Martin Control of the second s Br. Louis, June 28, 1858. Br. Louis, June 28, 1858. The river at High point has recorded rapidly since the date of our last report, and in a few days will again be within its banks. Three or four of our steam engines have been at work wanding off the mud and filth which had accumulated on the Payse from the overflow; the experiment worked most admirably, answering a double purpose -taking the water from the cellars, and forcing with it the mud and dirt into the current as the river receded. We are now in sight of land on the American Bottom, and Illinoistown begins to look like a streak of terra firma-n longer a town of water, with skiffs and canoes naviga the streets instead of wagons and drays. The inhabitants are returning to their houses, and in a short time will "com nence the world " sgain ! The crops on the bottoms are all lost, but enough will be raised, if reports are correct for all practical purposes; and indeed it is said the Wes

will turn out the most abundant crop of wheat, corn, pats tatoes, hay, &c., known in the valley of the Mississippi The produce market is just now very dull, and sales of any The produce market is just now very duil, and sales of any magnitude are slow. Corn has advanced; and commands 60@750 per bushel. Bushess has not improved, but a heavy fail trade is looked for. Freights are self ce, and flour is taken from this city to New Orleans for 25c per bbl. and weight freight at 15@18c per 100 lbs., and very little to do at these figures.

The weather has been very warm during the week ins closed, with occasional refreshing showers. Four or five cases of sun stroke have occurred in our city. The mania for suicide seems to be on the increase-the average about one per day,

The board of United States Inspectors of this city as now engaged in investigating the cause of the recent exploaion of the steamer Pennsylvania. Several of the wounded from the above catastrophe have since died. The whole number lost is not known, but is said to be over ne hundred and twenty.

Several murders have been perpetrated in our city in

the last week, and one in Carondelet. We told your readers in a previous letter that the Know Nothings-(the few that still remain true to their principles-denouncing the Catholic Church and all citizens who happened to be born in another clime)—had nominated a full county ticket, and that every man so nominated de clined the honor, leaving the party without a candidate--not even a constable; but it seems that the few were determined to have a ticket at all hazards, and if no one half square east of Sprecher's Hotel, where he is pre-could be found willing to stand the run, that this *fee* pared to furnish with promptitude and despatch, those cele-would nominate themselves, which they did do, and a full brated THRESHING MACHINES and HORSE POWERS and complete county ticket is now before the voters for defeat on the first Monday in August. Samuel M. Breckinridge is their candidate for Congress; Mr. J. Richard Barrett that of the Democrats, and Mr. F. P. Blair, Jr., will receive the nomination of the Black Republican Conention, which convenes in this city to-day, when three tickets, as usual, will be presented to our citizons for their suffrage. Politics have become stale in this section of the country-no one seems to take the least interest in the election of any particular candidate. The Black Republis must contrive some plan to be successful in this dis trict, or Frank Blair will lose his chances of being put on the ticket for *Vice President* with Ell Thayer for President in 1860!! We have no predictions to make, as to the general result-the people have not yet begun to move. F. P. Blair, Jr., arrived in our city a few days since, just a time for the Convention. The Ward meetings of the Black Republicans on Saturday hight were well attended, but considerable dissatisfaction seemed to characterize each and all of them-at one a general pugilistic affair came off. Delegates were elected to meet to day and fix up a ficket-the probability is that nearly all of the old

officers will be renominated. In Illinois the Nationals and Douglasites still stand apart, and each declare their determination to stand by their nominees. The result of this is plainly seen-the Democracy divided-Black Republicanism must triumph, d Senator Douglas will lose his seat as one of the Senaors from that State-Gen Lincoln will take his place; still more than probable, the Republican State ticket will prove successful. Which wing of the divided Democacy will be most benefited by such a change of politics our sister State of Illinois, can only be determined sions and dissentions in the ranks of the Democratic y-no good has over been attained from them, and in sease out of ten they have given the county, or the sint the hands of the opposition, and it requires years again retain the roiss of government. This will to be the case in Illinois. livisions and dissentions in the ranks of the Democratic arty-no good has ever been attained from them, and in State into the hands of the opposition, and it requires years to again retain the reins of government. This will

prove to be the case in Illinois. We had a visit, a day or two since, from our old friend Jacob L. Gossler, Esq., formerly of Philadelphia, but now

York, fell from the cars a few days since, at Pana, Ills., the wheels running over his arm, crushing it in such a shocking manner, that aniputation became necessary, and after suffering all this pain, we are sorry to add, he died on Friday night last.

We have some late intelligence from Salt Lake, but nothing of any great interest.

The Sait Lake mail left Camp Scott on the 5th of June and arrived at St. Joseph on the 22d. When the stations are arranged, they have every confidence that the time ed to sixteen days, and that the trip will be performed with ease.

