On Tuesday we were visited with a stiff "north-wester. which, in a few short hours, broke up the delightful we have been enjoying for the past two months .-Since which time the weather has been very cold. On Friday night about six inches of snow fell, and on Satur day and yesterday, everything in the shape of a "cutter was brought into requisition-not a sleigh in the city store still an hour. The "beaux" and their "sweet-hearts" had a good time generally. This has been the deepest snow of ason, and to day scarcely any of it is visible-ex cent in the country. The present cold snap has made con iderable ice, and navigation above Alton is suspended .-The river opposite our city is filled with floating ice, and four boats have arrived in the past day or two. To day the weather is more mild. Owing to the sion of navigation, business in all departments of trade is extremely dull, and our merchants are preparing for their spring business. Our Banks have not ye ned specie payments, but we hear it stated that they will all do so on or about the first of March-doubtful.

Very little, if anything, is now doing in the wholesale market. There have been cut at this point to the present date 95,000 head. St. Valentine's Day found the post office besieged with anxious demoisciles, eager for an epistle, swearing love and fidelity from one who feels the keen dart of love piercing the tender heart !

There has been nothing very interesting of a local char acter. A man named Bernard McCurdy was run over by s horse and buggy, and instantly killed. Alexander Hamilton, the driver of the horse, has been arrested, and held to bail in the sum of \$2:00 to answer a charge of man slaughter.

The steamer Exchange was sunk at the month of White river last week. No lives were lost, but the boat is reported a total wreck.

The remains of several of those who lost their lives at the explosion and burning of the Col. Crossman, were brought to this city for interment. The body of Mrs. D. G. Taylor bas been recovered, and they are now dragging the river, in the vicinity of the accident, for others. The remains of Mr. Cheever had not been recover-d at the latest advices.

Mr. George Smilzer, who was County Codector for 1854 and 1855, has just been "settling up his occounts," a new Collector having been appointed—and it is ascertained that for 1854, he was a defaulter to the amount of \$49,000, and or the second year of his term, a defaulter to the amount of \$115.600 79; or \$164.606 79 for the two years. It is said that Mr. Smizer has secured to the county all the property of which he was possessed, consisting of a valuable farm, with mill, distillery and other improvements upon it, and some other recurities. The men on his bond are amply able to meet the amount which Mr. Smizer

Several gautlemen arrived here from Kansas on Satur. day, and report all quiet. And the opinion pretty generally prevails there, that Kansas will be admitted in the course of a week or two. It would seem that John Calhoun is just now the worst abused man in the country. "Who is John Calboun," is asked by not a few. This quastion is briefly answered — fancied that their intelligence was to be meas-Until lately, Mr. Calhonn was a resident of Illinois, and for many years a resident of Springfield, in that State. He was a Democrat, and looked to as one of the leaders of the Democratic party in his District—consulted as such, and relieu upon at all times. He was Judge Douglas' con-curston "more honored in the breach than the folential triend - He was appointed Surveyor General of Kansas, upon the solicitation of Mr. Douglas, and was the observance."-Argus. The cause is attributed to political excitement, and to discussions in which so much has been said of Abolitionism and Freesoilism. If the Black Republicans keep on agitating this slavery question, and Congress refuses to admit Kansas immediately, hands of the negro. This slavery question has been agi- correspondent. tated quite long enough, and the sound statesmanlike ; views of Mr. Buchanan as expressed in his Kansas Message, should meet the approbation of all desirous of peace the country. We have not the least doubt of Mr. Buchanan backing from his position on this question-(as ome think he will do.)-and Congress cannot help but

carry out the views of the President, when they are based upon such strong and unanswerable arguments. The country will sustain Mr. Buchanan, even if his views and desires are defeated, which they cannot be, unless we find

traitors in the camp. A negro woman, in Saline county, in this State, 49 years old, gave birth to twins the other day; she has had five children in less than five years, and altogether is the mother of 24 children.

The Montrose (Susquehanna county, Pa.,) Democrat, speaking approvingly of the President's late Message, says : э

If we had any assurance that the Lane faction would ever vote their sentiments on the slavery question while in a territorial con-dition, it would do to defer the matter. and give them a *third* chance to do so. As it now stands, they have at the bidding of their party masters caused the Constitution to be sent up as a pro-slavery one by default, that they may have a hobby to ride. Admit her as a State, and the excuse can no longer be entertained, and it will be declared a free State by a popular vote at the earliest pleasure of the people

The prediction that the Black "Republicans" would, if within their power, make Kansas a slave State for a time, is about to be verified, and the country will hold them responsible for their hypocritical acts. In the mean time, they cannot alter the fact that Kansas is permanently a free State.

FREE NEGRO LEGISLATION .- The question of the free black population is becoming very legal disabilities, and Canada begins loudly to complain of the hegira in' that direction .---Even now a bill is pending before the Virginia ; Legislature providing for the enslavement or transportation of this class from the State .--Five years are to be given to select between emigration and slavery. The number in that State in 1850 was 54,333; being an increase of 8 per cent. in ten years. Between 1850-'56 the increase of free negroes was less than two per cent. in New England; about twelve per cent. in the Middle and Southern States; twenty per cent. in the Southwest; and fiftysix per cent. in the Northwest. The whole number in the United States was 437,495, of which 159,095 were mulattoes.—Herald.

Ar Mexican Mustang Liniment .-- It is we believe, in good running order, and awaiting the busi' eight years since this Liniment was first offered to the afflicted. Many millions of Bottles have been used, and it has given better satisfaction than any article ever before tried for similar purposes. It possesses a specific power over inflamations, and chronic or accidental derangement of the Muscles,-Joints, Ligaments or Skin. It is a scource of great pleasure to feel that we have been the humble means of relieving such an immense amount of suffering, and have caused thousands to "leap for joy," because their were relieved, their wounds healed and their stiff joints made elastic.
