TONICS WON'T DO!—They never did do more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cause of all ague and billious diseases is the atmospheric poison called Miasma or Malaria. Neutralize this poison by its Natural Antidote, and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria. and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

GEORGETOWN, Ohio, March 18, 1856.

JAS. A. RHODES, Esq.—Dear Nir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they used to escape taking Quinine, contained the Drug Itself!

This requedy, (known as "Smith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often roturn with renewed vigor. This one circumstance I decued in your favor, if I could institute a text comparison between it and your cure. The following is the result:

Three persons took your "Cure," all of which wore cases of "Quotidian Intermittent Fever," of many weeks standing They had tried Quiniue, and other remedies. occasionally missing a chill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation for other and severer maladies. I did succeed in effecting a radical cure of all three of these cases the "Smith's Tonic" had ould return.
I think there will be no difficulty now in giving to your

Tunk there will be no mindfully now in giving on your "Cure" the advantage ground of any other remedy now in use here, &., &c. WILLIAM BUCKNER, M. D. Rhode's Fever and Ague Cure, or Antidote to Malaria, the only harmless remedy in existence, is equally certain as a preventive, as a "Cure." Take it when you feel the chills coming, and you will never have a single one.

JAS. A. RHODES,
Providence, R. I.

A Cure for Consumption, Coughs, Colds Asthma, Bronchitis, General Debility and Scrofulous Humors.

HAVE YOU TRIED IT—This important question should be asked every invalid who is suffering from pulmonary troubles in this fickle climate. Have you tried WILBOR'S COMPOUND OF COD LIVER OIL AND LIME? It will not nauscate like the plain Oil, but is on the contrary, pleasant to the taste; moreover the Phosphate of Lime is, in this combination, a most remarkable aid to the healing properties of the pure Cod Liver Oil, as the following certificates (selected from a host of like great acknowledgements) will amply show. No person should neglect for a single hour a cough, or any affection of the lungs, test the most serious consequences follow. Dr. Wilbor's preparation is both simple, and sure in all ordinary cases, and has performed some surprising cures in decided consumption, where other medical aid has failed:—

Dr. Wilbor:—During nearly the whole of the past winter, I had suffered seriously with a cough, which so irritated my lungs, that my physician frankly admitted his fear of consumption's following this trouble as the Spring weather set in. Medicine seemed to afford me little relief until I tried your preparation of Cod Liver Oil and Lime. The effect I am forced by facts to admit, was almost magical, and I have the pleasure of saying at this writing, (May 2d, 1852) I am entirely free from any pulmonary trouble. With thanks to you for your valuable discovery, I cordially recremend it to those who are thus afflicted:

MARTIN C. HURD, Chamber street, Boston.
