N E W PROCESS IN DENTISTRY .---N EW PROCESS IN DENTISTRY.--CHEOPASTIC PROCESS of monting ARTIFICIAL TEETH, recently patented by Dr. BLANDY, formerly Professor in the Ballimore College of Dental Surgery, is car-tainly one of the greatest discoveries of the present age and destined to work a great change in Mechanical Dentistry. The undersigned being the first in the State to introduce this process into practice, and which has been attended with great success, feels no hesitation in, recommending it as su-perior to any other method of mounting Artificial Teeth hardtoffee known-the casting of the plates having great advantage over the common custom of "swaging." The same accuracy in fitting, perfect cleanliness, and durability connot be obtained by any other process. The undersigned is alone authorized to dispose of office rights for the counties of Lancaster, Chester, Berks, Dauphin and York. JOHN WAYLAN, D. D. 8. my 19 H3 No. 6034 North Queen 8t, Lancaster.

JAS. A. RHODES, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Care arrived has list year and the difficulty in getting any one to try it was greatly increased from the the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presnue that the remedy they med to ecaepe taking Quinine, contained the Drug Lise!!! This remedy, (Known as "Smith's Tonic,") would invari-bly break an Ague, but it did not Curre it, as it would often return with renew-d vigor. This one circumstance I deem-ed in your favor, if I could institute a test comparison be-tween it and your cure. The following is the result: Three persons took your "Cure", all of which wore <u>Lister</u> of "Quotidian Intermittent Fever," of many weeks standing They had tried Quinie, and other remedies, occasionally missing a chill, but it was (as in all such cases,) slowly wearing them out, and laying the foundation for other and severer maladies. I did succeed in effecting a radicat cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" had been used, and would, as bofore sta-ted, break the chill, but after a period or two had elapsed would return. I think there will be no difficulty now in giving to your "Care" the advantage ground of any other remedy now in use here, 4, &c. WILLIAM BUCKNER, M. D. Rhode's Fever and Ague Cure, or Antidote to Malaria, the only harmless remedy in existence, is equally certain as a proventive, as a "Cure." Take it when you fiel the chills coming, and you will never have a single one. *JAS. A.* RHODES, *Providence*, R. I. For Sale by C. A. Heinitsh, Jacob King, Dr. 9. A bonafit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken. Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.— So sure as water will excinguish fire, so sure will this cure hours. I never sola bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discorred it in 1840—second, that it should cure all kinds of humor. In order to give some idea of the suddan rise, and great popularity of the discorery, I will state that in April, 1853, I peddled it and sold about six bottles per day-of it. Some of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing is the annaks of patent medicines was ever like it. There is a universal praise of it from all quarters. In moy was practice I always kept it strictly for humores —but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected. J. MEROTYPE, DAGUERREOTYPE, MELAINOTYPE & PHOTOGRAPH NOETHERN SKI-LIGHT OALLERT, East King Streed, nearly opposite Large as Store, Having a new and commodious Northerh Sky Light erected for the purpose, poessesing strength, brilliancy and softness which makes it unsurpassed by any light in the country. In arranging this gallery, I have paid particular attention in selecting good instruments of approved manufacture, and all the recent improvements pertaining to the Ambro-type and Daguerrootype. This beautiful process, which of late has taken such a hold on the picture loving community, is practised in all its varied branches. These pictures are durable, susceptible of beautiful and life-like coloring, can easily be seen in any light and when made by experienced operators, combine many beautiful effects. The Ambrotypes made at this Gallery are characterized by strength, depth of tone, bril-liancr, positions artistic, natural coloring and beauty of finish, forming a gem possessing rare mirt, and which de-fies all competition to equal. Persons having children whose likenesses they have heretofore been unable to obtain, have only to call at my immense Sky Light Gallery, where they can be taken in ONE SECOND, and a satifictory picture vorranted. *MELAINO TYPES*. These pictures are not reversed, as daguerroo-typesareand may be seen in anylight. They also possess the rare property of being IMPRUSHAUE; being hermetically sealed between glass plates, which is secured by Letters Patent, in the United States, Great Britalin and France, and practised in Lancaster city by T. & W. COMMINGS only, over Sprecher, & Bro's New Store, North Queen st., Lancaster.

Lancaster. EXPLANATION. The term AMBROTYPE, by which these Pictures are designated: is derived from the Greek word Andradea, sig-nifying indestructibility, permanency, 4c. The Picture is taken upon plate glass, to which another piate of corres-ponding size is secured with an indestructible cement, by by which the picture will retain its original brillinacy for ages; it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on ringle plates of plass, with the Slack varials in immediate contact with the Picture.— buch are not permanent, as the varnish must crack and destroy the Picture. MINOTYPE STERESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life. Citizens and Strangers are invited to call at the Ambro-type Gallery of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are assured of polite attention. sep 26 tt36 DENNEXLYANIA PATENT AGENCY.
