage: go into the street and every third or fourth man you meet, inquires —"what do you think of "old Buck?'" Pick up a newspaper, and the leading column is headed "Old Buck elected;" the next article following is "Old Buck all right," and in nearly every paragraph something of old Buck is said; meet a politician and he will salute you with "hurrah for "old Buck;" look at the corner of the streets and on the lamp posts, and your eyes are met with letters a foot in length "Buck Meeting at the Court House;" go down to the levee and every "light draught, passenger steamer" is graced with a huge pair of *Buck* horns; pass along by the doors of our Restaurants and you are sure to stumble over an "old Buck" lying for exhibition on the side walk; go into a dry goods store, and the first article taken from the shelves is a piece of *Buckram*; go a few miles into the country, and an "old Buck" will cross the road before your eyes; the telegraph tells you that "old Buck" has carried Louisiana, Kentucky, Tennessee and Illinois; our Secretary of State says the *Buck* counties of Missouri are just beginning to come in, and the probability is "old Buck" has taken the State by 10,000; meet a merchant or a speculator, and the first thing he asks you is what is the price of *Buck* wheat this morning, and in short "old Buck" seems to have created quite an epidemic among all classes of people, and it is the opinion of *some* that this *Buck* fever will prevail for four long years—and will be to the Black-Republicans similar to a "seven year itch."

The election of Mr. Buchanan seems to satisfy even those who opposed him to the last—they say they are content with the selection made by the Democracy, and *believe* Mr. Buchanan will administer the government to the best of his ability; but a few weeks since he "could'nt be trusted." This is all right enough, the will of the people should always be respected, and the Chief Magistrate should receive the support of all good meaning men, no matter to what political party they may belong. The majority should and always will rule. But we have some Black Republicans here—more familiarly known as "Benton men," and who deserted "old Bullion" just when the fight was to commence—who are more bitter against the Democracy than Bennet or Greeley, and why? Simply because they have lost their first choice for the Presidency (Fremont) and thus thrown out of the spoils; and believing that they can cheat the Germans of this city, as they did at the recent election into their support in municipal affairs, make no bones in stating they will carry the city next spring on Black Republican issues. But let them live on hope, as the nigger worshippers of the North must do for the next four years.

The returns from our State are coming in slowly, and they indicate a Buchanan majority of from 8,000 to 10,000, and also show that a very small vote has been polled, which we have heretofore stated was a usual occurrence at a Presidential election. It seems, however, to be pretty conclusive that out of the 27,000 votes that Col. Benton received last August, when he ran for Governor, not over 5000 have been cast for Mr. Buchanan—the other 22,000 may be divided thus—to Fillmore, 8000; to Fremont in Illinois—(as the Herald of this city states)—1,000; about 1,000 to spurious tickets, which are put down as scattering, with about 500 cast for "Fremont and Dayton" without electors: the balance did not vote at all.

It is astonishing to us how much of common sense could be induced, by the leaders of the Benton faction to vote against the candidate of the party they have battled to sustain for years, and against the dictates of their own conscience—men, too, who are capable of forming their own opinions, and more honest and liberal in their political views, have thus been induced to vote against James Buchanan, and for nothing more than to keep in the good graces of a handful of sneaking, cunning, cringing, plotting politicians, whose corrupt destiny is fast approaching a more corrupt end. Col. Benton is ashamed of them—they have led the old man into all his troubles in Missouri, thinking they could ride into place and power by clinging to his skirts—they swamped "Old Bullion" and now desert him when he is in the mire up to his neck—defeated him for the Senate; defeated him for Congress; defeated him for Governor; and now defeated his last wish—which was for all his friends to cast their votes for Buchanan and Breckinridge! They have got all out of Col. Benton they wanted, and have no further use for him. The ungrateful Black Republicans! The pirates, who have been sailing under a false flag, have at last been discovered, and now boldly unfurl the "Black Flag" upon the soil of union loving Missouri. The history of the "Border Ruffians" should be read by each and every one of them, and they would no doubt be greatly benefitted, and become more calm and less ardent in their love for the "color'd population." We respectfully recommend the history of the "Border Ruffians" in addition to the one they have already studied—"Uncle Tom's Cabin!"

