JOHN WAYLAN, D. D. S. DENTAL CO-PARTNERSHIP .-- THE

I would respectfully announce to my friends, throughout the City and County of Lancaster, that I have this day taken into co-partnership, in my Dental practice. Dr. S. T. PRIGG, recently of Baltimore, Md., and who has, within the last three or four months, become a resident Dentist of this city. The gentlemanly and accommodating character of Dr. Prigg, his thorough and scientific knowledge of the various branches of the profession, his superior skill in all its most delicate manipulations, together with the high recommendations he brings with him from the Professors of the Baltimore College of Dental Science, will guarantes perfect satisfaction to all my former patrons and all others who may place themselves under our treatment. By this arrangement we will have greater inclinities for a more prompt altention to all our patients, which the want of assistance has heretofore deprived me of the ability to bestow. Persons partial to the manipulations and advice of the undersigned, and who may feel a delicacy in calling for his services at the Dental office, in the event of his not being present, will please call at his Drug Store, No. 27 North Queen street, in the National House Building.

MEW PROCESS IN DENTISTRY.—
CHEOPASTIC PROCESS of mounting
ARTIFICIAL TEETH,
recently patented by Dr. BLANDY, formerly
Professor in the Baltimore College of Dental Surgery, is certainly one of the greatest discoveries of the present age and
destined to work a great change in Mechanical Dentistry.
The undersigned being the first in the State to introduce
this process into practice, and which has been attended with
great success, feels no heditation in recommending it as saperior to any other method of mounting Artificial Teeth
heretofore known—the casting of the plates having great
advantage over the common custom of "swaging." The
same accuracy in fitting, perfect cleanliness, and durability
connot be obtained by any other process.

33 The undersigned is alone authorized to dispose of
office rights for the counties of Lancaster, Chester, Berks, orights for the counties of Lancaster, Chester, Berks, phin and York.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrotos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages; it will not corrode by acids, nor be injured by water or climate. It is boid in its effect beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of plass, with the Slack varnish in immediate contact with the Picture—buch are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE STERESCOPES MUST BE SEEN, to be appreclated—the relief being fully as perfect as life. Citizens and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are assured of polite attention.

DISEASES OF THE LUNGS AND THROAT ARD ALL CONSUMPTION

ON SUMPTION

DISEASES OF THE LUNGS AND THROAT ARE POSITIVELY

CUR ABLE BY INHALATION,

Which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the diseases, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoratin or health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed piesure. It is as much under the control of medical treatment as, any other. Enridable diseases, interior office of every hundred cases can be cured in the first stages, and fifty per cent in the second; but in the third stage it is impassible to save more than five per cent., for the lungs are see up by the diseases so bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge which annually destroys ninety-five thousand persons in the United States shore; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all agas is has been the great enemy of life for it sparses neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, from whom cometh every good and perfect gift. I am enabled to offer to the afficied a perfect of the constitution of the constitution of the carrier of the constitution of the constitution of the constitution of the constitution of a manner and speedy cure in Consumption. It matters not from what rause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During twenty years of practice, I have recoued from the jaws of Death many thousands, who, in the bast stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promisimy to the efflicted, who may place themselves under my care, a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first cause of Cônsumption, Serfula and many other diseases, and should be a terror to the human family. As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fall to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid Consumption.

Medicines. for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions ruined by the vile compeunds of quack doctors, or the equally poisonous nostrums vended as "Patent Medicines." I have carefully analyzed many of the so-calied Patent Medicines and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the materia medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money, regardless of consequences.

Philadelphia. mar 10 ly 8 THE GREATEST MEDICAL DISCOVERY OF THE AGE.—Dr. KENNEDY. Of Roxbury, has discovered, in one of our common pastnre weeds, a remedy that cures

EVERY KIND OF HUMOR,

from the worst Scrofula down to a common pimple.

He has tried it in over 1100 cases, and nover failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth. One to three bottles will cure the worst kind of Pimples on the face.

Two to three bottles will clear the system of Bilos.

Two bottles are warranted to cure the worst canker in the mouth or stomach.

Two bottles are warranted to cure the worst canker in the mouth or stomach.

Three to five bottles are warranted to cure the worst case of Erysipless.

One or two bottles are warranted to cure all humor in the Eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.
One bottle will cure scaly oruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Five to eight bottles will cure the worst case of scrotlia. A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plèntiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great apoularity of the discovery. I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thou and bottles per day—in April, 1854, I sold over one thou and bottles per day of it. Some of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing, in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I alwys kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never a uspected. Several cases of epileptic fits—a disease which was always considered incurable, have been cur-d by a few bottles.—O, what a mercy it it prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspeptia, Asthma, Fever and Ague, pain In the side, Diseases of the Spine, and particularly In diseases of the Kidneys. &c., the discovery has done more good than any medicine ever known.

CRETS FOR THE MILLION! A most Wonderfund Valuable Publication. Dr. Hunter's MEDICAL MANUAL: Being an original and popular Treatise on Man and Wo-

rians, have most freely extended its circulation in all quar-ters where its powerful teachings would be likely to be instrumental in the moral purification and physical heal-ing of multitudes of our people, among the young, volatile and indiscreet, otherwise the pride and flower of the nation. The author argues particularly, most strongly against every species of self defilement, and warns parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of thair guardians, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their ignorance of physiological laws and sexual impurities and irregularities, whether exhibited by precocious development or arising from the vicious and corrupting examples of their school mates or otherws.o. To those who have been already ensuared to the "paths that take hold on hell," a clear and explicit way is shown by which they may secure a return of sound bealth, and a regeneration of the soul from its terrible pollution.

It is well known that thousands of victims are annually sacrificed at the shrino of quarkery—especially those suffering from Venereal or Syphilitic diseases—Strictures, Sominal Weakness, Norvous D-billity, and the numerous maladies which spring directly or less remotely from the indulgence of carnal passions and secret violations of Nature.

TONICS WON'T DO!--They never did more than give temporary relief and never will. It is because they don't touch the cause of the disease. The cause of all ague and billious disease is the stimospheric poison called Miasma or Malaria. Neutralize this poison by its Natural Antidote, and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

JAS. A. RHODES, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived liste last year and the difficulty in getting any one to try it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public as being better than using Quinine,—not knowing I presume that the remedy they used to escape taking Quinine, contained the Drug Itself!

This remedy, (known as "Smith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often return with renewed vigor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your cure. The following is the result:

Three persons took your "Cure," all of which were cases of "Quotidian Internitient Fever," of mnay weeks standing They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as in all such cases,) slowly wearing them out, and bying the foundation for other and severer maindies. I did succeed in effecting a radical cure of all three of these cases w