By this arrival, we gather the following information The mail party encountered heavy more storing for three days, from Independence Rock to Flatte Bridge. A gen-tleman from Fort Laramie tells us that for ten days from the last of May, they experienced continual storms of rain, snow and hail, and that the peaks of the mountains were bbls. at 23 cts, hhds at 22@221/2e and drudge at 22 cts. Medicated inhalation, consists in charging atmospheric air with medicines in a state of vanor, which are then inhaled into the lungs, where they exert their benign influence, by addressing their action directly to the parts diseased. In this manner all diseases of the respiratory organs, such as Bronchitis, Asthma and Consumption, hitherto deemed the opprobia Medicine, have become amenable to successful treatment, though until the introduction of Medicated Inhalation

LETTERS ON CONSUMPTION.

SERIES CONTINUED BY DR. N. R. WOLFE.

LETTER XII.

To the Editor of the Missouri Democrat : Latent Consumption is characterized by an absence of

cough, expectoration, pain and spitting of blood, although Cash due from Country Banks.... Notes and Checks of other Banks... the lungs be loaded with tubercles. These symptoms, in not a few cases, are absent even till death results; but in

the majority after a long period of failing health, spitting of blood, cough or pain set in suddenly, and the disease runs a rapid course. The tubercles existing in the lungs often work out their ill influences by secondary changes in the blood, and other diseases are set up, which destroy the patient, and from the absence of the prominent symptoms, the physician and patient are both led astray, and attentention is directed towards removing the diseases which are the effects, instead of attacking the cause. Or if the physician know the cause he conceals it, for the patient's sake, because he knows no remedy. In such cases, the patient goes about with less alarcity than in health, business is an exertion, he complains of various dyspeptic symptoms, heartburn, pain in the stomach, water-brash, uncasiness during digestion, pains in the liver or right shoulder, costiveness alternating with diarrhora, disturbed rest, and emaciation more or less. The urine will even present the chemical microscopic changes observed in functional or organic affections of the stomach and liver. Fistula in ano occurs almost exclusively in such cases. Charge of the Schools in Bart township, for a term of seven months. Applicants will please meet the County Superintendent, at the Green Tree, on WEDNESDAY, the 14th day of July, at 9 o'clock, A. M., for examination. Good salaries will be given to competent Teachers. BY ORDER OF THE BOARD. II. S. KERNS, Secretary. July 6 22 25 and appears to keep the tuberculous disease in check, as does also chronic inflammation of the peritoneum, (investing membrane of the intestines) which often masks latent . Consumption, and is the most frequent in females, while Fistula is commoner to men. Besides these, various other

symptoms are complained of, indicating a diseased state of the body, and often puzzle the medical attendant.

The observant physician will generally see marks in the countenance of the patient, that will make him suspect the existence of tubercles, such as the delicate appearance the pearly hue of the white of the eye, varying in that from yellowish white in the fair, to deep bluish gray in the dark complexioned, and a very slight spasmodic twitch of the corners of the mouth and nose in speaking, which in,

or below the collar bones, or both. When the deposit is great, these bones stick out, so to speak. On tapping in the immediate neighborhood of the collar bones sounds are produced, establishing that tubercles exist in various stages of developement; nay, even cavities, although there has been no cough. There has been no cough. bool CHC CHC CHC CHC CHC CHC nounced billious or dyspeptic, or anything but what they really are, and the treatment of course cannot be appro-priate. I would particularly impress the fact that active purging, and the use of mercurial preparations, are pecu-liarly apt to rouse the tubercles into activity, and to de-CH

velope rapid consumption. At present the orthodox prac-tice for billious and dyspeptic complaints is calomel or blue pill, which are rank poisons in the form of disease under consideration. The obvious practical inference is, that in all cases at all resembling what I have described, it is absolutely necessary to have the chest examined by a com-petent physician, before undergoing treatment, and if tubercles are present, inhalation presents the only known means for their removal.

The subject of the treatment of Consumption has, until recently, been involved in Cimmerian darkness, the most opposite modes being pursued by men of equally menion intellects and acquirements. But there were two points upon which they all agreed, and these were that the patient must dia opium was the railway that was to glide him easily but swiftly to his grave. to glide him easily but swiftly to his grave. the First Promism of ONE HUNDRED DOLLARS. This Machine was also awarded the first premium at Rochester and Skonexteles in July, 1857, for Combined Ma-chine. The mass of voluntary testimonials on hand, which have accumulated within the last month, plainly indicate the poluts in which this Maghine excells all others, viz: Its easy convertibility from a Mower to a Reaper, and vice treverse its construction for adaptation to uneven surfaces; the ease with which it can be raised or lowered for cutting from two inches to eight inches from the ground, which is done by means of a lever.tontrolled by the driver while in his sext; its ease of draft, portability and clean-ness, and case of cut; its simple and easy apparatus for throwing in and out of gear while in motion; its freeness from side drafts its perfect adaptation to norse from all weight upon his neck, &c. Many of these polntas are pataented and cannot be embodied in any other Machine, and all will admit how essential and indispensable they are to a com-plete combined Machine.
