CARPETS.

A GREAT DISCOVERY! ABTIFICIAL TEETH.

ITS ADVANTAGES, TESTINONIALS, de.

ARTIFICIAL TEETH.

ITS ADVANTAGES, TESTIMONIALS, dr.

Professor BLAVDY, in announding his important discovery of Cheoplastic process of Mon thing Artificial Teeth, says that he feels assured that every one who, without prefudice, investigates it, must acknowledge that in offering a method so sim his and universally practicable, whereby the uncertainty, delay, risk and insecurity, common to the process in general use are avoided, the discoverer has rendered an important service to the profession, and that a full and fair trial of this process will bear out the assertion that it is destined to make a great chance in the department of Mechanical Dentistry. He claims for the Cheoplastic process the following, among other

ADVANTAGES.

It secures an absolutely accurate fit to the plaster cast, and by consequence, to the mouth where the cast and impression are correctly taken. Months of greatest hardness, irregularity and size are fitted with the same case and as perfect certainty as smaller, more even and softer ones.—Pieces thus made do not require time to insure their firm retention; but adhers from the first insertion with a degree of firmness that few swaged plate ever acquire.

2. Repairs or alterations, rendered necessary from accident or mistake, can be expeditiously made with no risk to the plees and without leaving any trace of such alteration.

3. Single teeth or blocks can be very easily removed from

risk to the piece and without leaving any trace of such alteration.

3. Single testh or blocks can be very easily removed from a plate, uninjured, and remounted a second, third or fourth time. It is unnecessary to specify the cases in which this property, which I regard as altogether peculiar to my process, will prove useful.

4. It offers peculiar advantages in many cases of correcting irregularities of the dental arch.

5. The natural conformation of the mouth can be accurately copied on the lingual side of the plate, want of which, in nearly all swayed plates, interferes with the correct articulation of certain words. This, as well as the filling out, in places where there is loss of structure, or where necessary to restore the fullness of the face, can be done with great facility.

6. As no spaces are left for the lodgment of food or the secretions, this work is remarkable for its cleanliness.—A property which it retains unimpaired as long as it is worn.

The qualities above enumerated strongly recommend as long.

worn.

The qualities above enumerated strongly recommend my process to both operator and patient. As to its strength, durability and beauty, I challenge for it a comparison with any known process for mounting artificial teeth.

I do not claim for it that it supplies the place of skill, or puts the bungler on a par with the expert. I should take no pride in the discovery of any such kreding asstem. Work done by Cheoplasty must bear its marks, distinguishing between the master hand and the apprentice.—When I speak of its capabilities, I necessarily refer to such as are developed in the hands of those who know how to use it.

cheel Stauffer and Wife, of Manneam townsnip, and on the eleventh day of May, 1857, file in the Office of the Prothop otary of the said Court, his Account of the said Estate:

N

LETTER FROM PROF. MATNARD, OF THE BALTIMORE COLLEGE OF DENRAL STRGERY.

WASHINGTON, D. C., March 6th, 1857.

MY DEAR DOCTOR:—In reply to your inquiries, I have much pleasure in saying that Prof. Austen has explained to me your new process of mounting teeth, and the adaptability of the metals you use to cases of regulating teeth of young persons, and that I am convinced your invention will prove of immense benefit to all Dentists who make proper use of it, and will be more than equally advantageous to their patients.

Very truly, yours,

EDWARD MAYNARD.

N. Y. New York, March 30, 1857.

DEAR SIR:—I consider the advantages to be derived from the adoption of your method of mounting artificial teeth to be as follows:

1st. To the patient perfect purity and cleanliness, equal in this respect to Allen's continuous gum work, and superior to every other style of mounting artificial teeth.

2d. A perfection o adaptation to be realized by no other method.

2d. A perfection o adaptation to be realized by no other method.

3d. Great durability—less likely to break, more easily mended when broken.

3th. Greater comfort, utility and security than can be attained in any other manner.

To the dentist your method presents the following advantages:

1st. Perfect security and relief from anxiety as to uttimate results; there being no shrinking, no plate springing, no over-beating or cracking of teeth, and a perfect fit to the original plaster cast in every instance. If this last result can be obtained by any other method, I am ignorant of it. As soon as the materials are at hand, I shall proceed to adopt the encoplastic process, to the exclusion of all others. Trusting you may reap abundant remuneration for your labor and services.

I remain yours, very truly,

Dr. A. A. Blandy. CHAS. W. BALLARD, D. D. S.

Dr. A. A. BLANDY. CHAS. W. BALLARD, D. D. S.

