ST. LOUIS, Oct. 19, 1857. We have just passed through another dull and trying week. We have no better or more favorable report to make in monetary affairs. The money market is as tight as ever, and no very flattering prospects for a let up in financial matters. Everybody is "hard up" and the pres seems to gain more weight every day; who will be We have heard of one of our business men or merchants failing or suspend ing, notwithstanding many rumors have been put affoat hat some of them have fallen under the pressure. It is true a few of them have suffered themselves to go to protest-unwilling to stand the exhorbitant shave on currency, of which they have plenty, but which will not be received in payment for notes. There will be much more of his done, and if the currency of the country is refusedwhich is the only money now to be had—the note holder

will in nine cases out of ten be the loser. For the last three or four days there has been a steady on the Bank of the State of Missouri, but which has promptly met every demand and nobly weathered the any run that may be made upon it. The community here are in favor of a suspension of specie payment, and are en-deavoring to persuade the officers of the Bank that it is heir duty to do so; but up to the present time the officers have not favored their proposition, and continued payment in specie up to closing hours on Saturday. Nearly every day they kept open from one to two hours over their usual date those who were afraid of the safety of their gold and silver! Whether the Bank will suspend, by the urgent request and desire of a large number of our nerchants and business men, is yet to be seen-they maintain that they are strong enough in this trying emergency, thist the people call aloud for suspension-deeming it practicable for the benefit of the whole community.

There is nothing doing in exchange—those of our citizens who owe debts in the East, and had the means of payment, have been obliged to ship coin by express to meet their

The Kentucky banks are awaiting the action of the Louisiana banks—if they suspend, the Kontucky banks will follow suit. The Tennessee banks have suspended. The only money which we have here of any considerable

amount, is Illinois surrency—some take it in exchange for goods, whilst others refuse it altogether. The times are truly hard. Since the commencement of the panic there have not been less than 8,000 persons.

The Inspector of Buildings and Fires makes the following semi-annual report to the City Council:
The total number of buildings erected, and now in course of construction, during the six months ending October 13th, 1857, are 250. Of these, there were constructed of brick, 196; of brick and stone, 43; and of wood, 39. The classification as to the height of the buildings is as follows: One story, 18; one story and basement, 22; two stories, 47; two stories and basement, 85; three and four stories, 68; five and six stories, 40. The aggregate estimated cost of these buildings is \$1,558,5333, averaging about \$3,672 each. total number of fires and false alarms of fires, amount

The total number of fires and false alarms of fires, amount of loss by fires, amount of property destroyed, amount of loss over insurance, during the same period, is as follows: Total number of fires, 57; false alarms, 34; alarms by burning chimneys, 8; alarms caused by fires outside of the city limits, 6; alarms from other causes, 21; total number of alarms and fires, 126. Loss by fires during the same period, \$594.105; insurance upon the same, \$358,540; loss over insurance, \$235,505. The majority of the fires were caused by accident.

The following are the distinguished arrivals in this city for the week: Gen. Harney, U. S. A., and Major Pleasanton, of his staff; Lieut. Col. Parker, Capt. Geo. Gibson, Lieut. W. Pennsylvania —The telegraph has not been in good working order during the week, caused no doubt, by the heavy Democratic majorities sent over it. We have received very few returns from Pennsylvania, but we have heard enough to satisfy ourselves that the "old Keystone" has nobly done her duty. The returns from Philadelphia, Lancaster, settle the matter in our mind that the Democratic party have again triumphed by an overwhelming majority. We feel proud of the result, and wish we were close enough to

the returns which we have received here, show a Democratic gain of 10,000 since the Presidential election. The latest accounts from there indicate the success of Payne over Chase for Governor, but we think Chase will be the winner. It would be too much to expect of our friends in Ohio to break down in one year such great odds. We will take them at the next election. The Legislature of Ohio is und subtedly Democratic, which is glory enough for one

Iowa.-The reports from Iowa are very cheeringcounties the Democrats have gained over 5000, and they have but 2000 more to overcome, which the Democracy of that State say they can do. Whether they can or not, they have done well. Our opinion is that they have carried the State—the Legislature without a doubt.

Mississippi.-The result in this State has been the compiete triumph of the Democracy, electing their Governor by a largely increased majority, all the members of Cougress, the State Legislature, &c.

