The Greatest Discovery of the Age.—It seldom occurs, that we notice, under any circumstances, patent medicines, pestorativet, or anything of the kind, for we have a prejudle against m st of them. But candor compels us to invite attention to the advertisement of Prof. Wood's Hair Restorative. We are too juvenile to require anything of the kind, but some instances of its use have come to our knowledge which almost assure us that it is a sovereign remedy against the hair becoming promaturely gray. It is not a "Hair Dye," but upon its application as directed, the effect is produced on the skin, which brings out the original native colored hair, without stiffness, and gives it a glossyand natural appearance. We have seen persons who have used it, and they are much pleased with it.—Missouri Republican.

GREAT DISCOVERY! ARTIFICIAL TEETH.

ITS ADVANTAGES, TESTIMONIALS, dc.

Professor BLAND, in announcing his important discovery of Cheoplastic process of Mounting Artificial Teeth, says that he feels assured that every one who, without prejudice, investigates it, must acknowledge that in offering a method so simple and universally practicable, whereby the uncertainty, delay, risk and insecurity, common to the process in general use are avoided, the discoverer has rendered an important service to the profession, and that a full and fair trial of this process will bear out the assertion that its destined to make a great change in the department of

and fair trial of this process will bear out the assertion that it is destined to make a great change in the department of Mechanical Dentistry. He claims for the Cheoplastic process the following, among other

ADVANTAGES:

1. It secures an ebsolutely accurate fit to the plaster cast, and by consequence, to the mouth where the cast and impression are correctly taken. Mouths of greatest hardness, irregularity and size are fitted with the same case and as perfect certainty as smaller, more even and softer once.—Pieces thus made do not require time to insure their firm retention; but soften from the first insertion with a degree of firmness that few swaged plates ever acquire?

2. Repairs or alterations, rendered necessary from accident or mistake, can be expeditiously made with no risk to the piece and without leaving any trace of such alteration.

risk to the piece and without leaving any trace of such alteration.

3. Single teeth or blocks can be very easily removed from a plate, uninjured, and remounted a second, third or fourth time. It is unnecessary to specify the cases in which this property, which I regard as altogether peculiar to my process, will prove useful.

4. It offers peculiar advantages in many cases of correcting irregularities of the dental arch.

5. The natural conformation of the mouth can be accurately copied on the lingual side of the plate, want of which, in nearly all swayed plates, interferes with the correct articulation of certain words. This, as well as the filling out, in places where there is loss of structure, or where necessary to restore the fullness of the face, can be done with great facility.

6. As no spaces are left for the lodgment of food or the secretions, this work is remarkable for its cleanliness.—A property which it retains unimpaired as long as it is worn.

The qualities always anymerstal strongly recommend my and the property which it retains unimpaired as long as it is worn.

TESTIMONIALS.

LETTER FRON PROF. AUSTIN, OF THE BALTIMORE COLLEGE OF DENTAL SURGERY.

Dr. A. A. BLAND-Dear Sir-The readers of the January Nos. of the "Journal," News Letter and Recorder are aware of the favorable opinion I have formed of your new process. My experience since writing those communications confirms me in the views there expressed. Your livention must share the fate of every other, in blundering awkwardness. In fact, did you, claim for it that it required no tact or practice to make perfect, I should condemn your process as calculated to degrade the profession by lessening the premium on experience and artistic excellence. But I unhesitatingly say, that no moderately skillful operator, who gives it a fair trial, can feel his resources complete without this addition. I will say further, that I think it is destined to work a material alteration in the usual routine of the Laboratory.

The case with which a large class of cases may be perfectly fitted, that, by the process of swaging, require an unusual amount of time, and then only with approximate results: the general superior accuracy of fit; the time saved by dispensing with or shortening cortain tedious details: the case and safety of ropal; the simplicity of the apparatus required: the cleanliness, comfort and stability of the work done—are among the advantages of your process which are combined in no other known to me; and in consideration of which, I venture to predict for it, not with standing the variety of prejudices you may have to contend with, a very general adoption.

Very sincerely yours.

Cheoplastic Process or Mounting Teeth.—The above method of mounting artificial teeth, is attracting considerable attention, and has already been adopted by many practitioners.

Hitherto we have refrained from expressing our opinion with regard to its comparative merits. Indeed we determined not to do so, until we had the fullest opportunity of Judging of its practical value and advantages.

Of these we are now so thoroughly convinced, that we have no hesitation in saying, that this method of mounting artificial teeth, secures, when done with proper care and skill, greater accuracy of adaptation of the base to the medel, and more comfort and usefulness to the patient, than by any other mothod heretofore practiced. The process of mounting is also attended with much less labor and expense.

