Yesterday a week ago being the day fixed by law for the election of State Treasurer, in consequence of the absence of many of the members of the Legislature, and their inability to reach Harrisburg, the roads being blockaded by the snow-storm, but few were present, and no election was had. The act of 1848 provides: "The term of the State Treasurer shall commence on the first Monday of May next succeeding his election, and shall which we very much doubt, he has, Judascontinue for one year, or until his successor at the time fixed by law, the Treasurer for successor is appointed according to the pro-Treasurer and his securities shall be held valid and any attempt to justify the treachery of and binding so long as he continues in office." The Record Corrected.

The Independent Whig of this City, the organ par excellence of the Black Republican party of Laneaster county, steps forward gallantly in defence of the three traitors to the Democratic party who by their votes secured the election of Gen. CAMERON to the U. S. Senate-and attempts to justify their course by publishing the letter of Mr. Buch-ANAN to the Democratic members of the Legislature, in 1845, after Cameron's former election to the Senate by a similar treachery on the part of a few recreant Democrats.' At that time, it will be recollected that Hon. George W. Woodward was the caucus nominee of the Democratic party, but was defeated precisely in the same way that Col. John W. Forney has 'eeu. The Democratic members, against the customs and usages of the party, united in a letter to Mr. Buchanan, denunciatory of Gen. Cameron, and asking him also to Districts, of the time and place of meeting for the election denounce the act and the actors in the treachery. Mr. Buchanan had then become Secretary of State. An Important Suggestion. The State Treasurer, in his report to the Legislature, recommends the repeal of the law which allows an abatement of five per cent, for the prompt payment of taxes. The reason urged by Col. Magraw against its continuance, is that it produces a large surplus in the Treasury, not required by actual necessity, and at a cost to the State of the five

per cent. abatement. The Pittsburg Post says:

should be removed, of almost equal force, and

that is, that a very small proportion of this batement inures to the benefit of the actual tax-payer. Its practical operation is to put money into the pockets of the County Treasurers, who, in many counties, are in the habit of paying their whole quota of State tax, in torious that all the other railroads north and east of us ar to claim the abatement when but a small proportion has actually been paid in .-This they do by raising money on the credit of the county, or their own personal creditwhich is nearly the same thing, as it is affeeted by their position-paying the whole ax, and pocketing the five per cent, realized In this way, the abatement allowed is made to rork to the almost exclusive benefit of County Treasurers. It is of no advantage to the reasury, the necessity that called it in b having passed, and it is of very little practical benefit to the people, and it offers opportuni ties to the State and County Treasurers to speculate in the public funds. The sugges tion of the Treasurer is worthy of serious

The Beer sellers who were convicted of selling liquor contrary to law, were sentenced as follows:—Henry Frank. August Shoenberger, John Witlinger and Lawrence Knapp were each fined \$50 and costs, and Elizabeth Spreuger \$20 and costs. BADLY FROZEN. -- Mr. Greene, the Constable

of Mount Joy township, left his residence in Springville thirteen miles from this city, on Sunday night week, about 12 o'clock, on foot, so as to be in Court here on Mouday morning to make his return. He reached Sprecher's Hotel, in this city, about 5 o'clock in the morning, badly frezen, having come the whole distance without stopping—there being no place open along the road where he could have warmed himself. Dr. Muhlenberg was called in, and reports, we learn, that Mr. Greene will lose parts of both feet—they being so hadly forzen that circulation cannot be revived. INTENSE COLD!—At sunrise, on Friday

morning last, the mercury in the thermometer had fallen o 12 degrees below zero, in this City. Ugh! but it was a pinching time. On Sunday week, at Albany, the thor ometer indicated 20 degrees below zero; at Montreal, 22; t Quebec, 30; at Woodstock. Vt., 30; at Ogdensburgh, 36; and at Watertown, 40 degrees below zero! This was em hatically the Cold Sunday in this vicinity, and judging rom the state of the thermometor in the above-mentionelaces, it must have been still more severe north and east

UNJUST COMPLAINT .- One of the sillies things we have seen in a long time, was the attempt of the passengers detained at this point to throw the blame upon the Superintendent and other officials on the Railroad. The condemnatory resolutions and petition to the Legisla ture are simply ridiculous and absurd. As well mighthey attempt to arraign Providence for sending the terrible snow storm. It would be about as sensible as what the have done; for, we venture to say, that Col. BAKER did and day himself-to get the road clear of the immense drifts of snow which covered it in many places from ter to fifteen feet deep. The same may be said of the Deputy Superintendent, Mr. DARLINGTON, who is one of the mothe road. The Supervisors of sections, too, have all been prompt and did everything in their power to remove the obstructions. We know the fact that the Supervisor of the section running from three miles below to one mile and a half above the City, Mr. HENRY SCHAUM, put an immense "But there is another reason why this law force at work and had his section cleared in a comparatively short time-but the high wind on Wednesday and Thurs day again drifted the snow upon the track, and required Why should complaints be preferred against the

