NEW PROCESS IN DENTISTRY—OHROPASTIO PROCESS of mounting ARXIFIO LET TRETH, recently patiented by Dr. BLANDY, formerly Processor in the Baltimote College of Dental Survey; is cartainly one of the greatest discoveries of the present age and destined to vota a gradual chance in Michanical Dentistry. The underrigued being the first in the State to introduce this process, feels no bestation in recommanding it as superior to any other method; of mounting Artificial Teeth interestore known—the casting of the plates having great advantage over the common custom of "swaring." The same accuracy in fitting, perfect cleanlibess, and durability connot be obtained by any other process.

PR. WAYLAN'S NEW DRUG STORE.

D-No. 60 North Queen street. The undersigned respectfully announces that he bas openee his NEW DRUG STORE ESTABLISHMENT, with a very extensive and complete stock of Drugs, Medicines, Chemicals, Perfumery and Fancy Articles—all fresh and pure—which will be sold at the lowest nearket prices. This stock embraces every article usually kept in a first class Drug Store, and neither labor nor expense has been spared in fitting up the establishment, to insure the preservation of the Drugs in the best coudition, as well as to secure the convenience and comfort of the customers.

A complete assortment of meterials used by the Dental Profession can also be had at the store of the subscriber. An improved Soda, or Mineral Water Apparatus has been introduced, the fountains of which are made of Iron, with Porcelain liming on their interior surface, freeling them from all liability to taint the water with any metalic poison, which has heretofore been so great an objection to the copper fountains. Those who wish to enjoy these refreshing beverages can do so at this establishment without fear of being poisoned with deleterious matter. The entire establishment has been placed under the superintendence of a most competent and careful Druggist, who has had many years' of experience in the Drug and Prescription business, in first class houses in Philadelphi and Cincinnatt.

The undersigned feels confident that he is in every way prepared to give entire satisfaction to his customers, therefore a share of public patronage is solicited.

NEW CITY MAP.—SPLENDIDLY ILLUSTRATED WITH LARGE COLORED MAPS.—
The subscriber being about to publish a beautifully illustrated Map of the city of Lancaster, respectfully solicis the patronage of the citizens to the new enterprise.

The Map will be very minute in its details, being a complete plot of the city with alt the new and contemplated savets and alleys, and all the original town lots, numbered as recorded, together with a ground plan of all the buildings as they stand on their respective lots, the Schools, Colleges, with all Churches, Rotels, Stores, Manufacturing Establishments and all the offices of professional men in the city, distinctly banned and colored, and the names of all the subscribers duly inserted on the margin, making it not only a complete map of the city, but sive a basiness all the subscribers duly inserted on the imagin, making it not only a complete map of the city, but as a business directory; and, in connection with all this, there will be from fifteen to twenty-five original views of Kesidences, Churches, Colleges, and Manufacturing Establishments in the city and vicinity beautifully colored, the natural color, as I make all my own sketches and color them on the spot, and have them lithographed in the highest style of the art. Samples of which can be shown that were published in West Chester and Chester county, which have never been equalled by any views published on any map in the United States. Having had considerable experience in map publishing, and having devoted a great deal of time to the art of perspective drawing. I flatter myself that I am able to produce beautiful life-like pictures that cannot be excelled, and in fact defy all competition in this style of Map publishing, All persons wishing views published on the city map, or having property they wish plated in, will please leave orders at J. Franklin Reigarfe's office, Fution Buildings, which will be promptly attended to by the subscriber.

DRIDGENS' & THON'S NEW CITY and COUNTY MAP.—The subscribers are preparing to publish a new and camplete MAP OF LANCASTER CITY AND COUNTY, to be entirely made up of actual surveys to be taken upon the ground, and to be drawn to a much larger scale than any heretofory issued. The enlarged scale of the work will admit of the great advantage of clearly designating every public and private improvement, and attaching the name thereto; also, of ascertaining with more prevision, any required distance throughout the county. Every public and Stream. Mil. Mill Race and Mill Dam, Store. Hotel, Post Office. Place of Worship, School House, Smith Shop, &c., &c., will be accurately shown thereon. The Dwellings also, with the names of owners attached, will be inserted in the proper position. An enlarged City Plan, and Plans of the Boroughs and principal Villages, will be nesred in the margin. A Table, showing the correct distance from each place of importance to that of every other in the county, will be upon the Map; also, a Statistical Table, and views of the principal County Buildings. Without a re-survey of the whole county, an accurate map of it cunnot be published; we have already made surveys of a number of the Townships; and many of the inhabitants of the county are aware of the time and pains we have taken to perfect them. We will be equally assiduous in our endeavors to make this a reliable and valuable work, and hope to merit a share of public patronage.