Now Mexico.—Otero has been elected Delegate to Congress over Baird by above 3,000 majority. The Democrats have almost unanimously carried the Legislature ticket.

We have heard nothing more of the earthquake except from places where the shock was felt.

The weather has turned quite cold—free have been sought, and when found felt very comfortable. We had a very heavy frost in this locality on Wednesday night last, and another on Saturday night. The farmers, we believe, are ready to receive "Mr. Jack Frost" at his earliest convenience.

to Live. gentleman, named Johnson, recently moved to Fentonville, with his family, consisting of a wife and three children—the oldest of the latter but eight years of age. Not having got all his beds up, the wife remained at the hotel over night, while Mr. Johnson went to his house with the children, and was panied by a boy named George Colwell, about seventeen years old. About eight o'clock in evening, two young men came in, asking for Mr. Johnson, saying that they were going to his father's house, a short distance from there On receiving a very pressing invitation, they consented to remain over night, and go with him in the morning to see the old gentleman. Mr. Johnson that night slept in a bed with his two small girls; the little boy slept with Colwell, and the young men had a bed made

upon the floor, between the other beds. During the night Mr. Johnson heard one of his girls cry out "Pa!" and at the same time received a blow on the side of his head. He was partially stunned, and the next he remembered he was running after a man who was attempting to escape by the door. The man turned again and struck at him with the same instrument. Mr. J. followed the fellow for some distance without being able to overtake him, and therefore returned to his house. entering the room where he had been sleeping, a horrible sight met his eyes-one of the little girls and the Colwell boy lay dead before him, and the other little girl and boy insensible from the effects of their injuries! The agonized father screamed "murder!" and called in the

neighbors. Several came in, and on examina-tion, the following particulars were disclosed: The first body examined was that of young Colwell. He had received a blow, apparently from an axe. His skull was split entirely open, and his brains had all run out. The little boy who lay beside Colwell had been struck twice in the head, by an axe or hatchet, One of the and another in the abdomen. little girls who slept with her father, had received several wounds in the head and body upon two young fellows who had recently had every branch of trade is completely prostrated. Mr. Johnson had about \$400, and it is \$1 02; Corn, 55. 58 and 60c; Oats, from 36 to 40c; Barley, supposed that they were aware of it, and took this means of gaining possession of it, killing the children, that there should be no evidence against them. > THE DIFFERENCE. - The Philadelphia Ledger in showing up the bright side of the financial trouble, says:

There is this important difference in the suspension of specie payments by the banks now and in 1837: Then the rate of sterling exchange was 20 a 22 per cent, premium. Coin was shipped out of the country by millions of dollars, all business was utterly prostrated, and so continued until the rate of exchange was reduced so low as to render coin shipments unprofitable. It eventually, and months before resumption, got below par, and coin in small amounts came to this country. Now, at the very time of the present suspension, the rate of sterling exchange is below par, and coin is coming from A much respected citizen named Lawrence was run over by the Steam Fire Engine, and after suffering some hours, country is also well filled with foreig imports, so that there exists no necessity for any verheavy importations; we have also, of all the principal staples, a great abundance, ready to go forward at the first intimation of a demand for them, both facts guaranteeing to some extent that the balance of trade will continue for some considerable time in our favor. In these respects the present suspension more favors an early resumption than did that of 1837. Then it required some considerable time to come down to a starting point upward, as regards the foreign exchanges. Now, in our foreign financial relations, we stand all right. There is nothing to fear in that quarter. The question of a resumption, therefore, resolves itself into one of a purely domestic character. It is simply a matter of adjournment of liabilities among ourselves, and while we fear a lengthoned depression of all business, we hope for an early resumption, and believe that through it come the earliest relief from our present em-barrassments. With economy and a will on the part of each individual to throw off our

> Mr. BANKS ON THE FINANCIAL QUESTION.-The Honorable Mr. Banks, in his speech at Faneuil Hall, Thursday night, was quite oracular upon the causes of the financial crisis which has rendered so many of the banks N. P. Banks (non-paying banks.) In the first place, if Mr. Guthrie's plan of a Tariff had been adopted, the crisis would not have come.
>
> In the second place, if the late modification of the tariff had been effected a year earlier,

the crisis would have been averted. In the third place, if the crops at the west had been forwarded to the seaboard a few weeks before they were harvested, we should have had no financial crisis. He might have added, by way of illustra-

tion, that if the dog had not stopped, he would have caught the rabbit. But finally, Mr. Banks attributes all our financial troubles to the discussion of the sla-

very question in Congress, which was gotten up and carried on perseveringly by his own party when they should have been paying their attention to the material interests of their constituents.—Boston Herald.