ST. LOUIS CORRESPONDENCE. 5r. Louis, Jan. 19, 1857

The weather of the week just closed has been intenselid, and Saturday and Saturday night was decidedly th coldest of the season." A slight sprinkling of snow fell on Saturday morning, and the ground is now covered with but might as well be closed, as all the upper streams are frozen over, and the water below so scant and the floating ice so thick and heavy, that it would be dangerous to ven ture out upon a voyage. The Alton packets have made several trips in the past week, but the recent cold snap has put a stop to them. We have had no steamboat arr vals for some time. There are ten or fifteen boats at Cairo waiting an opportunity to reach the city. Business, in consequence of the suspension of navigation, is extremely dull. It would seem that our railroads are quite as bad, if not worse, than river navigation. Our citizens complain greatly about the delay of freight sent by them. We had the goods have not arrived yet; had we have ordered them shipped via New Orleans they would have been at hand.— We were in hopes that when the railroads were finished freight could be brought to this city at all seasons of the we had no such roads. We certainly have not been bond fited by the construction of such railroads—we would much rather rely upon the speed of "Davy Leech's" canal be remembered that goods sen via New Orleans to the West, in the winter season, will

Our Legislature has passed a bill for a better system of Banking facilities, which was greatly needed. The Gordon murderers will be taken from our jailwhere they have been for safe keeping—to Franklin county, (where the murder was committed) for trial, which

reach their destination about as quick, if not sooner, than

takes place to-day or to-morrow. Another murder has been committed. The quiet town of Carondelet, in this county, was alarmed on Thursday morning by the cry of "murder." It appears that three carpenters boarded at the same house, and occupied the same room-two of them. James Alexander and Robert Wheatland had retired for the night, when the third, John La Pointe, came in with a shovel in his hand, and deliberately walked up to the bed of his sleeping room-mates, and knocked the brains out of Wheatland—Alexander endeav ored to make his escape, but was knocked down, receiving fractured. The cause for this onslaught is unknown .-Wheatland was killed in his bed. La Pointe was arrested committed for trial, and is now in our county jail.

Edwin Booth will make his first appearance before a St. Louis audience this evening at the l'eople's Theatre. The Keller Troupe have just closed a three weeks' engagement, and have taken the city by storm—not less than two thousand people witnessed their display of beautiful Rev. Francis Vinton, D. D., is delivering a series of lec-

tures before the Mercantile Library Association.

The steamer Emma Brown sunk a few days since in the Onio. The boat and cargo is thought to be a total loss. We have some little news from Kansas. From letters it would seem that a portion of the Topeka Legislature were arrested. They met on the 5th. Neither Gov. Robinson or Lieut. Gov. Roberts were present, and they were denounced by the faithful, as traitors to the cause of the Abolitionists Several of the members resigned their seats and others were elected in their place. Gov. Robinson has no doubt backed squarely out. Letters from the South represent that a large emigration from that region will set in to Kansas early in the spring. We have no intelligence from

on the alert and everything will pass off quietly under his cent, on the capital—out of the profits of six months. H. Bateman, of this city, has purchased the Balti more Museum, which he intends to refit for theatrical pur

the Legislature which met at Lecompton. Gev. Geary is

married in this city on the 13th inst., to Miss Sarah E. D. It would seem that no Senator from Indiana can be

elected at this session of the Legislature. Last winter the Democrats had a majority in the Senate, and refused to go into an election; this winter the Blacks have a majority election. In our mention last week of the arrival of Dr. Chas-

Laib and F. D. Preston, Esqrs., of the Hilinois Legislature, we neglected to add that the Hon. Chas. H. Constable and also remark that Mr. Constable headed the Illinois Demo eratic Electoral ticket. He is an "old line Whig," but like many other Union-loving and conservative patriots, forgot past political differences, fell into the ranks of Democracy and fought with all his energy and power the good fight for the Union and the Constitution against Sectionalism and fanaticism. He was not one of the old Whig party who forgot their country and its welfare in the wild hoop for spoils and power, by lending their voice and vote to the opponents of Democracy; but seeing the danger to which his country was threatened, took the stump in defence of Mr. Buchanan and the glorious cause in we were engaged, and continued unceasingly-night and accession of Mr. Constable to our ranks, was an army of of itself, for he was heretofers one of the most prominent of the Whig party, and his valuable aid and influence maturially assisted the gallant Democracy of Illinois, in givsaid to be a bold and fearless speaker, and pronounced b those who know, one of the most dignified and eloquent orators of Illinois. We are pleased to record such names as Chas II Constable on our democratic roll. The Democ racy of Illinois owe much to Mr. C., and we trust that his valuable services in times like those we have just passed through, will be, at an early day, kindly acknowledged .-We had the honor of his acquaintance, and were much pleased with his manners; and admire him more for the the able and eloquent speeches he made during the recent anyasa in favor of "Buck and Breck."