ARTIFICIAL TEETH,

recently patented by Dr. BLANDY, formerly

Professor in the Baltimore College of Dental Surgery, is certainly one of the greatest discoveries of the present age and to work a great change in Mechanical Dentistry.

The undersigned being the first in the State to introduce this process into practice, and which has been attended with great success, feer is no hesitation in recommending it as any perior to any other method of mounting Artificial Teeth heretofor known—the casting of the plates having great adamtage over the common custom of "swaging." The same accuracy in fitting, perfect cleanliness, and durability connot be obtained by any other process.

A RETIRED PHYSICIAN

Whose sauds of life have nearly run out, discovered while in the Kast Indies, a certain cure for Consumption, Asthma, Bronchitis, Coughs, Colds, and General Debility. The Remedy was discovered by him when his only child, a daughter was given up to die. He had heard much of the wonderful restorative and healing qualities of preparations made from the East India Hemp, and the thought occurred to him that he might make a remedy for his child. He studied hard and succeeded in realizing his wishes. His child was cured, and is now alive and well. He has since administered the wonderful remedy to thousands of sufferers in all parts of the world, and he has never failed in making them completely healthy and happy. Wishing to do as much good as possible, he will send to such of his afflicted fellow beings as request it, this receipe, with full and explicit directions for making it up, and successfully using it. He requires each applied to the payment of this advertisement. Address

Dr. H. JAMES, No. 19 Grand st., Jersey City, N. J.
P. S.—There are persons who pretend to prepare ror sale the "Extract of Cannabis Indica" from Dr. H. James' Recipe, and who profess to be his AGENTS. All such persons are imposters. Dr. H. James' sole object is to benefit the world, and not to make money. He has no agents who prepare his medicines from the recipe so as to sell it at a profit. The cost of importing the Bast India Hemp alone being too great to admit of a pecuniary speculation in the genuine remedy. The imitations are probably compounded of molasses and a pernicious drug or two costing a few cents. [my 263 m 19 A RETIRED PHYSICIAN

varied branches. These pictures are durable, susceptible of beautiful and life-like coloring, can easily be seen in any light and when made by experienced operators, combine many beautiful effects. The Anhorotypes unde at this Gallery are characterized by strength, depth of tone, brilliancy, positions artistic, natural coloring and beauty of finish, forming a gem possessing rare merit, and which defices all competition to equal.

Persons having childron whose likenesses they have herefolore been unable to obtain, have only to call at my immense Sky Light Gallery, where they can be taken in ONE SECOND, and a satisfactory picture nearrounted.

Staken on 1RON and presenting the same appearance as Ambrotypes, can be inserted in Lockets, Breastpins, Rings or any style of cases known.

The great durability of a good Daguerreotype, has been acknowledged by every one, and when made rightly is the prettiest picture known. Having every facility for practising this beautiful art, either in CRAYON OR STEREO-SCOPE, the public are requested to examine specimens on a new and improved style.

Are curing the Sick to an extent never before known of any Medicine.

INVALIDS, READ AND JUDGE FOR YOURSELVER JULES HAUEL, Esc., the well known perfumer, of Chestnut Street, Philadelphia, whose choice products are found at almost every tollet, eays:
"I am happy to say of your CATRARTIC PILLS, that I have found them a better family medicine, for common use, than any other within my knowledge. Many of my friends have realized marked benefits from them, and coincide with me in believing that they possess extraordinary rirtues for driving out diseases and curing the side. They are not only effectual, but sais and pleasant to be taken—qualities which must make them valued by the public when they are known."

The venerable Chancellor WARDLAW writes from Ral-

when they are known."

The venerable Chancellor WARDLAW writes from Baltimore, 15th April, 1854:

Da. J. C. Avra — Sir: I have taken your Fills with creat benefit, for the listlessmest, languor, loss of appeties, and Bilious headache, which has of late years overtaken ne in the spring. A few does of your Pills cured me. I have used your Cherry Pectoral many years in my family for coughs and colds with unfailling success. You make medicines which cure; and I feel it a pleasure to commend you for the good you have done and are doing."

JOHN F. BRATTIN. JOHN F. BEATTY, Esq., Sec. of the Penn. Railroad Co.,

says: "Pa. R. R. Office, Philadelphia, Dos. 13, 1833.
"Sir: I take pleasure in adding my testimony to the efficacy of your medicines, having derived very material benefit from the use of both your Psectoral and Catharde Pills. I am never without them in my family, nor shall? ever consent to be, while my means will procure them."

The widely renowned S. S. STEVENS, M. D., of Wentworth, N. H., writes:

"Having used your Cathabric Fills in my practice, I certify from experience that they are an invaluable purgative. In cases of disordered functions of the liver, causing headache, indigestion, costiveness, and the great variety of diseases that follow, they are a surer remedy than any other. In all cases where a purgaive remedy a required, I confidently recummend these Fills to the public, as superior to any other I have ever found. They are sure in their operation, and perfectly safe—qualities which make them an invaluable article for public use. I have for many years known your Casery Pecteral as the best Cough medicine in the world; and these Fills are in no wise inferior to that admirable preparation for the treatment of diseases."

