NEW PROCESS IN DENTISTRY. HE W PROCESS IN DENTISTRY.

CHECHASTIC PROCESS OF mounting
ARTIFICIAL TEETH,
recently patented by Dr. BLANDY, formerly
Professor in the Baltimore College of Dental Surgery, is certainly one of the greatest discoveries of the present age and asstined to work a great change in Mechanical Dentistry.
The undersigned being the first in the State to introduce this process into practice, and which has been attended with great success, feels no hesitation in recommending it as superior to any other method of mounting Artificial Teeth

perior to any other method of mounting Artineal faceto heretofore known—the casting of the plates having great advantage over the common custom of "swaging." The same accuracy in fitting, perfect cleanliness, and durability connot be obtained by any other process.

At The undersigned is alone authorized to dispose of office rights for the counties of Lancaster, Chester, Berks, Dauphin and York.

S. T. PRIGG.

I would respectfully announce to my friends, throughout the City and County of Lancaster, that I have this day taken into co-partnership, in my Dental practice, Dr. S. T. PRIGG, recontly of Baltimore, Md., and who has, within the last three or four months, become a resident Dentist of this city. The gentlemanly and secommodating character of Dr. Prigg, his thorough and scientific knowledge of the various branches of the profession, his superior skill in all its most delicate manipulations, together with the high recommendations he brings with him from the Professors of the Baltimore College of Dental Science, will guarantee perfect satisfaction to all my former patrons and all others who may place themselves under our treatment. By this arrangement we will have greater facilities for a more prompt attention to all our patients, which the want of assistance has heretofore deprived me of the ability to bestow.

to bestow.

Persons partial to the manipulations and advice of the undersigned, and who may feel a delicacy in calling for his services at the Dental office, in the event of his not being present, will please call at his Drug Store, No. 27 North Queen street, in the National House Building.

DR. WAYLAN'S NEW DRUG STORE.

No. 60 North Queen street. The undersigned respectfully announces that he has openee his NEW DRUG STORE ESTABLISHMENT, with a very extensive and complete stock of Drugs, Medicines, Chemicals, Porfumery and Fancy Articles—all fresh and pure—which will be sold at the lowest market prices. This stock embraces overy article usually kept in a first class Brug Store, and neither labor nor expense has been spared in fitting up the establishment, to insure the preservation of the Drugs in the best condition, as well as to secure the convenience and comfort of the customors.

A complete assortment of materials used by the Dental Profession can also be had at the store of the subscriber. An improved Soda, or Mineral Water Apparatus has been introduced, the fountains of which are made of from, with Porcelain lining on their interior surface, freeing them from all liability to taint the water with any metalic poison, which has heretofore been so great an objection to the copper fountains. Those who wish to enjoy these refreshing beverages can do so at this establishment without fear of being poisoned with deleterious matter. The entire establishment has been placed under the superintendence of a most competent and careful Druggist, who has had many years' of experience in the Drug and Prescription business, in first class houses in Philadelphi and Cinciunati.

The undersigned feels confident that he is in every way prepared to give entire satisfaction to his customurs, therefore a share of public parronneg is solicited.

All State and County Records should always be printed or written on this Paper, as the chemicals inserted in the pulp not only prevent erasure or transfer, but make it lasting as time.

For Southern Climates it is excellent, and much superior to any other; as the moistness of the climate does not destroy it.—the properties inserted in the pulp being a preventative. In all the southern states, Chab, the West Indies and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oile and other chemicals inserted in this Paper makes it indestructable by the raveges of time. It is also proof against moths, rate and other vermin, which feast on and destroy all other paper now in use.

IMPORTANT TO FARMERS.—Samuel
KEELER's Latest Improved
GRAIN FAN!
These Fans are manufactured at the best and most extensive establishment in the city or county of Lancaster; and being the Latest Improved Grain fans now before the public, farmers and dealers generally will consult their own interests by calling and examining them before purchasing elsewhere. They are now sent to all parts of Pennsylvania and other States. These Fans are so constructed as to separate all the impure grains, such as cheat, cockle, snut, &c., at the same operation. They will also be made, to order, to separate Grass Seeds from Wheat.—When such are desired the order must be sent in time.
I have also manufactured the celebrated Bamborough Fan for many years, and I claim the improvements made upon my Fan as being far superior to them. They are considered

COAL.--The undersigned are now receiving their supply of

THE GREATEST MEDICAL DISCOV-ERY OF THE AGE.—Dr. KENNEDY, of Roxbury, has discovered, in one of our common pasture weeds, a remedy that cures

EVERY KIND OF HUMOR,

EVERY KIND OF HUMOR, from the worst Scrofula down to a common pimple. He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth. One to three bottles will cure the worst kind of Pimples on the face.

Two to three bottles will clear the system of Biles.

Two bottles are warranted to cure the worst canker in the mouth or stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One or two bottles are warranted to cure all humor in the Eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running nicers. Four to six bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

perate case of rheunatism.

Three to four bottles are warranted to cure the sait rheum.

Five to eight bottles will cure the worst case of scrofula. A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddied over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846-second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thou sand bottles per day of it. Some of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing in the anuals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I alwrys kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always

great and wonderful virtues have been considered spected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles.—0, what a mercy lift prove effectual in all cases of that awful malady—there are but few who have seen more of it ful malady—there are put iew who male sold and them aged peo-than I have.