John Randolph and the Times. All the financial revolutions of the country have been similar in character, though not nelly, formerly of Lancaster, Mr. D. has been travelling always the same in power. The suspension of 1817, was produced by the same causes

which produced the present financial crisis.

"The evil of the times," says Mr. Randolph, an eccentric but sagacious and able statesman, at Wood's Theatre. Mr. Couldock played to large audiences in that house last week. Mr. Edwin Booth commences an engagement to-night. Miss Matilda Heron has been running "Camille" in the ground at the St. Louis Theatre. any means but those of honest industry; a spirit of profusion; in other words, the spirit of Cataline himself, alieni avidus, sui profusus; a spirit of expediency not only, in public, but in private life; the system of Diddler in the farce—living any way and well, wearing an expensive coat and drinking the finest wines,

at anybody's expense." Things will always be as above described until the temptation is removed. What would Randolph say if he were now living, to the "sui profusus" spirit of the age of 1857?

GREAT FIRE IN CHICAGO, AND LOSS OF LIFE. A very destructive conflagration visited the city of Chicago last Monday week. The loss touch off" the little cannon.

Ohio.—Our party has fought a good fight in Ohio, and the returns which we have received here, show a Demother to nearly \$700,000. The following are the names of the principal losers, and the sums of their losses: Cornick & Co., hardware merchants, \$40,000: Fritzworth & Co., clothing, \$40,000; J. H. Dunham, \$25,000: Shay, dry goods merchant, \$130,000; Cook & Co., booksellers, \$130,000; Edward Hempstead grocer, \$40,000, and Lewis & Page, oil store, \$70,000. The Insurance amounts to about \$300,000. The origin of the first is not known. Twelve persons were killed by the falling of the walls of burning buildings.

WASHINGTON, Oct. 23 .- According to the Treasurer's statement, by returns received to the 19th inst., the amount in the different depositories is over \$13,500,000. The amount subject to draft is \$10,632,555. The amount of receipts for the week ending on that day was only \$443,380.

NEW YORK, Oct. 23 .- The Metropolitan Bank is said to have discounted to day, all the paper that was offered. As a general thing, nowever, money was as tight as at any time

during the week. It is stated by the Express, on the authority of private advices, that the English underwriters had declined to insure any more specie on board the steamer Persia. It is also stated that the Persia, and the steamer sailing on the 24th of October, would have one million ster-

Truly and Forcibly Expressed. The Richmond South, in the course of an elaborate article on the present financial panic makes a strong point against the North. The

editor savs: "The present crisis will show that the slave abor staple of the South will furnish the means of extrication from commercial indebtedness It will show the South comparatively fre from distress or embarrassment—able to ride out the storm which the speculation of the North has caused. How then can the North censure that labor to which she will owe her commercial existence? How can she prate of her independence when, but for the aid of Southern resources, she would stand a branded bankrupt before the world? This financial revulsion, filling her land with beggary and shame, will teach the North a lesson mercial mortality. It many cause her men of capital, and her disbanded laboring thous ands, now contemplating an approaching winter with terror, to recoil from that chasm of disunion into which such advisers and such arguments as we have referred to would drive

her, with indignation and horror." Pennsylvania.

The Journal of Commerce thus speaks of the tremendous defeat of the black-republican party in Pennsylvania at the late election: "The result of the election may be called thorough and emphatic endorsement of Mr. Buchanan's administration, his New Haven letter, and the Dred Scott decision, and a decided affirmation that the people of Pennsylva-

nia do not repent the way they voted last fall. The large democratic gain seems further to show that but for the lavish employment of the Kansas fund in the presidential election, the vote for Mr. Fremont would probably have been nearer what it now is for Wilmot, and Mr. Buchanan's majority would have been much larger. It has been extensively believed that Pennsylvania voted for Mr. Buchanan on personal grounds, and it has even been credited by some that contributions were made and used to procure her suffrages for him."

