The subscriber being about to publish a beautifully illustrated Map of the city of Lancaster, respectfully solicits the patronage of the citizens to the new enterprise.

The Map will be very minute in its details, being a complete plot of the city with all the new and contemplated streets and alleys, and all the original town lots, numbered as recorded, together with a ground plan of all the buildings as they stand on their respective lots, the Schools, Colleges, with all Churches, Hotels, Stores, Manufacturing Establishments and all the offices of professional men in the city, distinctly named and colored, and the names of all the subscribers duly inserted on the margin, making it not only a complete map of the city, but also a business directory; and, in connection with all this, there will be from fifteen to twenty-five original views of Residences, Churches, Colleges, and Manufacturing Establishments in the city and vicinity beautifully colored, the natural color, as I make all my own sketches and color them on the spot, and have them lithographed in the highest style of the art. Samples of which can be shown that were published in West Chester s.a.d Chester county, which have never been equalled by any views published on any map in the United States. Having had considerable experience in map publishing, and having devoted a great deal of time to the art of perspective drawing. "Our readers are aware that we seldom, if ever, recommend any medical publication, if not endorsed by the very highest authority. As such an instance we may mention Dr. Culverwell's new publication on Nervous Debitity and other weaknesses, the result of early indiscretion. It is a small but valuable Pamphlet. His preparations, the "Regenerator" and "Nervine" are now considered the sole and only effectual remedies extant for the complaints referred to.

Dr. Culverwell's Seminal Regenerator and Royal Nervine the sovereigh Remedies for Seminal Weakness. Sexual Debility, Impotency, Involuntary Emissions, Piles, &c., are for sale by most of the leading Druggists in the country.

Dr. C.'s Pamphlet, as above, containing full advices for Dr. C.'s Pamphiet, as above, containing and accessed the cure of Spermatorhes, &c., can be had, in a secure envelope, by enclosing a stamp to Dr. Chas. J. C. KLINE, 1st Avenue, corner 19th Street, NEW YORK, POST BOX No. 4586.

All State and County Records should always be printed or written on this Paper, as the chemicals inserted in the pulp not only prevent erasure or trausfer, but make it lasting as time.

For Southern Climates it is excellent, and much superior to any other; as the moistness of the climate does not destroy it—the properties inserted in the pulp being a preventatire. In all the southern states, Cuba, the West Indies and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this Paper makes it indestructable by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

Reader, I peddled over a thousand bottles of this in the richity of Boston. I know the effect of it in every case.—So sure as water will extinguish fire, so sure will this cure humor. I never soid a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I sold over one thou sund bottles per day of it.

Some of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing in the annuls of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I alwrys kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles.—O, what a merry if it prove effectual in all cases of that awrit manday—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged pec-

ful maiady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged peo-ple, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, pain in the side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of dist ever necessary—eat the best you get and enough of it. No change of diet ever necessary—eat the best you get and enough of it.

It matters not from what ause the disease originated, however long standing or obstituate the case, recovery it certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has tailled the skill of eminent physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During twenty years of practics, I have rescued from the jaws of Death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promisimt to the sfilleted, who may place themselves under my care, a perfect and most speedy cure. Secret diseases are the greatest enemies to healb, as they are the first cause of Consumption, Scrofula and many othor diseases, and should be a terror to the human family, As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of iocompetent persons, who not only fail to cure the diseases but rule the coustitution, filling the system with mercury, which, with the diseases, hastens the sufferer into a rapid Consumption.

the constitution, filing the system with mercury, which, with the disease, hastens the sufferer into a rapid Consumption.

But should the disease and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetter, Ulcers, Eruptions and other affections of the Skin, Eyes, Threat and Lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, canses mental derangement, prevents the proper development of the system disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and speedy cury can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the nubble prints to each and roth he numers. Medicines for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions rained by the vile compeunds of quack doctors, or the equally poisonous nostrums vended as "Patent Medicines." I have sonous nostrums vanded as "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the materia medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money, regardless of consequences.

