THE DINING ROOM COOK,
THE STOVE FOR THE FARMER.

The undersigned would ask the attention of Farmers and others to his newly patented WOOD AND COAL STOVES, called the "Dining Room Cook," which prosesses advantages not found in any other. The oven is perhaps larger than that of any other stove, being 16 by 26 inches in the clear, while its pecuiar construction is such as to emit an unusual decree of heat in a large room with a trifling consumption of fuel. For the Dining Room of the Farmer it supplies a want long felt, and for this purpose it was constructed under the personal supervision of the undersigned, dec 1 tt 46

ATENT AMBROTYPES.--The subscribers having purchased the exclusive right of Lancaster city, are enabled to offer to the public a new style of Pictures, far exceeding, in beauty and durability, any ever before made. These pictures are not reversed, as dazuerreotypes areand may be seen in anylight. They also possess the rare property of being imperisinance, being hermetically scaled between glass plates, which is sectived by Letters Patent, in the United States, Great Britain and France, and practised in Lancaster city by T. & W. CUMMINGS, only, over Sprecher & Bro.'s New Store, North Queen st., Lancaster.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated: is derived from the dreek word Ambroton, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages, it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against initiations made on single plates of ylass, with the Slack varnish in immediate contact with the Picture—buch are not permanent, as the varnish mat crack and destroy the Picture.

AMBROTYPE STERESCOPES MUST BE SEEN. to be appreciated—the rollef being fully as perfect as life. Cilizais and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures closwhere, as they are assured of polite attention.

These symptoms, if allowed to go on—which this medicine invariably removes—soon follows: LOSS OF POWER, FATUITY, AMD EPHLEPFIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—INSANITY AND CONSUMPTION? The records of the INSANIE ASYLUMS, and the melancholy deaths by CONSUMPTION, bear ample witness to the truth of these assertions. In Lunatic Asylums the mot melancholy akhibition appears. The countenance is actually sodden and quite destinue—neither Mirth or Grief over visits it.—Should a sound of the voice occur, it is rarely articulate. "With worful measures wan, despair Low sullen sounds his grief beguined."

Debility is most terrible and has brought thousands upon thousands to untimely graves, thus blasting the ambition of many noble youths. It can be cured by the use of this INFALLIBLE REMEDY.

Tonics Won't Do!--They never did

In more than give temporary relief and never will. It is
because they don't touch the cause of the disease. The
cause of all ague and billions diseases is the atmospheric
poison called Missma or Malaria. Neutralize this poison by
its Natural Antidote, and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and an oncrewer it is a perfectly harmless
medicine. The certificate of the celebrated chemist, J. R.
Chilton, of New York, to this effect, is attached to every
bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsenic, orany
tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter
just received from a Physician:

"Crongetrown, Ohio, March 18, 1866."

JAS. A. RHODES, Esq.—Dear Sir: Yours of 2d linet, is
at hand. The Cure arrived late that your and the difficulty
in getting any one to try it was greatly increased from the
the fact that a remedy had been introduced which was
growing in favor with the public as being better than using
Quintine,—not knowing I presume that the remely they
used to escape taking Quinine, contained the Drug Itaeli?

This remedy, (known as "Smith's Fonic,") would invaribly break an Agne, but it did not cure it, as it would often
return with renewed vigor. This one chromatance I does
not have a fire the proof of the remedica, occasionally
missing a chill, but it was (as in all such cases,) slowly
wearing them out, and laying the foundation for other and
severer maladies. I did succeed in effecting a radical cure
of all three of these cases with your romely, and they have
not had a chill since. In all three of those cases the
Smith's Tonic' had been used, and ventule as a preventive, a
