FLORA TEMPLE ON THE LANC'R

GREAT RACE AGAINST TIME FOR \$10,000.

It has been suggested that if the committee could prevail upon the owner of FLORA TEMPLE, to bring her to Lancaster, to the Agricultural Fair, it would add much to the character and interest of that occasion. Flora is now the greatest trotter in the world, and that anxiety to see her whenever she appears on the turt, is equal to that manifested by the people to see the new and splendid stock of READY MADE MEN'S AND BOYS CLOTHING recently received by ROMAN & BAERE, at their Clothing store, opposite Shenck's National House, where they keep constantly on hand a large assortment of DRESS COATS, FROOKS, SACKS, RAG'LANS AND OVERCOATS of every quality and texture.

MAP OF LANCASTER CITY AND COUNTY, to be entirely made up of actual surveys to be taken upon the ground, and to be drawn to a much larger scale than any heretofore issued. The enlarged scale of the work will admit of the great advantage of clearly designating every public and private improvement, and attaching the name thereto; also, of accertaining with more precision any required distance throughout the county. Ferry public Road and Stream, Mill, Mill Race and Mill Dam, Store, Hotel, Post Office; Place of Worship, School House, Smith Shop, &c., &c., will be acurately shown thereon. The Dwellings also, with the names of owners attached, will be inserted in the proper position. An enlarged City Plan, and Plans of the Boroughs and principal Villages, will be meserted in the margin. A Table, showing the correct distance from each place of importance to that of every other in the county, will be upon the Map; also, a Statistical Table, and views of the principal County Buildings
Without a resurvey of the whole county, an accurate map of it cannot be published; we have already made surveys of a number of the Toworships, and many of the inhabitants of the county are aware of the time and pains we have taken to perfect them. We will be equally assiduous in our endeavors to make this a reliable and valuable work, and hope to merit a share of public patronage.

The size of our Map will be at least five feet by four, and it will cost \$5 per copy.

The presence of the disease.

The cause of all ague and billious disease is the atmospheric poison called Minsma or Malaria. Neutralize this poison by its Natural Antidote, and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmiess medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

Geongarown, Ohio, March 18, 1856.

JAS. A. RHODES, Esqu.—Dear Sir: Yours of 2d inst. in at hand. The Cure arrived late hast year and the difficulty in getting any one to try it was greatly increased from the the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they used to escape taking Quinine, contained the Drug Itself!

This remedy, (known as "Smith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often return with renewed vigor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your cure. The following is the result:

Three persons took your "Cure," all of which were cases of "Quotidian Internitent Fever," of many weeks standing They had tried Quintue, and other remedles, occasionally missing a chill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation for other and severer maladies. I did succeed in offecting a radical cure of all three of these cases with your remedy, and they have not had each; show a server wit

THOMAS ELLMAKER,

DISEASES OF THE LUNGS AND THROA

DISEASES OF THE LUNGS AND THEOA

AND ALL

OUR ABLE BY INHALATION.

Which conveys the remedies to the cavities in the
lungs through the sir passages, and coming in direct
contact with the disease, neutralizes the tuburcular
matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and
energy so indispensable for the restoration of health. To
be able to state confidently that Consumption is curable by
inhalation, is to me a source of unalloyed pleasure. It is
as much under the control of medical treatment as any
other formidable disease; ninety out of every hundred
cases can be cured in the first stage, and fifty per cent. In
the second; but in the third stage it is impossible to save
more than five per cent., for the lungs are so cut up by the
disease as to bid defance to medical skill. Even, however,
in the last stages, inhalation affords extraordinary relief
to the suffering attending this fearful scourge which annually destroys ninety-five thousand persons in the United
States alone; and a correct calculation shows that of the
present population of the earth, eighty millions are destined to fill the Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life,
for it spars neither age nor sex, but sweeps off alike the
brave, the beautiful, the graceful, and the gifted. By the
help of that Supreme Being, from whom cometh every good
and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause
of tubercless is from impure blood, and the humediate effect,
produced by their deposition in the lungs, is to prevent the
free admission of air into the air-cells, which causes a weakened vitality through the entire system. Then surely it is
more rational to expect greater good from medicines enter-

of tubercles is from impure blood, and the humediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from modicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy after inhaling remedies. True, inhaistion is a local remedy, newtrheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be ampusted without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odro of many of the modicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A contincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul sir. Is not this positive evidence that proper comedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results? During eighteen years' practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case. This tamiliant, in conne

Femile irregularities and all improper discharges from both seves. It matters not from what cause the diseases originated, however long standing or obstinate the ease, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the shill of eminent physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During twenty years of practice. I have rescued from the jaws of Death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in premisime to the afflicted, who may place themselves under my care, a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first cause of Consumption, Serfolia an many other diseases, and should be a terror to the human family. As a permanent cure is scarcely ever effected, a majority of the casse falling into the hands of incompetent persons, who not only fall to cure the diseases but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid Consumption.

But should the diseases and the treatment not cause death with the disease, hastens the sufferer into a rapid Consumption.

But should the diseases and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Serodule. Tetter, Cleers Emptous and other affections of the Skin, Eres, Throat and Lings, entailing upon them a brief existence of suffering, and consigning them to an early grave.

SELF ABUSE is snother formidable enemy to health, for nothing elso in the dread extalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wattes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in bedy and mind, predisposed to consumption and a train of evils earthly happiness, and leaves the sufferor wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and speedy cure can beeffected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health. The afflicted are cautioned against the use of Patent Medicines for there are so many ingenious wares in the columns of the public prints to eath and rob the unwary sufferors that millions have their constitutions ruined by columns of the public prints to eatch and rob the unwary sufferest that millions have their constitutions ruined by the vile compeunds of quark doctors, or the equally poisonous nostrums wended as "Batent Medicines." I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Corrowice Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

Three-forurts of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the materia medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money, regardless of consequences.

Irregularities and all diseases of males and females reated on principles established by twenty years of practice, and sanctioned by thousands of the most remarkable cures.