In our last we put down our neighbor—Illinois—in the Abolition column, and gave up all hope of carrying the State, simply because of the outrageous frauds practiced in the northern part of that State which brought a Fremont majority of 38,000 down to Springfield, where we did not expect over 18,000 against us, and thus we gave up the State. Egypt, however—Southern Illinois—began to speak, and spoke too in thunder tones—coming up to the Springfield line with between **40,000 and 45,000** majority for Buchanan! and consequently saved the State from disgrace. Mr. Buchanan's majority in Illinois will be between 3,000 and 4,000. We regret, however, to state that the gallant Col. Richardson has been defeated for Governor, by perhaps, 9,000 majority.

Every county, except six, in Alabama, gave Mr. Buchanan a majority, and in those six Fillmore did not get 600 votes. The State will give from 12,000 to 18,000 majority.

In Kentucky the vote is nearly official, with the exception of one or two counties, and Buchanan's majority is 7,800.

In Indiana the Buchanan majority is between 23,000 and 25,000. Fillmore's vote is between 20,000 and 25,000 in the entire State.

Virginia will give Buchanan close on to 30,000.
Tennessee about 6000.
Louisiana 1500.
Florida 2000.

Very few returns are in from Texas, but the State will give a large majority for Buchanan.

Iowa has gone for Fremont by 4,000.
Wisconsin 10,000, for Fremont.
Michigan 20,000, for Fremont.
Georgia 20,000, for Buchanan.

Mr. Buchanan has taken every Southern State with but one exception—Maryland—and will go into the North with an overwhelming majority over Fillmore, to meet that of his other Sectional competitor. At the next election they will give us a candidate—one for the North, one for the Middle States (which was overlooked this time,) and one for the South, but it is all the same to us.

Mr. Buchanan will fall short of an election by the popular vote, but not so much as Gen. Taylor when he carried all but *four* of the States.

The South has nobly vindicated herself—we have given you all we promised at the time Mr. Buchanan was nominated, and it does our heart good when we think of the triumphant election of our first choice to the Presidency.

By next week we will have fuller returns of our own State and those farther South, which we will take occasion to set forth in all their brilliancy before the eyes of the Black Republicans of the glorious "old Keystone."

The weather has been cool and pleasant during the week, and a slight rise in the rivers has somewhat revived business.

Ben. F. Herr, formerly of your city, but now publisher of the Cape Girardeau (Mo.) *Eagle*, was married on the 6th inst., to Miss Mary Ann Wilkinson, of that place. May Ben and his fair bride live to a ripe and happy old age.

While on this subject, reminds me that a "marked" paper from Canada, received a day or two since, conveyed the pleasant news that my old friend and associate, Dr. N. B. Wolfe has been blessed with a "*responsibility*," which may, or may not be, a second *Napoleon Bonaparte*.

PRINTERS AND PARADOXES.—A printer, says Oliver, is the most curious being living. He may have a *bank* and *coins*, and not worth a cent; have *small caps*, and have neither wife nor children. Others may run fast, but he gets along swifter by *setting fast*. He may be making *impressions* without eloquence; may use the *lye*, without offending, and be telling the truth; while others cannot *stand* while they *set*, he can *set standing*, and do both at the same time; have to use *furniture* and yet have no dwelling; may make and put away *pi*, and never see a pie, much less eat it during his whole life; may *press* a great deal and not ask a favor; may handle a *shooting iron*, and know nothing about a cannon, gun or pistol; he may move the *lever* that moves the world, and yet be as far from moving the globe as a hog under a molehill; spreads *sheets* without being a housewife; be may *lay his form on a bed*, and yet be obliged to sleep on the floor; he may use the *dagger* without shedding blood, and from the earth he may handle stars; he may be of a *rolling* disposition, and yet never desire to travel; he may have a *sheep's foot*, and not be deformed; never without a *case*, and know nothing of law or physic; be always *correcting* his *errors*, and be growing worse every day; have *em-braces*, without ever having the arms of a lass thrown around him; have his *form locked up*, and at the same time be free from jail, watch house, or any other confinement; his office may have a *hell* in it, and not be a bad place after all; he might be plagued by the *devil*, and be a christian of the best kind; and what is stranger still, be honest or dishonest, rich or poor, drunk or sober, industrious or lazy, he always *stands up* to his business.

☞ Gen. John H. Eaton, formerly U. S. Senator from Tennessee, Secretary of War under Gen. Jackson, and Minister to Spain, died at Washington city, on the 17th inst, aged 70 years.

