GHENEW YORK MERCURY, LARGEST TWO DOLLAR WEEKLY IN THE WORLD Fig. in Columns of Choice Original Matter in Each Number. SPLENDIDLY ILLUSTRATED.

WENTIETH TEAR OF PUBLICATION.
A GOLDEN ENTEPRISE. No other paper can boast of such a galaxy of talented and celebrated authors as the contributorial corps of the New York MERGURY, who furnish its columns, weekly, with the most absorbing and fascinating romances and stories are neurons.

the most absorbing and fascinating romances and stories ever perused.

DR. J. H. ROBINSON,

NED BUNTLINE,

LIEUT J. FOSTER BRANDON,

T. HAMILTON VANANDA, and

R. H. NEWELL,

romancers of the age, constantly contribute their brilliant novelletts, for the pages of the MERCERY. And each number also contains more complete original stories and sketches—to say nothing of an immense amount of news and general miscellany—than any other two newspapers in America, without exception. In short, the NEW YORK MIZCURY defice competition, and invites the most searching comparison. Its immense superiority over the little six by nine mushroom publications of the day will be apparent at the first clance.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrodos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages; it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against insulations made on single plates of glass, with the Slack varnish in immediate contact with the Picture.

AMBROTYPE STERESCOPES MUST BE SEEN. to be appreciated—the relief being fully as perfect as life. Gittzens and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are assured of polite attention.

WHY LABOR SO HARD WHEN
WASHING?. I have a chemical process for cleaning
clothing by the use of which the clothes can be washed
very clean without boiling, and with very little rubbing.
By this method much hard labor can be saved; the totalking
can be done in half the time, and the clothes are very white
and clean, and last much longer, for they are not worn by
rubbing as by the old way of washing by machines &c.—
The articles used cost but little, and are easy to obtain. I
mail the receipt to order, postage paid, upon receipt of 50
cents; there cent postage stamps good as money. Address,

FATUITY, AMD EPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—INSANITY AND CONSUMPTION? The records of the INSANE ASYLUMS, and the melancholy deaths by CONSUMPTION, bear ample witness to the truth of these assertions. In Lunstic Asylums the most melancholy exhibition appears. TONICS WON'T DOI-They never did

I more than give imporary relief and never will. It is
because they don't wuch the cause of the disease. The
cause of all arms and billious diseases is the atmospheric
poison called Missma or Malaria. Neutralize this poison by
its Natural Antidote, and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria. and moreover it is a perfectly harmless
dote to Malaria. and moreover it is a perfectly harmless
medicine. The certificate of the celebrated chemist, J. R.
Chilton, of New York, to this effect, is attached to every
bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsenic, or any
tonic in existence, as their use is ritinous to the constitution and brings on Dumb Ague, which were allows a person to feel perfectly well for a single moment. In illinstration of these truths I annex some extracts from a letter
just received from a Physician:

Geography, Ohio, March 18, 1866.

JAS. A. RHODES, Esq.—Dear Sir. Yours of 2d inst. is
at hand. The Cure arrived late last year and the difficulty
in getting any one to try it was greatly increased from the
the fact that a remedy had been introduced which was
growing in favor with the public, as being better than using
Quinine,—not knowing I presume that the remedy they
used to escape taking Quinine, contained the Drug Itself!

This remedy, (known as "Smith's Tonic,") would invaribly break an Ague, but it did not cure it, as it would often
return with renewed vigor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your cure. The following is the result:

Three persons took your "Curs," all of which were cases
of "Quotidian Intermittent Fever," of many weeks tainding
They had tried Quinine, and other remedies, occasionally
missing a chill, but it was, (as in all such cases,) slowly
wearing them out, and daying the foundation for other and
severer maladies. I did succeed in effecting a ted, break the chill, but after a period of a volume truth.

I think there will be no difficulty now in giving to your "Cure" the advantage ground of any other remedy now in use here, & dc.

Rhode's Fever and Ague Cure, or Antidote to Malaria, inc only harmless remedy in existence, is equally certain as a preventive, as a "Cure." Take it when you feel the childs coming, and you will never have a sincle one.

Reader, I peddled over a thousand bottles or this in the vicinity of Boston. I know the effect of it in every case,—So sure as water will extinguish fire, so sure will this cure burner. I never sold a bottle of it, but that sold norther; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastates, in some places quite plentiful, and yet its value has never been known until I observed it in 1846—second, that it should cure all ktuds of humor. In order to give some idea of the sudden isse, and great popularity of the discovery. I will state that in April, 1854, I sold over one thou-and bottles per day of R.

Some of the wholes de Drugvists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever take it. There is a universal praise of P from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general fatality medicine, reat and wonderful virtues have been fount in it that I never apposed to.

In regard to the same, and is a quintessence of medical science on this important subject as the result of the experience of the most eminent physicians in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the City of Philadelphia alone.

The practice of Dr. Hunter has long been, and still is, literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the community at large, through the medium of his "Medical Manual and Hand Book for the Afflicted."

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many clerymen, fathers, mothers, philantropists and humanitarians, have most freely extended its circulation in all quarters where its powerful teachings would be likely to be instrumental in the moral purification and physical healing of multitudes otour people, among the young, volatile and indiscreet, otherwise the pride and flower of the nation.

The author argues particularly, most strongly against every species of soil deflement, and warns parents and guardians, in searching terms, to guard the young of both sexes from the trivito consequences concomitant of their informance of physiological laws and sexual impurities and irregularities, whether exhibited by precocious development of their school mates or otherwise.
