J. R. STAFFORD'S OLIVE TAR. GREAT ELECTRICAL REMEDY FOR DEVICE.

J. R. STAFFORD'S OLIVE TAR.
 A GREAT RELECTRICAL REMEDY FOR PREVENTING AND CURING ALL DISEASES OF THE THROAT AND LUNGS.
 Olive Tar is Applied and Inhaled, and is not Taken.
 DIRECTIONS.—Apply by rubbing where pain or disease exists: then cover the parts with a plaster made of olled Silk, to which sitch a thin layer of cotton batting; then cover the batting with thin muslin. Cotton or woollen flannel may be used instead of the olled silk plaster, but the operations of the remedy will not be as speedy, nor as effective.
 FOR INGALING.—Place a sancer over a bowl of hot water, (and keep it hot;) pour into the issueer enough Olive Tar to cover the botton; the spartment will soon be filed with its dor, affording to the patient an atmosphere impregna-ted with the delightful blended aroma of The Olive and of the Pine.
 Another Method of Inhaling is to nut Olive Tar on the

(19) Renew the Olive Tar daily for Inhaling by the above method. Another Method of Inhaling is to put Olive Tar on the Olded SUE Plaster, which being worn upon the check, the Ueat of the body will cause the Olive Tar or vaporate grad ually, and as it rises it will be inhaled. The Olied SUE Plaster should be medicated with fresh Olive Tar every other day. In acute cases, or in those of long standing, both of the above methods of inhalation should be used. By adhering to the above direction, the very worst forms of disease of the Throat or Langs, if not speedily cured, will be greatly relieved; while temporary Colds, Sore Throats, Inflaned Lungs, Catarth, Croup Coughs, &c., &c., will yield at once to its combined curative powers. STAFFORD'S OLOVE TAB softens and penetrates the skin; therefore in all all Chronic or active Inflammations it will be found highly beneficial, as it acts directly upon the Nerves, the Muscles and the Joints. OLIVE TAR OINTMENT is made by mixing Olive Tar and Mutton Tallow in equal parts. This Ontiment is a positive cure for all diseases of the skin. Applied.

I MPORTANT DISCOVERY CONSEMPTION DISEASES OF THE LUNGS AND THROAT

L CONSUMPTION AND ALL DISEASES OF THE LUNGS AND THROAT AND ALL DISEASES OF THE LUNGS AND THROAT CUNABLE BY INHALATION, Which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact, with the disease, nontralizes the tubercular matter, allays the cough, causes a free and easy expec-toration, heals the lungs, purifies the blood, imparts re-newed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unailoyed piesares. It is as such under the control of medical treatment as any other formidable disease; inhety out of every hundred cases can be cured in the first stages, and fifty per cost in the second; but in the third stage it is impossible to save more than five per cent, for the lungs are so cut up by the disease as to bid define to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the cuffering attanding this fords extraordinary relief to the suffering attanding this fords extraordinary relief to the suffering attanding this ford is extraordinary relief to the source of unamptive size. Truly the quiver of death has no arrow so fatal as Con-sumption. In all ages it has been the great enemy of like, for it sparse neither age nor sax, but sweeps of alike the belp of that Supreme Being, from whom cometh every good and perfect gift. I am enabled to offer to the afflicted as per-manent and speedy cure in Gonsumption. The first causes of tubercle sis from impure blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weak-ened vitality through the entire egister. Then surely it is more rational to expect greater good from medicines enter-ing the exities of the sure state afford medical restribus the solution is a local remedy, nevertheless if Pa. apr21 t[14] WATCHES, JEWELRY, & c. The inhalition of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by preathing foul air. Is not this positive evidence that proper remedies, carefully prepared and yudiciously administered through the lungs, should produce the most happy results? During sighteen years' practice, many thousands, suffering from diseases of the lungs and throat, bare been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully salifies me that consumption is no longer a fatal disease. My treatment of consumption is or ginal, and founded on long experience and a thorough investigation. My perfect acquisitance with the nature of tubercles, dc., enables me to distinguish, readily, the various forms of disease that simulate consumption and apply the longer, arally being mistaken even in a single case, This familitarity in connectue chesits: to enlarge the longs from the effects of contracted chest; to enlarge the lungs from the effects of contracted chest; to enlarge the lungs from the effects of contracted chest; to enlarge the lung store, the full directions sent to any part of the United States and Canedas by patients communicating their symptoms by letter. with the disease, hasteps the suberer into a rapid Con-sumption. But should the diseases and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetter, Ulcers, Eruptions and other affec-tions of the Skin, Pyes, Throat and Lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave. SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalouse of human diseases