It matters not from what cause the disease originated, however long standing or obstinate the case, recovery it certain, and in a shorter time than a permanent curs can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During twenty years of practice, I have rescued from the jaws of Death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promisim, to the afflicted, who may place themselves under my cure, a perfect and most speedy cure. Secret diseases are the greatest enemies to heath, as they are the first cause of Consumption, Ser-falls and many other diseases, and should be a terror to the human family. As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fall to cure the disease but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid Consumption.

sumption.

But should the diseases and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are bern with f-eblo constitutions, and the current of life corrupted by a viros which betrays itself in Scrofula. Tetter, Ulcers, Eruptions and other affections of the Skin, Eyes, Throat and Lungs, entailing upon them a brief existence of suffering, and consigning them to an early Zrave. them a brief existence of suffering, and consigning them to an early grave.

SELF ABUSE is another formidable annuy to health, for nothing elss in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an unitimely grave. It destroys the Nervous system, rapidly waters away the onervies of life, canses mental deraugement, prevents the proper development of the system, disqualifies for marriage society, business, and allearthy happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death liself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and speedy cure can be effected, and with the abundonment of ruinous practices my patients can be restored to robust, vigorous health.

The utilited are cautioned against the use of Patent Medicines, for there are so many ingenious snarrs in the columns of the public prints to eatch and rob the unwary sufferers that millions have their constitutions rained by the vile compounds of quack doctors, or the equally poi-sonous nostrains vended as "Patent Medicines." I have

sonous nostrains vended as "Patent Medicines". I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent nostrams now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the materia medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money, regardless of consequences. tem, having one object only in view, and that to make money, regardless of consequences.

DISEASES OF THE LUNGS AND THROAT

CURABLE BY INHALATION,

Which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent in the second; but in the third stage it is impossible to save more than five per cent., for the lungs are so cut up by the disease-as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scource which annually destroys ninety-five thousand persons in the United States shone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Copsumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of lile, for it sparses neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted. By the belp of that Supreme Being, from whom cometh every good and perfect gift. I sm enabled to offer to the sflicted as permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weak-ened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the exities of the lungs free administered through thegistomach; the patient will always find the lungs

a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhaliation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results? During eighteen years' practice, many thousands, suffering from diseases of the lungs and throat, bave been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintence with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistakou even in a single case, This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests; to enlarge the chest, purify the blood, impart to it ronewed vitality, giving energy and tone to the entire system.

Medicince with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by letter. But the cure would be more certain if the patient skould pay me a visit, which would give me an opportunity to examine the lungs and edable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again.

PRICE TWENTY - FIVE CENTS.

The Author of the above volume is a graduate of one of the first medical schools in the United States, and having devoted a quarter of a century to the first medical schools in the United States, and having devoted a quarter of a century to the first medical schools in the United States, and having devoted a quarter of a century to the first medical schools in the United States, and having devoted a quarter of a century to the first medical schools in the United States, and having devoted a quarter of a sentury to a sentence of the measure of spenilis and kindred disorders as a speciality, he has become possessed of most invaluable information in regard to the same, and is the total the same and is the treatment of the superior of this professional in the treatment of the secret diseases in many thousands of cases in the City of Philadelphia slone.

The practice of Dr. Hunter has long been, and still is, literally unbounded, but at the carnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the companyity at large, thought the medium of his "Medical Manual and Hand Book for the Afflicted."

It is a volume that has received the unqualified recommendation of the first physicians in the land, while tunny letters where its powerful teachings would be likely to be instrumental in the most purification and obvisical heal-

le clergymen, fathers, mothers, phinotropists and humanitarians, have most freely extended its circulate in in all quarters where its powerful teachings would be likely to be instrumental in the moral purification and physical heading of multitudes ofour people, among the young, volatile and indiscrete, otherwise the pride and flower of the mation. The author argues particularly, most strongly against every species of self-defiloment, and warns porners and guardians, in searching terms, to quard the young of both seeks from the terrible consequences concomitain of their ignorance of physiological laws and sexual impurities and it regularities, whether exhibited by pecceins development or arising from the vicious and corrupting examples of their school mates or otherwise. To those who have been already ensured to the "paths that take hold on hall," a clear and explicit way is shown by which they may secure a return of sound heafth, and a regeneration of the soul from its terrible pollution.

TONICS WON'T DO!--They never did

more than give temporary relief and never will. It is because they don't touch the cause of the disease. The cause of all ague and billious diseases is the atmospheric polson called Miasma or Malaria. Neutralize this polson by its Natural Antidote and all disease caused by it disappears at once Rhodes' Fever and Ague Cure is this Antidote to Malaria. and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chitton, of New York. to this effect, is attached to every bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsenie, gramy tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

JAS. A. RHODES, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they used to escape taking Quinine, contained the Drug Itself!

This remedy, (known as "Smith's Tonie,") would invariably break an Ague, but it did not cure it, as it would ofraribly break an Ague, but it did not cure it, as it would ofraribly missing a chill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation for other and severer maladies. I did succeed in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" had been used, and would, as before stated, break the chill, but after a perido re two had elapsed would return.

I think there will be no difficu I think there will be an elimitary now in giving to your "Cure" the advantage ground of any other remedy now in use here, &_ &c.

Rhode's Fever and Ague Cure, or Antidote to Malaria, ine only harmless remedy in existence, is equally certain as a proventive, as a "Cure." Take it when you feel the chills coming, and you will never have a single one.