LETTER FROM WM. H. DWINELLE, PROMINENT DENTIST, N. Y.

NO. 3, BOND STRFET, NEW YORK, March 30, 1857.

Dr. C. A. HARRIS-My Dear SY:—In reply to your letter
of the 26th inst., inquiring whether I have adopted the
Cheoplastic process of mounting artificial teeth in my
perfice, and if so, what my opinion is as to its advantages, if any, over the methods herectfore in use I take great
pleasure in responding that, after fully testing it, I unhesitatingly accord to it the following advantages:
First.—The great beauty, simplicity and perfection of
the detail of the process which secures to you the closest
approximation to the end desired, at every stage of your
labor.

Becond.—Its great facility and the necessarily perfect
adaptation to the impression and consequent absolute accuracy of fit.

Third.—Its application under all circumstances.
Fourth.—Its non-corrosiveness, being equal to gold or
platina in this respect. Its tastelessness and cleanliness,
together with the remarkable ease and comfort with which
it is worn by the patient.

Fifth—The unusual facility which it gives the operator
to restore the mouth and face to their original form.

Sixth.—The eases and assfety with which it can be repaired.

Seventh.—Its advantages in requiring no additional ap-

paired.
Seventh.—Its advantages in requiring no additional apparatus in the laboratory of the Dentist, for its construction.
Dr. Blandy deserves great credit for his untiring labor in bringing about a result which our whole profession must sooner or later, endorse as one of the most valuable insprovements of the age.

Very truly, your friend, WM. H. DWINELLE, D. D. S.

Extract from the American Journal of Dental Science, April 1st, 1867.
CHEOPLESTIC PROCESS OF MOUNTING TEXTS.—The above method of mounting artificial teeth, is attracting considerable attention, and has already been adopted by many practitions.

Every variment, include in most of the mos

AYER'S

Are curing the Sick to an extent never before known of any Medicine.

INVALIDS, READ AND JUDGE FOR YOURSELVER JULES HAUEL, Esq., the well known parkiner, of Chestnut Street, Philadelphia, whose choice product are found at almost every toilet, says: "I am happy to say of your CATRARTIC PILLS, that I have found them a better family medicine, for communate, than any other within my knowledge. Many of my friend-have realized marked benefits from them, and coincide with me in believing that they possess extraordinary ritues for driving out diseases and curing the sick. They are not only effectual, but safe and pleasant to be taken—qualities which must make them valued by the public when they are known."

when they are known."

The venerable Chancellor WARDLAW writes from Baltimore, 15th April, 1854:

"Dr. J. C. Aver — Sur. I have taken your Pills with creal benefit, for the listlessness, languor, loss of appetits, and Bilious headache, which has of late years overtakes me in the spring. A few does of your Pills cured me. I have used your Cherry Pectoral many years in my family for coughs and colds with unfailing success. You make medicines which cure: and I feel it a pleasure to commend you for the good you have done and are doing."

JOHN F. BEATTY, Esq., Sec. of the Penn. Railroad Co., says:

says: "Pa. R. R. Often Philadelphia, Dec. 13, 1853.
"Sir: I take pleasure in adding my testimony to the efficacy of your medicines, having derived very material benefit from the use of both your Fectural and Catharite Pills. I am never without them in my family, nor shall I ever consent to be, while my means will procure them."

ever consent to be, while my means will procure them."

The widely renowned S. S. STEVENS, M. D., of Wentworth, N. H., writes:

"Having used your Carmante Pills in my practice, I certify from experience that they are an invaluable perpative. In cases of disordered functions of the liver, causing headache, indigestion, costiveness, and the great variety of diseases that follow, they are a surer remedy than any other. In all cases where a purgative remedy than any other. In all cases where a purgative remedy that are superior to any other I have ever end. They are sure in their operation, and perfectly safe—qualities which make them an invaluable article for public use. I have for many years known your Cherry Pectoral as the best Cough wedicine in the world; and these Pills are in an wise inferior to that admirable preparation for the treatment of diseases."

"Acton, Ma., Nov. 25, 1853.

Cours medicine in the word; and these Pills are in an wise inferior to that admirable preparation for the treatment of diseases."

"Ds. J. C. Avra — Dear Sir: I have been afflicted from my birth with *crofula in its worst form, and now, after; twenty years' trial, and an untold of amount of suffering, have been completely cured in a few weeks by your Pills. With what feelings of rejoiding I write can only be imagined when you realize what I have suffered, and how long.

