NEW PROCESS IN DENTISTRY....

ARTIFICIAL TEETH,
recently patented by Dr. BLANDY. formerly
Professor in the Baltimore College of Dental Surgery, is certainly one of the great discoveries of the present age and destined to work a great change in Mechanical Dentistry.

The undersigned being the first in the State to introduce this process into practice, and which has been attended with great success, feels no hesitation in recommending it as superior to any other method of mounting Artificial Teeth heretofore known—the casting of the plates having great advantage over the common custom of "swaging." The same accuracy in fitting, perfect cleanliness, and durability connot be obtained by any other process.

AT The undersigned is alone authorized to dispose of office rights for the counties of Lancaster, Chester, Berks, Dauphin and York.

B. T. PRIGG.

I would respectfully announce to my friends, throughout the City and County of Lancaster, that I have this day taken into co-partnership. In my Dental practice, Dr. S. T. PRIGG, recently of Beltimore, Md. and who has, within the hist three or four months, become a re-silent partner of Dr. Prigg, his through and scientific knowledge of the various branches of the profession, his superfor skill in all its most delicate manipulations, together with the high recommendations he brings with him from the Professors of the Baltimore College of Dental Science, will commence on Monday the 12th day of October, and continue sixteen weeks. A full and thor-such course of the guarantee perfect satisfaction to all my former patrons and all others who may place themselves under our treatment. By this arrangement we will have greater facilities for a more prompt attention to all our patients, which the want of assistance has heretofore deprived me of the ability to bestow.

spectfully announces that he hist opened his NEW
DRUG STORE ESTABLISHMENT, with a very extensive and complete stock of Drugs, Medicines.
Chemicals, Perfumery and Fancy Articles—all fresh
and pure—which will be sold at the lowest market price.
This stock embraces every article usually kept in a first
class Drug Store, and neither labor nor expense has been
spared in fitting up the establishment to insure the presorvation of the Drugs in the best condition, as well as to
secure the convenience and comfort of the customors.

A complete assortment of materials used by the Dental
Profession can also be had at the store of the subscriber.

An improved Soda, or Mineral Water Apparatus has been
introduced, the fountains of which are made of from, with
Porcelain lining on their interior surface, freeing them
from all liability to truit the water with any metalic poison, which has herreforce been so great an objection to the
copper fountains. Those who wish to enjoy these refreshing
beverages can do so at this establishment without fear of being poisoned with deleterious matter. The entrie establishment has been placed under the superintendence of a most
competent and careful Druggists, who has had many years'
of experience in the Drug and Prescription business, in

DATENT AMBROTYPES .-- The, sub-PATENT AMBROTYPES.—The, subacribers having unchased the exclusive right of Lancaster city, are enabled to offer to the public a new style of
Pictures, far exceeding, in beauty and durability, any ever
before made. These pictures are not reversed, as discuercetypes are and may be seen in anylight. They also possess the
rare property of being inperissuance being hermetically
sealed between glass plotes, which is secured by Letters
Patent, in the United States, Great Brickin and Frace,
and practised in Lancaster city by T. & W. CUSMINOS,
only, over Sprecher & Bro.'s New Store, North Queen st.,
Lancaster.

Laneaster.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated: is derived from the Greek word Ambrodos, signifying indestructibility, pertuanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible coment, by by which the picture will retain its original brilliancy for ages; it will not corrode by acids, one be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade and may be seen in any light. The public are cautioned against imitations made on single plates of glyss, with the Slack varnish in immediate contact with the Picture—buch are not permanent, as the varnish must crack and destroy the Picture.

AMBOUTYPE STERESCOPES MUST RE SEEN, to be appreciated—the relief being fully as perfect as life.

The new volume will be commenced in July, 1857, greatly state of the second of the press.

MAP OF LANCASTER CITY AND COUNTY to be entirely made up of actual surveys to be taken upon the ground, and to be drawn to a much larger scale than any heretofore issued. The enlarged scale of the work will admit of the great advantage of clearly designating very public and private improvement, and attaching the intereto; also, of ascertaining with more puecision, any required distance throughout the county. Every public Road and Stream, Mill, Mill Rose and Mill and, Store, Hotel, Post Office, Place of Worship, School House, Smith Shop, &c., &c., will be accurately shown thereon. The Dwellings also, with the names of owners attached, will be nserted in the margin. A Table, showing the correct distance from each place of importance to that of every other in the county, will be upon the Map; also, a Statistical Table, and view of the principal County Bulldings.

Without a resurvey of the whole county, an accurate map offit cannot be published; we have already made surveys of a a number of the Townships, and many of the inhabitants of the county are aware of the time and pains we have taken to perfect them. We will be equally assiduous in our endeavors to make this a reliable and valuable work, and bope to merit a share of public patronage.

The size of our Map will be at least five feet by find, and it will cost \$5 per coy.

GREAT RACE AGAINST TIME FOR \$10,000.

It has been suggested that if the committee could prevail upon the owner of FLORA TEMPLE, to bring her to Lancaster. to the Agricultural Fair, it would add much to the character and interest of that occasion. Should she come, in all probability, she will run against time for a purse, say \$10,000, which, no doubt, the good people of Lancaster county will have no difficulty in raising. Flora is now the greatest troter in the world, and that anxiety to see her whenever she appears on the turf, is equal to that manifested by the people to see the new and splendid stock of READY MADE MEN'S AND BOYS CLOTHING recently received by ROMAN & BAERE, at their Clothing Store, opposite Shenck's National House, where they keep constantly on hand a large assortment of DRESS COATS, FROCKS, SACKS, RAGLANS AND OVERCOATS of every quality and texture.

