Sontinuation of Oold Weather-Navigation still Suspended -Market Review-Examination of Juylor for the late Pa-cific Hold Massare-Three more Boals Burned-Thirty-nine Lives Lost-Latest from Kansas-Political-R. J. Walker's Letter-Enterprise on the Upper Missisippi Deve Sr. Louis, March 8, 1858.

The weather of the past week has been cold, cloudy The weather of the past week him but the first and disagreeable. The rivers are filled with floating ice, and navigation to all points continues suspended, but with some indications of an early resumption. Receints of produce are light-principally per railroads. Very little or no change has taken place in the wholesale market prices on 'Change Saturday 6th were-Lead \$5 per 100 lbs; Flour \$3 75@\$5 for choice extra; Wheat 68@9214c; Corn S8@43c; Oats 85@3714; Barley 30@67c; Pork \$15 50: Whiskey 17c; Hides 111/2c; White Beans \$1 40; Bran 50 @55c per 100 lbs.

The examination of Taylor for the Pacific Hotel massa cre, has been progressing during the past week, but thus far nothing has fastened the crime upon him, and it is very coubtful if the evidence yet to be heard, can convict the prisoner. The excitement has greatly subsided and all nterest in the case has ceased to exist. It is very evident, however, that foul play was the prime cause of the disaster, and up to the present time the vile wretch is not known.

We have not heard of any more deaths among the injured. On Thursday last the steamer R. J. Lockwood was destroyed by fire at New Albany, on the Ohio. She was a new boat, and was just about to round out from the wharf, on her first and trial trip, with some 60 or 70 excursionists on board, when she was discovered to be on fire. She was run ashore and her passengers escaped. She burned to the water's edge and sunk, being a total loss. Bhe was built for the Missouri river trade at a cost of \$42,000, and

was insured for \$20,000. The steamer Percan, bound from Little Rock to New Orleans, with a cargo of 987 bales of cotton, was burned ast week on the Arkansas river, a few miles above Napoleon, and the boat and cargo are a total loss. No lives tion in the Union Bank, Wall street, involving ware lost. The clerk, part owner, leaped overboard on a the sum of \$100,000 were made public yester plank with a large amount of money, but lost \$500 of it,

Another terrible steamboat disaster and loss of life occurred on the Alabama river. The Eliza Battle was burned at that a series of embezzlements had been going Kemp's Landing, near Demopolis, on last Monday, and we on for the last six or eight weeks, and that the regret to add thirty nine lives were lost, among whom book keeper was a defaulter to the tune of vas Rev. Mr. Newman, of Louisville, Ky. We have not heard the names of any others. Many were frozen to death burned.

Lucius Abbott, conductor on the Pacific railroad, charged sometime since with embezzling the funds of the company, and who was then arrested and gave bonds for his appearunce, after which he abruptly left f r parts unknown, forfeiting his bail, returned to the city a day or two since and surrendered himself into the hands of the County Marshal. He is now in jail.

The past week has been a very dull one for local items. Except the usual number of highway robberies, knockdowns and disturbances of peace, nothing has transpired Intelligence from Kansas reports more trouble at Fort Scott. It is stated that a large body of debased outlaws, that place and committed many outrages. It is further added that three companies of the U.S. troops have been ing the ways and habits of their book keeper. under the lead of Jim Lane, the notorious, have attacked dispatched from Fort Leavenworth to the scene of trouble, to asist in qualing the insurrection. Three bridges across the Mississippi river now connect St. Anthony and Minneapolis. The first is the Wire Sus-pension Bridge, completed in 1855, at the expense of \$50,-000, This is generally recognized as one of the most beau-tiful and unbrantial briggs in the West. The Trass Bridge one mile below, is constructed in the most approved style, at the cost of \$52,000. This is one of the most promineut objects of interest around the Falls. Written, committed and extempore speeches on Kansas are still the order of the day in the House, and all are anxious to give their eloquence to the country before the question is settled. Hon. H. M. Phillips, of the 4th Dirtrict of Pennsylvania, filled up his hour with credit to him self and the District he represents; and the his speech was delivered late in the day his desk was surrounded by members from all parts of the House. Messrs. Montgom ery, J. C. Kunkel and Grow, all of Pa., each successively crossed his path, and at each tilt, their lances were shivered, and they took very good care not to renew the

combat. Mr. Haskins, the only Democrat from New York, who is opposing the administration, tried hard yesterday to clear his skirts of the charge of desertion, but it was evident, from his strugglings, that 'twas an up:hill task.

