TONICS WON'T DO!—They never did do more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cause of all ague and billious diseases is the atmospheric poison called Missma or Malaria. Neutralize this poison by its Natural Antidote, and all disease caused by it disap-pears at once. Rhodes' Forer and Ague Ouro is this Anti-cias to Missing and corrorser, it is a perfective harmless

poion called Miasma or Malaria. Neutralize this poison by its Natural Antidote, and all discase caused by it disap-pears at once. Rhodes' Forer and Ague Gure is this Anti-doto to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the calebrated chemist, J. R. Chilton, of New York, to this effect, is stached to every bottle; therefore if it does no good it can do no harm. This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is rainous to the constitu-tion and brings on Dumb Ague, which never allows a per-son to feel perfectly well for a single moment. In illustra-tion of these truths I annex some extracts from a letter just received from a Physician: GEORGETOW, Ohio, March 18, 1856. JAS. A. RHODES, Exeq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quining.—not knowing I presume that the remedy they used to accape taking Quinine, contained the Drug Itself This remedy, (Known as 'Smith's Tonic','') would i prari-bly break an Ague, buijt did not cureit, as it would often return with renewed vigor. This one circumstance I deem-ed in your favor, if I could institute a test comparison be-tween it and your cure. The following is the result: Three persons took your "Cure," all of which were cases of 'QuidiaInItermittent Fover,'' of many weaks standing They had tried Quiniue, and other remedies, occasionally missing a chill, but it was, (as in all such cases), slowy wearing them out, and laying the foundation for other and serrer maladies. I did succeed in effecting a radical cur-of all three of these cases with your romady, and they have not had a chill since. In all three of these cases the "Smith's Tonic'' had been used, and would, as before sta-ted, break the chill, but after a period or two had elapsed would eturn. I think th

D. Rhod's Fever and Ague Cure, or Antidote to Malaria, the only harmless remedy in existence, is equally certain as a preventive, as a "Cure." Take it when you feel the chills coming, and you will never have a single one. JAS. A. RHODES, Providence, R. I.
