DR. WAYLAN'S NEW DRUG STORE. DR. WAYLAN'S NEW DRUG STORE.

DRUG STORE ESPECTABLY announces that he has openee his NEW
DRUG STORE ESTABLISHMENT, with a very extensive and complete stock of Drugs, Medicines,
Chemicals, Perfumery and Fancy Articles—all fresh
and pure-which will be sold at the lowest market prices.

This stock embraces every article usually kept in a first
class Drug Store, and neither labor, nor expense has been
spared in fitting up the establishment to insure the presservation of the Drugs in the best condition, as well as to
secure the convenience and comfort of the customors.

A complete assortment of materials used by the Dental
Profession can also be had at the store of the subscriber.

An improved Soda, or Mineral Water Apparatus has been
introduced, the fountains of which are made of Iron, with
Porcelain, liming on their interior surface, freeing them
from all liability to tain't the water with any metalic poison, which has heretofor been so great an objection to the
copper fountains. Those who wish to enjoy these refreshing
beverages can do so at this establishment without fear of being poisoned with deleterious matter. The entire establishment has been placed under the superintendence of a most
competent and careful Druggist, who has had many years'
of experience in, the Drug and Prescription business, in
first class houses in Philadelphi and Cincinnati.

The undersigned feels confident that he is in every way
prepared to give entire satisfaction to his customers, therefore a share of public patronage is solicited.

JOHN WAYLAN, D. D. S.

DENTAL CO-PARTNERSHIP .--- THE undersigned having entered into co-partnership, are prepared to practice the various branches of OPERATIVE AND MECHANICAL DENTIS.

TRY, at their office, in Kramph's Buildings, N. E. corner of North Queen and Orange streets, where they would be pleased to wait upon their friends and the public generally, assuring them that all operations in trusted to their care will be performed in the most complete manner.

S. WELCHENS, S. T. PRIGG.

I would respectfully announce to my friends, throughout the City and County of Lancaster, that I have this day taken into co-partnership, in my Dental practice. Dr. S. T. PRIGG, recently of Baltimore, Md., and who has, within the last three or four months, become a resident Dentist of this city. The gentlemanly and accommodating character of Dr. Prizg, his thorough and scientific knowledge of the various branches of the profession, his superior skill in all its most delicate manipulations, together with the high recommendations he brings with him from the Professors of the flattimore College of Dental Science, will 'quarantee perfect satisfaction to all my former patrons and all others who may place themselves under our treatment. By this arrangement we will have greater facilities for a more prompt attention to all our patients, which the want of assistance has heretofore deprived me of the ability to bestow.

Persons partial to the manipulations and advice of the undersigned, and who may feel a delicacy in calling for his services at the Dental office, in the event of his not being prosent, will please call at his Drug Store, No. 27 North Queen street, in the National House Building. S. WELCHENS.

WM. N. AMER, DENTIST, respectfully M. N. AMER, DENTIST, respectfully informs his friends and the citizens of Lancaster city and county in general, that he still continuous to practice the various branches will continuous to practice the various branches of Departite and Mechanical Bentistry, at the effice lately occupied by J. G. Moore on the SOUTH EAST CORNER of N. QUEEN and Ollange six.

Having been for the last eight yeers, engaged in the study and practice of Dentistry, five years of which time was spent under the instruction and in the employ of Dr. Waylan, of this city, will, he thinks, be a sufficient guarantee of his ability to perform all operations connected with the practice of his profession, in such a manner, as will render entire satisfaction to all who may favor him with a call.

