ARTIFICIAL TEFTH,
Professor in the Baltimore College of Dental Surgery, is certainly one of the greatest discoveries of the present age and destined to work a great change in Mechanical Dentistry.
The undersigned being the first in the State to introduce this process into practice, and which has been attended with great success, feels no becitation in recommending it as superior to any other method of mounting Artificial Teeth e known—the casting of the plates having gree

heretofore known—the casting of the plates having great advantage over the common custom of "swaging." The same accuracy in fitting, perfect cleanliness, and durability connot be obtained by any other process.

A Perfect Security against all manner of Fraud or Counterfeiting on Puper—To Prevent Photographs and Anasta-A Perfect Scurity against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

Having purchased the Patent for the exclusive right to manufacture and sell the new Chemical Paper in America, invented and patented in England by Henry Glynn, a celbrated chemist and efficer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman, of the New York Clearing House, and Meade Brothers, oxfensive and skilful photographers, 233 Broadway, N. Y. The latter say that no initiation can be made on a check or bank note printed on the Safety Paper. Below-is our list of prices:

Bank Checks—35 cfs. per lb.

Bank Bills—\$18 for 1000 sheets.

Bills of Exchange—\$25 for 1000 sheets.

Raifroad Stocks and Bonds—40 cents per lb.

Bank and State Stocks—10 cts. per lb.

Bank and State Stocks—10 cts. per lb.

Bank and State Stocks—10 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cents per lb.

All State and County Records should always be printed or written on this Paper, as the chemicals inserted in the pulp not only prevent erasure or transfer, but make it sating as time.

For Southern Climates it is excellent, and much superior of any other; as the moistness of the clima'e does not destroy it,—the properties inserted in the pulp being a preventative. In all the southern states, Cuba, the West Indies and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this Paper makes it indestructable by the ravages of time. PATENT AMBROTYPES.--The subscribers having purchased the exclusive right of Lancaster city, are enabled to offer to the public a new style of Pictures, far exceeding, in beauty and durability, any everbefore made. These pictures are not reversed, as daguerreotypes areand may be seen in anylight. They also possess the rare property of being IMPERISHARLE; being hermetically sealed between glass plates, which is secured by Letters Patent, in the United States, Great Britain and France, and practised in Lancaster city by T. & W. CUMMINGS, only, over Specher & Bro.'s New Store, North Queen st., Lancaster.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrotos, surifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliance for ages; it will not correde by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imidations made on single plates of glass, with the Sinck varnish in immediate contact with the Picture—buch are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE STERRESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life.

IMPORTANT TO FARMERS.—Samuel

Keeler's Latest Improved

G R AIN F AN!

These Fans are manufactured at the best and most extensive establishment in the city or county of Lancaster; and being the Latest Improved Grain Fans now before the public, farmers and dealers generally will consult their own interests by calling and examining them before purchasing elsewhere. They are now sent to all parts of Pennsylvania and other States. These Fans are so constructed as to separate all the impure graina, such as cheat, cockle, smut, &c., at the same operation. They will also be made, to order, to separate Grass Sceds from Wheat.—When such are desired the order must be sent in time.

I have also manufactured the celebrated Bamborough Fan for many years, and I claim the improvements made upon my Fan as being far superior to them. They are considered

THE BEST NOW IN USE!

by all Farmers who have given them a trial, and who continue using them. I have had an extensive experience in the manufacture of Grain Fans, having made about 2,000 since I have been in the business. These Fans are adapted to hand or horse power, or any other power that may be applied to them; and they will be sent, free of charge, to any distance within 300 miles, by railroad or water, at the shortest notice.

the Eyes.
Two bottles are warranted to cure running of the ears

and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst Asses of ringworm.
Two to three bottles are warranted to cure the most desperate case of rheumatism.
Three to four bottles are warranted to cure the salt

perate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.— So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thou and bottles per day of it.

Some of the wholeade Druggists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I alwrys kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that in ever suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles.—

0. what a mercy fit if prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have, here are but few who have seen more of it than I have, there are but few who have seen more of it than I have, there are but few who have seen more of it than I have, there are all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepia, Asthma, Fever and Agne, pain in the side. Diseases of the Spine, and particularly in diseases of the Kidneys. &c., the discovery has done more good than any medicine ever known.

