MAP OF LANCASTER CITY AND COUNTY, be activated by the county of th MAP OF LANCASTER CITY AND COUNTY, to be entirely made up of actual surveys to be taken upon the ground, and to be drawn to a much larger scale than any heretofore issued. The enlarged scale of the work will admit of the great advantage of clearly designating every public and private improvement, and attaching the name thereto; also, of accertaining with more puccision, any required distance throughout the county. Every public Road and Stream, Mil, Mill Race and Mill Dam. Store, Hotel, Post Office, Place of Worship. School House, Smith Shop, &c., &c., will be accurately shown thereon. The Dwellings also, with the names of owners attached, will be inserted in the proper position. An enlarged City Plan, and Plans of the Boroughs and principal Villages, will be inserted in the margin. A Table, showing the correct distance from each place of importance to that of every other in the county, will be upon the Map; also, a Statistical Table, and views of the principal County Buildings. Without a resurvey of the whole county, an accurate map of it cannot be published; we have already made surveys of a a number of the Townships, and many of the inhabitants of the county are aware of the time and pains we have taken to perfect them. We will be equally assiduous in our endeavors to make this a reliable and valuable work, and hope to merit a share of public patronage.

The size of our Map will be at least five feet by four, and the will cost \$5 per copy.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

Having purchased the Patent for the sectiative right to manufacture and sell the new Chemical Paper in America, invented and patented in England by Henry Glynn, a celbrated chemist and efficer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr Lyman, of the New York Clearing House, and Meade Brothers, extensive and skilful photographers, 233 Broadway, N. Y. The latter say that no imitstion can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:
Bank Checks—35 cts. per lb.
Bank Bills—\$18 for 1000 sheets.

Promissory Notes—46 cts. per lb.
Sight and Time Drafts—\$25 for 1000 sheets.

Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.
For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cents per lb.
For Indentures and Agreements—40 cents per lb.
All State and County Records should always be printed or written on this Paper, as the chemicals inserted in the pulp not only prevent erasure or transfer, but make it lasting as time.
For Southern Climates it is excellent, and much superior to any other; as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventative. In all the southern states, Cuba, the West Indies and the Countral American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this Paper makes it indestructable by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.
The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

This property offers a fine opportunity to any person wishing to eggage in any kind of Manufacturing business. The water power from the Little Juniats, a stream not liable to be frozen, is one of the best in the State; its location on the Penn'a R. R., with a sideing at the spot, which by a few yards of extension, may be run directly to the door of any building that may be erected, give it advantages over any other place on the line of the Central road. The surrounding country, with the advantages above named, make it a very eligible situation for a Flouring Mill. It is the outlet to three of the finest agricultural valleys in the central portion of the State, where from Eighty to One Hundred Thousand Bushels of Wheat can be bought annually, with large quantities of Rye, Corn and Oats. CATHARTIC PILLS

()PERATE by their powerful influence on the internal viscera to purify the blood and stimu-late it into healthy action. They remove the obstructions of the stomach, bowels, liver, and other obstructions of the stomach, bowels, liver, and other organs of the body, and, by restoring their irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown cures of dangerous diseases almost beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish free to all inquiring.

Annexed we give Directions for their use in the complaints which they have been found to cure.

FOR COSTIVENESS.— Take one or two Pills, or such quantity as to gently more the bowels.

Foir Costiveness.— Take one or two Pills, or such quantity as to gently more the bowels. Costiveness is frequently the aggravating cause of Pills, and the cure of one complaint is the cure of both. No person can feel well while under a costive habit of body. Hence it should be, as it can be, promptly relieved.

For Dyspepsia, which is sometimes the cause of Costiveness, and always uncomfortable, take mild doses—from one to four—to stimulate the atomach and liver into healthy action. They will do it, and the hearthum, bodyburn, and soulburn of dyspepsia will rapidly disappear. When it has gone, don't forget what cured you.

For a Four, Stomach, or Morbid Inaction of the Housels, which produces general depression of the Borels, which produces general depression of the spirits and bad health, take from four to eight Pills at first, and smaller doses afterwards, until activity

and strength is restored to the system.

FOR NERVOUSNESS, SICK HEADACHE, NAUSBA,

and strength is restored to the system.

For Nervoysess, Sick Headache, Nausea, Pericin the Stomach, Back, or Side, take from four to sufficiently, take more the next day until they do. These complaints will be swept out from the system. Don't wear these and their kindred disorders because your stomach is foul.