TO THE PUBLIC.—Having been called upon by the Judges of the late Agricultural and Mechanical Fair at this place, who gave their awards to Dr. John Waylan and Messrs. Welchains & Prigg, for cases of Dental Instruments exhibited by them, the Judges, feeling as they do, that Dr. Waylan, in his card to the public of the 20th instruments exhibited by them, the Judges, feeling as they do, that Dr. Waylan, in his card to the public of the 20th instruments, calls into question that hor host practical use," while they awarded to him a Diploma but for "fineness of finish of Dental Instruments," claiming that he should have had a Diploma for the best case of Instruments for practical use, instead of that awarded—

Now we, the undersigned Dentits of this place, having examined the two cases of Dental Instruments in question, feel no hesitation in saying that we fully concur in the decision and awards of the Judges upon them, as the cases and Instruments need but the slightest examination to decide that Dr. Prigg's case of instruments is far superior, in our estimation, for practical use.

CATHARTIC PILLS

OPERATE by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action. They remove the obstructions of the stomach, bowels, liver, and other organs of the body, and, by restoring their irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown cures of dangerous diseases almost beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish free to all inquiring.

Annexed we give Directions for thir use in the complaints which they have been found to cure. For Costiveness.—Take one or two Fills, or such quantity as to gently move the bowels. Costiveness is frequently the aggravating cause of PILES, and the cure of one complaint is the cure of both. No person can feel well while under a costive habit of body. Hence it should be, as it can be, promptly relieved.

For Dyspersia, which is sometimes the cause of Costiveness, and always uncomfortable, take mild doses—from one to four—to stimulate the stomach and liver into healthy action. They will do it, and the hearthurn, bodyburn, and southurn of dyspepsia will rapidly disappear. When it has gone, don't forget what cured you.

For a For'l Stomach, or Morbid Inaction of the Sporeds, which produces general depression of the spirits and had health, take from four to eight Pills at first, and smaller doses afterwards, until activity and strength is restored to the system.

spirits and oan neath, take from now to eight that affirst, and smaller doses afterwards, until activity and strength is restored to the system.

Fon Nervousness, Sick Headache, Nausra, Pain in the Stomach, Back, or Side, take from four to eight pills on going to bed. If they do not operate sufficiently, take more the next day until they do. These complaints will be swept out from the system. Don't wear these and their kindred disorders because your stomach is foul.

For Scrofula, Ervsifellas, and all Diseases of the Skin, take the Pills freely and frequently, to keep the bowels open. The eruptions will generally soon begin to diminish and disappear. Many dreadful ulcers and sores have been healed up by the purging and purifying effect of these Pills, and some disgusting diseases which seemed to saturate the whole system have completely yielded to their t first, and smaller doses afterwards, until activity

some disgusting diseases which seemed to anturate the whole system have completely yielded to their influence, leaving the sufferer in perfect health Patients! your duty to society forbids that you should parade yourself around the world covered with pimples, blotches, ulcers, sores, and all or any of the unclean diseases of the skin, because your tystem wants cleansing.

To PURLEY THE BLOOD, they are the best medicine ever discovered. They should be taken freely and frequently, and the impurities which sow the seeds of incurable diseases will be swept out of the system like chaff before the wind. By this property they do as much good in preventing sickness as by the remarkable cures which they are making every where.

where.
LIVER COMPLAINT, JAUNDICE, and all Bilious LIVER COMPLAINT, JAUNDICE, and all Bisons Affections, arise from some derangement — either torpidity, congestion, or obstructions of the Liver. Torpidity and congestion vitiate the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigestion is the symptom. Obstruction of the duct which empties the kile into the stometh causes the bile to overflow mined by no cases to the duct which empures to tom. Obstruction of the duct which empures to bile into the stomach causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerous train of evils. Costiveness, or alternately costiveness and diarrhea, prevails. Feverish symptoms, languor, low spirits, weariness, restlessness, and melancholy, with sometimes in restlessness, and melancholy, with sometimes in the sometimes great drowsiness; Feverish symptoms, languor, low spirits, weariness, restlessness, and melancholy, with sometimes insulity to sleep, and sometimes great drowsiness; sometimes there is severe pain in the side; the skin and the white of the eyes become a greenish yellow; the stomach acid; the bowels sore to the touch; the whole system irritable, with a tendency to fever, which may turn to billious fever, billious colic, billious diarrhoa, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these troubles. It is wicked to suffer such pains when you can cure them for 25 cents.