WASHINGTON CORRESPONDENCE.

To the Editors of the Intelligencer, dated

WASHINGTON, Nov. 21, 1856.

Yesterday being thanksgiving day, all the Departments of the government were closed. There was a general suspension of secular employment, and most of our churches were well attended by the attentive and well disposed of our citizens, whether members of christian denominations or not.

The hint in my last letter, relative to the marriage of the distinguished Senator of Illinois, was, on yesterday, consummated at the residence of the father of the bride. At 2 p. m. on yesterday the Rev. Mr. Byrne united Judge S. A. Douglas, of Illinois, to Miss Ada, the amiable and accomplished daughter of James Madison Cutts, Esq., of this city. The Judge and his Bride have gone on a wedding tour to the North, and will stop for a few days at the residence of his mother, in the interior of New York. Success and joy attend them through life.

We had a fire in one of the rooms of the new Capitol extension in this city on Tuesday morning last. The new building has every room made fire proof, so that, if accidents shall happen at any time in the splendid new edifice, but one room can be defaced by any fire. This fire occurred from defect in the flues, for which the new edifice is to be dependent upon for heating the buildings when completed. The same defect in a flue caused the destruction, some years ago, of the great Congressional library, that is a large portion of it, and it would be well to have careful inspectors of all the flues that conduct heat before we have fires made in the furnaces below.

The friends of Major Richardson, in this city, do not give up the contest in Illinois by any means. There are *fourteen* counties yet to hear from officially, *twelve* of them will give Mr. Richardson, not less than 6,000 majority, perhaps 8,000 majority, and *two* will give Col. Bissell majorities.—Say about two thousand. So that the contest for Governor is not closed in Illinois as yet,—nor will it be until the last vote in the last county is officially heard from at Springfield. We have strong hope that Richardson has been elected Governor of Illinois, notwithstanding it is admitted, that his success is extremely doubtful, from the heavy vote by which Bissell yet leads him in the eighty-eight counties heard from officially at Springfield, and which vote was received here on yesterday from the canvassers at the latter city. The majority for Mr. Buchanan is 11,002 votes This majority will do pretty well for a State that the Telegraph was made to say, had gone for Fremont and *sectionalism* by 12,000 of a majority.

General Webb, of N. Y. is still chiming in to the tune of the Cabinet selections, and the policy that shall govern the next administration. He affects to speak of *his knowledge*, as to what will be the rule of action of Mr. Buchanan. Poor fellow!—*His* knowledge in that particular is as far from truth, as there is any expectation that he will ever return to the U. States' Bank a certain *fifty two thousand dollars* borrowed—"a long time ago."—"a long time ago!"

The members of Congress are slow coming in this year. However, they cannot remain away much longer, as Congress meets on Monday week.

Joseph Florence, of the House, brother of the Hon. Thomas Florence, died in this city on Wednesday evening last. His remains have been taken on to Philadelphia for interment.

BOUNTY LAND WARRANTS.—By the returns received at the General Land office, in Washington, it appears that there have been issued, in all, under the act of March, 1855, not less 73,564 Bounty Land Warrants, covering more than eight and a half millions of acres.

DISTINGUISHED VISITORS.—On Wednesday evening last, Hon. Henry A. Wise, Governor of Virginia, and Hon. J. Thompson Mason, Judge of the Maryland Court of Appeals, reached this city from a visit to the President elect, at Wheatland. They put up at Jones' Hotel.

Last evening, Hon. Stephen A. Douglas, with his new and lovely bride, the late Miss Ada Cutts, and bridal party, among whom we notice General Shields, arrived in this city and put up at the Girard House, where, at a late hour they were serenaded.—*Phila. Argus.*

GUBERNATORIAL.—The Democratic Convention of Washington county met on Tuesday last, and elected delegates to the Democratic State Convention, to be held at Harrisburg, on the 4th of March next, and unanimously instructed them for Col. Wm. Hopkins, of that county, for Governor.

SHOCK OF AN EARTHQUAKE IN KENTUCKY.—The inhabitants of this city were aroused from their slumbers about 5 o'clock on Sunday last, by the somewhat appalling shock of an earthquake. The vibration, which was accompanied by a heavy wind, was very sensibly felt in several adjoining towns, and lasted for a time variously estimated from ten seconds to one minute. This was the fourth shock that has been felt in this region during the last five or six weeks, and was the loudest and longest of the series. We only hope that the slight visitations we have had may not inaugurate another such convulsion of nature as occurred in 1811, when the mighty waters of the Mississippi were stopped in their onward course, and their current made to reverse its flow.—*Hickman Argus, November* 14.

