In all cases where a purgative temedy is required, I confidently recommend these Pills to the public, as superior to any other I have ever found. They are surfer in their operation, and perfectly asfe-qualities which make them an invaluable article for public use. True, inhalation is a local remedy, nevertheless it acts constitutionaily, and with more power and c-rtainty than remedies administered by the stomach. The inhalstion of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible is the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully propared and judiciously administered throngh the lungs, should produce the most happy results During eighteen years' practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is no longer a fatal disease. E. LESS WIIALEBJNE SKIRTS.—We take pleasure in again introducing our Improved Semiless Skirt, as be-ing the most acceptable and reliable article in market: we are aware that many new styles called improvements are before the public, such as India Rubber, Gutta Percha, Rattan, &c. all of which we have signification of the state tecommend them, as we have experimented with and tested them all—(most of them two years since), submitting them to the judgment of competent ladies to deride upon their merits, and have found them from actual use, to be in all important respects, decidedly inferior to our properly properly

to the judgment of competent ladies to decide upon their merits, and have found them from actual use, to be in all important respects, decidedly inferior to our properly pre-pared Whalebone, which has been expressed from all parts of the country entire satisfaction; and we have the more positive evidence from our own large retail trade, amount-ing to many dozen per day. Therefore we confidently recommend our Skirts to be the least objectionable now in use: possessing many advantages found in mo other Skirt, the most important of which is our series of desite Cords at the bottom, made from the only material that can be used, that will recover its place when pressed out of shape, will not roll or curl, is not affected by heat or cold, and can be washed without injury. These cords at the bottom, in-stend of bones, which are exceedingly awkward and incon-venient, with our own prepared bonnes above and a fabric manufactured by ourselves expressly for our goods. In our estimation and the estimation of thousands who have used them, produces a Skirts and the only Skirt equally adapted to the parlor, the street, and the crowd, giving a proper, graceful and elegant form to a Ladies' dress. Light, plia-ble, easily adjusted and in every respect a complete article, is stamped E. & J. Holmes' Improved Seamless Whalebone Skirt, and are for sale at 99 Market Street, Philadelphia, and in the principal Jobbing Houses in New York and Beston. E. & J. HOLMES & CO. BOSTON, Feb. 1, 1857.
