with Temporary Suffusions and Loss of Sight; Want of Attention, Great Mobility, Restlessness, with Horror of Society, Nothing is more Destrable to such Patients than Solitude, and Nothing they more Dread for Fear of Themselves; no Reposed from the Pare of Themselves; no

question to an other.

These symptoms, if allowed to go on—which this medicine invariably removes—soon follows LOSS OF POWER. YATULTY, AMD EPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—IN-BANITY AND CONSUMPTION! The records of the IN-BANE ASYLUMS, and the melancholy deaths by CONSUMPTION, bear ample witness to the truth of these assertions. In Lunatic Asylums the mot melancholy exhibition appears. The countenance is actually sodden and quite deatints—neither Mirth or Grief ever visits it.—Should a sound of the voice occur, it is rarely articulate.

"With woeful measures wan, despair "Debility is most terrible and has brought thousands to untimely graves, thus blasting the smibition of many noble youths. It can be cured by the use of this INFALLIBLE REMEDY.

The Author of the above
volume is a graduate of one of
the first medical schools in the
United States, and having devoled a quarter of a century to
the treatment of Syphilis and
kindred disorders as a speciality, he has become possessed
of most invaluable information
in regard to the same, and is
able to compress into vade mecum compass, the very
quintessence of medical science on this important subjects
as the result of the experience of the most eminent physiclans in Europe and America is thoroughly demonstrated
in his own highly successful practice in the treatment of
Philadelphia alone.
The practice of Dr. Huuter has long been and still is

Between the continuous and so cases in the City of Philadelphia alone.

The practice of Dr. Huuter has long been, and still is, literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the community at large, through the medium of his "Medical Manual and Hand Book for the Afflicted."

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many olergymen, fathers, mothers, phliantropiats and humanita. olergymen, fathern, mothers, phlinntropiets and humantirians, have most freely extended its circulation in all quarters where its powerful teachings would be likely to be
instrumental in the moral purification and physical healing of multitudes of our people, among the young, volatile
and indiscreet, otherwise the pride and flower of the nation.
The author argues particularly, most strongly against
every species of self defilement, and warns parents and
quardians, in searching terms, to guard the young of both
sexes from the terrible, consequences concomitant of their
ignorance of physiological laws and sexual impurities and
irregularities, whether exhibited by precocious development
or arising from the vicious and corrupting examples of
their school mates or otherw.so. To those who have been
already ensared to the "paths that take hold on
hall," a clear and explicit way is shown by which they may
secure a return of sound health, and a regeneration of the
soul from its terrible pollution.

It is well known that thousands of victime are annually
sacrificed at the shrine of quackery—especially those suf-

serficed at the shrine of quackery—especially those suf-foring from Veneral or Syphilitic disease—Strictures, Seminal Weakness, Nervous Debility, and the numerous seminal weakness, Nervous Debility, and the numerous thoughts of carnal passions and secret violations of Na-indulgence of carnal passions and secret violations of Na-

Indulgence of carnal passions and secret violations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die annually in the United States of Consumption—a large majority being the victimes of the voluptuous indiscretions of their progenitors, agreeably to the Scriptural enunciation, that the sins of the parents are visited upon the children, even to the third and fourth generation—The Author, imbued with sentiments of enlarged philanthropy, will scarcely be consured for any effort to restrain the vices of the age, by the humble instrumentality of his Medical Manual.

REAT REVOLUTION IN MEDICAL U SCIENCE. THE BEST THERAPEUTIC AGENT EVER INTRODUCED, Dr. DICKINSON'S MAGNETO ELECTRIC MACHINE

MAGNETO ELECTRIC MACHINE

is exciting the most absorbing attention of the Machine.

Is exciting the most absorbing attention of the Medical Profession. and a large portion of the intelligent laymen of the land. It is now clearly demonstrated that the lancet, mercury, and all other internal "drug medication" may be laid aside with perfect safety to the patient and abiding benefit to posterity. Wherever these machines have been introduced, they excite the highest wonder and praise. The apparatus is adapted to prevent, relieve and cure every disease incident to humanity,—more particularly all those painful and formidable diseases which have for centuries laffled the profoundest learning and skill of Physicians. From whatever cause there may be an excess or deficiency of the action and the may be an excess or deficiency of the acids and alkaline secretions—the magnetic principles of the system are deranged, and can only be safely restored to their normal condition by an application of magneto-electricty, by means of DR. DICKINSON'S MAGNETO ELECTRIC MACHINE. This apparatus will positively prevent, and speedily relieve and cure Consumption. Serodia, Rheumatism, Palsies, Neuralgia, Spinal Diseases, and all other painful maladies, however hopeless and of long standing. They are eminently useful in all sexual and urinary disorders, particularly where the Constitution has been broken down and ruined by unnatural solitary habits, to which too many of the young of both sexes are so lamentably prone.

