NEW PROCESS IN DENTISTRY .-- 25 WITNESSEST OR, THE FORGER Finances of Lancaster County. NEW PROCESS IN DENTISTRY.

OHEOPARTIO PROCESS of mounting

11...ARTIFICIAL TEETH,
recently patented by Dr. BLANDY, formerly
Frofessor in the Baltimore College of Dental Surgery, is certainly one of the greatest discoveries of the present are and
destined to work a great change in Mechanical Dentistry.

The undersigned being the first in the State to introduce
this process into practice, and which has been attended with
great success, feels no hesitation in recommending it as superfor to any other method of mounting Artificial Teeth
heretofore known—the casting of the plates having great
advantage over the common custom of "swaging." The
same accuracy in fitting, perfect cleanlines, and durability
connot be obtained by any other process.

The undersigned is alone authorized to dispose of
office rights for the counties of Lancaster, Chester, Berks,
Dauphin and York.

JOHN WAYLAN, D. B.

TMARIN.] STRASBURG. [J. KINERAD. DENTISTRY .- MARTIN & KINKEAD

PRITISTRY.—MARTIN & KINKEAD having associated together in the practice of DENTISTRY, will endeavor to render entire satisfaction in all operations entrusted to their care. Being prepared for the Manufacture of TEETH, we will be enabled to suit all cases, with Block, Single Gum or Plate Toeth, either on Gold, Silver or Gutta Percha.

45 Office—Main Street, 3 doors East of Echternacht's Hot, Straeburg, Lancaster county.

N 5.—I take this method of tendering thanks for the liberal patronage heretofore received, and hope by the present arrangement to be enabled at all times to attend to those requiring our services.

N. WAYLAN'S NEW DRUG STORE.
DNo. 60 North Queen street. The undersigned respectfully announces that he has openee his NEW DRUG STORE Espectfully announces that he has openee his NEW DRUG STORE ESTABLISHYENT, with a very extensive and complete stock of Drugs, Medicines, Chemicals, Perfumery and Fancy Articles—all fresh and pure—which will be sold at the lowest market prices. This stock embraces every article usually kept in a first class Drug Store, and neither labor nor expense has been spared in fitting up the establishment, to insure the preservation of the Drugs in the best condition, as well as to secure the convonience and comfort of the customors.

A complete assortment of materials used by the Dental Profession can also be had at the store of the subscriber.

An improved Soda, or Mineral Water Apparatus has been introduced, the fountains of which are made of hom, with Porcelain liming on their interior surface, free in, them from all liability to claim the water with any metalic poison, which has heretofore been so great an objection to the copper fountains. Those who wish to enjoy these refreshing beverages can do so at this establishment without leav of being poisoned with deleterious matter. The entire establishment has been placed under the superintendence of a most competent and careful Druggist, who has had many years' of experience in the Drug and Prescription business, in first class houses in Philadelphi and Clucinnati.

The undersigned feels confident that he is in every way prepared to give entire satisfaction to his customers, therefore a share of public patronage is solicited.

THE STOVE FOR THE FARMER.
The undersigned would ask the attention of Farmers and others to his newly patented WOOD AND COAL STOVES, called the "Dining Room Cook," which possesses advantages not found in any other. The oven is perhaps larger than that of any other stove, being 16 by 28 inches in the clear, while its peculiar construction is such as to emit an unusual degree of heat in a large room with a trifling consumption of fuel. For the Dining Room of the Farmer it supplies a want long fait, and for this purpose it was constructed under the personal supervision of the undersigned.

REPORT OF THE COUNTY AUDITORS.

Attest:—P. G. EBERMAS, Clerk.

BEPORT OF THE COUNTY AUDITORS.

We, the undersigned Anditors of Lancaster County, do certify that we have carefully examined the foregoing account of Charles M. Howell, Esq., Treasurer of said county, and have compared his wonchers with the same, and find there is a balance in his hand of sixteen ihousand seven hundred and twenty-four dollars and fifty-inne cents, (\$16.721.59) for which sum he has shown us the receipt of Daulei Herr, (Peques) the present Treasurer.

