This is the last month of spring, but in fact has been the only spring month that we have had. March and April were excessively cold, and it was feared that the ruit crop had fallen a prey to the ice, snow and frost, hich has characterized the two first mouths of spring.al purposes, and instead of the fruit having been killed, t promises the most abundant yield. From all quarters and all sections of the country we have the most gratifying accounts, and should nothing new occur, we will have in the west, the most abundant crop of fruit that we have had for many years. The winter wheat, however, has all been killed, and the farmers are plowing up their fields nd replanting with spring wheat. The season is very ing for a good corn and cats crop, and the barve enerally promises well, notwithstanding the extreme cold ather and the backwardness of the season. We have had several very heavy and refreshing rains since our last date, which have contributed immensely to the fruit, vegetables and the growing crops. The rains have also cause the different rivers to rise, and they are now in most excellent order for the largest class boate. Freights still continue high, but considerable shipping is done. The eccipts of produce have been heavy, and all descriptions find a ready and good market at this point. Flour has advanced about \$1 per bbl., and now sells---(the quotations we always report are those at wholesale; in a retail way auch higher figures have to be paid)—from \$5.50 to \$7 per to \$1.80; corn 60 to 65c, per bush.; oats 68 to 70c.; hides 171/2 to 18c.; pork 21.50; lard 131/4; whisey 261/2; potatoes \$1.40 to \$2 per bushel.

Business in all departments of trade is very brisk. Our vee still continues to present a huge pile of merchandize.
om 8 to 15 boats arrive daily, loaded to their guards, and the same may be said of those that depart. The emiion continues to pour in from all quarters, en route to ansas, Nebrasks, Minnesota, Iowa, Illinois, Wisconsin, Oregon and Utah, and no one can scarcely imagine the to wash off. There were also spots of blood number of emigrants pushing forward to the above named on his shirt bosom and on the lining of his States and Territories. In the early part of last week a coat sleeves. On his person was found a let-delegation from Lancaster city and county arrived at this point on their way to Minnesota. Among the number we ticed Mr. Henry Stock and family; Messrs. Brubaker and family; J. J. Porter and family; Stoner, Staumbach and several others, whose names we did not get. This party when here, laid in a large stock of 5,00ds, and seemed nuch pleased with our city-as most any body would .-They left in good health and fine spirits on the steamer Commerce for their new homes in Minnesots. We wish shem a safe and speedy trip and comfortable and happy

We understand that another party from Lancaster passed rough here on Tuesday last for Kansas, but we could not ascertain their names. Our best wishes also go with this party. It gives us pleasure to see and hear of so many Lancaster county people wending their way to the West which is destined to be the great agricultural field of the Thousands and tens of thousands are yearly heading for the Great West, and in a few more years—that which but recently was a wilderness—will be peopled with the bone and sinew of the American continent. Now is the that she wished to tell all about it, and when time to select homes in the West, whilst land is cheap—a rear or two more and it will be worth double what it is now offered for, and perhaps three times as much. There is yet older to force and we invite the attention of the readers of the Intelligencer to the propriety of huying land as early a possible—should they have any notion of taking up for the told me be wished to see me on Thursday, at the bars at George Wilson's; asked him what he force a beginning to the force and the force and the bars at George Wilson's; asked him what the force are the force and offered for, and perhaps three times as much. There is yet plenty of room, and we invite the attention of the readers place, of all others, for the young and rising generation.e on, then, "whilst the lamp holds out to burn."

Col. Benton arrived in our city a few days since, and it is possible that he will be invited to address our citizens on the "state of the Union," and also to place himself right upon the "record," which his former friends have obliterated, and placed him in a wrong position before the country, in the face of his previous declarations. We look forward with much solicitude for his forthcoming

We mentioned some time since that Major Rollins had been named as the K. N. B. R. candidate for Governorand in fact was nominated by some K. N. members of the Legislature, but until this week Major Rollins was mum as to whether he would accept or not—waiting, no doubt, and Col. Stewart as the Democratic candidate and predict, should the vote be brought out, from 15,000 to 20,000 majority for the latter. Senators Polk and Green, to it is said, will stump the State. Col. Stewart left this city on Friday for Southern Missouri to open the canvass. The election takes place in Angust.

Mr. John W. Minor, Senator from Schuyler county, Mo., has been appointed by Mr. Buchanan, General Mail Agent for Missouri and Iowa. The St. Louis appointments have not yet been made.