DR. DICKINSON'S MAGNETO ELECTRIC MACHINE

to lamentably prone.

DR. DICKINSON'S MAGNETO ELECTRIC MACHINE

DR. DICKINSON'S MAGNETO ELECTRIC MACHINE is without the dangerous complications of batteries and acids—which fact alone renders it superior to all others on the score of neatness, cleanliness, safety and utility. It is, in fact, a handsome parlor ornament; may be applied by a child; and will last a life time, to the great saving of Doctor's bills, &c.

PRICE OF THE MACHINE \$10.

TONICS WON'T DO!—They never did do more

than give temporary relief and they never will. It is
because they don't touch the cause of the disease. The
cause of all ague and billious diseases is the atmospheric
poison called Miasma or Malaria. Neutralize this poison by
its Natural Antidote, and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidots of Malaria, and moreover it is a perfectly harmless
middlane. The certificate of the celebrated chemist, J. R.
Chilton, of New York, to this effect, is attached to every
bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsenic, or anytonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter
just received from a Physician:

Geonagrows, Ohio. March 18, 1856.

JAS. A. RHODES, Esq.—Dear Sir: Yours of 2d inst. is
at hand. The Cure arrived late last year and the difficulty
in getting any one to try it was greatly increased from the
the fact that a remedy had been introduced which was
growing in favor with the public, as being better than using
Quinine,—not knowing I presume that the remedy they
used to escape taking Quinine, contained the Drug Itself!

This remedy, (known as "Smith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often
return with renewed vigor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your cure. The following is the result:

Three persons took your "Cure," all of which were cases
of "Quotidian Intermittent Fover," of many weeks standing
They had tried Quinine, and other remedies, occasionally
missing's chill, but it was, (as in all such cases,) slowly
wearing them out, and laying the foundation for other and
severer maladies. I did succeed in effecting a radical cure
of all three of t

rould return.

I think there will be no difficulty now in giving to your I'think there will be no uniounly now in giving to your "Cure" the advantage ground of any other remedy now in use here, &., &c. WILLIAM BUCKNER, M. D. Rhode's Fever and Ague Cure, or Antidote to Malaria, the only harmless remedy in existence, is equally certain as a preventire, as a "Cure." Take it when you feel the

ming, and you will never have a single one.

D. R. STAFFORD'S OLIVE TAR.

A GREAT ELECTRICAL REMEDY FOR PREVENTING
AND CURING ALL DISEASES OF THE
THROAT AND LUNGS.
Olive Tar is Applied and Inhaled, and is not Taken.
DIRECTIONS.—Apply by rubbing where pain or disease exists: then cover the parts with a plaster made of olled Silk, to which stitch a thin layer of cotton batting; then cover the batting with thin muslin. Cotton or woollen flanuel may be used instead of the olled silk plaster, but the operations of the remedy will not be as speedy, nor as effective. effective.

FOR INHALING.—Place a sancer over a bowl of hot water, (and keep it hot;) pour into the sancer enough Olive Tar to cover the bottom; the spartment will soon be filled with its odor, affording to the patient an atmosphere impregnated with the delightful blended aroma of

The Olive and of the Pine.

3. Renew the Olive Tar daily for Inhaling by the above method.

Renew the Olive Tar daily for Inhvling by the above method.

Another Method of Inhaling is to put Olive Tar on the Oiled Silk Plaster, which being worn upon the chest, the heat of the bodywill cause the Olive Tar to evaporate grad ually, and as it rises it will be inhaled. The Oiled Silk Plaster should be medicated with fresh Olive Tar every other day. In acute cases, or in those of long standing, both of the above methods of inhalation should be used.

By adhering to the above direction, the very worst forms of diseases of the Throat or Lungs, fin ot speedily cured, will be greatly relieved; while temporary Colds, Sore Throats, Inflamed Lungs, Catarth, Croup Coughs, &c., &c., will yield at once to its combined curative powers.

STAFFORD'S OLCVE TAR softens and penetrates the skin; therefore in all all Chronic or active Inflammations It will be found highly beneficial, as it acts directly upon the Nerves, the Muscles and the Johns.

OLIVE TAR OINTMENT is made by mixing Olive Tar and Mutton Tallow in equal parts. This Ointment is a positive cure for all diseases of the skin.

33 Pain cannot exist where Olive Tar or Olive Ointment is applied.

Bay Pain cannot exist where Olive lar or Olive Olithers is applied.

STAFFORD'S OLIVE TAR does not contain any mineral substances, nor any poisonous drug; the principal ingredients are Pitch Pine Tar, and oil of the Spanish Olive.