"Acton, Ma, Nov. 25, 1852.

wise inferior to that admirable preparation for the treatment of diseases.

"Da. J. C. Ayza — Dear Sir: I have been afflicted from my birth with scrofula in its worst form, and now, after twenty years' trial, and an untold of amount of suffering, have been completely cured in a few weeks by your Fills. With what feelings of rejoicing I write can only be imagined when you realize what I have suffared, and how long.

"Never until now have I been free from this loathsome disease in some shape. At times it attacked my eyes, and made me almost blind, besides the unendurable pain; at others it settled in the scalp of my head, and destroyed my hair, and has kept me parity bald all my days; sometimes it came out in my face, and kept it for months a raw sore "About nine weeks ago I commenced taking your Catherite Pills, and now am entirely free from the complaint. My eyes are well, my skin is fair, and my hair has commenced a healthy growth; all of which makes me feel already a new person.

"Hoping this statement may be the means of conveying information that shall do good to others, I am, with every sentiment of gratitude,

"ARIA RICKER."

"I have known the above named Maria Elcker from

CAPT. JOEL PRATT, of the ship Marion, writes from Boston, 20th April, 1854:
"Your Pills have cured me from a billous attack which arose from derangement of the Liver, which had become very serious. I had falled of any relief by my Physician, and from every remedy I could try; but a few doses of your Pills have completely restored me to health. I have given them to my children for worms, with the best effects. They were promptly cured. I recommended them to a friend for costiveness, which had troubled him for months; he told me in a lew days they had cured him. You make the best medicine in the world; and I am free to say so."

You make the best medicine in the world; and I am free to say so."

Read this from the distinguished Solicitor of the Supreme Court, whose brilliant shillties have made him well known, not only in this but the neighboring States.

"New Orleans, Std. April, 1854.

"Sir: I have great satisfaction in assuring you that myself and family have been very much benefited by your medicines. My wife was cured, two years since, of a severs and dangerous cough, by your Cherar Precreat, and since then has enjoyed perfect health. My children have severat times been cured from attacks of the influence and Croup by it. It is an invaluable remedy for these complaints. Your Carnavar Prize have entirely cured me from a dyspepsia and contiveness, which has grown upon me for some years, indeed, this cure is much more important, from the fact that I had falled to get relief from the best Physicians which this section of the country affords, and from any of the numerous remedies I had taken.

"You seem to us, Doctor, like a providential blessing to our family, and you may well suppose we are not un mindful of it. Yours respectfully,

"Senate Chamber, Ohio, April 5td, 1854.

"Dr. J. C. Arga — Honored Sir: I have made a thorough trial of the Carnabre Plus, left me by your agent, and have been cured by them of the dreadful Rheumatian under which he found me suffering. The first does relieved me, and a few subsequent does have satirely removed the disease. I feel in better health now than for some years before, which I attribute entirely to the effect of your Cathastic Fills. Yours with great respect, LUCIUS B. METCALF." The above are all from persons who are publicly known where they reside, and who would not make these statements without a thorough conviction that they were true.

(HEAP CARPETS! Cheap Carpots! I.—
A new excitement has been created by the opening of a
t No. 304 Market street, first door above Ninth, south
side, PHILADELPHIA, which we have filled with a complete stock of CARPETS, OIL CLOTHS, &c.

Wool Carpets 37 and 50 cents, worth 62 and 75.

Tapestry \$1,20, worth \$1,50.

We intend to make this really the great Emporium of
Market street for CHEAP CARPETS. As we have discarded entirely the "old fashion high prices," which others
adhere to. Our friends from the country can buy from us

the sake of making sales, as is so often the case.
WINDOW SHADES.

As this is the only place where a general assortment of SHADES is kept, you will always find anything you want from 25 cents to \$10. We offer extraordinary inducements to all classes, and boldly assert that we do self cheaper than is usual among other dealers. We are satisfied with small profits, prefering to do a large business. Your patronage is respectfully solicited. EVANS & WALTON, Carpet Ware Rooms, 304 Market, one door above 9th, soith side.

J. B. WALTON. CHARLES' LONDON CORDIAL GIN IS shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are noxious mixtures made here in imitation of

it.

It is a delicious tonic beverage, by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, Epilepsy, &c.

Dr. VALENTINE MOTT, of New York, in a letter to the proprietor says:

CHARLES LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poissons called "London Cordial Gin"—to avoid them buy only "CHARLES." Reject any other offered to you as you value your health. Fire one dollar for quarts, Fity cents for pints.
