ROBERT TATION,
THOMAS REED,
The undersigned under the above arrangements are prepared to sell the Patent Lever Fin at the Manufacturer's wholesale prices, to retailers, and carnestly solicit orders for the same. The undersigned take great pleasure in adding the certificates of two of our citizens who have tried the Pen. Hear them.

I have for some time past been using one of "Reeves" Patent Lever Pens, and consider it much better than any Metalic Pen I have ever used. It possesses more elasticity, and will produce a stroke of almost any thickness, with greater regularity and without danger of straining or getting out of order, than any Gold Pen I ov. saw. Signed.

Laucaster, May 14, 1858.

Having used one of "Reeves Patent Lever Pens" I am free to say it is far superior to anything in the Pen line I have ever used. With the same Pen the heaviest dash and the finest hair-stroke can be made at the will of the Pens and before constructed of such heavy material, the nit thereby being more firmly secured, it will were longer and better than any other Pen now in use. Of Pens it is the Ultimeton.
