J. R. STAFFORD'S OLIV PREVENTING
A GREAT ELECTRICAL REAGEASES OF THE
AND CURLINGAT AND LUNGS. DIRECTIONS.—Applied and Inhaled, and is not Taken.
DIRECTIONS.—Apply by rubbing where pain or disease
exists: then cover the parts with a plaster made of ciled
silk, to which stitch a thin layer of cotton batting; then
cover the batting with thin muslin. Cotton or woollen
fannel may be used instead of the oiled silk plaster, but
the operations of the remedy will not be as speedy, nor as
effective. effective.

FOR INMALYO.—Place a saucer over a bowl of hot water, fand keep it hot;) pour into the saucer enough Olive Tar to cover the bottom; the apartment will soon be filled with its odor, affording to the patient an atmosphere impregnated with the delightful blended aroma of The Olive and of the Pine.

23. Renew the Olive Tar daily for Inheling by the above mathod. method.

Another Method of Inhaling is to put Olive Tar on the Oiled Silk Plaster, which being worn upon the chest, the best of the bodywill cause the Olive Tar to evaporate grad ually, and as it rises it will be inhaled. The Oiled Silk Plaster should be medicated with fresh Olive Tar every Plaster should be medicated with fresh Olive Tar every other day. In acute cases, or in those of long standing, both of the above methods of inhalation should be used. By adhering to the above direction, the very worst forms of diseases of the Throat or Lungs, if not speedily cured, will be greatly relieved; while temporary Colds, Sore Throats, Inflamed Lungs, Catarrh, Croup Coughs, &c., &c., will yield at once to its combined curative powers.

STAFFORD'S OLCYE. TAR softens and penetrates the skin; therefore in all all Chronic or active Inflammations it will be found highly beneficial, as it acts directly upon the Nerves, the Muscles and the Joints.

OLIVE TAR OINTMENT is made by mixing Olive Tar and Mutton Tallow in equal parts. This Ointment is a positive cure for all diseases of the skin.

**Fain cannot exist where Olive Tar or Olive Ointment is applied. Fain cannot exist where outer are of officers applied.

STAFFORD'S OLIVE TAR does not contain any mineral substances, nor any poisonous drug; the principal ingredients are Pitch Pine Tar, and oil of the Spanish Olive.

STAFFORD'S OLIVE TAR is manufactured by a process recently patented by Mr. J. R. Stafford, Practical Chemist, by which process all the Acid and Acrid properties contained in the substances forming this Compound are separated without the use of Chemicals.

Render, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speak for itself. There are two things about this herb that appear to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second that it should cure all kinds of humor. of humor.

In order to give some idea of the sudden rise, and great popularity of the discovery. I will state that in April, 1853, I peddied it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day—in Yerley to the wholessle Druggirts who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine great and wouderful 'virtues have been found in it that I never suspected. nover suspected.

The Author of the above volume is a graduate of one of the first medical schools in the United States, and having deviced a quarter of a century to the treatment of Syphilis and kindred disorders as a speciality, he has become possessed of most invaluable information in regard to the same, and is

ity, he has become possessed of most invaluable information in regard to the same, and is able to compress into vade mecum compass, the very quintessence of medical science on this important subject; as the result of the experience of the most eminent physicians in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the City of Phitsdelphia alone.

The practice of Dr. Hunter has long been, and still is, literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the community at large, through the medium of his "Medical Manual and Hand Book for the Afflicted."

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many clergymen, fathers, mothers, philantropists and humanitarisus, have most freely extended its circulation in all quatters where its powerful teachings would be likely to be instrumental in the moral purification and physical healing of multitudes of our people, among the young, volatile and indiscreet, otherwise the pride and flower of the nation. The author argues particularly, most strongly against

and indiscreet, otherwise the pide and flower of the nation. The author argues particularly, most strongly against every species of self defilement, and warns parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their ignorance of physiological laws and soxual impurities and irregularities, whether exhibited by precocious development or arising from the vicious and corrupting examples of their school mates or otherwise. To those who have been already ensuared to the "paths that take hold on hell," a clear and explicit way is shown by which they may secure a return of sound health, and a regeneration of the soul from its terrible pollution.

It is well known that thousands of victims are annually sacrificed at the shrine of quackery—especially those sufforing from Venereal or Syphilitic diseases—Strictures, Seminal Weakness, Nervous Debility, and the numerous maladies which spring directly or less remotely from the indulgence of carnal passions and secret violations of Nature.

In view of these facts and when it is also considered.

Intuigence of tanks passions and sective violations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die annually in the United States of Consumption—a large majority being the victims of the voluptions indiscretions of their progenitors, agreeably to the Scriptural enunciation, that the sins of the parents are visited upon, the children, even to the third and fourth generation.—The Author, imbused with sentiments of enlarged philanthropy, will scarcely be censured for any effort to restrain the vices of the age, by the humble instrumentality of his Medical Manual.

TONICS WON'T DOI—They never did do more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cause of all ague and billious diseases is the atmospheric poison called Miasma or Malaria. Neutralize this poison by its Natural Antidote, and all disease caused by it disappears at once. Rhodes' Fever and'Ague Cure is this Antidote to Mialaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to evary bottle; therefore if it dogs no good it can do no harm.

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

GEORGETOWN, Ohio, March 18, 1856.

JAS. A. RHODES, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they used to escape taking Quinine, contained the Drug Itself!

This remedy, (known as "Smith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often return with renewed vigor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your cure. The following is the result:

Three persons took your "Cure," all of which were cases of "QuotidianIntermittent Fever," of mnny weeks standing They had tried Quinine, and other remedes, occasionally missing a chill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation for other and severer maladies. I did succeed
