NEW PROCESS IN DENTISTRY. Finances of Lancaster County. Paradice. DENTISTRY...
OHEOPASTIO PROCESS of mounting
ARTIFICIAL TEETH,
recently patented by Dr. BLANDY, formerly
Professor in the Baltimore College of Dental Surrery, is certainly one of the greatest discoveries of the present age and destined to work a great change in Mechanical Dentistry.
The undersigned being the first in the State to introduce this process into practice, and which has been attended with great success, feels no heeitation in recommendine it as superior to any other method of mounting Artificial Teeth heretofore known—the casting of the plates having great advantage over the common custom of "swaging." The same scouries of Inting, perfect cleanliness, and durability connot be obtained by any other process.

2 The undersigned is alone authorized to dispose of office rights for the counties of Lancaster, Chester. Berks, Dauphin and York.

This stock embraces every article usually kept in a first class Drug Store, and neither labor nor expense has been spared in fitting up the jestablishment, to insure the preservation of the Drugs in the best condition, as well as to secure the convenience and comfort of the customors.

A complete assortment of materials used by the Dental Profession can also be had at the store of the subscriber. An improved Soda, or Mineral Water Apparatus has been introduced, the fountains of which are made of from with Porcelain liming on their interior surface, freeling them from all liability to taint the water with any metalic poison, which has heretofore been so great an objection to the copper fountains. Those who wish to enjoy these refreshing beverages can do so at this establishment without lear of the ing poisoned with deleterious matter. The entire establishment has been placed under the superintendence of a most competent and careful Druggist, who has had many years' of experience in the Drug and Prescription business, in first class houses in Philadelphi and Chedinuati.

THE DINING ROOM COOK,
THE STOVE FOR THE FARMER.
The undersigned would sak the attention of Farmers and others to his newly patented WOOD AND COAL STOVES, called the "Dining Room Cook," which possesses advantages not found in any other. The oven is perhaps larger than that of any other stove, being 16 by 26 inches in the clear, while its peculiar construction is such as to emit an unursal degree of heat in a large room with a trifling consumption of fuel. For the Dining Room of the Farmer it applies want long fat, and for this purpose it was constructed under the personal supervision of the undersigned.

MOVER'S LIQUID HAIR DYE.--The testimony of Prot. Booth and Dr. Branckle having previcuosly been published, the following is now added:-From Prof. McCLUSKEY, formerly Professor of Theory and Practice of Medicine in the Female Medical College of Pennsylvania, and late Professor of Surgery in the American college of Medicine, &c.

Mr. Joseph E. Hover:--A trial of your LIQUID HAIR DYE will convines the most skeptical, that it is a safe, depand and efficacious preparation. Unlike many others, it has in several instances proved serviceable in the cure of some cutaneous eruptions on the bead, and I have no hesitation in commending it to those requiring such an application.

intelligent laymen of the land. It is now the land. It is now clearly demonstrated that the lancet, meron you and all other internal "drug medication" may be laid saide with perfect safety to the patient and abiding benefit to posterity. Wherever these machines have been introduced, they excits the highest wonder and praises. The apparatus is adapted to prevent, relieve and cure every disease incident to humanity,—more particularly all those painful and formidable diseases which have for centuries besified the profoundest learning and skill of Physicians. From whatever cause there may be an excess or deficiency of the nervous fluid—producing an excess or deficiency of the acids and sliklline secretions—the magnetic principles of the system are deranged, and can only be safely restored to their normal condition by an application of magneto-electricty, by means of DR. DICKINSON'S MAGNETO ELECTRIC MACHINE. This apparatus will positively prevent, and speedily relieve and cure Consumption. Scrofula, Rheumatiam, Paisies, Neuralgia, Spinal Diseases, and all other painful maladles, however bopelees and of long standing. They are eminently useful in all sexual and urinary disorders, particularly where the Constitution has been broken down and ruined by unnatural solitary habits, to which toe many of the young of both sexes are so iamentably prone.

Their Physiology, Functions and Sexual Disorders of every kind, with never-fulling Remedies for the speedy cure of all diseases of a private and delicate charater, incident to the violation of the Laws of Nature and of Nature's God.

PRICE TWENTY-FIVE CENTS

The Author of the above volume is a graduate of one of the first medical scheols in the United States, and having de voted a quarter of a century for the treatment of Syphilis and kindred disorders as a speciality he has become possessed flowt invaluable information in Jegard to the same, and is quintessence of medical science on this important subject, as the result of the experience of the most eminent physicians in Europe and Americals thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of case in the City of Philadelphia alone.

