THE USTOVE FOR THE FARMER.
The undersigned would ask the attention of Farmers and others to his newly patented WOOD AND COAL STOVES, called the "Dining Room Cook." which possesses advantages not found in any other. The oven is perhaps larger than that of any other stove, being 16 by 26 inches in the clear, while its peculiar construction is such as to emit an unusual degree of heat in a large room with a triffing consumption of fuel. For the Dining Room of the Farmer it auplies a want long felt, and for this purpose it was constructed under the personal supervision of the undersigned, decit t48

TO FARMERS.—Having been appointed by Messrs. Allen & Needles agents in Lancaster for the sale of their celebrated SUPER PHOSPHATE OF LIME, we would call the attention of Farmers to this Fertillizer, it being superior to all others; and from the testimony of those who have used it for some years past, we feel authorised in saying it is the best application for Corn, Oats, Wheat, Grass and other crops which require a vigorous and permanent stimulant, that has ever been offered to the public. Spectfully announces that he has openee his NEW DRUG STORE ESPABLISHMENT, with a very extensive and complete stock of Drugs, Medicines, Chemicals, Perfumery and Fancy Articles—all fresh and pure—which will be sold at the lowest market prices.

This stock embraces every article usually kept in a first class Drug Store, and neither labor nor expense has been spared in fitting up the establishment, to insure the preservation of the Drugs in the best condition, as well as to secure the convenience and comfort of the customors.

A complete assortment of materials used by the Dental Profession can also be had at the store of the subscriber. An improved Soda, or Mineral Water Apparatus has been introduced, the fountains of which are made of Iron, with Porcelain liming on their interior surface, freeling them from all liability to taint the water with any metalic poison, which has heretofore been so great an objection to the copper fountains. Those who wish to enjoy these refreshing betrages can do so at this establishment without fear of bing poisoned with deleterions matter. The entire establishment has been passed under the superintendence of a most competent and careful Drugglet, who has had many years' of experience in the Drug and Prescription business, in first class houses in Philadelphi and Cincinnati.

The undersigned feels confident that he is in every way prepared to give entire satisfaction to his customers, therefore a share of public patronage is solicited.

HOVER'S LIQUID HAIR DYE.—The testimony of Prot. Booth and Dr. Brinckle having previously been published, the following is now added:—From Prof. McCLOSKEY, formerly Professor of Theory and Practice of Medicine in the Female Medical College of Pennsylvania, and late Professor of Surgery in the American college of Medicine, &c.

Mr. Joseph E. Hover:—A trial of your LIQUID HAIR DYE will convince the most skeptical, that it is a safe, elegant and efficacious preparation. Unlike many others, it has in several instances proved serviceable in the cure of some cutaneous eruptions on the head, and I have no hesitation in commending it to those requiring such an application.

NEW CITY MAP.—SPLENDIDLY ILLUSTRATED WITH LARGE COLORED MAPS.—The subscriber being about to publish a beautifully Illustrated Map of the city of Lanca-respectfully solicits the patronage of the citizens to the new enterprise.

The Map will be very minute in its details, being a complete plot of the city with all the new and contemplated streets and alleys, and all the eigenfal town lots, numbered as recorded, together with a ground plan of all the buildings as they stand on their respective Jots, the Schools, Colleges, with all Churches, Hots.—Stores, Manufacturing Establishments and all the off professional men in the city, distinctly named and cored, and the names of all the subscribers duly inserted on the margin, making it not only a complete map of the city, but also a business directory; and, in connection with all this, there will be from fifteen to twenty-five orfical views of Residences, Churches, Colleges, and Manufa-turing Establishments in the city and vicinity beautifully clored, the natural color, as I make all my own sketches and color them on the spot, and have them lithersphed in the highest style of the art. Samples of which can be shown that were published in West Chester and Chester county, which have never been equalled by any views published. In any map in the United States. Having had considerable experience in map publishing, and having devoted a great deal of time to the art of perspective drawing, I flatter myself that I am able to produce beautiful life-like picture; that cannot be excelled, and in fact defy all competition in this style of Map publishing. All persons wishing views published on the city map, or having property they wish plated in, will please leave orders at J. GREAT RACE AGAINST TIME FOR \$10,000.

It has been suggested that if the rommittee could prevail upon the owner of FLORA TEMPLE, to bring her to Lancaster, to the Agricultural Fair, it would ead much to the character and interest of that occasion. Should she come, in all probability, she will run against time for a purse, say \$10,000, which, no doubt, the good people of Lancaster county will have no difficulty in raising. Flora is now the greatest trotter in the world, and that anxiety to see her whenever she appears on the turf, is equal to that manifested by the people to see the new and splendid stock of READY MADE MEN'S AND BOYS' CLOTHING recently received by ROMAN & BABRE, at their Clothing Store, opposite Shenck's National House, where they keep constantly on hand a large assortment of DRESS COATS, FROCKS, SACKS, RAGLANS AND OVERCOATS of every quality and texture.

The author argues porticularly, most strongly against every species of seif denienced, and warns parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their icnorance of physiological laws and sexual impurities and irregularities, whether exhibited by preceduous development or arising from the victous and corrupting examples of their school mates or otherwise. To those woo have been already ensanted to the "paths that take hold on bell," a clear and explicit way is shown by which they may secure a return of scand health, and a regeneration of the soul from its terrible pollution.

