Sr. Louis, Dec. 15, 1856. It commenced raining in the beginning of the past week, and on Wednesday and Thursday became quite warm and turday another rain set in, accompanied with high winds. These recent rains have had a good effect spon the river—at this point it has risen some three feet, det and the streams above are reported rising very rapidly, as also, the Ohio. We have had one or two arrivals from the ois river, and a few from other points which were supposed to have been cut off for the winter. These arrival with heavy receipts of produce, and favorable weather, has had a good effect upon business—our merchants are taking advantage of present prospects and the temporary resump-tion of navigation; business, consequently, has been quite brisk during the past three or four days. To day, however, is quite cold, and an unfavorable turn of the screw must oon take place, as the season has too far advanced to hope or a further continuance of open and free navigation

due to the Texas creditors, still unpaid, passed the Sonate on Wednesday—ayes 35, nays 9. This is due to many persons, who have not presented their claims for payment, and who would have been debarred payment had the time not been extended for one year from the 1st of January 1855. We expect the House will speedily pass this just amendment of the Senate.

The debate in the Senate still progresses. Gov. J. C. Jones, of Tennessee, made a great speech on Thursday, in which that able political factician dealt some wholesome truths for the consideration of the sectional Senators, who truths for the consideration of the sectional Senators, who are condemning the President of the U. Horrible Indian Outrage--A Chippewa Indian Burned by the Sioux.

By the arrival of a gentleman in this city yesterday, we are put in possession of the details of a terrible outrage, committed by the Sioux Indians, near Glencoe, on Saturday,

A party of Sioux Indians captured, a few ful days previous to the 23d, near Glencoe, a pri Chippews Indian. The Indians, in council. termined, after retaining the Chippewa in their possession several days, to burn him.—Accordingly, on Sunday, November 23d, the Siouxs, numbering some seven hundred warriors, took the Chippewa to a point on Buffalo

riors, took the Chippewa to a point on Buffalo Creek near Glencoe, and there burned him to death.

Our informant derived his information from a teamster, who was passing near the spot selected for the terrible outrage, with a wagon loaded with dry goods. All efforts made by him to save the Chippewa were futile. He represents that the Chippewa met all the horrid tortures inflicted on him by the Sioux, with the greatest indifference. He was burnit at a slow fire, and lingered several hours before he expired. When the teamster passed, the Indian was ited to the stake, and the slow fire by which he was destroyed had but partially consumed his feet and ankles. While tied to the stake the Indian was scalped and otherwise mutilated.

It is supposed this outrage was committed by the Sionx in revenge for the horrid murder of Dakota women, in the fall, near Lac qui Parle.