The Author of the above volume is a graduate of one of the first medical schools in the United States, and having devoluted a quarter of a century to the treatment of Syphilis and kindred disorders as a speciality, he has become possessed of most invaluable information in the complex of the same, and is able to compress into vade mecum compass, the very quintessence of medical science on this imp-riant subject; as the result of the experience of the most eminent physicians in Europe and Americais thoroughly demonstrated in his own highly successful practice in the treatment of special diseases in many thousands of cases in the City of Philadelphia alone.

sicians in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the City of Philadelphia alone.

The practice of Dr. Hunter has long been, and still is, illerally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the community at large, through the medium of his "Medical Manual and Hand Book for the Afflicted."

It is a volume that has received the unqualified recommodation of the first physicians in the land, while many clergymen, fathers, unothers, philantropists and humanitarians, have most freely extended its circulation in all quarters where its powerful teachings would be likely to be instrumented in the moral purification and physical heating of multitudes ofour peeple, among the young, volatile and indiscreet, otherwise the prido and flower of the nation.

The author argues particularly, most strongly against every species of self definement, and warns parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their ingonance of physiological laws and sexual impurities and irregularities, whether exhibited by preoccious development or arising from the vicious and corrupting examples of their school mates or otherwise. To those who have been already ensuared to the "paths that take hold on hell," a clear and explicit way is shown by which they may secure a return of sound health, and a regeneration of the soul from its terrible pollution.

It is well known that thousands of victims are annually sarrificed at the shrine of quackery—especially those suffering from Venereal or Syphilitic diseases—Strictures, Saminal Weakness, Nervous Debblity, and the numerous maladies which spring directly or less remotely from the indulgence of carnal passions and secret violations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die

TONICS WON'T DO!--They never did more than give temporary roliof and never will. It is because they don't touch the cause of the disease. The cause of all ague and billious diseases is the atmospheric poison called Misama or Malaria. Neutralize this poison by its Natural Antidote, and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of Now York, to this effect, is attached to every bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I anuex some extracts from a letter just received from a Physician:

GEORGETOWN, Oblo, March 18, 1856.

JAS. A. RHODES, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinlue,—not knowing I presume that the remedy they used to escape taking Quinlue, contained the Drug Itself!

This remedy, (known as "Smith's Tonic,") would invaribly break an Mue, but it did not cure it, as it would often return with renewed vigor. This one chromatance I deemed in your favor, if I could institute a test comparison between it and your cure. The following is the result:

Three persons took your "Cure," all of which were cases of "Quotidian Intermittent Fever," of many weeks standing They had tried Quinlue, and other remedies, occasionally missing a chill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation for other and severer maladies. I did succee

ted, break the chill, but after a peaned of the would return.

I think there will be no difficulty now in giving to your crewder now in use here, &, &c.

WILLIAM BUCKNER, M. D.

Rhode's Fever and Ague Cure, or Antidote to Malarin, the only harmless remedy in existence, is equally certain as a preventive, as a "Cure." Take itable no you feel the chills coming, and you will never have a single one.

It matters not from what cause the disease originated, however long standing or obstinate the cases, recovery is certain, and in a shortest time than a permanent cure can be affected by any other treatment, even after the disease has baffied the skill of eminent physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During twenty years of practice, I have rescued from the jaws of Death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a perfect and most speedy ours. Secret diseases are the greatest enemies to healh, as a majority of the cases falling into the hands of incompetent persons, who not only fall to cure the diseases but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid Consumption.

with the disease, hearths sumption.

But should the diseases and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetter, Uleers, Eruptions and other affections of the Skin, Eyes, Throat and Lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave. itself in Scrofula, Tetter, Ulcers, Eruptions and other affections of the Skin, Eyes, Throat and Lungs, entailing upon them a brief existence of sufforing, and consigning them to an barly grave.

SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, canses mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leares the sufferor wereked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death tiself. With the fullost confidence I assure the unfortunate victims of Self Abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions ruined by the vile compounds of quack doctors, or the equally poisonous nostrums vended as "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Corrosive Sublimate, with is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the aiphabet of the materia medica, and are equally as destitute of any knowledge of the human aystem, having one object only in view, and that to make money, regardless of consequences.

from the worst Scrotula down to a common pimple.
He has tried it in over 1100 cases, and nover failed except in two cases, (both thunder humor.) He has now in his possession over two hundred cartificates of its virtue, all within twenty miles of Boston.

Five to eight bottles will cure the worst case of scroula. A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold unother; after a trial it always speaks for itself. There are two things about this herb that as pear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846-second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great apopularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing in the anuals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

DISEASES OF THE LUNGS AND THROAT

ARE POSTIVELY

CURABLE BY INHALATTION.

Which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, noutralizes the tuburcular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is cursable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; inhely out of every hundred cases can be cured in the first stages, and fifty per cent. In the second; but in the third stage it is impossible to save more than five per cent., for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, inhalation afforts extraordinary relief to the suffering attending this fearful scourge which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth eighty millions are destined to fill the Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of lite, for it spares neither ago nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme leing, from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into theaircells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines cuter. DISEASES OF THE LUNGS AND THROAT

free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is
more rational to expect greater good from medicines entering the cavities of the lungs than from those administered
through the isotometh, the patient will always find the
lungs free and the breathing easy after inhaling remedies.
True. inhalation is a local romedy, nevertheless it acts
constitutionally, and with more power and certainty than
remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration,
chloroform inhaled will entirely destroy sensibility in a
few minutes, paralyzing the entire nervous system, so that
a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few
hours.

hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few, minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results? During eighteen years practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is uo longer a fatal disease. My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case, This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests; to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicince with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by letter. But the cure would be more certain if the patient skould pay me a visit, which would give me an opportunity to examine the lungs and edable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again.
