NEW PROCESS IN DENTISTRY

CHEOPASTIO PROCESS of mounting
recently patented by Dr. BLANDY. formerly
Professor in the Baltimore College of Dental Surgery, is certainly one of the greatest discoveries of the present age and destined to work a great change in Mechanical Dentistry.

The undersigned being the first in the State to introduce this process into practice, and which has been attended with great success, feels no besifation to recommending it as superior to any other method of mounting Artificial Teeth heretofore known—the casting of the plates having great advantage over the common custom of "swaging." The same accuracy in fitting, perfect cleanliness, and durability connot be obtained by any other process.

NEW CITY MAP.—SPLENDIDLY IL—

NEUGITATED WITH LARGE COLORED MAPS.—
The subscriber being about to publish a beautifully illustrated Map of the city of Lancaster, respectfully solicits the patronage of the citizens to the new enterprise.

The Map will be very minute in its details, being a complete plot of the city with all the new and contemplated streets and alleys, and all the original town lots, numbered as recorded, together with a ground plan of all the buildings as they stand on their respective lots, the Schools, Colleges, with all Churches, Hotels, Stores, Manufacturing Establishments and all the offices of professional men in the city, distinctly named and colored, and the names of all the subscribers duly inserted on the margin, making it not only a complete map of the city, but also a business directory; and, in connection with all this, there will be from fifteen to twenty-five original views of Residences, Churches, Colleges, and Manufacturing Establishments in the city and vicinity beautifully colored, the natural color, as I make all my own sketches and color them on the spot, and have them lithographed in the highest style of the art. Samples of which can be shown that were published in West Chester and Chester county, which have never been equalled by any views published on any map in the United States. Having had considerable experience in map publishing, and having devoted a great deal of time to the art of perspective drawing, I flatter myself that I am able to produce beautiful life-like pictures that cannot be excelled, and in fact defy all competition in this style of Map publishing, and having devoted a great deal of time to the art of perspective drawing, I flatter myself that I am able to produce beautiful life-like pictures that cannot be excelled, and in fact defy all competition in this style of Map publishing, and having news published to by the subscriber.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

Having purchased the Patent for the exclusive right to manufacture and sell the new Chemical Paper in America, invented and patented in England by Henry Glynn, a celbrated chemist and efficer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U.S. Mint, Mr Lyman, of the New York Clearing House, and Meade Brothers, extensive and skilful photographers, 233 Broadway, N.Y. The latter say that no initiation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

For Indentures and Agreements—40 cents per lb.

All State and County Records should always be printed or written on this Paper, as the chemicals inserted in the pulp not only prevent erasure or transfer, but make it lasting as time.

For Southern Climates it is excellent, and much superior to any other; as the moistness of the climate does not destroy it.—the properties inserted in the pulp being a preventarive. In all the southern states, Caba, the West Indies and the Ceutral American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this Paper makes it indestructable by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

Kreler's Latest Improved

R A I N F A N!

These Fans are manufactured at the best and most extensive establishment in the city or county of Lancaster; and being the Latest Improved Grain Fans now before the public, farmers and dealers generally will consult their own interests by calling and examining them before purchasing elsewhere. They are now sent to all parts of Pennsylvania and other States. These Fans are so constructed as to separate all the impure grains, such as cheat, cockle, smut, &c., at the same operation. They will also be made, to order, to separate Grass Seeds from Wheat.—When such are desired the order must be sent in time.

I have also manufactured the celebrated Bamborough Fan for many years, and I claim the improvements made upon my Fan as being far superior to them. They are considered

by all Farmers who have given them a trial, and who continue squire them.

by all Farmers who have given them a trial, and who continue using them. I have had an extensive experience in the manufacture of Grain Fans, having made about 2,000 since I have been in the business. These Fans are adapted to hand or horse power, or any other power that may be applied to them; and they will be sent, free of charge, to any distance within 300 miles, by railroad or water, at the shortest notice.

23 Castings of all kinds for Wind Mills always on hand; also, Screen and Wire of all Nos., for sale at the lowest prices. Be careful if you want a Fan of my manufacture, to se that my name is on it.

S. KEELER, Lancaster, Pa. s is on it. S. KEELER, I

I will give a reward of \$5,000 to any set of men who can prove to my satisfaction that these Fans are not the best now in use. They have received the premium at the Agricultural Fair held at Columbia, Lancaster county, in 1854; at the Now Jersey State Fair in 1855; at the State Fair held at Harrisburg, and at the Delaware County Fair.