No change of diet ever neces-ary—eat the best you get and enough of it.

DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over tan years dessert spoonful. Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to eperate on the bowels twice a day. Manufactured by DONALD KENNEDY.

It matters not from what cause the disease originated, however long standing or obstante the case, recovery is certain, and In a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffied the skill of eminent physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During twenty years of practice, I have receuel from the jaws of Death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promisimg to the afflicted, wo may place themselves under my care, a perfect and most speedy c

Substitute of the diseases and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with fields constitutions, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetter, Ulcers, Eruptions and other affections of the Skin, Eyes, Throat and Lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave. them a brief existence of suffering, and consigning them to an early grave.

SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human disenses causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, causes mental deraugement, prevents the proper development of the system disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wereked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and speedy cure can be effected, and with the abaudonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions ruined by the vile compeunds of quack dectors, or the equally poisonous nostrums vended as "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the materia medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money, regardless of consequences.

MPORTANT DISCOVERY. DISEASES OF THE LUNGS AND THROAT

I CONSUMPTION

AND ALL

DISEASES OF THE LUNGS AND THROAT

AND ALL

AND POSITIVELY

CURABLE BY INHALATION,

Which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, curses a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent in the second; but in the third stage it is impossible to save more than five percent, for the lungs are secut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it sparse neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, from whom cometh every good and perfect gift. I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administe

a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results? During eighteen years' practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case, This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests; to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicince with full directions sent to any part of the United States'and Canadas by patients communicating their aymptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and edable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again.

PRIOE TWENTY-FIVE CENTS.

The Author of the above volume is a graduate of one of the first medical schools in the company of the first medical schools in the same, and is able to compress into vade mecum compass, the very quintessence of medical science on this important subject, as the result of the experience of the most eminent physicians in Europe and Americals theroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the City of Philadelphia alone.

The practice of Dr. Hunter has long been, and still is, literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the community at large, through the medium of his "Medical Manual and Hand Book for the Afflicted."

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many clergymen, fathers, mothers, philantropists and humanitarians, have most freely extended its circulation in all quaters where its powerful teachings would be likely to be instrumental in the moral purification and physical healing of multitudes of our people, among the young, volatile and indiscreet, otherwise the pride and flower of the nation.

The author argues particularly, most strongly against every species of self-definement, and warms parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their school mates or otherwise. To those who have been already ensanzed to the "paths that take hold on hell," a clear and explicit way isshown by which they may secure a return of sound health, and a regeneration of the soul from its terrible pollution.

It is well known that thousands of victims are annually sacrificed

Interregate to the second of these facts, and when it is also considered that about 100,000 persons die annually in the United States of Consumption—a large majority being the victims of the voluptious indiscretions of their progenitors, agreeably to the Scriptural enunciation, that the sins of the second of agreeably to the Scriptural enunciation, that the sins of the parents are visited upon the children, even to the third and fourth generation.—The Author, inbued with sentiments of onlarged philanthropy, will scarcely be censured for any effort to restrain the vices of the age, by the humble instrumentality of his Medical Manight. TONICS WON'T DO!--They never did
more thun give temporary relief and never will. It is
because they don't touch the cause of the disease. The
cause of all ague and billious diseases is the atmospheric
poison called Missma or Malaria. Neutralize this poison by
its Natural Antidote, and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless
fibedicine. The certificate of the celebrated chemist, J. R.
Chilton, of New York. to this effect, is attached to every
bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine. Arsenic, or any
tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter
just received from a Physician:

JAS. A. RHODES, Esq.—Dear Sir: Yours of 2d inst. is
at hand. The Cure arrived late last year and the difficulty
in getting any one to try it was greatly increased from the
the fact that a remedy had been introduced which was
growing in favor with the public, as being better than using
Quinine,—not knowing I presume that the remedy they
used to escape taking Quinine, contained the Drug Itself!
This remedy, (known as "Smith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often
return with renewed vigor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your cure. The following is the result:

Three persons took your "Cure," of many weeks standing
of "Quotidian intermittent Fever," of many weeks standing
They had tried Quinine, and other remedies, occasionally
missing a chill, but it was, (as in all such cases,) slowly
wearing them out, and laying the foundation for other and