The Marshal of this District has at last been appointed Mr. Selden being the successful applicant. This gentle man is a Democrat of almost halfs-century standing, and we believe the selection will give general satisfaction to the ctizens without regard to party. As a party appointment, its said not a solitary objection can be offered, and with that view of the case, we think Mr. Buchanan has been exceedingly fortunate in the selection. Next week will be an exciting one in Congress. Yours,

It appears, as far as we have been able to ascertain, that the attention of the President and Cashier of the Bank was first called to the dishonesty of the defaulter by detective policeman Jos. Keefe. This officer it appears discovered the book keeper in the gambling saloon No. 1 Ann street, on a certain occasion. He was then betting freely, and lost a large sum at faro. The officer suspected that all was not as it should be, and accordingly he watched the movements of the individual closely, and found that he frequently visited the gaming table, losing tens of thousands of dollars in the course of a few weeks. After carefully weighing the matter, Keefe decided to inform the President and Directors of the The officers of the Bank were loth to believe until it was too late. CONFESSION OF A MURDERER. William Williams, now in our jail under sentence of death for the murder of Hendricks, has voluntarily made a full and free confes-sion of his guilt. He states that on the fatal Sunday of the 3d of May, Daniel Hendricks

came to his house and asked for something to drink. They drank together three times, and both became intoxicated. Hendricks offered to sell the watch-alluded to so frequently in

the testimony during the trial of the casebut Williams had not the money to buy it .-They went together up the mountain as far as the spot where the body was afterwards found, Hendricks having requested him to go over the mountain with him. Williams declares that when he first accompanied Hendricks he had

no intention nor the most remote idea of committing murder. But when they reached that part of the road where Hendricks was killed, Williams from an evil impulse threw him down and began to choke him. Whilst doing so, Hendricks asked him, " what he had done that he should do so ?" and Williams replied, "nothing;" and still continued to throttle him, until he became livid in the face. He then released his hold, and got on the dead or dying man with his feet, and thus finished his diabolical work. He then tore the watch from

the guard chain, rifled his pockets, and took off a ring, which he had on at the time of his arrest, and afterwards secreted it in the drawer of the table at which he took his meals, i Miller's tavern, while under arrest. One week after that, he went up the mountain where the

corpselay and looked at it, but did not touch or disturb it. He states that at the time they left the house, he had no gun, nor did he at any time fire one off near the body. He says he cannot account for the holes and the pebble in the body, unless the former were made by bugs. The fact now of the justice of his con-viction is rendered beyond all doubt, and will tend to remove many prejudices against the propriety of convicting on circumstantial evi-dence. From this conviction, it appears that the only reliable testimony in the case is the circumstantial, whilst the positive—that rela-

ting to the holes and pebble—is the doubtful. However, this may be cleared up or be reconciled by future developments. As the matter stands now, William Williams was legally and properly convicted of the crime for which he will suffer death on the 21st of May-just about one year after he so ruthlessly took the life of his unfortunate victim. We understand that a full statement of his confession is being prepared by one of his attorneys, and will be published in a short time.—Harrisburg Herald.

SINGULAR ATMOSPHERICAL PHENOMENON.

The Hingham (Mass.) Journal says: A most singular state of the atmosphere was observable through the day on Monday last, along the line of the seacost in this region of the country. It was nothing more nor less than a mirage, which is a scientific term to describe that condition of the atmosphere that produces an optical illusion, arising from au unequal refraction in the lower strata of the atmosphere, and causing remote objects to be seen double as reflected in a mirror, and to appear as if suspended in the air. This phe omena was seen by thousands of persons or the coast. Ships were seen sailing in the air, and distant parts of Cape Cod were distinctly visible in the vicinity of Boston : large rocks and islands were clearly painted out upon the clouds, and various other singular appearances were discerned by many eyes. We believe the like of this has never before occurred on this coast. GAS BILLS .- We perceive that attention being directed in several cities to the sub-

ect of the constantly increasing bills of the gas companies, -and from some statements that have recently leaked out respecting th construction of the meters, and their unrelia pility, it is evidently time that the matter should be investigated. Privately we hear the same complaint in every direction. Here in Germantown there has been special cause for dissatisfaction. Within the last year or two,

the gas bills have increased from twenty-five to fifty ner cent and if we are not mistaken a neighbor informed us that his bill had (From the Brockville Recorder of March 4.) **MURDER OF A WHOLE FAMILY IN** CANADA.

