TONICS WON'T DO!—They never did do more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cause of all ague and billious diseases is the atmospheric poison called Misama or Malaria. Neutralize this poison by its Natural Antidote, and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this Autidote to Malaria. and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York. to this effect, is attached to every bottle; therefore if it does no good it can do no harm. This is more than can be said of Quinine. Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

Georgarowa. Ohio. March 18, 1856.

JAS. A. RHODES, Eeq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late hast year and the difficulty in getting any one to try it was greatly increased from the the fact that a remedy had been introduced which was growing in favor with the public. as being better than using Quinine,—not knowing I presume that the remedy they used to escape taking Quinine, contained the Drug Itself!

This remedy, (known as "Smith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often return with remewed vicor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your cure. The following is the result:

These persons took your "Cure," all of which were cases of "Quotidian Intermittent Fever," of many weeks standing They had tried Quinlue, and other remedies, occasionally missing achili, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation for other and severer maladies. I did succeed in effecting a rudical cure of all three of

ted, break the chill, but after a period or two had elapsed would return.

I think there will be no difficulty now in giving to your "Cure" the advantage ground of any other remedy now in use here, &., &c. WILLIAM BUCKNER, M. D.

Bhode's Fever and Ague Cure, or Antidote to Malaria, the only harmless remedy in existence, is equally certain as a preventive, as a "Cure." Take it when you feel the chills coming, and you will never have a single one.

CONSUMPTION AND ALL DISEASES

ONSUMPTION AND ALL DISEASES
OF THE LUNGS AND THROAT are positively curable by inhalation, which conveys the remedies to the eavities in the lungs through the air plassegs, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the rough, crusses a fire and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that lone and energy so indispensable for the re-toratin of health. To be able to state confidently that Co-samption is curable by inhalating, is to me a source of un-tloyed pleasure. It is as much under the control of medical, treatment as any other formidable disease; ninety out "of every hundred Cases can be cured in the first stages, and fifty per cent in the second; but in the third stage, it is impossible to save more than five per cent, for the lungs are so cut up by the disease as to bid defauce to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destribed to fill the Consumptives grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, from whom cometh every good and perfect gift, I am enabled to offer to the affilied a permanent and speedy cure in Consumption. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs free administered through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs free administered through the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inha

a limb may be amputated without the slightest pain; Inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administed through the lungs, should produce the most happy results? During eighteen years' practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable curse, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is no longer a fatal disease. My treatment of consumption is no longer a fatal disease. My treatment of consumption, and apply the proper remedies, arrayly being mistaken even in a single case, This familiarity in connection with certain pathological and microscopic discoveries, each, each me to relieve the lungs from the effects of contracted chests: to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system. Therefore we confidently recommend our Skirts to be the least objectionable now in use; possessing many advantages found in no other Skirt, the most important of which is our series of datic Cords at the bottom, made from the only material that can be used, that will recover its place when pressed out of shape, will not roll or curl. is not affected by heat or cold, and can be washed without injury. These cords at the bottom, instead of bones, which are exceedingly awkward and inconvenient, with our own prepared bones above and a fabric manufactured by ourselves expressly for our goods, in our estimation and the estimation of thousands who have used them, produces a Skirt and the only Skirt equally adapted to the parlor, the street, and the crowd, giving a proper, graceful and elegant form to a Ladles' dress, light, pliable, easily adjusted and in every respect a complete article. The public are cautioned against all initations or other goods called Seamless Skirts. Every genuine article is staniped E. & J. CUFFER NOT, WHEN A PERMANENT
Cure is guarauteed in all stages of SECRET DISEASES,
Selfabuse, Nervous Debility, Strictures, Gleets, Gravel,
Mercurial Rheumatism, Serofula, Pains in the Ankles and
Bones, Diseases of the Throat, Nose and Eyes, Ulcers upon

case, recovery is certain, and in a shorter time than a permanent cpre could be effected by any other treatment, even
after the skill of the most eminent physicians had failed,
and the disease resisted all other means of cure. The remedies are free from odor, causing neither sickness nor inconvenience, and without mercury or balsam. During
twenty years' practice. I have restored to health over eventeen thousand patients, who were suffering under the
worst forms of all the above mentioned diseases, which
guarantees me in promising a perfect and most speedy
cure. Secret diseases are the greatest enomies to health
and happiness, as they are the first cause of consumption,
scrofula, &c., and should be a terror to all nations on earth;
for the, disease is becoming so common, and treatment so
little understood, that a permanent cure is scarcely ever
effected, as a majority of the cases fall into the hands of
incompetent persons, who not only fail to cure the malady,
but ruin the constitution with corresive sublimate—a
dangerous poison, a preparation of mercury—which, with
the remains of disease in the system, produces many of the
above named affections, which finally terminate in con
sumption, and frequently a rapid one; but should it not
cause death speedily, and the victim to disease marries, the
disease is then conveyed from the parent to the children,
causing them to come into the world with scrufula, affections of the skin, eyes, throat, &c., and again terminates in
consumption, and concerns its victim to an untimely grave,
between the ages of six months and thirty five years.—

Patent Ambrotypes.—The subscribers having purchased the exclusive right of Lancaster city, are now enabled to offer to the public a New STILE OF PRITURES, far exceeding, in beauty and durability, anything ever be fore made. These pictures are not reversed, (as daguerreotypes areand may be seen in anylight. They also possess the rare property of being IMPERISHABLE; being hermetically sealed between glass plates, which is secured by Letters Patent, in the United States, Great Britain and France, and practised in Lancaster city by T. & W. CUMMINGS, only, over Spresher & Bro.'s New Store, North Queen st., Lancaster.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrolos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages; it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of glass, with the Slack varnish in immediate contact with the Picture—buch are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE STERESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life. Citizens and Straugers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are assured of polite attention.