The practice of Dr. Hunter has long been, and still is, literally unbounded, but at the earnest solicitation of numerous persons, be has been induced to extend the sphere of his professional usefulness to the community at large, through the medium of his "declical Manual and Hand Book for the Afflicted."

It is a volume that has received the unqualined recommendation of the first physicans in the City to be instrumental in the moral purification and physical healing of multitudes dour people, among the young, volatile and indiscreet, otherwise the pride and flower of the nation. The author argues particularly, most strongly against very species of self defilement, and warms parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their ignorance of physiological laws and sexual impurities and irregularities, whether exhibited by procedula development or arising from the vicious and corrupting examples of their school matego or otherwise. To those who have been already ensuared to the "paths

indulgence of carnal passions and secret violations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die annually in the United States of Consumption—a large majority being the victims of the voluptuous indiscretions of their progenitors agreeably to the Scriptural enunciation, that the sins of the parents are visited upon the childran, even to the third and fourth generation—The Author, imbused with sentiments of enlarged philanthropy, will scarcely be consumed for any effort to restrain the vices of the age, by the humble instrumentality of his Medical Manual. because they don't touch the cause of the discase. The cause of all arms and billious discase is the atmospheric poison called Miasma or Malaria. Neutralize this poison by its Natural Antidote, and all discase caused by it disappears at once. Rhodes' Pever and Ague Cure is this Autidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York. to this effect, is attached to every bottle; therefore if it does no good it can do no harm. This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on Dunia Ague, which never allows a person to feel perfectly well it is a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

Geometrown, Ohio, March 18, 1856

JAN. A. RHODES, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they used to escape taking Quinine, contained the Drug Itself!

This remedy, (known as "Smith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often return with remewed vigor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your cure. The following is the result:

Three persons took your "Cure," all of which were cases of "Quotidian intermittent Fever," of many weeks standied in the of these cases with your remedy, and they have not had a chill since. In all three of these cases the design of a lither of these cases with your remedy, and they have not had a chill since. In all three of these cases the design of the continuous contents of the tree of the cases, and would, as before stated, break the chill, but after a period or two had elapsed would re

ted, break the chill, but after a period or two had elapsed would return.

I think there will be no difficulty now in giving to your "Gure" the advantage ground of any other remedy now in use here, \$4, \$6.

Rhode's Fever and Ague Cure, or Antidote to Malaria, the only barmless remedy in existence, is equally certain as a proventive, as a "Gure." Take it when you feel the chills coming, and you will never have a single one.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—
So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was, ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

DISEASES OF THE LUNGS AND THEOAT

ARE CONSUMPTION.

Which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, noutralizes the tuburcular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and onergy so indispensable for the restorati to the neathern of the sale to state confidently that Consumption is curable by inhainten, is to me a source of analyzed pleasure. It is as much under the control of medical treatment as any other formidable disease; unlety out of every hundred cases can be cured in the first stages, and fifty per cent in the second; but in the third stage it is impossible to save more than five per cent, for the lungs are so cut up by the disease as to bid define to medical test limits of the surfacing this learning source which annually destroys a unety five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's grave.

Truly the quiver of death has no arrow so tatal as Consumption. In all ages it has been the great enemy of life, for it spares mainer and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the mimediate offect, produced by their deposition in the lungs, is to proven the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs free and the breathing essystem. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs free and the breathing essystem. The narrely it is more rationally and with cone pow

remedies administrated by the 4-times. To prove implowerful and direct influence of this mode of administration chloroform inhelid will entirely destroy sombility in a few nimutes, paralyzing the entire nervous system, so that a limb may be unputsted without the slightest pain; inhaling tile ordinary burning gas will destroy like in a few

haing the ordinary burning gas with observe the system when hours.

The inhalation of animonia will rouse the system when fainting or apparently dead. The odor of many of the medicinos is porceptible in the skin a few inhuntes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of tubalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully propared and judiciously administered through the lungs, should produce the most happy results? During sighteen vesses markles, many thousands, suffering remedies, carefully propared and judiciously administered through the lungs, should produce the most happy results? During sighteen years practice, many thousauds, suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been promounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is noriginal, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercies, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests; to enlarge the chest, purity the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicince with full directions sent to any part of the United States and Canadas by patients could be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and edable me to prescribe with much greater certainty, and then the cure could be effected witheret my seeing the patient again.

SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, canses mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a parmanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.
