 "I am happy to say of your CATHATTIC PILLS, that I have found them a better family medicine, for common use, than any other within my knowledge. Many of my friends have realized marked benefits from them, and coincide with me in believing that they possess extraordinary virtues for driving out disease and curing the sick. "They are not only effectual, but safe and pleasant to be taken—qualities which must make them valued by the public when they are known."
 The venerable Chancelor WARDLAW writes from Baltinore, 15til April, 1854:
 "De. J. C. Arga — Sir: I have taken your Pills with great benefit, for the listlessness, languor, foss of appetite, and Billouis leadache, which has of has years overtaken use in the spring. "Bir: I have great satisfaction in assuring you that myself and family have been very much benefield by your medicines. My wife was cured, two years since, of a se-vere and dangerous cough by your Crassar Parconant, and since then has enjoyed perfect health. My children have several times been cured from stacks of the influ-enza and Croup by it. It is an invaluable remedy for these complaints. Your Carnaartor Pluts have entirely cured me from a dyspepsia and costiveness, which has grown upon me for some years, -- indeed, this cure is much more important, from the fact that I had failed to get relief from the best Physicians which this section of the country affords, and from any of the numerous reme-dies I had taken. The first dose re-Heved me, and a few subsequent doses have entirely removed the disease. I feel in better health now than for some years before, which I attribute entirely to the effects of your Carthanic Fills. Yours with great respect. LUCIUS B. METCALF."

a limb may be amputated without the singules plant. In-baling the ordinary burning gas will desirol life in a few hours. The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper formedies, carefully prepared and judicionsly administered through the lungs, should produce the most happy results? During eighteen years' practice, many thousands, affering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is no grignal, and founded on long experience and a thorough investiga-tion. My perfect acquaintance with the nature of tuber-les, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, arrely being mitaken even in a single case, This familiarity in connection with eertsin patho-logical and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests; to enlarge the chest, purify the blood, impart to it roneved vitality, giving energy and tone to the entire system.