For Scropula, Erystpelas, and all Diseases of the Nkin, take the Pills freely and frequently, to keep the bowels open. The eruptions will generally soon begin to dinninsh and disappear. Many dreadful ulcers and sores have been healed up by the purging and puritying effect of these Pills, and some disgusting diseases which seemed to saturate the whole system have completely yielded to their induence, leaving the sufferer in perfect health Patients! your duty to society forbids that you should parade yourself around the world covered with pimples, blotches, ulcers, sores, and all or any of the unclean diseases of the skin, because your system wants cleansing.

To Punify the Blood, they are the best medicine ever discovered. They should be taken freely and frequently, and the impurities which sow the seeds of incurable diseases will be swept out of the system like chaff before the wind. By this property they do as much good in preventing sickness as by the remarkable cures which they are making every

they do as much good in preventing sickness as by the remarkable cures which they are making every nere. Liver Complaint, Jaundice, and all Bilious Affections, arise from some derangement — either torpidity, congestion, or obstructions of the Liver Torpidity and congestion vitiate the bile and render Torpidity and congestion vitiate the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigestion is the symptom. Obstruction of the duct which empties the bile into the stomach causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerous train of evils. Costiveness, or alternately costiveness and diarrhæa, prevails. Feverish symptoms, languor, low spirits, weariness, restlessness, and melancholy, with sometimes inability to sleep, and sometimes great drowsiness; sometimes there is severe pain in the side; the skin and the white of the eyes become a greenish yellow; the stomach acid; the bowels sore to the touch; the whole system irritable, with a tendency to fever, which may turn to bilious fever, bilious colic, bilious which may turn to bilious fever, bilious colic, bilious diarrhora, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these troubles. It is wicked to suffer the cause of all these troubles. It is wicked to suffer such pains when you can cure them for 25 cents.

RHEUMATISM, GOUT, and all Inflammatory Ferers, are rapidly cured by the purifying effects of these Pils upon the blood and the stimulus which they afford to the vital principal of Life. For these and all kindred complaints they should be taken in mild doses, to move the bowels gently, but freely.

As a DINNER PILL, this is both agreeable and useful. No Fill can be made more pleasant to take, and certainly none has been made more effectual to the purpose for which a dinner pill is employed.

CHOICE FARM LANDS FOR SALE...
The Illipois Central R. R. Company is now prepared to sell about 1,000,000 Acres of CHOICE FARMING LANDS in Tracts of 40 Acres and upwards, on Long Credits, and at Low Rates of Interest.

These lands were granted by the Government to aid in the construction of this Road, and are among the richest and most fertile in the world. They extend from North East and North West, through the middle of the State, to the extreme South, and include every variety of climate and productions found between those parallels of latitude. The Northern portion is chiefly prairie, interspersed with fine groves, and in the middle and Southern sections timber predominates, alternating with beautiful prairies and openings.

ber predominates, alternating with beautiful prairies and openings.

The climate is more healthy, mild and equable, than any other part of the country—the air is pure and bracing, while living streams and springs of excellent water abound. Bituminous Coal is extensively mined, and supplies a cheap and desirable fuel, being furnished at many points at \$2 to \$4\$ per ton—and wood can be had at the same rate per cord.

Building Stone of excellent quality also abounds, which can be procured for little more than the expense of transportation.

The great fertility of these lands, which are a black rich mould from two to five feet deep, and gently rolling, —their contiguity to this Road, by which every facility is furnished for travel and transportation, to the principal markets North, South, East, West, and the economy with which they can be cultivated, ronder them the most valuable investment that can be found; and present the most favorable opportunity, for persons of industrious habits and small means, to acquire a comfortable independence in a few years.

Chience is now the greatest train market in the world—

and small means, to acquire a comfortable independence in a few years.

Chicago is now the greatest grain market in the world—and the facility and economy with which the products of these lands can be transported to that market, make them much more profitable, at the prices asked, than those more remote at government rates,—as the additional cost to transportation is a perpetual tax on the latter, which must be borne by the producer, in the reduced price he receives for his grain, &c.

The title is perfect—and when the final payments are made, Deeds are executed by the Trustees appointed by the State, and in whom the title is vested, to the purchasers, which onvey to them absolute titles in Fee Simple, free and clear of every incumbrance, lied or mortgage.

THE PRICES ARE FROM \$6 to \$30.—INTEREST ONLY 3 PER CENT.

20 per cent. will be deducted from the credit price for Cash. Those who purchase on long credit, give notes payable in 2, 3, 4, 5 and 6 years after date, and are required to improve one-tenth annually for five years, so as to have one-half the land under cultivation, at the ond of that time.

Competent Surveyors will accompany those who wish to

one-half the land under cultivation, at the ond of that time.

Competent Surveyors will accompany those who wish to examine these Lands, free of charge, and aid them in making selections.

The Lands remaining unsold are as rich and valuable as those which have been disposed of.
