All State and County Records should always be printed or written on this Paper, as the chemicals inserted in the pulp not only prevent erasure or transfer, but make it lasting as time.
For Southern Climates it is excellent, and much super-

pulp not only prevent erasure or transfer, but make it issting as time.

For Southern Climates it is excellent, and much superior to any other; as the moistness of the climate does not destroy it.—the properties inserted in the pulp being a preventative. In all the southern states, Cuba, the West Indies and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this Paper makes it indestructable by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall Street.

ARTIFICIAL TEETH,
ecently, patented by DE BLANDY. formerly
Professor in the Baltimore College of Debtal Surgery, is cerrecently, patented by Dr. BLANDY. formerly
Professor in the Baltimore College of Dental Surgery, is certainly one of the greatest discoveries of the present age and
destined to work a great change in Mechanical Dentistry.
The undersigned being the first in the State to introduce
this process into practice, and which has been attended with
great success, feels no hesitation in recommending it as superior to any other method of mounting Artificial Teeth
heretofore known—the casting of the plates having great
advantage over the common custom of "swaring." The
same accuracy in fitting, perfect cleanliness, and durability

LUSTRATED WITH LARGE COLORED MAPS.—
The subscriber being about to publish a beautifully Illustrated Map of the city of Lancaster, respectfully solicits the patronage of the citizens to the new enterprise.

trated Map of the city of Lancaster, respectfully solicits the patronage of the clitzens to the new enterprise.

The Map will be very minute in its details, being a complete plot of the city with all the new and contemplated streets and alleys, and all the original town lots, numbered as recorded, together with a ground plan of all the buildings as they stand on their respective lots, the Schools, Colleges, with all Churches, Hotels, Stores, Manufacturing Etablishments and all the offices of professional men in the city, distinctly named and colored, and the names of all the subscribers duly inserted on the margin, making it Establishments and all the offices of professional men in the city, distinctly named and colored, and the names of all the subscribers duly inserted on the margin, making it not only a complete map of the city, but also a business directory; and, in connection with all this, there will be from fifteen to twenty-five original views of Residences, Churches, Colleges, and Manufacturing Establishments in the city and vieinity beautifully colored, the natural color, as I make all my own sketches and color them on the spot, and have them lithographed in the highest style of the art. Samples of which can be shown that were published in West Chester and Chester county, which have never been equalled by any views published on any map in the United States. Having had considerable experience in map publishing, and having devoted a great deal of time to the art of perspective drawing, I flatter myself that I am able to produce beautiful life-like pictures that cannot be excelled, and in fact defy all competition in this style of Map publishing. All persons wishing views published on the city map, or having property they wish plated in, will please leave orders at J. Franklin Reigart's office, Fulton Buildings, which will be promptly attended to by the subscriber.

Amportant To Farmers.—Samuel

Medical These Fans are manufactured at the best and most extensive establishment in the city or county of Lancaster; and being the Latest Improved Grain Fans now before the public, tarmers and dealers generally will consult their own interests by calling and examining them before purchasing elsewhere. They are now sent to all parts of Pennsylvania and other States. These Fans are so constructed as to separate all the impure grains, such as cheat, cockle, smut, &c., at the same operation. They will also be made, to order, to separate Grass Seeds from Wheat.—When such are desired the order must be sent in time.

I have also manufactured the celebrated Bamborough Fan for many years, and I claim the improvements made upon my Fan as being far superior to them. They are considered

DATENT AMBROTYPES.--The subscribers having purchased the exclusive right of Lancaster city, are enabled to offer to the public a new style of Pictures, far exceeding, in beauty and durability, any ever before made. These pictures are not reversed, as daxuerrotypes are and may be seen in anylight. They also possess the rare property of being impersional being hermatically sealed between glass plates, which is secured by Letters Patent, in the United States, Great Britain and France, and practised in Lancaster city by T. & W. CUMM LNGS, only, over Specher & Bro.'s New Store, North Queen st., Lancaster.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrotos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages, it will not corrode by acids, nor be injured by water on climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shads, and may be seen in any light. The public are cautioned against imitations made on single plates of glass, with the Slack varnish in immediate contact with the Picture—buch are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE STERESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life. Citizens and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are assured of polite attention.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious suarcs in the columns of the public prints to catch and rob the nuwary sufferers that millions have their questimitions rulned by the vile compenied of quark doctors, or the equally possonous nostrums wanded as "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Cornsive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