Less Wilalebonk Skirks.—We take pleasure in again introducing our Improved Seamless Skirt, as being the most acceptable and reliable article in market: we are before the public, such as India Rubber. Gutta Percha, Rattan, &c., all of which we have if called for—but cannot recommend them, as we have experimented with and tested them all—(most of them two years since,) submitting them to the judgment of competent ladies to decide upon their merits, and have found them from actual use, to be in all important respects, decidedly inferior to our properly prepared Whalebone, which has been in use the past two years, and for which has been expressed from all parts of the country entire satisfaction; and we have the more positive evidence from our own large retail trade, amounting to many dozen per day. Therefore we confidently recommend our Skirts to be the least objectionable now in use; possessing many advantages found in no other Skirt, the most important of which is our series of elastic Cords at the bottom, made from the only material that can be used, that will recover its place when pressed out of shape, will not roll or curl, is not affected by heat or cold, and can be washed without injury. These cords at the bottom, instead of bones, which are exceedingly awkward and inconvenient, with our own prepared hones above and a fabric manufactured by ourselves expressly for our goods, in our estimation and the estimation of thousands who have used them, produces a Skirt and the only Skirt equally adapted to the parlor, the street, and the crowd, giving a proper, graceful and elegant form to a Ladies' dress, light, pliashe, easily adjusted and in every respect a complete article. to the parlor, the street, and the crowd, giving a proper graceful and elegant form to a Ladies 'dress, light, pliable, easily adjusted and in every respect a complete article. Patent Ambrotypes.—The subscribers having purchased the exclusive right of Lancaster city, are now enabled to offer to the public a New STWLE OF PICTURES, far exceeding, in beauty and durability, anything ever be fore made. These pictures are not reversed, (as daguerreo-types are and may be seen in anylight. They also possess the rare property of being imperisshants; being hermetically sealed between glass plates, which is secured by Letters Patent, in the United States, Great Britain and France, and practised in Lancaster city by T. & W. CUMMINGS. only, over Sprecher & Bro.'s New Store, North Queen st., Lancaster.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrotos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages; it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of glass, with the Slack varnish in immediate contact with the Picture.—buch are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE STERESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life.

IMPORTANT TO FARMERS.—Samuel APPORTANT TO FARMERS.—Samuel Release's Latest Improved

GRAIN FAN!

These Fans are manufactured at the best and most extensive establishment in the city or county of Lancaster; and being the Latest Improved Grain Fans now before the public, farmers and dealers generally will consult their own interests by calling and examining them before purchasing elsewhere. They are now sent to all parts of Pennsylvania and other States. These Fans are so constructed as to separate all the impure grains, such as cheat, cockle, smut, &e, at the same operation. They will also be made, to order, to separate Grass Seeds from Wheat.

I have also manufactured the celebrated Bamborough Fan for many years, land I claim the improvements made upon my Fan as being far superior to them. They are considered

DISEASES OF THE LUNGS AND THROAT

AND ALL

CUR ABLE BY INHALATION.

Which conveys the remedies to the cavities in the lungs through the air passages, and coming in 'direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and senergy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pieasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent in the second; but in the third stage it is impossible to save more than five per cent. for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords, extraordinary relief to the suffering attending this fearful scourage which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the aircells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs free administere

a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results? During eighteen years' practice, many thousands, sufering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable curvs, even after the sufferers bad been pronounced in the last stages, which fully satisfies me that consumption is no longer a, statil disease. My treatment of consumption is original, and founded on long experience and a ther ugh investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate e-naumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests; to enlarge the chest, purify the blood, impart to it ronewed vitality, giving energy and tone to the entire system.

Medicince with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by latter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and edable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again.

TONICS WON'T DO!—They never did do more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cause of all ague and billious diseases is the atmospheric prison called Missan or Malaria/Neutralize this poison by its Natural Antidote, and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle, therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsente. or any tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

Geometrown, Ohio, March 18, 1856.

JAS. A. RHODES, Esq.—Dear Sir: Yours of 2d linst, is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they used to escape taking Quinine, contained the Drug Itself.

This remedy, (known as "Smith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often return with renewed vigor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your cure. The following is the result:

Three persons took your "Cure," all of which were cases of "QuotidianIntornittent Fever," of many weeks standing They had tried Quinine, and other remedy, and they have not had chill, since. In all lathree of these cases the "Smith's Tonic," had been used, and would, as before stated, break the chill, but after a period or two had clapsed w