"SLP AND SE is another formidable enemy to health, for nothing elss in the dread catalogue of human disesses causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffring down to an untimely grave. It destroys the Nerrous sys-tem, rapidly wastes away the energies of life, causes mental derangement, provents the proper development of the sys-tem, disqualifies for marriage, society, business, and all earthy happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and needy cure can be effected, and with the abandonasset of relevan praticute can be of restored to robust, vigorous health. The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and to be unwary sufferies that millions have their constitutions ruined by ail. TONICS WON'T DO -They never did do more Toxitcs won't Dol.-Thöy never did do more than give temporary rolef and they never will. It is because they don't touch the cause of the discuss. The cause of all ague and billious discasses is the atmospheric poison called Miasma or Malaria. Neutralize this poison by its Natural Antidote, and all discase caused by it disap-pears at once. Rhodes' Fever and Ague Cure is this Anti-dote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Ohliton, of New York, to this offect, is attached to every bottle; therefore if it does no good it can do no harm. bottle, therefore if it does no good it can do no harm. This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitu-tion and brings on Dumb Ague, which never allows a per-son to feel perfectly well for a single moment. In illustra-tion of these truths I annex some extracts from a letter inst received from a Physician: GEOBETOWN, Ohio, March 18, 1856. JAS. A. RHODES, Eaq.—Dear Sir: Yours of 2d inst. is at hand. The Oure arrived late last year and the difficulty. in getting any one to try it was greatly increased from the the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presame that the remedy they used to except taking Quinine, contained the Drug Itself! This remedy, (known as "Smith's Tonic,") would invari-bly break an Ague, but it did not cureit, as it would often return with renewed vigor. This one eircumstance I deem-ed in your favor, if I could institute a test comparison be-tween it and your cure. The following is the result: Three persons took your "Cure," all of which were cases of "QuotidinIntermittent Fover," of many weaks standing They had tried Quiniue, and other remedies, occasionally missing a chill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation for other and severor madules. I did succeed th effecting a radical cure of all three of these cases with your remedy, and they have "Smith's Tonic" had been used, and would, as before ta-ted, break the chill, but after a period or two had elapsed would return. I think there will be no difficulty now in giving to your, "Cure", the advantage orgund of any other remedy now in use here, 4, etc. WILLIAM BUCKNER, M. D. The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrodas, sign infying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corres-ponding size is secured with an indestructible cement, by by which the picture will retain its original brillancy for ages; it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any. light. The publics are cautioned against imitations made on single plates of glass, with the Slack varnish in immediate contact with the Picture.-buch are not permanent, as the varnish must crack and destroy the Picture. We think we can satisfy you that this is by far the best machine in use, having more valuable improvements than can be claimed by any other. It positively is easy work for two horses to draw it, and at the same time rakes the grain ready for binding. This saves two men each day. It is not as dan-gerous to use as other machines are that require the man who does the raking to ride on it. One man will find it easy work to use this machine, and will easily cut and rake 12 to 15 acres every day. There is no back-breaking or hard work about it, either for the driver or horses. It cuts grass uncommonly well and very rapidly, and has no superior as some bad machines. Some bad machines. Some bad machines. the provision of ASSETS, are made in conformity with the provisions of the Charter, in REAL ESTATE, MORTGAGES, GROUND RENTS, and such first class securities, as will always insure perfect security to the depositors, and which cannot fail to give permanency and stability to this old and well established Institution.

COAP : SOAP : : SOAP : : :--The under-Signed take this method of informing the citizens of the City and County of Lancaster, that they have, at a great expense, purchased the exclusive right to the manu-licture of a newly invented and patented LABOR SAVING SOAP, which, if used according to the directions accompanying each piece, will be found to exceed any thing of the kind ever introduced into this community.
 In using this Soap, the laborious and painful process of rubbing and wearing out clothes and fingers on the wash-baard is entirely obviated.
 Clothes washed with this Soap need no boiling, which amounts to a saving of nearly the wage of a washer-woma.
 Ladies taking in washing will find it greatly to their ad-vantage in every point of view, to use our patent Soap. No danger need be apprehended as to clothes being in-jured by using this Soap, as there is not an ingredient in it that has the least tendency in that direction.
 We have made arrangements with nearly all the princi-pal Grocers in the city for the sale of it, and as soon as we can manufacture a sufficient quantity we shall take measures to supply Country Merchants. In the mean-time, persons withing the article can be supplied at tho Manufactory, corner of Duke and Chestnut streets, Lan-caster, Pa.
 Having full confidence in the truth of what we assert, we ask a fair and impartial trial of the Soap, and we will risk the result.
 Remember, this is no humbug.