Also, at the York County Fair, the undersigned received a premium for three splendid Fanning Mills on exhibition. At the Franklin County Fair, a premium was also awarded for his superior Grain Fans. He received two premiums at the Berks County Fair. At the Pittsburg Fair he received a first premium and a silver medal. At the Philadelphia Fair the highest prize was awarded Keeler's Fans, over twenty-five others on exhibition.

Wenty-five others on exhibition.

CIDER MILLS!

I have also valuable Cider Mills for sale, which are warranted to make from \$\tilde{t} to \$\tilde{t}\$ of cider per day, and to produce more cider out of the same quantity of apples than any other Mill. They are made to run by hand or horse power. Also, for sale

majority of the cases falling into the hands of incompetent
persons, who not only fail to cure the diseases but ruin
the constitution, filling the system with mercury, which,
with the disease, hastens the sufferer into a rapid Cons

itself in Scrollia, letter, Uteers, Eruptions and other affections of the Skin, Eyes, Throat and Lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

BELP ABUSE is another formidable enemy to health, for nothing else in the dread cat-logue of human diseases causes so destructive a drain upon the system, drawing its thousands of victiums through a few years of suffering down to an untimely grave. It destroys the Nervous system, and the suffering down to an untimely grave. It destroys the Nervous system, drawing them, rapidly wastes away the energies of life, canses mental derangement, prevents the proper development of the system. disquisities for marriage, scelety, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions ruined by the vile compounds of quack doctors, or the equally poisonous nostrums vended as "Fatent Medicines." I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them constant Currosive Sublimate, which is one of the strongest preparations of mercury and a deady poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the makeria medicin, and are equally as destitute of any knowledge of the human ays tem, having one object only in view, and that to make money, regardless of consequences.

CURABLE BY INHALATION.

Which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the thereular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pigasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fity per cent in the second; but in the third stage it is impossible to save more than five per cent., for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex. but sweeps off alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, from whom comoth every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality concororm innuise will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; in-haling the ordinary burning gas will destroy life in a few hours. tours.

The inhalation of ammonia will rouse the system when

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results? During eighten years, practice, many thousands, suffering from diseases of the lungs and throat, have been under my cate, and I have effected many remarkable pures, even During eighteen years' practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms or disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case, This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests; to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the antire system.

Medicince with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and edable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again.

So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the suddon rise, and great popularity of the discovery, I will state that in April, 1853, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I alwrys kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

The practice of Dr. Hunter has long been, and still is; literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefolness to the community at large, through the medium of his "Medical Manual and Hand Book for the Afflicted."

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many dergymen, fathers, mothers, philantropists and humanitarians, have most freely extended its circulation in all quarters where its powerful teachings would be likely to be instrumental in the moral purification and physical healing of multitudes often people, among the young, volatile and indiscrect, otherwise the pride and flower of the nation. The author argues particularly, most strongly against every species of solf deflement, and warns parents and guardians, in searching terms, to guard the young of both server provided that the result of the "physical healing from the vicious and corruptine" examples of their school makes or otherwise. Neutralize this poison by its Natural Antidote, and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria. and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle; therefore if it does no good it can do no harm. This is more than can be said of Quinine, Arsenic. or any tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

### GEORGETOWN, Ohio, March 18, 1856.

JAS. A. RHODES, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficuity in getting any one to try it was greatly increased from the the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they need to escape taking Quinine, contained the Drug Itself!

This remedy, (known as "Emith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often return with renewed vigor. This one circumstance I deemed in your favor, if I could Institute a test comparison between it and your cure. The following is the result:

Three persons took your "Cure," "all of which wore cases of "Quotidian Intermittent Fever," of mnny weeks standing They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as in ail such cases,) elowly wearing them out, and laying the foundation for other and severer maladles. I did succeed in effecting a

ted, break the chill, but after a period or two had elapsed would return.

I think there will be no difficulty now in giving to your "Oure" the advantage ground of any other remedy now in use here, &, &c.

Rhode's Fever and Ague Cure, or Antidote to Malaria, the only harmless remedy in existence, is equally certain as a preventire, as a "Cure." Take it when you feel the chills coming, and you will never have a single one.