boats have not as yet run regularly to these point boats have not as yet run regularly to these points from below, on account of some howlders above the fort, which, at a low stage of water, render their passages dangerous. These will so on be removed, and navigation for the largest packats will be unimpeded. Last year there were 62 arri-rivals from below, bringing 4,720 tons of freight to our levee. WASHINGTON CORRESPONDENCE.

WASHINGTON, D. C., March 11, 1858. Since my last but little legislation of a public character has been transacted in the Senate; the bill for the admission of Kansas engaging the attention of that branch of the Legislature. This all-absorbing question is howeve rapidly assuming a shape that will make it a finality; thus localizing the trouble, arresting the cry of dissolution raised in all sections of the country, and allowing the political pulse to beat free once more.

mr. Green, of Missouri, author and champion in the Sen. Are of the bill he reported from the Committee on Terri torles, on Monday, notified the members of that body, that on the 15th inst., he would ask for a vote upon the long mooted question. Mr. Green, who has heretofore been a Reports will present a great variety of facts very quiet man, not often trespassing upon the time of tending to show extraordinary extravagance the Senate in the delivery of set speeches, has by his course and profligacy in the execution of this branch upon, and management of the question of which he is now of the service heretofore. the asknowledged leader in that wing of the Capitol, taken The House Committee the Senate and the country by storm, and has proved himself more than a mutch for the keenest of the opponents of the administration.

'The now generally conceded that the bill as reported. coupling Minnesota with Kansas under the "Lecompton Constitution," will be passed by the Senate, without proviso or amendment

The Chancellor of the Exchequer, Hon. J. Glaucy Jones, of the lower House, has succeeded in enlisting the atten-tion of Congress to the necessity of passing the appproprition of Congress to the necessity of passing the appropri-stion bills. In accordance with his urgent wish, the House has mared the bill maker and the service of a House has passed the bill making an appropriation for defraying the expenses for printing, lithographing, engra-rived at Philadelphia, having deserted and ving and binding of the books ordered by the 33d and 34th Congress, amounting to \$340,000.

The Cousniar and Diplomatic Bill has been reported from the Committee on Ways and Means, and is now under consideration.

The bill authorizing the President of the United States to reinstate the dropped and retired officers of the Navy, who fell under the operations of the board of fifteen, who sat in judgment upon their peers, has become a law. This is but an act of justice to those gallant officers who have been stricken from the roll without a hearing, and they can rest assured that 'twill be meted' out to them by the President, in whose hands Congress has vested their fate. Mr. Stephens from the Select Committee of fifteen, yesterday asked the unanimous consent of the House to make a report; but it having been objected to by the Republican side of the House, he declared his intention of suming the responsibility of printing it.

This report assumes, that the committee did not pursue all the investigations called for in their resolution of instructions, upon the ground that the House has no jurisdiction over the subject. This report gives a truthful history of affairs in Kansas, and concludes by recommend- sixth anniversary of the failure of his attempt ing the admission of the State of Kansas, in accordance wish of the President, believing that the peace i escape.

It appears that the murdered body of Thom son was found lying on the bed fearfully mangled. The body of his wife was found on a chair, dreadfully cut, while the body of the hired man was found in the barn literally cut to pieces. These are all the particulars we could gather before going to press. Dr. Edmon-son, coroner, has left town for the purpose of

holding an inquest. It is said that Thomson kept several railway laborers as boarders, but whether or not any suspicion attaches to these persons, we have not heard.

WASHINGTON AFFAIRS.