F. D. Preston, Esq., member of the Legislature, an un flinching and encompromising Democrat of long standing. did his part in Illinois, and the vote of "Egypt"—(South evening-see advertisement. This gentleman is one of the ern Illinois)-bears us out in the assertion. Mr. P. hails from that "henighted" section. We take pleasure in favorably mentioning the names of such men as are above

We read with surprise and deep regret the dispatch an nouncing the election of Simon Cameron to the U. S. Sen bill relative to opening streets, to restrict the erection of ate from your State, over Col. John W. Forney. The friends of Col. F. in this locality were not prepared for such a result; it was expected, after all that Col. Forney did to wards the election of Mr. Buchanan and the triumph of Democracy, that the Democratic Legislature of Pennsylvanis would acknowledge his valuable aid by cleating him to but in this we have been mistaken, and we have likewise hear deceived in the character of some of your Democrate legislators. Let their names be heralded far and wide, and eld up to public gaze as deserters in the flush of battle hoped to fill the measure of rejoicing with the election of w mars the glorious triumph we were wont to celebrate .proud and brilliant future yet awaits the Colonel.
On Monday last the Hom. James S. Green was elected to

> rusten Polk, our newly inaugurated Governor was als elected to a seat in the Senate of the United States. Mr. Green was formerly a Democratic Congressman, and was e-elected last August. His election leaves 'a vacancy in our next Congressional delegation. Mr. Polk has been week or two in the Gubernatorial Chair, but he has be ome so very popular with all parties, that the Democrace saw fit to have him in the Senate to represent them, they herefore gave him the very flattering vote of 101 out of [71 cast; there being but one ballot for each Senator-Col Beaton obtained against Green \$4 votes; Kennett had 32. Freen receiving 89-81 necessary to a choice. Benton gainst Polk 23 votes: Gamble 84; Scattering 8. The ection of Mesars. Green and Polk seem to elicit general satisfaction among nearly all parties. The friends of Col e said that "old Bullion" will never get into the Senate He can now well see the cause of his defeat. But notwithtanding the adverse circumstances that have for severa rears past surrounded him-he is this day as much adired and respected by both friend and political foe, as it his palmiest days. The new administration will find in Mesers. Green and

Polk firm and steadfast supporters—both National Demoerats and conservative men. was finally decided in favor of Jackson, Dem., over New and, K. N., and Jackson has taken his sent as Lieut. Gov

ernor of Missouri. Notwithstandang all that has been said relative to Col Bissell and the cath he had to take, he was duly inaugara. ted on Monday last-he being too ill to go to the Hall, the oath was administered at the Governor's mansion in the presence of both branches of the Legislature. He was asked whether he had ever sent or accepted a challenge to fight that question he, no doubt, meant that he did not do so in that State, for no one of his acquaintances will deny but that he did at one time challenge a gentleman. The oath, therefore, which Col. Bissell has just taken, rests with him

On Saturday quite au alarm and excitement prevailed in our cl'y, among business men and in business circles, on the receipt of a dispatch from Chicago, stating that the anks there had thrown out some half dozen of the Illinois State Banks' notes. Those who had any of this money immediately repaired to their places of deposit to get ri fit. The Brokers all received it on Saturday evening, and the probability is they will continue to do so. It seems that some misunderstanding has occurred between these State Banks and the Bankers of Chicago—hence their re-fusal to receive them. We think the banks thrown out about as good as those received-neither better than they should be.

seals, has already obtained a celebrity and sale perfectly unparallelled. It has without the ordinary appliance used for such purposes, won its way, and been heartily welcomed to most of the cities and towns in the United States the Canadas, and the West India Islands. Nor is this result surprising, when it is remembered that its popularity is based upon its merits, solely as established by actual tests. That this preparation will actually RESTORE GRAY HAIR TO ITS NATURAL COLOR, produce a luxuriant growth upon the heads of the baid, prevent the hair from failing off, and when used as a toilet article, produce a continual flow of the natural fluids, and thus render the hair soft, glossy and wavy, destry diseases of the scalp, and expel dandruff, the certificates of distinguished gentlemen and ladies. In every part of the country who have tried it, and therefore speak what they know, most fully attest.

Prof. O. J. Wood—Duar Sir; I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1836 my hair commenced falling off, until the top of my scalp became hald and smooth as glass, and it has continued to fall for a great many years, notwithstantine I have used many celebrated preparations for its restoration. Seeing your advertisement, I was induced to give your article a trial, and to my utter satonish ment, I found after a few applications that my hair became firmly set and assumed a very glossy and beautiful appearance; and by the time I had used a quart botto full, my said head was covered over with a young and vigrous growth of hair, which is now trom the tow inchas in length, and growing very fact.

But cander compels us to in-vite attention to the advertisement of Prof. Wood's Hair We are too juvenile to require anything of Restorative. We are too juvenile to require anything of the kind, but some instances of its use have come to our knowledge which aimost assure us that it is a sovereign remedy against the hair becoming prematurely gray. It is not a "Hair Dye;" but upon its application as directed, the effect is produced on the skin, which brings out the original native colored bair, without stiffness, and gives it a glossyand natural appearance. We have seen persons who have used it, and they are much pleased with it.—Missouri Republican.