Rheumatism, Gour, and all Inflammatory Fevers, are rapidly cured by the purifying effects of these Pills upon the blood and the stimulus which they afford to the vital principal of Life. For these and all kindred complaints they should be taken in mild doses, to move the bowels gently, but freely.

As a Dinner Pill, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has ocen made more effectual to

and certainly none has seen made more effectual to the purpose for which a dinner pill is employed. PREPARED BY DR. J. C. AYER & CO., Practical and Analytical Chemists, LOWELL, MASS., AND BOLD BY

The above property has lately been very much improved; within the last year 10,000 bushels of lime has been put on it, and 2 tons of guano.

This property will divide in equal parts, either by the creek or by the public road. The terms will be made accommodating to suit purchasers, as but little of the mone will be required for several years, unless convenient to those who may choose to purchase. Any person with a small sum to pay in cash, can make the balance out of the timber, and wood, as the Cattswissa Italiroad furnishes a cash market for all the wood that can be delivered. All the products of the farm will in that place pay better than in the city of Lancaster, in consequence of the markets created by the iron and coal regions close by. After being cleared there will be 200 acres of good timothy meadow as can be found in the State. It will then be a first-rate

JAMES CAMERON. JAMES CAMERON Chillsquaque twp., Jan. 20. CHOICE FARM LANDS FOR SALE.-

The Illinois Central R. R. Company is now prepared to sell about 1,500,000 Acres of CHOICE FARMING LANDS in Tracts of 40 Acres and upwards, on Long Credits, and at Low Rates of Interest.

These lands were granted by the Government to aid in the construction of this Road, and are among the richest and most fertile in the world. They extend from North East and North West, through the middle of the State, to the extreme South, and include every variety of climate and productions found between those parallels of latitude. The Northern portion is chiefly pairle, interspersed with fine groves, and in the middle and Southern sections timber predominates, alternating with beautiful prairies and openings.

per precommates, attending with teacher precommaters.

The climate is more healthy, mild and equable, than any other part of the country—the air is pure and bracing, while living streams and springs of excellent water abound.

Bituminous Coal is extensively mined, and supplies a cheap and desirable fuel, being furnished at many points at \$2 to \$4 per ton—and wood can be had at the same rate pur cord. at £2 to £4 per ton—and wood can be had as the same reper cord.

Building Stone of excellent quality also abounds, which can be procured for little more than the expense of transportation.

The great fertility of these lands, which are a black rich mould from two to five feet deep, and gently rolling,—their contiguity to this Road, by which every facility is furnished for travel and transportation, to the principal markets North, South, East, West, and the economy with which they can be cultivated, render them the most valuable investment that can be found; and present the most favorable opportunity, for persons of industrious habits, and small means, to acquire a comfortable independence in a few years.

favorable opportunity, for persons of industrious matter and small means, to acquire a comfortable independence in a few years.
Chicago is now the greatest grain market in the world—and the facility and economy with which the products of these lands can be transported to that market, make them much more profitable, at the prices asked, than these more remote at government rates,—as the additional cost of transportation is a perpetual tax on the latter, which must be borne by the producer, in the reduced price he receives for his grain, &c.

The title is perfect—and when the final payments are made, Deeds in whom the title is vested, to the purchasers, which convey to them absolute titles in Yee Simple, free and clear of every incumbrance, lieu or mortgage.
THE PRICES ARE FROM \$6 to \$30.—INTEREST ONLY 3 PER CENT.

20 per cent. will be deducted from the credit price for Cash. Those who purchase on long credit, give notes payable in 2, 3, 4, 6 and 6 years after date, and are required to improve one-tenth annually for five years, so as to have one-half the land under cultivation, at the end of that time.

Commetant Surveyors will accompany those who wish to

one-half the land under cultivation, at the end of that time.

Competent Surveyors will accompany those who wish to examine these Lands, free of charge, and aid them in making selections.

The Lands remaining unsold are as rich and valuable as those which have been disposed of the selection one who will enclose fifty cents in Postage Stamps, and Books or Pamphlets, containing unerous instances of successful farming, signed by respectable and well-known farmers living in the neighborhood of the Raifroad Lands, throughout the State—also the cost of foncing, price of cattle, expense of harvesting, threshing, etc.—or any other information—will be cheerfully given on application, either personally or by letter, in English, French, or German, addressed to JOHN WILSON.