Irregularities and all diseases of males and females rested on principles established by twenty years of practice, and sanctioned by thousands of the most remarkable cures. CONSUMPTION

DISEASES OF THE LUNGS AND THROAT

DISEASES OF THE LUNGS AND THROAT
AND ALL
DISEASES OF THE LUNGS AND THROAT
ARE POSITIVELY
CURABLE BY INHALATION,
Which conveys the remedies to the cavities in the
lungs through the air passages, and coming in direct
contact with the disease, neutralizes the twhercular
matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and
energy so indispensable for the restoration of health. To
be able to state confidently that Consumption is curable by
inhalation, is to me a source of unalloyed pleasure. It is
as much under the control of medical treatment as any
other formidable disease; ninety out of every hundred
cases can be cured in the first stages, and fity per cent. in
the second: but in the third stage it is impossible to ave
more than five per cent., for the lungs are so cut up by the
disease as to bid defiance to medical skill. Even, however,
in the last stages, inhalation affords extraordinary relief
to the suffering attending this fearful scourge which annually destroys ninety-five thousand persons in the United
States alone; and a correct calculation shows that of the
present population of the earth, eighty millions are destined to fill the Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of like,
for it spares neither age nor sex, but sweeps off alike the
brave, the beautiful, the graceful, and the gifted. By the
help of that Supreme Being, from whom cometh every good
and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause
of tubercles is from impure blood, and the immediate effect,
produced by their deposition in the lungs, is to prevent the
free admission of air into the air cells, which causes a weakend vitality through the entire system. Then surely it is
more rational to expect greater good from medicines enteing the early set of the prevent s

a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results! During eighteen years practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate censumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chest; to onlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicince with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and edable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again.

PRICE TWENTY-FIVE CENTS

The Author of the shows
volume is a graduate of one of
the first medical schools in the
United States, and having devoted a quarter of a century to
the treatment of Syphilis and
kindred disorders as a speciality, he has become possessed
of most invaluable information
in regard to the same, and is
able to compress into vale incum compass, the very
quintessence of medical science on this important subject;
as the result of the experience of the most eminent physicians in Europe and Americais thoroughly damonstrated
in his own highly successful practice in the treatment of
exert diseases in many thousands of cases in the City of
Philadelphia alone.

The practice of Pr. Hunter has long been, and still is,
iterally unbounded, but at the carnest solicitation of numerous persons, he has been induced to extend the sphere
of his professional usefulness to the community at large,
through the medium of his "Modical Manual and Haul
Book for the Afflicted."

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many
clergymen, fathers, mothers, philantropists and humanitarians, have most freely extended the circulation in all quarnendation of the first physicians in the land, while many clergymen, fathers, mothers, philantrophsts and humanitarians, have most freely extended its circulation in all quarters where its powerful teachings would be likely to be instrumental in the moral purification and physical healing of multitudes of our people, among the young, volatile and indiscreet, otherwise the pride and flower of the nation. The author argues particularly, most strongly against every species of solf deflement, and warms pureuts and guardians, in searching terms, to guard the young of both sexes from the terrible consequences concenitant of their ignorance of physiological laws and sexual impurities and irregularities, whether exhibited by precocious development or arising from the victous and corruptit. Camples of their school mates or otherwise. To those who have been already ensared to the "paths that take hold on hell," a clear and explicit way is shown by which they may secure a return of sound health, and a regeneration of the soul from its terrible pollution.

It is well known that thousands of victims are annually sacrificed at the shrine of quackery—especially those suffering from Venereal or Syphilitic diseases—Strictures, Seminal Weakness, Norvous Debility, and the numerous maladies which spring directly or less romotely from the indulgence of carnal passions and secret violations of Nature.

In view of these facts, and when it is also censidered that about 100,000 persons die annually in the United States of Consumption—a large majority being the victims of the voluptuous indiscretions of their progenitors, agreeably to the Scriptural enunciation, that the kins of the parents are visited upon the children, even to the third and fourth generation—The Author, imbued with sentiments of enlarged philanthropy, will scarcely be consured for any effort to restrain the vices of the age, by the lunnels instrumentality of his Medical Manual.

TONICS WON'T DO!--They never did
Imore than give temporary relief and never will. It is
because they don't touch the cause of the disease. The
cause of all ague and billious diseases is the atmospheric
poison called Missma or Mainta. Neutralize this poison by
its Natural Antidote, and all disease caused by it disappears at once. Rhodes Fever and Ague Cure is this Antidote to Mainta, and moreover it is a perfectly harmless
medicine. The certificate of the celebrated chemisch. I. R.
Chilton, of New York, to this effect, is attached to every
bottle; therefore if it does no good it can do no harm.
This is more than can be said of Quinine, Arsenic, or any
tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter
just received from a Physician:

JAS. A. RHODES, Esq.—Dear Sir: Yours of 2d Inst. is
at hand. The Cure sarrived late last year and the difficulty
in getting any one to try it was greatly increased from the
the fact that a remedy had been introduced which was
growing in favor with the public, as being better than using
Quinine,—not knowing I presume that the remedy they
used to escape taking Quinine, contained the Drug Itselfi
This resurdy, (known as "Bmith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often
return with renewed vigor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your cure. The following is the result:
Three persons took your "Cure," all of which were cases

They had tried Quinine, and other remedies, occasionally