WASHINGTON, March 10.-At three o'clock yesterday the Senate went into executive session and took up the case of Mr. Cook, the Chicago Postmaster. The documents called for by Mr. Douglas, and received from the de partments, did not substantiate one of the charges prefered by Douglas. He had staked his reputation to the Senate that he could prove the charges he had made; but he failed n every point. After consuming about two hours in trying to make out a case, a vote was taken, and Mr. Cook was confirmed by a vote

of twenty five to eighteen. Never was a Senator so worsted. Advices from Commissioner Reed are of a most encouraging nature. He hopes to conclude his mission to China by the autumn of this year, and return to the United States.

The President has appointed the following cadets at large for West Point: George McKee, Samuel M. Mansfield, Singleton Van Buren, William B. Beebe, George N. Bomford, William H. Betts, Charles R. Suter, William Bartlett, Roland S. McKenzie and John R. Blocker Gen. Seth Clover, of Pennsylvania, has been

Attorney for the Northern district of N. York, vice Gorvin. Col. Selden, late of the firm of Selder Withers & Company, was yesterday nominated by the President as Marshal of the District of Columbia.

Mr. Flinn, nominated as Navy Agent at Washington, was also sent to the Senate by the President.

The first Committee of Investigation appointed by the House during the present session, to wit: the one directed to inquire into the whole subject of printing, engraving, binding, &c., and the alleged fraud in connec tion therewith, meet to-day for the purpose of

timber and sprout land and meadow bottom. The improvements are a twostry Loc DWELLING HOUSE, a new Frame Barn, and other out-buildinga.— Thero is a good Apple Orchard and other Fruit Trees. The Farm is well watered with a number of streams, and a Spring near the house.

A GULDEN ENTEPTINE. No other paper can boast of such a galaxy of talented and celebrated authors as the contributorial corps of the New York MERCEN, who furnish its columns, weekly, with the most absorbing and fuscinating romances and stories

WIGINIA FARM FOR SALE--GREAT INDUCEMENT FOR CAPITALISTS.—Will be sold at private sale, the valuable Farm known as the "Whealand Estate," containing SI O AURES, situate in what is called the lifekory Level, Buckingham county, Va, 5 miles north of Maysville, the county seat, and 7 miles from Hardwicksville—a bridge crossing the James river to the banal at this point. About 500 acres are cleared, and al-most level land—the balance well timbered. The land is very productive, and calebrated for the growth of Wheat, Corn and Tobacco. It is also well watered. The improvements are a new, handsome and convenient DWELLING HOUSE, so situated on an elevation as to command a view of nearly the Haw Join takasorbing and fuscinating romances and stories ever perused. DR.J. H. ROBINSON. DR.J. H. ROBINSON. LIEUT J. FOSTER BRANDON, LIEUT J. FOSTER BRANDON, R. H. NEWELL, who are well known as the most successful and popular romancers of the age constantly contribute their brilliant novellets, for the pages of the MERCURY. And each num-ber also constants more complete original stories and exchange ear-ail miscellany - than any other two nowspapers in America, without exception. In short, the NEW York Mercury defies competition, and invites the most exarching comparison. Its immones superiority over the little siz-by-nine mushroom publications of the day will be apparent at the first glance.

The improvements are: a new, handsome and convenient DWELLING HOUSE, so situated on an elevation as to command a view of nearly the whole estate—and the Barn and Out Houses are ample and conveniently located. There are good Orchards on the premises of Apple, Peach, Cherry and other trees.— It is soldow that such an estate is offered, laying as it does in an intelligent and healthy neighborhood, convenient to markets, churches, &c., and so highly productives, and level in every portion as that all the imple-ments of husbandry can be used to the very best ad yantage. If I sell, my object is to remove to a warmer climate. A large portion of the land cost use \$40 per acre a—but I will sell it, with the crop of Wheat from the sow, ing of 150 busbers, the entire stock, and 18 likely neuroes, of for \$40,000; or without the negroes, for \$25,000. My ob-y ject for wishing to dispose of the slaves with the land, is to prevent the separation of families. TREMS-One thirdCash, (or in two or three months,) and the balance in equal instainents of one, two and three years, with interest. Address the editor of the Lancaster Intelligencer, (GEO.
