For the Intelligencer. THOUGHTS. BY MILLER D. EVANS. Spring, arrayed in regal beauty, Cheers our breasts with winning smiles; Chases gloom with rays of pleasure, Frees us from grim sorrow's wiles. Where the Conestors murmurs Sighs and sings thro' Weaver's grove-

There, at twilight, oft' I wander, Dreaming, thinking, as I rove. Dreaming of the happy May-day, Years ago spent by the stream; Of one form the gayest, fairest, Chosen for the day our Queen. Vale and glen e'en now are echoing Youthful voices rich with glee; Music o'er the waters stealing, Floating 'cross the greening lea. Fancy paints the glowing Tableaux, Memory brings the actors near ; Love points out the chosen idol. Hope removes the anxious fear. Dreaming still, I breath the story,

Won by pretty Lizzie Lee. But, alas! I'm only dreaming, Spring-time brings no joy to me; May-day banners, gaily streaming, Tell me of lost Lizzie Lee. Sleeping in the lonely church yard, Zephyrs, soft are gently singing Requiems over Lizzie's grave.

How my heart was won from me-

Won by beauty, pure and holy-

[From "The States.]" The Comet of June 16, 1857.

Morgantown, May 15.

Geology teaches us that there have been three great eras when the surface of the earth has undergone changes such as might have resulted from a universal deluge, effected, perhaps, by the collision of comets with the earth, giving a new direction to its rotary motion, or making it revolve around a new axis.

Geology teaches, as plainly as anything in Holy Writ, that the seas have thrice forsaken their beds, and, by the universal rushing of the waters to a new equator, have overwhelmed continents, the abode of men and animals.

Now, however, men may differ in regard to the Mosaic history of the flood, as to whether it ever took place in the manner in which it is literally set forth in the Bible, and however they may ridicule the probable or possible contact of a comet with the earth on the 16th day of June next, one thing is certain that neither their sneers, ridicule, nor unbelief will affect the laws of geometry and motion nor the mechanism of the universe. What has been, may be again; like causes produce like effects. If there have been three deluges, which at different eras have overwhelmed and destroyed ever vestige of the races of men and animals then on the surface of the earth, what astronomer or philosopher is prepared to show that there

will not be a fourth, a fifth, a sixth? Of 99 comets whose elements have been calculated by astronomers, 30 passed between the sun and Mercury, 23 between the orbits of Mercury and Venus, 21 between the orbits of Ceres and Jupiter.

It is not a well known fact that Biela's comet, whose diameter is nearly twice that of the earth passes so very near, that at the moment the centre of the comet is at the point nearest to the earth's path, the matter of the comet extends beyond that path, and a portion of it within it? This is the comet which it was predicted would come in collision with and destroy the earth on the 26th of November, 1832; but happily the comet anticipated the earth by passing the point were the fight was to come off on the 26th of October, so that either the astronomers were 32 days behind, or the comet 32 days before time.

It was the opinion of Dr. Whiston, the friend and successor of Newton, that the comet known as Halley's deluged the world in the time of Noah. This is the same comet which, in 1456 spread universal terror throughout Europe, inspiring the belief that it would destroy the earth, and that the day of judgement was at hand; to avert which awful doom, Pope Calixtus added to the Ava Maria the prayer, "Lord save us from the devil, the Turk and the comet."

Now, there are men in the world so hardened in sin, that they will say in regard to the predicted smash-up in 1832, that a miss is as good as a mile; and in regard to the one which so horribly frightened old Calixtus, that "it is of no sort of consequence, as it will not arrive at its perihelion again untill 1911," but let these sinners remember that there are other comets which are continually crossing the earth's path; and whether we shall escape the one of the 16th of June next, as luckilv as we did that of 1832, time may or may not unfold to us. The collision of the earth with comets at certain epochs is not only possible but unavoidable; and the writer of this article believes that all the deluges which the different strata of the earth prove to have taken place, (in an antiquity to be measured, perpaps, only by millions of years,) have taken place through cometary influences.

There is no doubt in the minds of most astronomers that the asteroids between the orbits of Mars and Jupiter are the fragments of a great planet, which, from some cause, has been burst asunder. If that cause was exterior, it must have been cometary, for there are no other bodies in our solar system whose orbits intersect those

of the planets. The fact is well known to astronomers, that the remarkable comet of 1770, which was found to revolve in moderate ellipse in a period of about five years, was thrown out of its orbit by the attractions of Jupiter and has not been heard of since. What the effect of the collision was to that planet it is impossible to state; for although no perceptible change took place in its motions, yet a change might have taken place in its auxiliary motion sufficient to have thrown its oceans from their beds, and to

overwhelm every inhabitant on its surface. There are a great many phenomena ascribed to the influence of comets; it is even the opinion of some that Sodom and Gomorrah were destroyed by one of these erratic visitors, molten with perhelion heat; ALPHA.

