Our stock embraces every variety of Foreign and Domestic Goods usually found in a first class Dry Goods Store, most of which have been purchased during the present monetary crists for cash on delivery, and consequently we can and will soil them unusually low, and will make it to the interest of purchasers to deal with us.

We would ask particular attention to our stock of Table Linens, Table Cloths, Towellings, Napkins, Doyles Linen Sheetings, &c. &c. As we have the largest wholesale trade in this description of goods of any house in the city, we will guarantee to sell them wholesale or retail, ten per cent. cheaper than can be had elsewhere.

TERRIBLE DISCLOSURES: SE-GRETS FOR THE MILLION! A most Wonderful and Valuable Publication. DR. HUNTER'S MEDICAL MANUAL; Being an original and popular Treatise on Man and Wo-man: nan : Their Physiology, Functions and Sexual Disorders of every

PRICE TWENTY-FIVE CENTS

The Author of the above volume is a graduate of one of the first medical schools in the United States, and having devoted a quarter of a century to the treatment of Syphilis and kindred disorders as a speciality, he has become possessed of most invaluable information in regard to the same, and is able to compress into vade mecun compass, the very quintessence of medical science on this important subject as the result of he experience of the most aminent physicians in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the City of ope and America is thoroughly demonstrated phly successful practice in the treatment of a in many thousands of cases in the City of

sicians in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the City of Philadelphia alone.

The practice of Dr. Hunter has long been, and still is, literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the spherof his professional usefulness to the community at large, through the medium of his "Medicai Manual and Hand Book for the Afflicted."

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many clergymen, fathers, mothers, philantropists and humanitarians, have most freely extended its circulation in all quarters where its powerful teachings would be likely to be instrumental in the moral purification and physical healing of multitudes ofour people, among the young, volaticand indiscreet, otherwise the pride and flower of the nation.

The author argues particularly, most strongly against every species of self defilement, and warns parents and guardiaus, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their ignorance of physiological laws and sexual impurities and irregularities, whether exhibited by proceedious development or arising from the vicious and corrupting examples of their school mates or otherwise. To those who have been already ensonared to the "paths that take hold on hell," a clear and explicit way isshown by which they may secure a return of sound health, and a regeneration of the soul from its terrible pollution.

It is well known that thousands of victims are annually sacrificed at the shrine of quackery—especially those suffering from Venereal or Syphilitic diseases—Strictures, Seminal Weakness, Nervous Debility, and the numerous maladies which spring directly or less remotely from the indulgence of carnal passions and secret violations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die an

TONICS WON'T DO!—They never did
more than give temporary relief and never will. It is
because they don't touch the cause of the disease. The
cause of all ague and billious diseases is the atmospheric
poison called Missma or Malaria. Neutralize this poison by
its Natural Antidote, and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless
medicine. The certificate of the celebrated chemist, J. R.
Chilton, of New York, to this effect, is attached to every
bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsenic, or any
tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter
Just received from a Physician:

GOBGETOWN, Ohio, March 18, 1856.

JAS. A. RHODES, Esq.—Dear Sir: Yours of 2d inst. is
at hand. The Cure arrived late last year and the difficulty
in getting any one to try it was greatly increased from the
the fact that a remedy had been introduced which was
growing in favor with the public, as being better than using
Quinine,—not knowing I presame that the remedy they
used to escape taking Quinine, contained the Drug Itself!

This remedy, (known as "Smith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often
return with renewed vigor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your cure. The following is the result:

Three persons took your "Cure," all of which were cases
of "Quotidian Intermittent Fever," of many weeks standing
They had tried Quinine, and other remedies, occasionally
masing a chill, but it was, (as in all such cases,) elowly
wearing them out, and laying the foundation for other and
severer maladies. I

missing a chill, out it was, tas it an it such cases, showly wearing them out, and laying the foundation for other and severer maladies. I did succeed in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" had been used, and would, as before stated, break the chill, but after a period or two had elapsed would exture.

ted, break the chili, but niter a pease of the would return.

I think there will be no difficulty now in giving to your "Curo" the advantage ground of any other remedy now in use here, & , &c.

WILLIAM BUCKNEK, M. D.
Rhode's Fever and Ague Cure, or Antidote to Malaris, the only harmiess remedy in existence, is equally certain as a preventive, as a "Curo." Take it when you feel the chills coming, and you will never have a single one.

But should the diseases and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetter, Ulcers, Eruptions and other affections of the Skin, Eyes, Throat and Lungs, entailing upon them a brief axistence of suffering, and consigning them to an early grave.

Which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, noutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparte renewed vitality to the nervous system, giving that tone and sucry so indispensable for the restoratin of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unafloyed piensaure. It is as much under the control of medical treatment as any other formidable disease; interly out of every hundred cases can be cured in the first stages, and fitty per cont in the second; but in the third stage it is impossible to save diseases as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful secure which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of lile, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, from whom cometh-every good and perfect gift, I am enabled to offer to the afficed a per manent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the humediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the fatomach; the patient will always find the lungs free and the breathing ea

after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case, This familiarity in connection with certain pathological and microscopic discoveries, enables ma to relieve the lungs from the effects of contracted chests; to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system. Medicine with full directions sent to any part of the United States/and Canadas by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and edable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again.
