On Tuesday afternoon last about 4 o'clock, the steam boat bells rang out the alarm that the ice had come to move and in a few minutes the Levee was the scene of motion and excitement—thousands of people running to and fro. all eager to see the icy bridge pas down to the sunny South—it being useful, only, as long as it connected Missouri with Illinois, but that usefulness was not as eagerly sought as open and free navigrtion. It moved off very slowly, and only came in contact with one or two boats, tearing them from their fastenings, and when it had moved a space of two hundred yards, it again gorged, and remained in this position until 4 o'clock on Thursday morning, when we were once more summone to the Levee by the ringing of bells and sounds of shrill whistles, both from the steamboats and locomotives on the opposite side of the river. This second movement sunk ie steamer Grace Darling, but the ice came to a halt after moving about 100 yards, and doing no other damage. At even in the evening of the same day, it made its third and final move, and harmlessly passed down the current. The ice from above has not yet broke loose, excepting now and

The river may now be said to be free from ice from Alton to New Orleans. The packets to the former place have already commenced running, and several boats have arrived from the South. Business on the levee is now unusually brisk and a rejoicing seems to come from every man, that we are once more free from the great winter barrier which has to a considerable extent locked up the business of the sissippi Valley, and we may say the entire West. Every thing is dependent upon the rivers, and when they are in navigable condition, every department of trade flourishes The weather in the early part of the week was mild and melting, with a stiff south wind; On Thursday, Friday and Saturday it rained, and on Friday night, the 6th inst., a storm passed over the city, accompanied with thunder and lightning—the first of the season. On Saturday night a cognized by law. stiff cold wind from the North caused a slight freezing -Navigation is now resumed and/our usual Spring business in as Senator on Monday last, after a long and protracted will immediately commence. The boating interests sustained very little damage here, but at Cincinnati and several other points on the Ohio and lower Mississippi, some twelve or fifteen boats have been more or less injured, several of which number are complete wrecks. The general "break up," however, did not do the one sixteenth part as much damage as the giving way of the ice last season.

A most distressing accident occurred on Chesnut street. in this city, on Friday afternoon last. Two two-story houses, without any premonition of any kind, fell simulaneously in a mass of ruins. One of the houses was occupied as a barber shop pnd bath saloon, and the other as odging rooms. There were at the time of the accident some ten or twelve persons in the buildings-three of whom were killed, five seriously and probably fatally maimed-Major Wm. Gardner, a wealthy and much exteemed farmer of this county, was in the alley at the time, and the wall ell upon and killed him instantly. He was born in Vir giniar but had resided here a for a long time-was an old man, in his 74th year. The other two were German tailors. Immediately after the crash the ruins took fire, and got were ready for work, but was soon extinguished. The two tailors were so badly burned in the face that they could not be recognized, and the supposition is, that they both burned to death, as their bodies did not appear to have the ruins, but when found were perfectly protected by crossed timbers and a portion of the roof, but unfortunately their stove or furnace fell with them, and from this the where they were tightly confined. The buildings were old House, and some progress made in the details of the bill, and not very valuable. The cause of the catastrophe is but the conflicting interests of the country are so much attributed to an ice house under one of the buildings, and disturbed in the bill, that we cannot believe there is any is supposed to have caved in.

The Missouri Legislature, on invitation of-our City Fathers, visited the city on Monday last. Extensive preparatians were made for their reception. As early as one o'clock the streets in the vicinity of the railroad depot were densely crowded by men, women and children anxious to see the lovernor and the officers of State, representing the power and interests of a million of people, and upwards of 70,000 sing figure in Petersburg, Va., recently, and square miles of territory. The military turned out in large numbers, and never made a better appearance. The procession was formed, and passed through several of the rincipal streets to the Mercantile Library Hall—the place designated for tendering the guests the hospitalities of the city. Here another dense crowd was awaiting, and sent up their shouts of welcome. Gov. Polk and several other distinguished dispersed, all highly pleased with the manner in which the State's dignitaries were received. On Tuesday at 5 o'clock a most magnificent as well as bountiful dinner was spread at the Varieties' Theatre. At the appointed time the groaning table—filled with all the luxuries the city could boast of-was surrounded by the State's Represen a number. The dinner room was beautifully decoratedgas-lights, gave the whole the appearance of a scene in a fairy drama. The dinner was contracted—(without the wines)—for \$2,500, and the presumption is, from the mag nificence and rich variety that the eye caught, the contractor received more glory than profit. To take it all in all, it was the most grand and magnificent feast ever given in this city. There were also a large number of ladies seated in the dress-oircles. Soft THE GREATEST DISCOVERY OF THE AGE. TA PROFESSOR WOOD'S HAIR RESTORATIVE.—This preparation, although less than two years before the public, owing to its wonderful effects upon the human hair and scalp, has already obtained a celebrity and sale perfectly unparalleled. It has without the ordinary appliance used for such purposes, won its way, and been heartily welcomed to most of the cities and towns in the United States the Canadas, and the West India Islands. Nor is this result surprising, when it is remembered that its oppularity is based upon its merits, solely as established by actual tests. That this preparation will actually RESTORE GRAY HAIR TO ITS NATURAL COLOR, produce a luxuriant growth upon the heads of the baid, prevent the hair from falling off, and when used as a toilet article, produce a continual flow of the natural fluids, and thus render the hair soft, glossy and wavy, destroy diseases of the scalp, and expeid dandruff, the certificates of distinguished gentlemen and ladies, in every part of the country who have tried it, and therefore speak what they know, most fully attest. \$

MILYORD, Worcester Co., Mass., Nov. 13th, 1855.