STAFFORD'S OLIVE TAR is manufactured by a process recently patented by Mr. J. R. Stafford, Practical Chemist, by which process all the Acid and Acrid properties contained in the substances forming this Compound are separated without the use of Chemicals.

Sold by H. A. Rockafield, No. 2 E. Orange st., only Agent in Lancaster.—Also, Wholesale and Retail, by the Stafford Olive Tar Company, 16 State street, New York, and Druggists generally.

The Atkine Self Raking Reaper and Mower for 1857,
1 S NOW READY AND ON HAND.
You will save money and labor and avoid injuring your horses by purchasing the Self Raker. We think we can satisfy you that this is by far the best machine in use, having more valuable improvements than can be claimed by any other. It positively is easy work for two horses to draw it, and at the same time rakes the grain ready for binding. This saves two men each day. It is not as dangerous to use as other machines are that require the man who does the raking to ride on it. One man will find it easy work to use this machine, and will easily cut and rake 12 to 15 acres every day. There is no back-breaking or hard work about it, either for the driver or horses. It cuts grass uncommonly well and very rapidly, and has no superior as a combined machine.

Some bad machines were put out 1sst season through bad management that did not work well, but the Atkins' Reapier always work astisfactorily when they are well built and properly put together. All the machines for this season are in perfect order.

EW PROCESS IN DENTISTRY.—
CHEOPASTIC PROCESS of mounting
ARTIFICIAL TEETH,
recently patented by Dr. BLANDY, formerly
Professor in the Baltimore College of Dental Surgery, is certainly one of the greatest discoveries of the presentage and destined to work a great change in Mechanical Dentistry.
The undersigned being the first in the State to introduce this process into practice, and which has been attended with great success, feels no hesitation in recommending it as superior to any other method of mounting Artificial Teeth heretofore known—the casting of the plates having great advantage over the common custom of "swaging." The same accuracy in fitting, perfect cleanliness, and durability connot be obtained by any other process.

C. J. SHUMBES' IMPROVED SEAM—
in again introducing our Improved Seamless Skirt, as being the most acceptable and reliable article in market: we are aware that many new styles called improvements are before the public, such as India Rubber. Gutta Percha, Rattan, &c. all of which we key if called for—but cannot recommend them, as we have experimented with and tested them all—(most of them two years since,) submitting them to the judgment of competent ladies to decide upon their merits, and have found them from actual use, to be in all important respects, decidedly inferior to our primerly are to the judgment of competent ladies to decide upon their merits, and have found them from actual use, to be in all important respects, decidedly inferior to our properly prepared Whalebone, which has been expressed from all parts of the country entire satisfaction; and we have the more positive evidence from our own large retail trade amounting to many dozen per day. Therefore we confidently recommend our Skirts to be the least objectionable now in use; possessing many advantages found in no other Skirt, the most important of which is our series of alastic Corts at the bottom, made from the only material that can be used, that will recover its plaze when pressed out of shape, will not roll or curl. is not affected by heat or cold, and can be washed without injury. These cords at the bottom, instead of bones, which are exceedingly swkward and inconvenient, with our own prepared bones shove and a fabric manufactured by ourselves expressly for our goods, in our estimation and the estimation of thousands who have used them, produces a Skirt and the only Skirt equally adapted to the parlor, the street, and the crowd giving a proper, graceful and elerant form to a Ladies' dress, light, pliable, easily adjusted and twerty respect a complete article. The public are cautioned against all initiations or other goods called Seamless Skirts. Every genuine article is stamped E. & J. Such as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness. Dimness of Vision with peculiar spots appearing before the eyes, Loss of sight, Waketulness, Dyspepsia, Liver Disease, Eruptions upon the face, Pain in the back and head, Pennale irregularities and all improper discharges from both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has haffled the skill of eminent, physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and free from usercury or balsam. During twenty years of practice, I have rescued from the jaws of Death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may placo themselves under my care, a perfect and most speedy cure. Secret diseases are the greatest enemies to healh, as they are the first cause of Consumption, Scrofula and many other diseases, and should be a terror to the human family. As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of iocompetent persons, who not only fail to cure the diseases but rain the coustigation, filling the umption.

sumption:
But should the dissass and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrofuls, Tetter, Ulcers, Eruptions and other affections of the Skin, Eyes, Throat and Lucgs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

SELF ABUSE is another formidable enemy to health, for nothing elso in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. If destroys the Nerrous system, rapidly wastes away the energies of life, canses mental derangement, prevents the proper development of the system, disquilifies for marriage, society, business, and all earthly happiness, and leaves the sufferer weeked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and speedy cure can be effected, and with the abandoament of ruinous practices my patients can be restored to robust, vigorous health.

