PLORA TEMPLE ON THE LANCER
COURSE.
GREAT RACE AGAINST TIME FOR \$10,000.

It has been suggested that if the committee could prevail upon the owner of FLORA TEMPLE, to bring her to Luncaster, to the Agricultural Fair, it would edd much to the character and interest of that occasion. Should she come, in all probability, she will run against time for a purse, say \$10,000, which, no doubt, the good people of Lancaster county will have no difficulty in raising. Flora is now the greatest trotter in the world, and that anxiety to see her whenever she appears on the turk is equal to that manifested by the people to see the new anneapondial stack of READY MADE MENNS AND HOYS CLOTHING recently received by RUMAN & BAERE at their Clothing Stope, opposite Shenck's National House where they keep constantly on hand a large assortment of BRESS COATS, FROCKS, SACKS, RAGLANS AND OVERGOATS of every quality and texture.

Also, Pantaloons, Vests, Shirts, Shirt Collars, Suspenders, Pocket and neck Handkerchiefs and a large supply of gentleman's FURNISHING GOODS, which they are prepared to sell at least FIFTEEN PER CENT. CHEAPER than they can be purchased anywhere else in the city. In reference to the quality, make, texture, durability and cheapness of any of the articles they offer to the public, competition is defied.

The purest medicines always on hand direct from the best Laboratories of our country, and the Batanical Gardens of the world. No patent medicines prescribed or recommended. Medicines used only which will not break down the constitution, but will renovate the system from all injuries it has sustained from unineral medicines. Chronic and difficult diseases must be treated upon analytical principles; which is to know and ascertain what diseases is. Its nature and character require a Knowhelge of the chemical constituent of every solid and fluid of the human body—the changes those soll-s and fluids are enable of undergoing. To know what medicines to employ to cure diseases, requires a knowledge of the chemical constituents of all agents employed in medicines, and if we are in possession of this knowledge, it is possible to cure any disease—no mather of how long standing—and leave the patient in a healthy and perfectly cured condition.

DYSPERIA, that distressing disease and fell, distroyer of health and happiness, undermining the constitution, and yearly carrying thousands to unfinely graves, can most emphatically be cured.

An enlarged City Plan, and Plans of the Boroughs and principal Villages, will be naserted in the margin. A Table, showing the currect distance from each place of importance to that of every other in the county, will be upon the Map; also, a Statistical Table, and views of the principal County Buildines. Without a resurvey of the whole county, an accurate map of it cannot be published; we have already made surveys of a number of the Townships, and many of the inhabitants of the county are aware of the time and pains we have taken to perfect them. We will be equally assiduous in our endeavors to make this a reliable and valuable work, and those to merit a share of public patronage.

The size of our Map will be at least five feet by four, and it will cost \$5 per copy.

TONICS WON'T DO 1--They never did

more than give temporary relief and never will. It is
because they don't touch the cause of the disease. The
cause of all ague and billious diseases is the atme-spheric
poisen called Missum or Malaria. Neutralize this peisen by
its Natural Antidote and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless
medicine. The certificate of the celebrated chemist, J. R.
Chilton, of New York, to this effect, is attached to every
bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine. Arsenic, or any
tonic in existence, as their uses is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a slugle moment. In illustration of these truths I annex some extracts from a letter
just received from a Physicism:

JAS. A. RHODES, Evq.—Dear Sir: Yours of 2d lust, is
at hand. The Cure arrived late last year and the difficulty
in getting any one to try it was greatly increased from the
the fact that a remedy had been introduced which was
growing in favor with the public, as being better than using
Quinne—not knowing I presume that the remedy they
used to escape taking Quinine, contained the Drug Itself:

This remedy. (Known as "Smith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often
return with renewed vigor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your cure. The following is the result:

Three persons took your "Cure," all of which were cases
of Quotidian intermittent Fever," of many weeks standing
They had tried Quiniue, and other remedy, and they have
not had a chill but it was, (as in all sure cases,) slowly
wearing them out, and laying the foundation for other and
some results and some cases with your remedy and t