THE NORTH PENNSYLVANIA RAILROAD DISASTER—*The Conclusion of the Trial of Conductor Hoppel, at Norristown, and Acquittal of the Accused.*—The argument in the case of of Alfred T. Hoppel, the Conductor of the North Pennsylvania Railroad, was concluded on Wednesday evening last, and the case given to the jury. Judge Smyser gave a very lengthy charge, and after retiring for about four hours the jury returned, and rendered a verdict of 'not guilty;' thus exculpating the defendant from the acusation of either voluntary manslaughter or misdemeanor.

KANSAS BLEEDS NO MORE.—*Montpelier, Vt., Nov.* 12.—The Legislature of this State have rejected the bill granting $20,000 to aid Kansas.

Thus has Vermont, in her State capacity, backed water on this superlative humbug, and punctured the bubble that has fooled millions, and bled thousands of their money.

The election is over, and Kansas bleeds no more. How transparent to the most befogged, is this deception now. But how many have lost their lives, their wits, their temper, and their money in this tom fool tremor about Kansas.—*Cleveland Plain Dealer.*

☞ THE GREATEST DISCOVERY OF THE AGE.—☜
PROFESSOR WOOD'S HAIR RESTORATIVE.—This preparation, although less than two years before the public, owing to its wonderful effects upon the human hair and scalp, has already obtained a celebrity and sale perfectly unparalleled. It has without the ordinary confidence used for such purposes, won its way, and been heartily welcomed to most of the cities and towns in the United States the Canadas, and the West India Islands. Nor is this result surprising, when it is remembered that its popularity is based upon its merits, solely as established by actual tests. That this preparation will actually RESTORE GRAY HAIR TO ITS NATURAL COLOR, produce a luxuriant growth upon the bald, prevent the hair from falling off, and when used as a toilet article, produce a continual flow of the natural fluids, and thus render the hair soft, glossy and wavy, destroy diseases of the scalp, and expel dandruff, the certificates of distinguished persons and ladies, in every part of the country who have tried it, and therefore speak what they know, most fully attest.

MILFORD, Worcester Co., Mass., Nov. 13th, 1855.

Prof. O. J. Wood—Dear Sir:—I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1836 my hair commenced falling off, until the top of my scalp became bald and smooth as glass, and it has continued so full for a period of *twenty years*, notwithstanding I have used many celebrated preparations for its restoration. Seeing your advertisement, I was induced to give your article a trial, and to my utter astonishment, I found after a few applications that my hair became firmly set and assumed a very glossy and beautiful appearance: and, by the time I had used a quart bottle full, my bald head was covered over with a young and vigrrous growth of hair, which is now from one to two inches in length, and growing very fast.

Yours truly, HENRY GODDRICH.

From the Boston Herald.

SOMETHING WORTH KNOWING!—By using Professor Wood's Hair Restorative, gray Hair can be permanently restored to its original color. The subjoined certificate was received from Johnson & Stone, Gardener, Me., and is but one of the many instances that are daily coming to our knowledge of its wonderful effects. It is no longer problematic, but a self-evident truth, as hundreds can testify.

GARDINER, Me., June 22d, 1856.

Mr. H. DYER—Dear Sir: I have used two bottles of Prof. Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the Hair. Before using it I was a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind. Yours, respectfully,

DANIEL N MURPHY.

CARTER, Ill., June 27.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt, permanently so. SIDNEY BREESE,

Ex-Senator United States.

The Greatest Discovery of the Age.—It seldom occurs, that we notice, under any circumstances, patent medicines, restorativet, or anything of the kind, for we have a prejudice against most of them. But candor compels us to invite attention to the advertisement of Prof. Wood's Hair Restorative. We are too juvenile to require anything of the kind, but some instances of its use have come to our knowledge which almost assure us that it is a sovereign remedy against the hair becoming prematurely gray. It is not a "Hair Dye" but upon its application as directed, the effect is produced on the skin, which brings out the original native colored hair, without stiffness, and gives it a glossy and natural appearance. We have seen persons who have used it, and they are much pleased with it.—*Missouri Republican.*