"Never until now have I been free from this loathsome disease in some shape. At times it attacked my eyes, and made me almost blind, besides the unendurable pain; at others it settled in the scalp of my head, and destroyed my hair, and has kept me partly baid all my days; sometimes it came out in my face, and kept it for smoths a raw sore "About nine weeks ago I commenced taking your Cattartic Pills, and now am entirely free from the complaint. My eyes are well, my skin is fair, and my hair has commenced a healthy growth; all of which makes me feel already a new person.

"Hoping this statement may be the means of conveying information that shall do good to others, I am, with avery sentiment of gratitude, "Yours, &c.,"

"I have known the above named Maria Ricker from her childhood, and her statement is strictly true.

Overseer of the Portsmouth Manufacturing Co."

Cart. JOEL PRATT, of the ship Marion, writes from Bester of the Portsmouth Manufacturing Co."

Overseer of the Forumouth Mannfacturing Co."

Cart. JÖEL PRATT, of the ship Marion, writes from Boston, 20th April, 1854:

"Your Fills have cured me from a billous attack which arose from derangement of the Liver, which had become very serious. I had failed of any relief by my Physician, and from every remedy I could try; but a few doses of your Fills have completely restored me to health. I have given them to my children for worms, with the best effects. They were promptly cured. I recommended them to a friend for costiveness, which had troubled him for months; he told me in a few days they had cured him. You make the best medicine in the world; and I am free to say so."

Read this from the distinguished Solicitor of the Supreme Court, whose brilliant abilities have made him well known, not only in this but the neighboring States.

known, not only in this but the neighboring States.

"New Orlows, 5th April, 1854.

"Bir: I have great satisfaction in absuring you that myself and family have been very much benefited by your medicines. My wife was cured, two years since, of a severe and dangarous cough, by your Charsay Pacrosal, and since then has enjoyed perfect health. My children have several times been cured from attacks of the Influenza and Croup by it. It is an invaluable remedy for these complaints. Your Carrasave Pills have entirely cured me from a dyspepsia and contiveness, which has grown upon me for some years,—indeed, this cure is much more important, from the fact that I had failed to get relief from the best Physicians which this section of the country affords, and from any of the numerous remedies I had taken.

"You seem to us, Doctor, like a providential blessing tour family, and you may well suppose we are not unmindful of it.

"Senate Chamber, Ohio, April St.), 1854.

"Da. J. C. Ayra — Honored Sir. I have made a thorough trial of the Cathaber, Ohio, April 504, 1854.

"Da. J. C. Ayra — Honored Sir. I have made a thorough trial of the Cathaber Pills, left me by your agent, and have been cured by them of the dreadful Rheumatism under which he found me sufforing. The first does relieved me, and a few subsequent doses have emitrely removed the disease. I feel in better health now than for some years before, which I attribute endirely to the effects of your Cathabaric Fills. Yours with great respect, LUCIUS B. METCALF."

The above are all from persons who are publicly known where they reside, and who would not make these statements without a thorough conviction that they were true. Prepared by DR. J. C. AYER & CO.,

The superiority of Ketchum's Reaper and Mower having been fully established by more than six years of sovere practical trial, with more than TWELVE THOUSAND MACHINES which have been sold, it is now offered to the

practical trial, with more than TWELVE THOUSAND MACHINES which have been sold, it is now offered to the Farmer as without an equal, and as the only reliable machine for all kinds of grain and grass.

IMPROVEMENTS FOR 1857.

The improvements for 1867, are: perfecting and strengthening the gnard finger; adding a seat for the driver while reaping; increasing the length of the cutter bar; a supporting rod to the cutter bar while reaping; an adjustable wheel to the cutter bar of mouning, by which the draft is materially exsented both while cutting and in backing; a rear and side delivery for grain; an adjustable spring seat for the raker, together with other important improvements constituting a perfect machine, which is warranted to cut from ten to fifteen acres of grass or grain in a day as well as it can be done with a scythe or cradie. The experience of the past has furnished a remedy for all defects. The improvements have all been thoroughly tested in the harvest field and are therefore improvements in fact and not merely in theory. The price of the Mower alone is \$115, and of the combined Reaper and Mower \$135, delivered at any of the Raiiroads or Wharves of the city. Early orders respectfully solicited. Farmers are invited to call at our new Agricultural Warehouse and Seed Store and examine the improved machines as well as our other stock of Implements and seeds, all the castings, &c., for the last year's machines constantly on hand.

Pamphlets describing the Resper and Mower more fully can be had on application to BOAS, SPANGLER & CO., Star Agricultural Warehouse, No. 627 Market St., a few doors below 7th, Philad's.