MPORTANT DISCOVERY. DISEASES OF THE LUNGS AND THROAT

DISEASES OF THE LUNGS AND THROAT

AND ALL

DISEASES OF THE LUNGS AND THROAT

CURABLE BY INHALATION,
Which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and casy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving hat tone and energy so indispensable for the restoration of health. To be able to state conditionally that Consumption is curable by inhalation, is to me a source of unalloyed pieasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fitty per cent in the second; but in the thirst stages, and fitty per cent in the second; but in the thirst stages, and fitty per cent in the second; but in the thirst stages, and fitty per cent in the second; but in the thirst stages, and fitty per cent in the second; but in the thirst stages, and fitty per cent in the second; but in the thirst stages, and fitty per cent in the second; but in the thirst stages, and fitty per cent in the second; but in the third stage it is impossible to any more than five per cent, for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth eighty millions are destined to fill the Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of like the brave, the beautiful, the graceful, and the gifted. By the brave, the beautiful, the graceful, and the gifted. By the behavior, and the present perfect gift, I am embled to offer to the afflicted a permanent and speedy cure in Co

through the imgs, should produce the most nappy results:
During eighteen vears' practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is no longer a fatal disease. My treatment of consumption is no longer a fatal disease. My treatment of consumption is no longer a fatal disease. My treatment of consumption is no longer a fatal disease. Hy treatment of consumption is no longer a fatal disease. The distinguish readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests; to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicince with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by letter. But the cure would be more certain if the patient skould pay me a visit, which would give me an opportunity to examine the lungs and edable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again.

Resder, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—
So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; if rist, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1851, I sold over one thousand bottles per day—in April, 1851, I sold over one thousand bottles per day—in April, 1851, I sold over one thousand bottles per day—in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

The Author of the above volume is a graduate of one of the first medical schools in the United States, and having devoted a quarter of a century the treatment of Syphilis and kindred disorders as a speciality, he has become possessed of most invaluable information in regard to the same, and is able to compress into vade mecum compass, the very quintessence of medical science on this important subject; as the result of the experience of the most eminont physicians in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of specific diseases in many thousands of cases in the City of Philadelphia alone.

The practice of Dr. Hunter has long been, and still is, literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the community at large, through the medium of his "Medical Manual and Hand Book for the Afflicted."

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many clergymen, fathers, mothers, philantropists and humanitarians, have most freely extended its circulation in all quarters where its powerful teachings would be likely to be ingreamental in the moral purification and physical healing of multitudes odour people, among the young, volatile and indiscreet, otherwise the pride and flower of the nation.

The author argues particularly, most strongly against every species of self defilement, and warns parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their increase of physiological laws and excust impurities and irregularities, whether exhibited by preceious development or arising from the vicious and corrupting examples of their school mates or otherwise. To those who have been already ensured to the "paths that take hold on boulf rom its terrible pollution.

JAS. A. RHODES, E-Q. Dear Sir; Yours of 22 linst, is

tion of these truths I annex some extracts from a letter to the street of from a Physician; Just received from a Physician; Georgetows, Ohio. March 18, 1856.

JAS. A. RHODES, Eeq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presument that the remedy they used to escape taking Quinine, contained the Drug Itself A. This remedy, (known as "Smith's Tonic,") would invaribly break an Ague, but it did not cureit, as it would often return with remewed vigor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your cure. The following is the result:

Three persons took your "Cure," all of which were cases. They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation for other and suring the foundation for other and the country of the country of all three of these cases with your remedy, and they have deal the country of the co

ted, break the chill, but after a period or two had elapsed would return.

I think there will be no difficulty now in giving to your "Our" the advantage ground of any other remedy now in use here, &., &c.

WILLIAM BUCKNER, M. D.

Rhode's Fever and sgue Cure, or Antidote to Malaria, the only harmless remedy in existence, is equally certain as a preventive, as a "Cure." Take it when you feel the chills coming, and you will never have a single one.