PENNSYLVANIA LEGISLATURE.

SESSION OF 1857.

List of the Principal Acts Passed.

The full list of Acts passed by the Legislature whose session has just closed, numbers nearly nine hundred. But a very large por-tion of these are of little importance, and refer to unimportant localities and special cases in the interior counties. Omitting these we still have a list so voluminous that it would fill many columns. We have, therefore, at considerable pains gone over the list, selected the most important, condensed their titles and classified them so that the work accomplished by the Legislature can be seen by the readers of the Bulletin in a more clear and intelligible shape than if we were to publish the complete list in the way that it is prepared for publication at Harrisburg.

SHULTZ & BROL, (successors to David Shultz.) Practical Hatters, No. 20½ North Queen St., opposite Michael's Hotel, Lancaster Pa. Manufacturers and Wholesale and Retail dealers in HATS, CAPS AND STRAW GOODS.

We are always prepared to supply the public with all the different Styles of Hats, of the best qualities and at such prices as to defy competition.

CAPS AND STRAW HATS.

Our assortment of Caps and Straw Hats is the largest best and most fashionable in the city.

We are also manufacturing the PATENT FLEXIBLE SILK HAT, which for beauty of finish, cannot be surpassed The improvement consists of a combination of principle to render the Silk Hat Band, after a slight wear, as soft and pleasant to the head as a soft Hat. The "Flexible Band combines the softness of the Felt Hat, with the beauty and dressy appearance of the Silk Hat, and frem its yielding nature, readily conforms to the shape of the head, thus avoiding in a very great measure, the trouble and inconvenience of conformator is embodied in the improvement.

All Hats sold at this establishment are made under our own supervision, and we warrant them to be what they are sold for. We respectfully invite the public to give us a call, as we keep the largest and most complete assortment of all articles in our line in the city of Lancaster.

FARM AT PRIVATE SALE .-- The A FARM AT PRIVATE SALE.—The subscriber offers a private sale, the well known farm, late the estate of Willsim Taggat i, deceased, situate part in Northumberland and part in Mortour counties, Pa., on the road leading from Milton to Danville, and within one-fourth of a mile of the C. W. and E. i. R., containing in all 277 Acres; about 105 or 110 Acres are heavy timedered land, principally took and Hickory. There is a large quantity of oak suitable for Ship Timber, and any amount of railread wood on the farm. The improvements are two good DWELLING HUUSES, and one large Bank Barn, bandsomely situated; the Chilispuaque Cresk running through the center of the farm, on which there is a fall of 6 feet 6 inches, suitable for a Saw or Grist Mill. There is also a fine young Apple and Peach Orchard of

of 14 mile.
The whole will be sold together, or in part, to suit purchasers.

The above property has lately been very much improved; within the last year 10,000 bushels of lime has been put

The above property has lately been very much improved; within the last year 10,000 bushels of lime has been put on it, and 2 tons of guano.

This property will divide in equal parts, either by the creek or by the public road. The terms will be made accommodating to suit purchasers, as but little of the money will be required for several years, unless convenient to those who may choose to purchase. Any person with a small sum to pay in cash, can make the balance out of the fimilier and wood, as the Cattawissa Railroad furnishes a cash market for all the wood that can be delivered. All the products of the farm will in that place pay better than in the city of Lancaster, in consequence of the markets, created by the iron and coal regions close by. After being cleared there will be 200 acres of good timothy meadow as can be found in the State. It will then be a first-rat grazing farm.

The subscriber will also sell on reasonable terms a small

Danville. This tract contains about 5 Acres of Timber, and the balance is well suited for raising grain and hay, and has all been limed within the last two years. The improvements are a good TWO-STORY HOUSE, in good condition, and a tolerable Log Barn, which with some improvement will be sufficient for the farm. There is also on it a good APPLE ORCHARD, and other Fruit Trees. This property is within three miles of the Sunbury and Erie railread, and two miles of the Catawissa railread. It is in a good neighborhood, and good markets, and convenient to the public schools.

Any person in Lancatser county degrous of purchasing. ent to the public schools.

Any person in Lancaster county desirous of purchasing, will please call on Mr. William Carpenter, who will furnish all necessary information or on the subscriber, near Milton. Northumberland coffity, Pa.

Terms will be made very accommodating.
