ST. LOUIS, NOV. 9, 1857.

We are now in the full enjoyment of that delightful season "Indian Summer," and the weather since our last has been pleasant. Considerable rain has fallen-it came down in torrents on Friday night and all of Saturday .--The rivers are all swelling, and the indications are favors ble for a good stage of water. Business has considerably improved, and a much better

feeling exists in all departments of trade. The money market is somewhat easier, and many of the business men ave ventured on the "rocks" with a full belief that the vorst of the financial storm has passed and they can glide safely over the shoals and breakers. The Bank Relief Bill has passed both branches of the

Legislature, and received the signature of the Governor .-This may or it may not be a relief to financial troubles, but it is certainly a great relief to the suspended banks, who have forfeited their charters, and ask for this relief for their own exclusive benefit. The banking business is con siderably under par in this locality!

A little improvement is noticeable in our produce mar ket. Receipts, however, are small, and the following were the quotations on Saturday-Hemp \$75 and \$85 per ton . Flour \$4 to \$4 50; Wheat from 70c to \$1; Corn 60c: Oats 33 to 37c; Rye 60c; Potatoes 60 to 65c; Hay \$1 25 per 100 lbs; Whiskey 17 to 18c, currency; Butter 11 to 13c in

kegs. Our city is extremely dull of local items of interestsearcely anything in that line.

Mr. Edwin Forrest is playing to fashionable and crowded houses at Wood's Theatre. He played four nights last reak, and each night there was not standing room for scarcely another person. The house will be filled every night during his engagement. The Florences are playing at the "St. Louis," but to small audiences, owing to the reat attraction at Wood's.

It is with deep regret that I announce to your readers to fire upon the Indians for one or two days the sudden death of an esteemed and cherished friend. Mr. John F. Altemus, formerly from Philadelphia, but for that, according to their own statement, there many years a citizen of this place. He was generous, kield was not one of them killed, and but few and affectionate, and his saiden denise leaves a large circ wounded. They (the emigrants) then sent a cle of admiring friends to deplore his loss. Ho has for many years filled an office under the city government, and alrays proved himself an honest and faithful officer. He a wife and one child.

Messrs. Dayton and Samuel Ball were in our city a few days since

Owing to the great searchty of news-the depression of business and the otter starnation as well as prostration of trade, we cannot do better than write a paragraph on the simple word ECONOMY. We have a long, and from present indications, a bard winter before us, and no one can tell who will escape the bardships and sufferings eccasioned by he financial revulsion that has spread all over the coun Would it not be better, in such times, to avoid fursilks, satins, and other costly and extravagant dresses by our American ladies, who, in this way, can save much, and perhaps the credit of their husbands, which to many is their business capital-bounds of the "new-st and latest, after the departure of the train; whereupon ashions"-about the size of a pint cup, suspended from the back twist of the hair, and bobbing up and down about the small of the back, which is not worn for comfort, but for show, which is the "fashian"-headless of the "pinching"times" and the great difficulty experienced in raising 'pin money "-should be thought extravagant, and a more comfortable article substituted. Indeed, uch depends upon the economy of the ladies. We have seen no less romenading and "shopping"-whether they are only ut to display the late "fall fushions"-purchased before the "heavy pressure," or whether they are fearful their "good lords" might fail, and put them on short allowance. or whother they go on the principle of making bay whilst the sun shines "-(spend all the money they have and inst. In 1852 Joseph Downham, residing near Berrystown, in Murderkill Hundred, leave the future to take care of itself !--- impressed with the idea that this "world owes us a living," and with one great rush for the "milliner," each exclaiming as she scampers along—"the devil take the hindmost!" Or whether they Kent county, Del., went security for a negro's appearance at Court, but the negro never ap peared. In the meantime, Downham appear ed in Court, and stated that he had gone after believe in carrying out the "tashions" as they are intro duced; for one thing is certain it has become "fashionable" to "fail." "suspend," "assign " and "commit suicide." and this winter will test the truly "fashionable" hellewhether it is nobler in the mind of man," &c. If the ford economy was ever thought of by our ladies, now is the time to practice it. No man, we care not what his busi ness may be, but what is just now more or less " cramped." and there is no telling how long this state of things will exist. Some may think they have plenty, and that the nic" will soon pass away. But this is an uncertainty he told the story to several persons. A white man, named Audrews, was summoned before -that plenty may be extravagantly expended, and before the possessor is "out of the woods" he may be caught. the Grand Jury, and testified that, in 1852, he Economy should be practised by the wife in the household and a negro named' Pompey Tribbett worked affairs as well as by the merchant in his store, and that for Downham, and, one night, were taken by him to a piece of woods, where they found the