Prof. O. J. Wood—Dear Sir; I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As fir back as 1836 my hair commenced falling off, until the top of my scalp became bald and smooth as glass, and it has continued to fail for a great many years, notwithstanding I have used many celebrated preparations for its restoration. Seeing your advertisement, I was induced to give your stricle a trial, and to my utter astonishment, I found after a few applications that my hair became firmly set and assumed a very glossy and beautiful appearance; and, by the time I had used a quart bottle full, my bald head was covered over with a young and vigrrous growth of hair, which is now from one to two inches in length, and growing very fast.

DANIEL N MURPHY.

CARLILL, Ill., Juhe 27.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt, permanently so.

EX-Senator United States.

The Greatest Discovery of the Age.—It seldom occurs, that we notice, under any circumstances, patent medicines, restorativet, or anything of the kind, for we have a prajudice against most of them. But candor compels us to invite attention to the advertisement of Prof. Weod's Hair Restorative. We are too juvenile to require anything of the kind, but some instances of its use have come to our knowledge which almost assure us that it is a sovereign remedy against the hair becoming prematurely gray. It is not a "Hair Dye." but upon its application as directed, the effect is produced on the skin, which brings out the original native colored hair, without stiffness, and gives it a glos syand natural appearance. We have seen persons who have used it, and they are much pleased with it.—Miscouri Republican.

SECT. 2. In addition to the defined duties in prior ordinances now incumbent upon the Superintendent of the Water Works, he shall be required to make daily observation of the condition of the reservoirs with respect to their supplies, and report the result thereof to the Chairman of the Water Committee; to keep the prisms of the reservoirs, with the outside banks and walks, in suitable order; to supervise the laying of the water pipes, plugs and fixtures in the city,—and render such other services in the water department as the Water Committee may from time to time direct; especially shall he ascertain by inquiry from consumers or otherwise, the use to which the water is applied, and report in detail their names and purposes of consumption to the Water Committee on or before the first day of March annually. And all applications for the use of the water after the first day of March in any house, building or other premises, or for the extension of any pipe for the conveyance of the water, shall be made in writing by the applicant, and must state fully and truly all purposes for which it is required; and the said applicant shall at all times frankly and without concealment, answer all questions put to him, her or them, by the Water Committee touching its consumption; and any one that may be found using the water contrary to contract, shall on the oath or affirmation of the Superintendent to the facts be liable to a penalty of ten dollars; and if not paid to the Superintendent when required by the Mayor, the Water Committee shall forthwith cause the water, to be stopped off, and the Mayor shall institute suit for the recovery of the penalty with costs of suit, and if not paid to the Superintendent when required by the Mayor, the Water Committee shall forthwith cause the water, to be slowed from the amount. Between that day and the first day of July, in addition t

that may be then unpaid. And to dispose of such list, use Mayor shall immediately place the same, with the duplicate, in the hands of an Alderman for collection, with cost of suit, and the delinquent shall be deprived of the use of the water until the rent is paid.

SECT. 4. It shall be the duty of the Superintendent on or before the first day of May in each and every year, to leave at the premises of each water renter, a printed or written notice of the amount of his or her rent, with an embodiment of the provisions' of Section 3d of this ordinance relative to payment.

SECT. 5. In lieu of the salary now receivable by the City Treasurer, he shall be entitled to the yearly compensation of three hundred dollars, from and after the second Tuesday in February next, payable-quarterly, in consideration of the additional duties imposed by this ordinance.

SECT. 6. In consideration of the duties and responsibilities of the Superintendent of the Water Works being decreased, the salary of that officer shall be four hundred dollars annually, payable quarterly, from and after the second Tuesday in February next. And in lieu of the bond heretofore required of him, he shall execute one, with two or more sureties, in the sum of five hundred dollars, conditioned for the faithful discharge of the duties of his station.

SECT. 7. Permits granted for the use of the water for

with two or more sureties, in the sum of five hundred dellars, conditioned for the faithful discharge of the duties of his station.

Szcr. 7. Permits granted for the use of the water for building purposes, shall run for six months after date, and thence for water used at the building, rent will be reskoned proportionably, in accordance with the rates specified in section 1st of this ordinance; and the amount charged for building shall be paid at the time the permit is given.

Szor. 8. In case the supply of water in the reservoirs in seasons of drought or at any other time, should in the judgment of the Water Committee require husbanding for the necessary protection and safety of the lives and property of the citizens, they shall instruct the Mayor to cause public proclamation to be made throughout the city so far as the water pipes extend, forbidding the use of the water for pave washing, sprinkling streets, or any wasting therefor waterer; and any one disobeying such injunction, shall be liable to a pennity of two dollars for the first offence, and be deprived of the use of the water until said fine is paid, and for a second and every subsequent offense, to a fine of ten dollars and deprivation of water until paid. And if the Superintendent of the Water Works should in any case refuse or neglect to stop off the water after having been notified by the Mayor to do so, the Mayor shall report the circumstance to Councils, who may by joint resolution for that cause, remove said Superintendent from Offic, direct the withholding the pay for the quarter he may have commenced, and appoint a successor for the unexpired term, who shall be entitled to the retained salary. And if the circumstance to Councils, who may by Joint resolution for that cause, remove said Superintendent from Office, direct the withholding the pay for the quarter he may have commenced, and appoint a successor for the unexpired term, who shall be entitled to the retained salary. And if any person should precure a key and let the water on after having been turned off by the Superintendent, he or she for the offence, shall pay a fine of fifty dollars with costs of entit
