MAP OF LANCASTER CITY AND COUNTY, to be entirely made up of actual surveys to be taken upon the ground, and to be drawn to a much larger scale than any heretofore issued. The enlarged scale of the work will admit of the great advantage of clearly designating every public and private improvement, and attaching the name thereto: also, of ascertaining with more precision, any required distance throughout the county. Every public Road and Stream, Mill, Mill Race and Mill Dam, Store, Hotel, Post Office, Place of Worship, School House, Smith Shop, &c., &c., will be acurately shown thereon. The Dwellings also, with the names of owners attached, will be inserted in the proper position. An enlarged City Plan, and Plans of the Boroughs and principal Villages, will be inserted in the margin. A Table, showing the correct distance from exch place of importance to that of every other in the county, will be upon the Map; also, a Statistical Table, and views of the principal County Buildings.

Without a resurvey of the whole county, an accurate map of it cannot be published; we have already made surveys of a number of the Townships, and many of the inhabitants of the county are aware of the time and pains we have taken to perfect them. We will be equally assiduous in our sudeavors to make this a reliable and valuable work, and hope to merit a barne of public patronage.

clothing by the use of which the clothes can be washed
very clean without boiling, and with very little rubbing.
By this method much hard labor can be saved: the washing

Fire to eight bottles will cure the worst case of scroftla. A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—So sure as water will extinguish fire, so sure will this cure humor. I never soid a bottle of it, but that soid another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I peddled it and soid about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing in the annels of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I nover suspected.

Saveral cases of epileptic fits—a disease which was always never suspected.

Saveral cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottlee,—0, what a mercy if it prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Heads-the, Dyspepsia, Asthma, Fever and Ague, pain in the side, Diseases of the Spine, and particularly in diseases of the Kindeys, &c., the discovery has done more good than any medicine over known.

CARD TO THE PUBLIC.—Having for several years enjoyed a very extensive and liberal patronage in the several departments of my business, I tonder my friends and the public, and beg acceptance of my best thanks for their generous support.

The business at the Chesnut street Iron Works will receive prompt and inmediate attention, together with a careful effort to render entire satisfaction in the speedy and skillful execution of orders.

I deem this notice but due to my friends and myself, in order to counteract any wrong impression that may have been caused by my card to sell or rent my works.

My purpose is to receive and execute all orders, (which are respectfully solicited) and will only cease the business whenever I may be able either to sell or rent advantageously.