We have examined the account of High S. Gara, Esq., Treasurer of the Board of Prison Inspectors, and find it correct, showing a balance due the Board, on the 4th day of January, 1859, of one hundred and twelf-five dollars and elighty-seven cents, (\$129.57.)

We have also examined the account of William Gorrecht, Esq. Treasurer of the Poor and House of Employment of Lancaster county and find a balance in his hands, on the first day of January, 1858, of one thousand, one hundred and twenty six dollars and twenty-seven cents. (\$1.126.27.)

The Habilities of the County for individual loans, at the present time, at 5 per centum, per annum, amount to \$140.000, deducting the above amount of funds in the County Treaturer's hands. (\$16.724.59) which sam is applicable to the discharge of the liabilities, would show an indebtedness of \$127.00. The amount of outstanding taxes is \$11,418.72.

In witness whereof, we have hereunto set our hands at the County Commissioners' Office, this 22ad day o January, 1858.

THE GREATEST MEDICAL DISCOVER REAT REVOLUTION IN MEDICAL EVERT KIND OF HUMOR,

from the worst Scredia down to a common plimple.

He has tried it in over 1100 cases, and users failed except
in two cases, (both thunder humor.) He has now in his
possession over two hundred certificates of its virtue, all

perate case of rheuma lam.

Three to four bottles are warranted to cure the sai rheum.

Five to eight bottles will cure the worst case of scrofula. A bouefit is always experienced from the first bottle, and a periect cure is warranted when the above quantity is taken.

Reader, I peddied over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for ifself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity, of the discovery, I will state that in April, 1853, I sold over one thou and bottles per day—in April, 1854, I sold over one thou and bottles per day—in April, 1854, I sold over one thou and bottles per day—in April, 1854, I sold over one thou and bottles per day—in April, 1854, I sold over one thou and bottles per day—in April, 1854, I sold over one thou and bottles per day—in April, 1854, I sold over one thou and bottles per day—in April, 1854, I sold over one thou and bottles per day—in April, 1854, I sold over one thou and bottles per day—in April, 1854, I sold over one thou and bottles per day—in April, 1854, I sold over one thou and bottles per day—in April, 1854, I sold over one thou and bottles per day—in April, 1854, I sold over one thou and bottles per day—in April, 1854, I sold over one thou and bottles per day—in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my wur practice I always keep til strictly for humors—but since its introduction as a general family medicine: great and wonderful virtues have been found in it that I never susp

awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropay, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, pain in the side. Discases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—sat the best you get and a nough of it.

M P O R T A N T DISCOVERY. DISEASES OF THE LUNGS AND THROAT

DISEASES OF THE LUNGS AND THEOAT ARE POSITIVELY CURABLE BY INHELATION.

Which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, noutralizes the tubercular matter, allays the couch, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that ions and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unsiloyed picasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fitty per cent in the second; but in the third stage it is impossible to save more than five per cent, for the lungs are so cut up by the disease as to bid deflance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the sufforing attending this fearful scenares which annually destroys minety-five thousand persons in the United States-fione; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumption's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enouny of file, for it spares neither ago nor sex, but sweeps off allke the brave, the beautiful, the craceful, and the difficted is promainent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs free and the breathing saay after inhaling remedies. True, inhalation is a local remody, accordings administration, chloroform inhaled will entirely destroy sensibility in

haling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive avidence that proper remedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results? During eighteen years practice, many thousands, suffering from diseases of the lungs and throat, have been undermy care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fattal disease. My treatment of consumption is no goignal, and founded on long experiences and a thorough freestigawhich fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is original and founded on long experience and a thorough fuvestigation. My perfect equantizance with the nature of tubercies, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely bring mistaken even in a single case. This familiarity to connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests; to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system. Medicince with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and edable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again.

cause the disease originated, however long standing or obstinate the cave, recovery is certain, and in a shorter time
than a permanent curs can be effected by any other treatment, even after the disease has buffied the skill of sminent
physicians and resisted all their means of cure. The medicines are pieusant without odor, cansing no sickness and
free from mercury or balsam. During twenty years of
practica, I have rescued from the jaws of Death many
thousands, who, in the bast stages of the above mentioned
diseases had been given up to die by their physicians,
which warrants me in promising to the saffieted, who may
place themselves under my care a perfect and most speedy
cure. Secret diseases are the greatest enemies to heali, as
they are the first cause of Consumption, Scrofula an
many other diseases, and should be a terror to the human
family. As a permanent cure is scarcely ever effected, a
majority of the cases falling into the hands of incompetent
persons, who not only fall to cure the disease but ruin
the constitution, filling the system with mercury, which,
with the dis

sumption.

