NEW PROCESS IN DENTISTRY. CHEOPASTIC PROCESS of mounting
ARTIFICIAL TEETH,
recently patented by Dr. BLANDY, formerly
Professor in the Battmore College of Dental Surgery, is certainly one of the greatest discoveries of the present age and destined to work a great change in Mechanical Dentistry.
The undersigned being the first in the State to introduce this process into practice, and which has been attended with great success, feels no hesitation in recommending it as superior to any other method of mounting Artificial Teeth heretofore known—the casting of the plates having great advantage over the common custom of "swaging." The same accuracy in fitting, perfect cleanliness, and durability connot be obtained by any other process.

S. T. PRIGG.

I would respectfully announce to my friends, throughout the City and County of Lancester, that I have this day taken into co-partnership, in my Dental practice, Dr. S. T. PRIGG, recently of fistlimore, Md., and who has, within the last three or four months, become a resident Dentist of this city. The gentlemanity and accommodating character of Dr. Prigs, his thorough and scientific knowledge of the various branches of the profession, his superforskill in all its most delicate manipulations, together with the high recommendations he brings with him from the Professors of the Baltimoro College of Dental Science, will guarantee perfect estifaction to all my former patrons and all others who may place themselves under our treatment. By this arrangement we will have greater facilities for a more prompt altention to all our patients, which the want of assistance has heretofore deprived me of the ability to bestow.

Persons partial to the manipulations and advice of the undersigned, and who may feel a delicacy in calling for his services at the Dental office, in the event of his not being present, will please call at his Drug Store, No. 27 North Queen street, in the National House Building.

IMPORTANT TO FARMERS.—Samuel

KEELER'S Latest Improved

GRAIN FAN!

These Fans are manufactured at the best and most extensive establishment in the city or county of Laneaster; and being the Latest Improved Grain Fans now before the public, farmers and dealers generally will consult their own interests by calling and examining them before purchasing elsewhere. They are now sent to all parts of Pennsylvania and other States. These Fans are so constructed as to separate all the impure grains, such as cheat, cockle, smut, &c, at the same operation. They will also be made to order, to separate Grass Needs from Wheat.—When such are desired the order must be sent in time.

I have also manufactured the celebrated Bamborough Fan for many years, and I claim the improvements made upon my Fan as being far superior to them. They are considered

cause tho disease originated, however long standing or ob
stinate the case, recovery is certain, and in a shorter time

than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent

physicians and resisted all their means of cure. The med
icines are pleasant without odor, causing no sickness and

free from mercury or balsam. During twenty years of

practice, I have rescued from the jaws of Death many

thousands, who, in the last stages of the above mentioned

diseases had been given up to die by their physicians,

which warrants me in promising to the efflicted, who may

place themselves under my caro, a perfect and most speedy

cure. Secret diseases are the greatest enemies to health, as

they are the first cause of Consumption. Scrofula and

many other diseases, and should be a terror to the human

family. As a permanent cure is scarcely ever effected, a

majority of the case stalling into the hands of incompetent

persons, who not only fall to cure the diseases but ruin

the constitution, filling the system with mercury, which,

waith the disease, hastens the sufferer into a rapi

with the disease, hasous the square the a topic ob-sumption.

But should the diseases and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetter, Uleres, Eruptions and other affec-tions of the Skin. Eyes, Throat and Lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

tions of the Skin. Eyes, Threat and Lungs, entaming upon them a brief existence of suffering, and consigning them to an early grave.

SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It dostroys the Nertous system, capidly wastes away the energies of life, canses mental decaugement, prevents the proper davelopment of the system, disjustifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in bedy and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health. The afflicted are cautioned against the use of Patent Medicines, for there are so many ingentious snares in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions ruined by the vile compounds of quark doctors, or the equally poisonous nestrums vended as "Patent Medicines". I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Certosite Subli-

I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Carresive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabot of the materia medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money, resardless of consequence of males and females researches of consequents by twenty years of practice, and sanctioned by thousands of the most remarkable cures. CONNUMPTION
AND ALL

DISEASES OF THE LUNGS AND THROAT

DISEASES OF THE LUNGS AND THROAT

AND ALL

DISEASES OF THE LUNGS AND THROAT

CURABLE BY INHALLITION.

Which conveys the remedies to the cavities in the
lungs through the air passages, and coming in direct
contact with the disease, neutralizes the tubercular
matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, glving that tone and
sorry so indispensable for the restoration of health. To
be able to state confidently that Consumption is curable by
inhalation, is to me a source of unalloyed pleasure. It is
as much under the control of medical treatment as any
other formidable disease; ninety out of every hundred
cases can be cured in the first stages, and faty per cent in
the second; but in the third stage it is impossible to save
more than five per cent., for the lungs are so cut up by the
disease as to bid defiance to medical skill. Even, however,
in the last stages, inhalation affords extraordinary relief
to the suffering attending this fearful scourge which annually destroys minely five thousand persons in the United
States alone; and a correct acleulation shows that of the
present population of the earth, eighty millions are des
timed to fill the Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life,
for it spares neither age nor sex, but sweeps off alike the
brave, the beautiful, the graceful, and the gifted. By the
help of that Supreme Being, from whom cometh every good
and perfect gift. I am enabled to offer to the afflicted a permanent and speedy erre in Consumption. The first cause
of tubercless is from impure blood, and the immediate effect,
produced by their deposition in the lungs, is to prevent the
free admission of air into the air cells, which causes a weakened vitality through the entire system. Thou surely it is
more rational to expect greater good from medicines enter
ing the cavities of the lungs than from thos

after the sufferers had been pronounced in the last states, which fully satisfies me that consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercies, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity in connection with certain pathological and microscopic discoveries, caables me to relieve the lungs from the effects of contracted chest; to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entre system. Medicince with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by letter. But the cure would be more certain if the patient should, pay me a visit, which would give me an opportunity to examine the lungs and edable me to prescribe with much greater certainty, and then the care could be effected without my seeing the patient again.

Three to four bottles are warranted to cure the sait rheum.

Five to eight bottles will cure the worst case of scrofula. A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plenifful, and yet its value has never been known until I discoverd it in 1846—second, that it should cure all kinds of hymnor. In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per