The affilted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the mulky. The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions ruined by the vile compounds of quack doctors, or the equally poisonous nostrums vended as "Patent Medicines." I have carefully analyzed many of the so called Patent Medicines and find that nearly all of them contain Corresive Sublimate, which is one of the strongest preparations of mercury and a d-addy poison, which instead of curing the disease disables the system for life.

These fourths of the actual patent patents are the preparations of the contained of the contained of the disease of the contained of the con

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the materia medica and are equally as destitute of any knowledge of the human system, baving one object only in view, and that to make money, regardless of consequences.

TMPORTANT DISCOVERY.

L CONSUMPTION

AND ALL

DISEASES OF THE LUNGS AND THROAT DISEASES OF THE LUNGS AND THROAT ARE POSITIVELY

CURABLE BY INHALATION,

Which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy experioration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhabition, is to me a source of unsiloyed pieasure. It is snerry so indisjensable for the restoration of heatin. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unsiloped pieasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty percent in the second; but in the third stage it is impossible to save more than five percent, for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge which annually destroys interly-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumption. In all ages it has been the great enemy of life, for it sparces neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, from whom cometh every good and perfect gift. I am enabled to offer to the afficted a permanent and speedy cure in Consumption. The first cause of tuberless is from innurs blood and the immunity and the gifter.

nelp of that supreme being, from whom comet every good and perfect gift, I am enabled to offer to the afficted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weak-ened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the eavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy after inhaling remodies. True, inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours. a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results! During eighteen years practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable curse, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate cansumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of controtted chests; to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicince with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and edable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again.

SOAP! SOAP!! SOAP!!!--The undersystem of the City and County of Lancaster, that they have, at a great expense, purchased the exclusive right to the manufacture of a newly invented and patented.

LABOR SAVING SOAP, which, if used according to the directions accompanying each piece, will be found to exceed any thing of the kind ever introduced into this community.

In using this Soap, the laborious and painful process of rubbing and wearing out clothes and fingers on the wash-board is entirely obviated.

Clothes washed with this Soap need no boiling, which amounts to a saving of nearly the wages of a washerwounan. amounts to a saving of nearly the wages of a washer-woman.

Ladies taking in washing will find it greatly to their advantage in every point of view, to use our patent Soap. No dang r need be apprehended as to clothes being injured by using this Soap, as there is not an ingredient in it that has, the least tendency in that direction.

We have made arrangements with nearly all the principal Grocers in the city for the sale of it, and as soon as we can manufacture a sufficient quantity we shall take measures to supply Country Merchants. In the meantime, persons wishing the article can be supplied at the Manufactory, corner of Duke and Chestnut streets, Lancaster, Pa. Gaster, Pa.

Patent Ambrotypes.—The subscribers having purchased the exclusive right of Lancaster city, are now onabled to offer to the public a New STYLE OF PICTURES, far exceeding, in beauty and durability, anything ever be fore made. These pictures are not reversed, (as daguerreotypes areand may be seen in anylight. They also possess the rare property of being IMPERISHABLE, being hermetically sealed between glass plates, which is secured by Letters Patent, in the Unified States, Great Britain and France, and practised in Lancaster city by T. & W. CUMMINGS, only, over Sprecher & Bro.'s New Store, North Queen st., Lancaster.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrotos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages, it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of glass, with the Slack varnish in immediate contact with the Picture.—buch are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE STERESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life. Citizens and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are assured of polite attention.

in selecting good instruments of approved manufacture, and all the recent improvements pertaining to the Ambrotype and Daguerreotype.

\*\*MBROTYPES.\*\*

This beautiful process, which of late has taken such a hold on the picture loving community, is practised in all its varied branches. These pictures are durable, susceptible of beautiful and life-like coloring, can easily be seen in any light and when made by experienced operators, combine many beautiful effects. The Ambrotypes made at this Gallery are characterized by strength, depth of tone, brilliancy, positions artistic, natural coloring and beauty of finish, forming a gem possessing rare merit, and which defices all competition to equal.

Persons having children whose likenesses they have herstofore been unable to obtain, have only to call at my immense Sky Light Gallery, where they can be taken in ONE SECOND, and a satisfactory picture warranted.

\*\*MELAINOTYPES\*\*

\*\*taken on IRON and presenting the same appearance as Ambrotypes, can be inserted in Lockets. Breastpins, Rings or any style of cases known.

\*\*DAGUERREOTYPES\*\*

The great durability of a good Daguerreotype, has been acknowledged by every one, and when made rightly is the pretitest picture known. Having every facility for practising this beautiful art, either in CRAYON OR STEREO-SCOPE, the public are requested to examine specimens on a new and improved style.