But should the diseases and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays litself in Scrofula, Tetter, Ulcers. Eruptions and other affections of the Skin, Eyes, Threat and Lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

tions of the Skin, Eyes, Threat and Lungs, entailing upon them a brief axistence of suffering, and consigning them to an early grave.

SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its choosands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, argularly wastes away the energies of life, canses mental derangement, prevents the proper development of the system, display in the proper development of the system, displaying the formarriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and speedy cure can be effected, and with the abaudonment of ruinous practices my patients can be restored to robust, vigorous, health.

The afflicted are cautioned against the use of Patent Medicine for there are so many ingentious snares in the columns of the public prints to catch and rob the unwary sufferers that milli, as have their constitutions ruined by the vile compands of quark dectors, or the equally poisoned to the strongest preparations. I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mescar and a deadly poison, which instead of carring the discussibles the system for like.

TERRIBLE DISCLOSURES: SE-

T CRETS FOR THE MILLION: A most Wonderfu and Valuable Publication. Dr. HUNTER'S MEDICAL MANUAL: Being an original and popular Treatise on Man and Wo-

The Author of the above volume is a graduate of one of the first medical schools in the United States, and having devoted a quarter of a century to the treatment of Syphilis and kindred disorders as a speciality, he has become possessed of most invaluable information in megality, the symmetric passage of the synmetric passage of the symmetric passage.

of anost invaluable information in regard to the same, and is able to compress into yads mecum compass, the very quintessence of medical science on this important subject as the result of the experience on this important subject as the result of the experience on this important subject as the result of the experience on this important subject as the result of the experience on this important subject as the result of the experience on the important of the incidence in European Americals thought of monator of the incidence in the treatment of secret discusses in many thousands of cases in the City of Philadolphis alone.

The practice of Dr. Hunter bashong been, and still is, literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the community at large, though the medium of his "Medical Manual and Hand Book for the Afflictod."

It is a volume that has received the unqualited recommendation of the first physicians in the band, while many clergymon, fathors, mothers, philantropists and humanitarians, have most freely extended its circulation in it quarters where its prevental teachings would be likely to be instrumental in the moral puritiestion and physical healing of multitudes obtury people, among the young, volatile and indiscrect, otherwise the pride and flower of the nation. The author argues particularly, most strongly against every species of soil deliment, and warms persons and irregularities, whether exhibited by precedual repump of both sexes from the terrible consequences concomitant of their school matter or otherwise. To those who have been irreduced of physiological laws and sexual impurities and irregularities, whether exhibited by precedual events for their school matter or otherwise. To those who have been already ensured to the "paths that take hold on hell." a clear and explicit way is shown by which they may secure a return of sound he cith, at a regeneration of the soul from its terrible pollution.

These symptoms, if allowed to go on—which this medicine invariably removes—soon follows LOSS OF POWER, FATUITY, AMD EPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—IN-SAMITY AND CONSUMPTION. The records of the IN-SAME ASYLUMS, and the melancholy deaths by CON-SUMPTION, bear ample witness to the truth of these assertions. In Lunatic Asylums the mot melancholy exhibition appears. The countenance is actually soddon and quite destitute—neither Mirth or Grief ever visits it.—Should a sound of the voice occur, it is rarely articulate.

TONICS WON'T DO!--Phey never did
more than give temporary resief and nover will. It is
because they don't touch the cause of the disease. The
cause of all arms and billious diseases is the atmospheric
person called Missins or Maiaria. Noutralize this poison by
its Natural Antidote, and all disease caused by it disappears at once. Rhedes' Fever and Ague Cure is this Antidots to Malaria, and moreover it is a perfectly harmless
medicine. The certificate of the celebrated chemist, J. R.
Chilton, or New York, to this effect, is attached to every
bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsende, or any
tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter
just received from a Physicia;