The size of our Map will be at loss five feet by four, and it will cost \$5 per copy.

PRICE TWENTY-FIVE CENTS.

The Author of the above volume is a graduate of one of the first medical schools in the United States, and having devoted a quarter of a century to the treatment of Syphilis and kindred disorders as a speciality, he has become possessed of most invaluable information in regard to the same, and is able to compress into vade mecum compass, the very quintessone of medical science on this important subject; as the result of the experience of the most eminent physicians in Europe and Americas is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the City of Philadelphia slone.

The practice of Jr. Hunter has long been, and still is, literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphero of his professional usefulness to the community at large, through the medium of his "Medical Manual and Hand Book for the Afflicted."

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many clergymen, fathers, mothers, philantropists and humanitarians, have most freely extended its circulation in all quarters where its powerful teachings would be likely to be instrumental in the moral purification and physical healing of multitudes ofour people, among the young, volatile and indiscreet, otherwise the pride and flower of the nation.

The author argues particularly, most strongly against very species of solf deficients, and warms parents and guardians, in searching terms, to guard the young of both exces from the terrible consequences concomitant of their isone materials, whether exhibited by precocious development or arising from the vicious and corrupting examples of their school mates or otherwise. To those who have been airealy ensured to th

indulgence of carnal-passions and secret violations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons the annually in the United States of Consumption—a large majority being the victims of the voluptuous indiscretions of their progenitors agreeably to the Scriptural enuncistion, that the sinx of the parents are visited upon the children, even to the third and fourth generation.—The Anthor, imbued with sentiments of enlarged philanthropy, will scarcely be consured for any effort to restrain the vices of the age, by the humble instrumentality of his Medical Manual;

TONICS WON'T DO!--They never did more than give temporary relief and never will. It is because they don't touch the cause of the disease. The cause of all ague and billious diseases is the atmospheric poison called Misama or Malaria. Neutralize this poison by its Natural Antidote, and all disease caused by it disappears at once. Rhodes Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. I. Chilton, of New York, to this offect, is attached to every bettie; therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinons to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths, I annex some extracts from a letter just received from a Physician:

JASA ARIODES, Eseq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the he fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they used to escape taking Quinine, contained the Dring Itself!

This remedy, (known as "Smith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often returns with renewed vigor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your cure. The following is the result:

Three persons took your "Oure," all of which were cases of "Quotidian Intermittent Fever," of many weeks standing They had tried Quiniue, and other remedies, occasionally missing a cillil, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation for other and severer maddies. I did succeed in effecting

physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and
free from mercury or balsam. During twenty years, of
practice, I have rescued from the jaws of Death many
place themselves under my care, a perfect and most speedy
ourse. Secret diseases are the greatest enemies to health, as
they are the first cause of Consumption, Scrofula an
many other diseases, and should be a terror to the humas
family. As a permanent cure is scarcely ever effected, a
majority of the cases falling into the hands of incompotent
persons, who not only fail to cure the diseases but ruin
the constitution, filling the system with mercury, which

But should the diseases and the treatment not cause death

with the disease, hastens the sufferer into a rapid Consumption.

But should the diseases and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays likelf in Scrofula, Tetter, Uleers, Euptions and other affections of the Skin, Eyes, Throat and Lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

Scile ABUSE is another formidable enemy to health, for perhips else in the dread catalogue of human diseases causes as destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, canses mental deringement, prevents the proper development of the system, displayingties for marrings, society, business, and all eartists happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evills more to be direaded than death itself. With the fullest resolution of assume that a permanent and speedy cure can be effected, and with the abandouncent of ratinous practices my patients can be restored to robust, vigorous health. The saffi ind are cantioned significant to the unwary sufferers that millions have their constitutions rained by the vite compounds of quask dectors, or the equally poleshous nestroins wended as "Patent Medicines." I have carefully analyzed many of the executive Patent Medicines and find that nearly all of them contain Circusters Sublimate, which is one of the strongest preparations of mercury and a d-adily poison, which instead of carling the disease disables the system for life.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of scrotula. A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—So sure as water will exitinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures. In some places quite plentiful, and yet its vaiue has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in the husiness twenty and thirty years, say that nothing in the annuls of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, yreat and wenderful virtues have been found in it that I never suspected.