It is well known that thousands of victims are annually secrificed at the shrine of quackery—especially those suffering from Venereal or Syphilitic diseases—Strictures, Seminal Weakness, Nervous Debailty, and the numerous maladies which spring directly or less remotely from the indulgence of cafinal possions and secret violations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die annually in the United States of Consumnitor—a large majority being the victims.

T SCIENCE. THE BEST THERAPEUTIC AGENT EVER INTRODUCED. D. DICKINSON'S MAGNETO ELECTRIC MACHINE is exciting the most absorbing attention of the Medical Profession, and a large portion of the intelligent leyens of the land. It is now clearly demonstrated that the lancest, increuely, and all other interiors, and all other particularly all those painful and formidable diseases which have for centuries buffled the profoundest learning and skill of Physicians. From whatever cause there may be an excess or defiction, of the system are deranged, and can only be safely restored to their normal condition by an application of magneto-electricity, by means of DR. DICKINSON'S MAGNETO ELECTRIC MACHINE. This apparatus will positively prevent, and speedily relieve and cure Consumption. Scrofula, Rheumatism, Palies, Neuralgia, Spinal Diseases, and all other painful maladies, however hopeless and of long standing. They are eminently useful in all sexual and urinary disorders, particularly where the Constitution has been broken down and ruined by unnatural solitary habits, to which too many of the young of both sexes are so lamentably prone.

DR. DICKINSON'S MONETO ELECTRIC MACHINE is without the dangerous complications of batteries and acids—which fact alone renders it superior to all others on the score of neatness, cleanliness, safety and utility. It is, in fact, a handsome parlor ornament; may be applied by a child; and will last a life time, to the great saving of Docinal Science, and will last a life time, to the great saving of Docinal Science, and will last a life time, to the great saving of Docinal Science, and all the Medical

TONICS WON'T DO!--They never did
more than give temporary relief and never will. It is
because they don't touch the cause of the discase. The
cause of all ague and billious discases is the atmospheric
poison called Missma or Malaria. Neutralize this poison by
its Natural Antidote, and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria. and moreover it is a perfectly harmless
medicine. The certificate of the celebrated chemist, J. R.
Chilton, of New York, to this effect, is attached to every
bottle; therefore if it does no good it can do no harm.
This is more than can be said of Quinine, Arsenic, or any
tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter
just received from a Physician:
GEORGETOWN, Ohio, March 18, 1856.
JASJA. RHODES, Esq.—Dear Sir: Yours of 2d inst. is
at hand. The Cure arrived late last year and the difficulty
in getting any one to try it was greatly increased from the
the fact that a remedy had been introduced which was
growing in favor with the public, as being better than using
Quinine,—not knowing I presume that the remedy they
taked to scape taking Quinine, contained the Drug Itself!
This remedy, (known as "Smith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often
return with removed vigor. This one circumstance I deem
ed in your favor, if I could instituto a test comparison between it and your cure. The following is the result:
Three persons took your "Cure," all of which were cases
of "Quotidian Intermittent Fever," of many weeks standing
They had tried Quinine, and other remedies, occasionally
missing a chill, but it was, (as in all such cases,) slowly
wearing them out, and laying the foundation for other and
severer maladies. I did succeed in effecting a radical cure
of all three of these cases with your

ted, break the chill, but after a period or two man any would return.

I think there will be no difficulty now in giving to your "Cure" the advantage ground of any other remedy now in use here, &, &c.

Rhode's Fever and Ague Cure, or Antidote to Malaria, the only harmless remedy in existence, is equally certain as a preventire, as a "Cure." Take it when you feel the chills coming, and you will never have a single one.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—So sure as water will extinguish five, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, 180d over one thousand bottles per day—in April, 1854, 180d over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was over like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors —but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspects.

DISEASES OF THE LUNGS AND THROAT

DISEASES OF THE LUNGS AND THROAT AND MAR MALE BRIVELY

CURABLE BY INHALATION.

Which conveys the remedies to the cavities in the lungs through the disease, neutralizes the tuburcular matter, allays the cough, causes a free and casy expectoration, heals the lungs, purifies the blood, imparts renewed tilality to the nervous system, giving that one and onercy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pieasure. It is as much under the control of medical treatment as any other formidable disease; ulnety out of every hundred cases can be cured in the first staces, and fifty, per cent in the second; but in the third stace it is impossible to sare more than five per cent, for the lungs are so, cut up by the disease as to bid defiance to medical visible. Even, however, in the last stages, individuo affords extraordinary relief to the suffering attending this terrial scourae which annually destroys ninety live thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty milli ms are dostined to fill the Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it sparse neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, from whom comethevery good and perfect gift. I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The medicines are pleasant without odor, causing no sickness and free from mercury or balsan. During twenty years of practice, I have rescued from the jaws of boath many thousands, who, in the last stages of the above mentioned diseases, had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a perfect and most speedy cure. Secret diseases are the greatest nemies to healh, as they are the first cause of Consumption, Secret diseases, and should be à torror to the human family. As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the diseases but rules the constitution, filling the system with mercury, which, with the disease, hastons the sufferer into a rapid Consumption.

Eyes, Throat and Lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

SELF ABESE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, trayilly wastes away the energies of life, canses mental derangement, prevents the proper development of the system, disquisifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrocked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patont Medicines, for there are so many ingenious snares in the columns of the public prints to eath and rob the unwary sufferers that millions have their constitutions ruined by the vile compended of quack doctors, or the equally poisonous nostroms wonded as "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which Instead of enring the disease disables the system for life.

Three-fourths of the patent nostrumbenow in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the materia medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money, regardless of conse