It is now reduced to a certainty that the Democracy have arried the State of Iowa-electing their entire State ticket by not less than 2500 majority. In the countles heard om the Democrats have gained on last full's election 7900 greatly increase the Democratic vote. Hurran for little use, as it was bent; he then called for a case lows. Nearly every one of the killed received from two to three death shots; the spilt open heads and dissevered limbs bore fearful testimony of the tomahawk, even after life had fled. A large number of cattle were shot and left undisturbed upon the ground. Among the missing are Mrs. Thatcher, Joseph Howes, Sardis Howes, daughter of T. It is doubtful, whether in the history of Indian warfare a greater or more unprovoked outrage has ever been committed than the present, and it looks as though it were the prestige of a general Indian warfare. Should this be, it will prove their last struggle east of the Missouri, for the avenging arm of the white man will destroy the last remnant of their race.

remnant of their race.

One would suppose this outbreak would necessarily check emigration to the North-west of the State, but as long as the spirit of adventure is rife among our people, so long it will continue unchecked; and at this present time, as many emigrants have passed through this place to settle on the field of blood, as lately fell there.

JOHN GARAGHTY."

As there are a great may Pennsylvanians now in that country, and this letter gives the names of those killed and missing, it will no doubt be eagerly sought for. The Lancaster party are destined, we understand, for that region where the murders have been committed, but no fears need be apprehended by their friends, as the settlers will have completely routed the red skins before they arrive .have completely rotted the red skins before they arrive.—

A war of extermination is now destined to reign throughout the whole North-west, and nothing can check the
avenging arm until the last of the red men falls before it.

This war is inevitable, and the work has already comnenced. It is estimated that there are some 200 or 300
warriors in and around Spirit Lake, who are desperate and will fight to the last, but their days are numbered. Alas

rotten, and it is thought a few days will entirely break it up. We hope so.

The Norcross Murder--McKim found Guilty and Sentenced. HOLLIDAYSBURG, Pa., May. 8.
The jury in the case of D. Stringer McKim, charged with the murder of Norcross, at Al-

This morning McKim was sentenced to be hung. He strongly protested before the court his entire innocence, and asserted that his conviction had been produced unfairly, and

The Allegheny County Murder. Charlotte Jones, the young woman suspeced of having recently murdered her uncle and aunt Wilson, in Elizabeth township, Allegheny county, has been arrested, together with her reputed husband, Henry Fife, and two men named Stewart and Gardner. On being taken before a magistrate, at Monongahela City, she made a statement to the effect that on Tuursday she had taken the boat at that point and went to Elizabeth; from thence, on foot, to McKeesport, where she in company with Henry Fife and Monroe Stewart, put up at Wolff's tavern; that night the two men went off, and returned before morning, saying that they "were flush of funds, and had plenty to that she observed Fife's hand spree on; covered with blood, which he accounted for by saying that his nose had been bleeding; that they immediately took her to a tavern on the Youghogany river, and she saw no more of

Subsequently she underwent a second examination, and gave an account of about all she new in regard to the affair. She implicated in addition to Fife and Stewart two others-one her own brotherand T. Gardner. She stated that the parties took from the cabin a considerable sum of

money, seventy-five cents of which had been given to her. On examining her person, a small "bull eye" watch was found which has been recognized as belonging to Wilson.

In the meantime, Fife and Stewart, who were stopping at Wolff's tavern, in McKeesport, were arrested about noon on Friday, a large crowd having surrounded the house, and were gathered there when officer Patter-

son arrived and took the two into custody. When arrested, Fife was in bed. On the skirt of his coat were found spots of blood, which, from appearances, he had attempted ed Monongahela City, and addressed to Mon-roe Stewart, in which she expressed a regard for Stewart, because he was such a "devilish fellow," and desired to see him and have a 'great time." On Saturday evening Charlotte Jones made a statement before the Mayor of Pittsburg. implicating her brother, William Jones, and a man named James Williams, with a long story about the whereabouts of herself, Fife and Stewart, on the night of the murder .-

Stewart first threw her down and choked her, then stamped on her head with the heel of his boot; he then called to Fife for his knife. he said it was no

REAPING MACHINES.

FARMERS of Lancaster County, who are in want of a strong, well made, reliable REAPING and MOWING MACHINE, will find it greatly to their interest to get one of
ATKINS' SELF-RAKING REAPER AND MOWER.
These Machines have met with unprecedented success, and
given full satisfaction to those using them; and the proprietor has spared neither pains nor expense in adding improvements that make them decidedly the most desirable
article in this country. With the improvements now made
they are the best combined theaper and Mower in use, having a knile that does not choke; and while they are a great they are the best combined heaper and while they are a great labor saver, are also a great Grain-saver, relieving one of the intolerable labor of Raking, and doing it so much better as to save one or two hands in binding.

They can be adapted to cut all kinds of Grain or Grass, and are very light of Draft. Nothing but the very best materials are used, in their construction, and each machine is driven by steam-power before leaving the Shop to see that every thing is right.

We have a large number of recommendations from Farmers who have them in use; and knowing the machines to act as they are recommended, have no hesitation in warranting them to give entire satisfaction. If they do not please after trish, they can be returned. Call and see for yourselves.