 DR WAYLAN-Dear Sir :-Mir. Prigg cortainly has no letter from me, nor do I recollect giving him verbal permission to refer to me. Ihs styled himself Dr. Prigg and permitted the selitor to say he was a graduate of the College, when in back, he never was even as statent. Both of these missituations is requested him to correct, and also to withdraw my name from his list or reference."
 Mr. Welchaus also makes an explanation in relation to the College, when in back, he never was even a statent. Both of these missituations are application of the college.
 Mr. Welchaus also makes an explanation in relation to the Cheoplastic specimen that I had at the Pair, which presents a new calumny to be noticed. He says:
 "The Doctor has forced us to an explanation of what we meant by the New Form Cheoplasty, ground out by the New York Tooth Manufacturing Company.' This is not a sener upon the merits of this new process, but spon his bringing work from Shord to exhibit here as his own."
 "We have reason to believe that the work was not manufacturing (Ompany Admissions from certain quarters to this defeaters sufficient to confirm this supposition."
 The above is not only a grave charge (bat no hoursableman would be guilty of but a grave sa and hailgnant Hbel.-None but those who would resort to such fraud, would utter such a calumny against me. To show the baseness of the above charge. and the malignity that prompted it. I need only present the following statement, made by three persons who were present and saw me manufacture the speciments of Cheoplastic work withing seen it stated in a communication by Mr. Samuel Welchens, that the speciment, balle hate? County Fair, were not manufacture by out, but by the New York Tooth Manufacturing Company : it gives us pleasure to state that we were present and saw you manufacture those. Respectively yours. A letter from J. C. Ward to the Los Angelos Star, dated San Bernardine, October 4, 1857, states tha tan entire train of emigrants from Missouri and Arkansas, bound to California by way of Great Salt Lake, had been massacred by Indians at the Mountain Meadows, which are on or near the rim of the Great Basin, and some distance south of the most

southern Mormon settlements. The massacre took place about the 10th or 11th of September. Mr. Ward says he first obtaind his information from the Indians. The account, no doubt much exaggerated, if not altogether untrue, is as follows :

The company consisted of one hundred and thirty or one hundred and thirty five men, women and children, and including some forty or forty-five capable of bearing arms. They were in possession of quite an amount of stock, consisting of horses, mules and oxen. The encampment was attacked about daylight in the morning, so say the Indians, by the

combined forces of all the various tribes immediately in the section of the country. appears that the majority of them were slain at the first onset made by the Indians The remaining force formed themselves into

the best position their circumstances would allow; but before they could make the neces sary arrangements for protecting themselves from the arrows, there were but few left who

GEORGE FRAIM, EDWARD RUTH. The above is a full refutation and exposure of the calum ny that has been maliciously invented and industriously prompligated against my professional skill and personal in-tegrity, by Mr. Welchans and those who sympathize with him in quackery practise, under the sting of that "unkind remark." I now come more directly to that part of the subject that has mainly induced me to reply to the Card of Mr. Welch-ans; I mean the Cheeplastic process, invented and patented by Dr. Blandy. of Baltimore, the right of which was pur-chased by me after a full conviction of its merits and ad-vantages, and which I have adopted with the most flattering success. The right to use the patent is op an old itentists. on Dr. Blandy's terms; and has been purclussed, and is new used by m usy of the most skillful and distinguished Dentists in the country, including Dr. Harris, Professor in the Baltimore College of Donata Surgery, who is not only celebrated for this attainments, but stands at the head of some Dentists in this city to oppose, misrepresent and co-dem than to examine and test if fairly. In this, however, they do me no injury : they only deprive themselves of the of the profession. I will add the following from the festiments of some of were able to bear arms. After having corralled their wagons, and dug a ditch for their protection, they continued but the Indians had so secreted themselves flag of truce, borne by a little girl, and then gave themselves up to the mercy of the savaf the profession. I will add the following from the festimony of some of ges, who immediately rushed in and slaughtered all of them, with the exception of fifteen

I will add the following from the testimony of some of the most distinguished Dentisit of our Country.
Professor Harris asys. "I have adopted the Cheoplastic method of mountint artificial testh in my practice, from the conviction, after much observation and considerable experience, that it possesses devided advantage over any other hereiton or gracticed."
Dr. Maynard, of Washington City, Professor in the Baltimore College of Dental Surgery, says: "I am convinced the thery hereiton will prove of immense bueffit to al Dentists who make a proper use of It, and will be more than equally divantageous to their patients."
Dr. Brown, a well known Dentist in Baltimore, says: "My experience is considerable, having up to this time-used the Cheeplastic process in upwards of one hundred crases, and I do not hesitate to state that it is superior in all its bearings to any other process I have used—so much as the kindle destinguished Dentist of New York. says: "Our whole profession nust sooner or later endorse the Cheeplastic process, an one of the most valuable improvements of the age."

This occasioned several deaths among the Indians, within a few days the Indians rallied, selected a place of attack, and took terrible vengeance. Mr. W. says he obtained a statement of the causes of the massaere from Elder Matthews and Hyde, who were in Great Salt Lake City at the time this train was there recruiting their fit put, and were on their way to San Bernardine when the murders were committed but several days

journey in the rear of the emigrants.
