EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrolos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages; it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpresses any thing in the graduatines of light and shade. water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imidations made on single plates of glass, with the Slack varnish in immediate contact with the Picture—buch are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE STERESCOPES MUST BE SEEN, to be anyrecitated—the relief being fully as perfect as life.

NEW PROCESS IN DENTISTRY. CHEOPASTIC PROCESS of mounting
ARTIFICIAL TRETH,
recently patented by Dr. BLANDY. formerly
Professor in the Baltimore College of Dental Surgery, is certainly one of the greatest discoveries of the present age and destined to work a great change in Mechanical Dentistry.
The undersigned being the first in the State to introduce this process into practice, and which has been attended with great success, feels no hesitation in recommending it as superior to any other method of mounting Artificial Teeth heretofors known—the casting of the plates having great advantage over the common custom of "swaging." The same accuracy in fitting, perfect cleanliness, and durability connot be obtained by any other process.

A MERICAN SAFETY-PAPER MANUCAPITAL, \$500,000.

A. NICHOLAS, President. OFFICE, 70 Wall St.

A Perfect Security against all manner of Fraud or Counterfeits, Frassures, Transfers or Alterations.
Having purchased the Patent for the exclusive right to manufacture and sell the new Chemical Paper in America, invented and patented in England by Henry Glynn, a celebrated chemist and efficer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent. Assayer of the U.S. Mint, Mr. Lyman, of the New York Clearing House, and Meade Brothers, extensive and skifful photographers, 233 Broadway, N. V. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:
Eank Checks—35 cta, per lb.
Bank Bills—318 for 1000 sheets.
Promissory Notes—46 cts, per lb.
Sight and Time Dratts—\$25 for 1000 sheets.
Insurance Policies—40 cts, per lb.
Railroad Stocks and Bonds—40 cents per lb.
Railroad Stocks and Bonds—40 cents per lb.
Bonds and Mortgages—10 cts, per lb.
Wills and Deeds—40 cts, per lb.
Wills and Deeds—40 cts, per lb.
For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cents per lb.
All State and County Records should always be printed or written on this Paper, as the chemicals inserted in the pulp not only prevent erasure or transfer, but make it lasting as time.

For Southern Climates it is excellent, and much superior to any other; as the moistures of the climate does not destroy it.—the properties inserted in the pulp being a preventative, In all the southern states, Coba, the West Indies and the Central American States, no public records can be kept over 20 years, written on the rodinary paper, while the oils and other chemicals inserted in this Paper makes it indestructable by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destrey all other paper now in use.

RELEA'S Latest Improved

GRAIN FAN!

These Fans are manufactured at the best and most extensive establishment in the city or county of Lancaster; and being the Latest Improved Grain Fans now before the public, farmers and dealers generally will consult their own interests by calling and examining them before purchasing elsewhere. They are now sent to all parts of Pennsylvania and other States. These Fans are so constructed as to separate all the impure grains, such as cheat, cockle, sunt, &c., at the same operation. They will also be made, to order, to separate Grass Seeds from Wheat.—When such are desired the order must be sent in time.

I have also manufactured the celebrated Bamborough Fan for many years, and I claim the improvements made upon my Fan as being far superior to them. They are considered

DISEASES OF THE LUNG SAND THROAT

AND ALL

DISEASES OF THE LUNG SAND THROAT

ARE POSITIVELY

CURABLE BY INHALATION,

Which conveys the remedies to the carvities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, cruses a free and easy appearance to ration, heals the lungs, parifies the blood, imparis renewed vitality to the nervous system, giving that tone never you indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. In the second; but in the third stage it is impossible to save more than five per cent., for the lungs are so set up by the disease-as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it sparse neither age one sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme lieing, from whom comet avery good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their deposition in the gas, as to pervent the free admission of air into the air-cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the earlies of the lungs than from

a limb may be simputsted without the slight-set pair; inal haling the ordinary burning gas will destroy life in a few
hours.

The linhalation of ammonia will rouse the system when
fainting or apparently dead. The odor of many of the
medicines is perceptible in the skin a few minutes after
being inhaled, and may be immediately detected in the
blood. A convincing proof-of the constitutional effects of
inhalation, is the fact that sickness is always produced by
breathing foul air. Is not this positive-widence that proper
remedies, carefully prepared and judiciously administered
through the lungs, should produce the most happy results?

During eighteen vears' practice, many thousands, suffering
from diseases of the lungs and threat, have been under
my care, and I have effected many remarkable cures, even
after the sufferers had been ponounced in the last stages,
which fully satisfies me that consumption is one longer a
fatal disease. My treatment of consumption is original,
and founded on long experience and a th-r ugh investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various
forms of disease that simulate consumption, and apply the
proper remedies, rarely being mistaken even in a single
case. This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve
the lungs from the effects of contracted chests; to enlarge
the chest, purify the blood, impart to it remewed vitality,
giving energy and tons to the entire system.

Medicince with full directions sent to any part of the
United State-and Gandas by patients communicating their
symptoms by letter. But the cure would be more certain
if the patient stoudle pay me a visit, which would give me
an opportunity to examine the lungs and edable me to
prescribe with much greater certainty, and then the curo
could be effected without my seeing the patient again.

than a permanent cure can be affected by any other treatment, even after the disease has balled the skill of eminent
physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and
free from mercury or balsam. During twenty years of
practice, I have rescued from the jaws of Death many
thousands, who, in the last stages of the above mentioned
diseases had been given up to die by their physicians,
which warrants me in promising to the afflicted, who may
place themselves under my care, a perfect and most speedy
cure. Secret diseases are the greatest enemies to healh, as
they are the first cause of Consumption, Servilla and
many other diseases, and should be a terror to the human
family. As a permanent cure is scarcely ever effected, a
majority of the cases falling into the hands of incompetent
persons, who not only fail to cure the diseases had ruin
the constitution, filling the system with mercury, which,
with the disease, hastens the sufferer into a rapid Consumption.

umption.

But should the diseases and the treatment not cause death But should the diseases and the treatment not cause cests specify and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life foorrupted by a virba which betrays itself in Scrofula, Tetter, Ulcers, Eruptions and other affections of the Skin. Eyes, Throat and Lings, entailing upon them a brief existence of suffering, and consigning them to an early grave. them a brief existence of suffering, and consigning them to an early grave.

SELF ABUSE is another formidable enemy to health, for nothing else in the dread cattlogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to eatch and rob the unwary

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discayered it in 1846-second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thou and bottles per day of it. Some of the wholesale Druggists who have been in the husiness twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

with Temporary Suffusions and Loss of Sight; Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more Desirable to such Patients than Solitude, and Nothing they more Dread for Fear of Themselves; no Repose of Manner, no Earnestness, no Speculation, but a Hurried Transition from one Question to another

These symptoms, if allowed by those direful diseases—INSPORMENTON, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it.—Should a sound of the voice occur, it is rarely articulate.
